For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, OCT. 26, 1859.

☞ Lemuel Showell, Esq., the wealthiest man in Worcester county, Md., and a life-time Whig, died on the 4th inst.—The Eastern Star says:—

On his death-bed, we understand, he called his relatives around him, and told them he had willed them a very large property, but from recent observations, he had become satisfied it would be of little value to them unless the Democratic party is successful. His dying request was that all of his family and relatives should hereafter act with the Democratic party, which they promised to do, and are now with us. The Showell family we learn, number near a hundred in Worcester.

A CONVERT CONVERTED BACK AGAIN. John Murray Forbes, D. D., pastor of St. Anne's Church, New York, publishes a letter to Archbishop Hughes, withdrawing from the Catholic Church. He says he is satisfied that when he, ten years ago, laid down his ministry in the Protestant Episcopal Church to submit himself to the Church of Rome, he committed a grave error.

☞ Something has got into Orestes Brownson; in his last Quarterly Review he attacks the Catholic Orthodoxy of both the Irish and French, and says:

"We find with the French, and even the Irish, far more Catholic piety or sentiment than Catholic principle; and a greater horror with the latter of eating meat on Friday than of lying or stealing; and with the former of misplacing a genuflection than of rejecting a dogma. With both, their Catholicity seems to us to be embraced, retained and submitted to in spite of their natural repugnance to it, in the very face and eyes of nature, not by its aid, or in accordance with its dictates."

SCRUB RACE.—At the Merrimac County Fair, at Concord, last week, there was a novelty never witnessed in New England, a scrub race, the *slowest horse winning the prize!* If there is no log-rolling between the riders, it is an exciting affair. All the horses go to the saddle, and no one rides his own horse, but rides the horse of some other man. Of course he rides as fast as he can, so that he may lead his own horse. If the riders are equally skilled and they do not make bargains, but ride as fast as they can, the horse that is really the slowest wins.

A GENEROUS COLLECTION.—Last Sunday, a collection was taken up in the Newburyport Catholic church to answer some church purpose, the payment of a debt on their church or the like, and the amount contributed was between eight and nine hundred dollars, the largest collection taken in any meeting in that city for years.—There was not a copper or silver coin in the boxes, and so numerous were the bills that the collectors were obliged to stop several times to press them down.

☞ The Schnapps controversy in New York has been settled for the present. The Supreme Court dissolved the temporary injunction laid on Mr. Goulard, at suit of Mr. Udolpho Wolfe, declaring that Mr. Wolfe had no exclusive use to the term "Schiedam Schnapps" as a trade mark. We presume, says the Portland Advertiser, the market will be well stocked with this article of "medicine," as the name is left open to all who may choose to use it.

A like decision has taken place in the case of Burnett vs. Phalon, in reference to the trade mark, "Cocoaine or Cocoine," alleged to have been improperly used by Phalon.

☞ It is said there will be an attempt made at the next session of Congress to increase the force of marines at Washington. The officers of marines will, we think, laugh at the idea, even if they like it. Doubtless it is a good place for an officer to be stationed. But the idea of their being *needed* there, as a body guard to anybody, or as a bayonet buttress to hold up slavery, is a burlesque on republican government.

FEMALE SHARP-SHOOTERS.—At Hartford, Conn., on Friday, Mr. Robert Chadwick, having just finished a contract for one million cartridges, gave an entertainment to his employees at the Sharp's Rifle Factory, one feature of which was a target shoot by thirty young ladies, who handled the Sharp's rifles with a skill that would have been creditable to the sterner sex.

☞ In Newburyport, the Herald was requested to announce that Rev. Willard Spalding would deliver a course of Sunday Evening Lectures on the *Jews*. It should have been on the *Puritans*. The introductory lecture was given last Sabbath; and one poor man on Monday, who was not at meeting, or being there, was asleep, or else had more confidence in the announcement of the newspaper than the pulpit, seeing the speaker, complimented his lecture on the *Jews* in the highest terms!

☞ A woman was burned to death in Albany, on Wednesday, by falling on a stove when drunk.

☞ The Boston Traveller, which has lately been much improved as a newspaper, is now proposed to be still further improved, by enlarging the department devoted to general readers, and abridging, somewhat, matters of interest to a small class only of the readers of a journal which circulates in all parts of the country." The editors say:

We propose, when our arrangements are perfected, to dedicate the outside pages of the paper to the social and domestic circle; and the inside pages to the general news of the day, and to the interests of politics, commerce, manufactures, agriculture, the mechanic arts, and of business men generally, apportioning the space devoted to each department, according to the exigencies of the times.

In order, therefore, to carry out this new system, we shall hereafter postpone the publication of our early edition till 12 o'clock. Our evening editions will be published as usual.

The Boston Courier says that "the proprietors of the Traveller have discontinued the publication of their morning edition, in order more fully to concentrate their strength upon their evening journal. By this change, they will save some ten thousand dollars a year, and lessen their labors more than one half. They will get rid of the heavy telegraph expenses, the night reporting, and those other burthens which jade editors and lighten pocket-books."

☞ W. L. Mackenzie, in a card which appears in the Toronto Colonist, says the homestead intended to be presented to him by his friends, as a reward for his past political services and sacrifices, has been purchased. "It is," he says, "on Bond street, near the Catholic Cathedral, in a delightful part of Toronto, where my family now reside in a more comfortable dwelling of their own, than they or I ever before occupied. I have received the deed of the premises."

☞ Trouble about the building of a school house in East Haverhill, Mass., has led quite a number of persons in that parish to refuse to pay their taxes, and some of them have been committed to jail in consequence. Legal proceedings have already been instituted against the school district, by the parties arrested, and a hearing will be had before the Police Court.

AGED CHURCH MEMBERS.—A congregational church was formed at Stillwater, Maine, Oct. 6th, and among the members at the formation were two ladies, each *ninety* years of age. These two ladies are in good health, and capable of reading without the aid of glasses.

☞ The Worcester Spy reports that Miss Delia Bacon, whose name has for several years been familiar to the public, in connection with her theory as to the authorship of Shakespeare's plays, died a short time since in the Insane Retreat at Hartford, where she has been an inmate since her return from England, last spring.

☞ Mrs. Winslow of Brewster has gathered this fall, from about three acres of land in Harwich 213 barrels of Cranberries, for which she received a Boston check for $2343. We think there is many a thousand ton ship that has not paid to her owners the past year as much net profit as Mrs. Winslow's three acres of land.

☞ A man named Quimby, formerly of Exeter, N. H., but for a year or two past residing in Boston, was arrested on Tuesday, charged with incest with his daughter, who is about 17 years of age, and resides in Lawrence. Quimby was committed to Salem jail in default of bail in the sum of $5000, and the girl was committed to the workhouse as a witness.

☞ Burke, who had some knowledge of law, said: "The worst cause cannot be so prejudicial to a litigant as his attorney's ignorance of forms." A good parson once said: "Where mystery begins, there religion ends." May not the same be said of the law—that where the mystery of forms begins, there all justice ends?

☞ Galveston advices of the 20th inst. state that the yellow fever had not abated.

The Dallas Herald publishes a rumor that Maj. Van Dorn had attacked the Indians on Concha river, and that in the fight he lost 40 men, while one hundred of the Indians were killed.

Mr. Foote had said he would write a little book in which Mr. Benton should figure very largely. Mr. Benton heard of this, and replied in his characteristic way, to the informant:

"Tell Foote I will write a very large book in which he shall not figure at all."

The "Thirty Years" shows how faithfully this promise was kept.

☞ On the 7th inst., snow fell at Presque Isle to the depth of three inches, and remained on the ground some days. After the snow fell the weather cleared off fine, and the people enjoyed themselves sleigh riding.

☞ On Wednesday occurred the anniversary of the battle of Yorktown, a day usually celebrated by the military of Richmond, Va. But the soldiers were gone to the Harper's Ferry war, and the celebration was postponed.

☞ Some one has condensed a deal of truth into the triple proposition that "Life is a cobweb, death the spider, and man the fly."

☞ It is a proverb in Jefferson county, N. Y., that snow always falls at Sackett's Harbor on the 19th of October, and an old gentleman wins money annually on a bet to that effect.

☞ A convict at the House of Correction in Ipswich, committed last week, had the delirium tremens, and during the night, stove himself against his cell so as to cause death.

☞ The Sons of Malta have organized a band of their brotherhood in Newburyport, and fitted up a hall for their meeting. They will be known as the Cyprus Camp, and will probably soon rally a large party.

SOUND.—"A man is, in general better pleased," says Dr. Johnson, "when he has a good dinner upon his table, than when his wife talks Greek."

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

☞ Also, *CARPENTER WORK* faithfully executed. CHARLES PRINDALL, ADAMS PERRY, Jr.

J. D. GOODRICH, Collector.
Portsmouth, Sept. 3, 1859.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., Boston. And for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES.—PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, are purchased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is even and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and wishing or ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.

ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

CHANGE OF GRADE.—Mr. Mayor Willard, as Superintendent of Streets, in Concord, the Statesman says, is making some necessary changes in street grades. They have been carting on sand and gravel for a hundred years, and it is now ascertained that there is a redundancy rather than a deficiency of material. When we get our scientific survey and grading of the streets of Portsmouth, no doubt the same discovery will be made here.

☞ The fire alarm of Monday night proceeded from the domicil of John Holland, on Bow street, where it is said a bed was destroyed by the devouring element—but the people were saved alive, if we could judge by the howls of alarm with which they cried fire, in a brogue rich enough to delight the heart of Gen. Scott. There have been one or two fires there before;—and it is commonly reported that bottles and pipes, as well as matches, sometimes become incendiaries there.

☞ Rev. J. C. Fletcher's Lecture before the People's Lyceum, Tuesday evening, on The Land of Tell, was a valuable essay—replete with desirable and not easily obtained information, and finely delivered, to a most appreciative audience.

Dr. Windship comes next, Tuesday, Nov. 1, with his celebrated lecture on "Physical Education," with extraordinary feats of strength as practical illustrations.

Tickets for Course, 75 cents. Evening tickets 25 cents.

☞ We learn that a series of three grand subscription Concerts is proposed at Exeter, by a very strong troupe of performers; Mrs. J. H. Long, Mrs. Wentworth, Misses Adelaide Phillips and Jenny Twitchell, Messrs. C. R. Adams and Powers, vocalists; with Messrs. B. J. Lang and Richards, Pianists, and the Mendelssohn Quintet Club, alternately, for instrumental. Efforts are being made to have at least one similar entertainment from this musical host, in Portsmouth—perhaps at the People's Lyceum.

RAMBLES ABOUT PORTSMOUTH.—The work with this title, prepared by the able, industrious and accurate conductor of the Portsmouth Journal, of which we have several times made mention, the Concord Statesman truly says, has excited great interest amongst all who are interested in whatever relates to the seaboard city of New Hampshire. The demand for the volume has been such as to nearly exhaust the edition. Send soon, if you wish for a copy. Charles W. Brewster & Son are the publishers.

☞ The Ladies' Charitable Society will hold its annual meeting, Thursday, the 27th, at the house of Rev. Mr. Medbery, in State street, at 3 o'clock, P. M.

☞ We should have stated before this, that it was impossible to provide printed programmes for Gilmore's Band Concert, at the Lyceum, on account of the absence of the Band in New York till almost the last moment before their appearance here. The pieces might have been announced, as performed—but the outlandish names of most of them would convey but little information to the great body of hearers.

☞ A favorite cat of a suburban housewife was discovered a short time since, with its head fast in the cream pitcher. Here was a dilemma for the good woman. To kill the cat would not get the head out of the pitcher, so the cat was spared, and the pitcher broken.

PHILADELPHIA, Oct. 24.—Hon. J. R. Giddings, of Ohio, delivered his lecture on "Scenes in Congressional Life," Monday evening, in Concert Hall, attendance very large. Before entering on his theme, he announced to the audience that on Friday evening he would address them, on insurrections, riots, &c., caused by the institution of slavery, and would give all he knew regarding the late sad affair at Harper's Ferry, and also what he knew from experience of public opinion in the North on different projects for the abolition of slavery.

He then repeated his lecture, interpolating remaks, springing from the thoughts of the moment and dictated by the surroundings. For instance, when mention of the name of Gov. Wise was made, and met by cries of derision from the audience, he was heard to say that he had reason to think highly of that gentleman for his honorable support in a trying moment in his (Giddings) career. His remarks obtained much applause.

TRIAL OF BROWN.—*Charlestown, Va., Oct.* 25.—Eight magistrates on the bench. At half-past 10 the prisoners were brought into Court under guard of 80 armed men. Guards were stationed around the Court House, and bayonets glistened on all sides.

Brown and Coppie were brought into Court, manacled together. Brown appeared weak, haggard, and eyes swollen from the effects of his wound in the head. Coppie is uninjured. Stevens also looked haggard and depressed.

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED IN A SINGLE INSTANCE TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in DEATH. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York

Price only 25 cents per bottle.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a safe and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothing hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES,

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

The News.

1 DAY LATER FROM EUROPE.

The steamship Ocean Queen brings London advices of the 13th. The ship Quebec, of New Orleans, was wrecked at the Eddystone Lighthouse on the 11th inst. She was from Bordeaux for Shields.

The eminent engineer, Robert Stephenson, died on the 12th.

Numerous arrests had been made at Parma, and the principal authors and accomplices of the murder of Arniti are in the hands of justice. The city was tranquil and the disarming of the populace had been ordered. It was surrounded by Modenese and Tuscan troops.

Gen. Garibaldi had issued a proclamation to the Army of Italy. He says:—"Soldiers—The hour of a new struggle approaches. The enemy is threatening and will perhaps attack us before many days are over. In addressing my old companions of Lombardy I know I am not speaking to deaf men, and that is enough to tell them that I am going to fight the enemy of Italy. I shall look to see you then form in your ranks." Dated Bologna, Oct. 5.

The Pope was to have an interview with the King of Naples at Castle Gondolfo, where he will prolong his stay on account of the agitation remaining in Rome. After his departure, a demonstration took place in honor of the Sardinian Ambassador, and a crowd of visitors estimated at ten thousand called and left their cards at the Ambassador's residence. The French Gendarmerie preserved order, but the effect of the demonstration was profound. The Ambassador was to leave on the 10th, when another slight demonstration was expected.

The Emperor was expected at Paris Wednesday night.

Aditional discoveries had been made at Constantinople concerning the late conspiracy. It was asserted that incendiary machines had been discovered, which were intended to burn the European part of the town.

A Zurich dispatch of the 11th says the Conference does not draw to a close. Austria still refuses to dininish the amount of the debt of Lombardy to be borne by Sardinia. The demands of Austria are not only resisted by Sardinia, but do not receive the support of France, who has proposed to submit the disputed point to the arbitration of another power. No answer had been received to the proposition.

The French government wishes the arrears of the pensions of the Monte Napoleon and an indemnity for the cost of the late war, to be included in the statement of the debt which will have to be paid by Austria and Piedmont.

On the occasion of the obsequies of the Bey of Tunis, the Moors assailed the Jews, wounding many mortally. Some Christians were also wounded, as was also a Minister of the new Bey who came to the rescue, striking and killing many on the spot, and caused thirty Musselmen to be arrested.—Tranquility finally prevailed.

☞ T. W. Higginson, of Worcester, calls for funds from the friends of "Ossawatomie Brown" to employ counsel for his defence.

The individual who borrowed our hoe a few days ago will confer a great favor if he will lend it to us in a few days, as we have not funds enough to buy another.—*Aroostook Pioneer.*

☞ Mr. John Wise writes that out of 113 balloon ascents, in which he reached an altitude of three miles, the balloon sailed to to the east 112 times.

☞ Mr. Charles A. Burgess, of Nantucket, Mass., has on his farm a cat called "Annie," which is known to be the mother of 85 kittens.

SMART ATTENDANCE.—On the calling of the roll in the Massachusetts House of Representatives, on Thursday, 190 were present and 140 absent.

☞ It is said that the receipts from the new oyster bed at Norwalk are begining to fall off. Only some 200 vessels are still engaged in the harvest.

☞ The Magazine street market and four squares adjoining, in New Orleans, were burnt Sunday night. Loss estimated at $150,000.

Morning Chronicle.

CAN A CHAMBERMAID BE A LADY? A contemporary, learned in costume, remarks, that, in a miscellaneous crowd, it is not so easy to tell a snob from a gentleman, as it is to tell a chambermaid from a lady. From which, a republican public is expected to infer, that ladies and chambermaids are two distinct orders of beings. No lady can be a chambermaid; no chambermaid can be a lady. Shade of Jefferson, is this so? Is that *your* opinion, gracious and faithful Bridget?

Bridget is always tidy, clean, and polite. Bridget is honest, industrious and cheerful. Bridget sends half her wages to her poor old mother in Ireland, denying herself, for that holy purpose, every pleasure that costs money. Bridget will not marry Patrick this year, for fear she will not be able to contribute her punctual two pounds per quarter for the solace of her mother's old age. Yet, Bridget is not a lady. Poor Bridget.

Georgianna Matilda, Bridget's young mistress, *is* a lady. Georgianna's whole existence is useless, false and mean. She never did an act of self-denying generosity in her life, and never will. She is a dead loss to the Universe from which she draws support. No one is helped, no one is cheered, no-one is blessed by her. She is thankless and discontented; exacting everything, bestowing nothing. But she never has her hoop awry. She actually succeeds in *wearing* the clothes which the ingenuity and taste of Bridget suggest. Hence, Georgianna is a lady.—*N. Y. Ledger.*

AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still more powerful alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, RHEUMATISM, SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which lurk in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and sweats, through which the system will fain strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood wherever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that it is claimed for it when made into any preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed theuse of the various extracts of Sarsaparilla which flood the market, until the name itself is justlyd espised, and has become synonymous with imposition and cheat. Still we do think this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it pretends to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to record the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever was before, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given, with full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on—Demand Ayer's and take no other. The sick was the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and all druggists and merchants in the civilized world. 6m—je14

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, experienced the idea of **ANALYZING THE BLOOD,** and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "**BLOOD FOOD,**" from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "**BLOOD FOOD.**" If you are suffering from Nervous *Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficacious and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "**BLOOD FOOD**" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives new strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a fair trial, I send you this ther proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who can be seen in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY MEYERS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. E. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar a bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

COMPOUNDED ENTIRELY FROM GUMS,
IS one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest, purifying the BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One bottle taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the Lottery next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.
This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any of the best in England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious wounds of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of diseases which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jf 2ily

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Morning Chronicle.

☞ Redpath, the anti-slavery fanatic, in speaking of his coadjutor, "Old Ossawattomie Brown," says:

There is one incident of his recent career in Kansas, which was laughable in its character, and which has never been narrated in the Eastern journals.

He took a party of slaves from the vicinity of Atchison.

The owners and pro-slavery rabble were indignant at him when they heard of it, and organized a formidable party to pursue him.

The Sheriff, a pro-slavery man, went with them, armed with the parchment terrors of the law.

They soon overtook the fugitives. Brown, with Kagi and others, instantly drew up in order of battle to receive them; and altho' less than one-fourth in numerical force, it was evident that they intended to conquer or die in defence of the negroes.

The Sheriff, seeing the old man's preparations, with prudential courage, wheeled round his horse and galloped off. Dozens of his followers imitated his example. There was one company, however, that refused to fly. Brown captured them.

He caused them to dismount, and put the negroes on their horses.

They swore.

Old Brown ordered them to be silent, as he would permit no blasphemy in his presence.

They swore again.

"Kneel!" said the old man as he drew his pistol with stern earnestness, which left no room to doubt his intentions.

They knelt down, and he ordered them to pray!

He detained them five days, and compelled them to pray night and morning.

They never swore again in Old Brown's presence!

They returned to Atchison; one of them indiscreetly told the story; the ridicule that overwhelmed the others compelled them, I was recently told, to leave the town.

This was the last time that I heard of old John Brown in Kansas.

HYMN OF TRUST.

☞ The Atlantic Monthly for November, under its new publishers, Ticknor & Fields, *looks* exactly like its former self, and *is* itself. The Professor at the Breakfast Table gives us one of his best papers, closing with the following beautiful hymn:

O Love divine, that stooped to share
Our sharpest pang, our bitterest tear,
On Thee we cast each earth-born care,
We smile at pain while thou art near!

Though long the weary way we tread,
And sorrows crown each lingering year,
No path we shun, no darkness dread,
Our hearts still whispering, Thou art near!

When drooping pleasure turns to grief,
And trembling faith is changed to fear,
The murmuring wind, the quivering leaf,
Shall softly tell us, Thou art near!

On Thee we fling our burdening woe,
O, Love divine, forever dear,
Content to suffer, while we know,
Living and dying, Thou art near!

☞ Two insane men were burnt to death in Weymouth, Mass. on Monday night, in a small building where they were confined, near the alms house. They probably set it on fire, by tearing off their clothes, and throwing them on the stove.

☞ T. Blanchard is trying to prove to wonderfully slim audiences at St. Louis, that negroes are not descended from Adam. He claims his idea as an original discovery.

☞ S. G. Goodrich, ("Peter Parley,") the Nestor of educational literature in America, is said *not* to be in a failing state of health. Glad of it.

An eccentric printer in this office says he has put his foot into it, and we think he has, as his lady love has sent him a pair of embroidered slippers.—*Bath Times.*

The vitality of eggs is destroyed by being transported on a railroad, and it is no sort of use to put such under hens, expecting them to produce chickens.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
J. F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received a supply.
These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.
For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, OCT. 27, 1859.

☞ The Boston Post says: "The Democrats of New Hampshire set a good example in the proceedings of their State Convention, of union and harmony, for those of other States to follow."

The Concord Democratic Standard, says, in speaking of the same Convention:—

We do not regard this (1st) resolution as defining, in the least particular, the position of the New Hampshire Democracy upon the great question of Slavery in the Territories. Instead of being clear and direct, it is non-committal, evasive, in fact means nothing.

The second resolution is well enough, although perhaps it would have been *better* to leave out the allusion to the *Slave Trade.*—That is not *now* an issue before the country. It may be, however. The great problem of LABOR is yet to be solved for the slave as well as the free States. And on that question it is neither *wise* nor expedient for the Democracy to make unnecessary committals.

The next resolution relates to the Administration, and falls far short of a full and cordial approval of the policy and measures of the Administration. It in fact, "damns the President with vain praise."—Such censures cannot fail to be offensive to that portion of the Democracy who approve of the Territorial policy of the President. And of course, they cannot fail to operate unfavorably in every election.

☞ The Washington Republic says:

"Judge Douglas had determined to support the English swindle, and nothing but Mr. Broderick's threat that he would denounce him in the Senate chamber, deterred him from doing so. From that day to the day of his death, Mr. Broderick never spoke of Judge Douglas without expressions of mortification and indignation. In these feelings of Mr. Broderick, all the anti-Lecompton members of the last House, outside of the Illinois delegation, are known or believed to have participated."

Mr. Wilkes, the biographer of Broderick, confirms this statement, in his Spirit of the Times, where he says:

"Mr. Buchanan was forced to admit that to Broderick, in chief, he owed the defeat of the Lecompton measure, and the refusal of Mr. Douglas to compromise upon the English bill."

SAD TALE.—In 1856 one of Old Brown's sons, who was elected to the legislature of that year, was seized and taken from Ossawattomie to Lecompton in chains, a distance of thirty miles. He was compelled to *walk* the whole distance beneath a burning sun. The irons wore the flesh from his ankles; he was attacked with the brain fever, was neglected and *died* in two or three days. He was a companion of Gov. Robinson. Another son of Capt. Brown was shot at Ossawattomie by a maraunding party from Missouri.

After the death of his son, occasioned by the tortures and fatigue of his forced march, Brown swore vengeance upon the pro-slavery party, and it was frequently observed by the more prudent of the free State men that he was evidently insane on the subject. He collected a band of men, most of them sufferers like himself from the "border ruffins," whose friends had been murdered, their wives and daughters outraged, and their property destroyed; and with them—sometimes few and sometimes more numerous—he defied the power of the Missourians.

☞ The head of the renowned Oliver Cromwell is in possession of the daughter of an ex-member of Parliament, near London—although nearly two centuries have elapsed since the death of the republican king. Cromwell's body was embalmed and buried with great pomp in Westminster Abbey. After the restoration of the Stuarts, the body was disinterred, the head cut off, and a pikestaff thrust through the neck. It was then placed on Westminster Hall. It remained there a considerable number of years, until either blown down by the wind or carried off by stealth. It was secreted for a long series of years, and handed down from generation to generation among the descendants of Cromwell, until it now rests in the custody of the lady above mentioned.

NOVEL SCENE AT A FUNERAL.—At Paris the French government sent two hundred and fifty soldiers to the funeral of Minister Mason. Soldiers were placed up and down the aisles of the church during the service, and each time the congregation rose to sing, the captain's voice was heard above all, shouting to his men, "Shoulder arms!" And then again, as the hymn ceased, and the congregation sat down, "Ground arms!" was heard, and the muskets came down on the stone floor with a simultaneous clang.

FIRES.—On Saturday last the tannery of Warren W. Hunt, in Oxford, N. H., took fire and was entirely consumed. The building cost $15,000, and was probably the largest tannery in New Hampshire. It was partially insured.

The Milford Republican learns that the house of a Mr. Blood of Brookline was consumed by fire on Saturday night last. Mr. Blood fortunately escaped, but his wife was consumed in the flames; also a man visiting at the house named James Lancy.

HARPER'S FERRY RIOT.—The trial of Brown, Coppie and Stevens commenced at Charlestown, Va., on Tuesday. The prisoners were severally charged with treason and murder. The Court asked if the prisoners had counsel, when Brown made a ranting speech, saying he wished for counsel, if he was to have a trial; but, if nothing but the mockery of a trial, he did not care anything about counsel. The Court assigned Charles J. Faulkner and Lawson Botts, as counsel for the prisoner. Brown's objection in refusing the aid of counsel was, that if he has counsel he will not be allowed to speak himself, and southern counsel will not be willing to express his views.

The examination was merely to see whether the charges are of sufficient importance to go before the Grand Jury. The Jury will report the bill, and the case will then be called immediately for trial. There is an evident desire to hurry the trial thro' and execute the prisoners as soon as possible, fearing an attempt to rescue them. In the case of servile insurrection, thirty days are not required between conviction and execution, as in other capital convictions.

It is rumored that Brown is desirous of making a full statement of his motives and intentions, through the press, but the Court has refused all further access to him, by reporters, fearing that he may put forth something calculated to influence the public mind, and to have a bad effect on the slaves. The mother of Cook's wife was in the Court House throughout the examination. The general belief is that he is still in the mountains near the ferry.

Coppie says that he had a brother in the party, and that Brown had three sons with him; also that there were two other persons named Taylor and Hazlitt engaged; that, including Cook, five had escaped, twelve were killed, and five captured, making twenty-two in all.

☞ It is stated that Brown has given the sheriff an order on Dr. Murphy, paymaster at the Harper's Ferry armory, for the three hundred dollars taken from him, to purchase comforts for himself and prisoners.

☞ The Albany Evening Journal says when Old Brown's sons were murdered by Missouri border ruffians, and his daughter, who witnessed the murder, became a maniac, the Administration journals were ridiculing the "shrieks from Kansas." They are keenly sensitive to the shrieks from Virginia.

☞ The Ellsworth American says that a little boy about four years old, belonging to Mr. John Whittaker of that town, took a notion that he wanted a marten-house that was perched upon the ridge-pole of his father's barn; and seeing a ladder standing against the side of the barn, he climbed up until he reached the roof, when he put his head through the rounds—the ladder reaching above the eaves—and undertook to get through on to the roof; in doing so, the ladder slipped, fastening him to the eaves of the building. In this predicament he cried lustily for help. Some persons in the highway heard the cry and came to his rescue, but as there was no ladder at hand, and the other could not be moved without loosening the little fellow and thereby letting him fall to the ground, a pole was raised, and one of the strangers climbed up that and extricated the little fellow.

☞ On Monday Hon. B. A. Gould, aged 72 years, brother of Miss Hannah F. Gould, died at his residence in Boston. Mr. Gould was master of the Latin School in Boston, author of Gould's Latin Grammar, and the editor of several classical works. One of his daughters was married on Saturday last to Rev. Geo. E. Ellis, at the bed-side of her father.

☞ The funeral services of ex-Governor Robert P. Dunlap took place in Brunswick, Me., on Monday. The attendance was very large, and the Masonic part of the procession was the most imposing every witnessed in the State on an occasion of this kind.—Mr. Dunlap had a wide influence in the State of Maine, in politics through the Democratic party, and in religion as an active member of the Methodist church.

☞ Fanny Fern is justly indignant at seeing "troops of pale school-girls staggering home under books as heavy inside as outside—to occupy the time *out* of school, which, if spent in vigorous out-door exercise, might possibly atone for that so misspent in school."

Motto for those whose lives are passed only in a pursuit of Fortune: "Aut seize her, aut nullus."

☞ Mrs. Mary Stevens, who died in Savannah a few days ago, bequeathed a residence valued at $8000, and eighteen slaves to the Methodist church of Savannah, of which she was a member.

Timothy says the first time he went a courting, he felt as if a pink angel had hauled him down a rainbow, with a piece of chain lightning, smack into a pile of down.

TRAVELER'S CUSTOM.—Some one speaking upon the unceremonious manner in which tourists attack the food provided for them at the railway stations and on board steamers, says—"If 'Heaven helps those who help themselves,' all travellers must receive a vast amount of celestial aid."

☞ Lowe's "aerial ship" is astounding the New Yorkers. The basket that will convey the intrepid voyagers is made of strongly woven wicker work, about two inches thick. The basket is six feet in diameter, and in the centre of its flooring there is a circular aperture, large enough to admit a man's body, and intended to afford, by means of a ladder, an escape, if necessary, to the boat that will be suspended beneath. This boat is thirty feet long, and is provided with a caloric engine and paddle wheels.

☞ La Mountain is going to try another balloon ascension. He isn't satisfied, and probably will not be until he dashes his brains out.

Portsmouth, Sept. 3, 1859.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, AND PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Travelling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours, JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, are purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch, is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer seam* than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than is possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Cloaks, Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAYNE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

SUPREME JUDICIAL COURT.

WEDNESDAY, Oct. 26.

State v. William Mathes.—Mathes was indicted for an alleged assault of an aggravated nature on Levi Gilson, and knocking him down, at New Castle, on the 15th of February last. The testimony of ten witnesses was somewhat conflicting. Gilson did not testify. Verdict not guilty. Bell for the State; Hackett for deft.

State v. Daniel Kane.—The respondent is an Irish boy, about 10 years old. He is indicted for setting fire, on the 19th of September, to a shed in the north part of this city, owned by James Buckley. Bell for State; Hackett, Hatch, and Goodall for deft.

☞ There never were so many good Grocery Stores in the city as now—and among the best, is that of Lafayette Laighton, on Market Street. That box of figs proved "very good indeed." See his advertisement, and bear him in mind when in search of prime family stores.

Moulton & Blaisdell, on Market Square, advertise a very large lot of Chese, which is certainly as nice an article as we ever tasted.

We are enabled to speak learnedly on these two articles particularly, (though you will find almost all sorts of groceries at both these establishments,) as we have been given opportunity to inform ourselves concerning them.

Speaking of Grocery Stores, reminds us of the discussion about Union Stores a few years since. We are not going to attempt to revive that controversy, or to settle it; but will simply remark that we are convinced,—more by observation than experience, it is true—that other grocers can and do sell goods fully as cheap, and often of better quality. We believe in the divine right of a man to spend his money where he pleases; and if the Union Stores *do* have the double effect to lessen the credit system, especially for small bills, and also reduce the price of eatables, we shall rejoice.

In Newburyport, recently, there has been lively competition among the grocers—several of whom have advertised lists of prices; and they finally "marked down" to figures which must have left but a very small margin for profit.

☞ Dr. Windship, "the strong man," lectures before the People's Lyceum next Tuesday evening, Nov. 1st, on "Physical Culture"—always a vitally important subject, and one just now engrossing much attention.

Hon. Hampden Cutts is to Read selections from Shakespeare and other poets, on Tuesday evening, Nov. 15th.

The price of Course Tickets is reduced to 75 cts. for the remaining seven entertainments. Evening tickets 25 cents.

☞ J. B. Adams has an auction sale at his store this forenoon—Furniture, Wagons, &c. See auction column.

Also, sale of Trees, &c., Saturday, by Geo. W. Towle, in Daniel street; and another sale of good Furniture, Saturday, at a residence on Market street.

☞ See notice of "Patent Asphaltic Roofing," and "Bickford's Balance," advertised by Messrs. Prindall & Perry,—the builders of Mr. T. S. Nowell's new Shoe Manufactory, corner Pleasant and State streets.

☞ The Ladies' Charitable Society will hold its annual meeting, Thursday, the 27th, at the house of Rev. Mr. Medbery, in State street, at 3 o'clock, P. M.

☞ The N. H. Sabbath School Convention met in Manchester, on Tuesday.

☞ The N. H. Journal of Education for October, is the best number we have read. A valuable book for teachers.

☞ A firm in Portsmouth, Va., has received a consignment of two tierces of sugar and two tierces of molasses from Liberia.—The sugar was raised by Charles Cooper, a colored man who went from Portsmouth in 1856.

Who is "F. B. S.," of Concord, N. H., who subscribed $5 to help the "gallant Brown"? This was liberal in comparison with "J. R. G.'s" contribution, which was only $3.—*Boston Post.*

☞ Fanny Fern wants to know "when a young, growing girl is kept in school till her brain, stomach and backbone give out, how many ideas, after that, is it probably she will retain, even with the most scientific propounding?"

Tagore, the famous Calcutta merchant, died of a broken heart because his fortune, during the panic of '47, was reduced to ten millions of dollars. Poor fellow!

☞ There is now only one train each way daily, over the Boston, Concord and Montreal Railroad, and the arrangement will continue through the winter.

"GOD IN HIS PROVIDENCE: A comprehensive view of the principles and particulars of an active Divine Providence over man,—his fortunes, changes, trials, entire discipline as a spiritual being, from birth to eternity."

Such is the fruitful title of a book previously announced, by Rev. Woodbury M. Fernald, of Boston. It is truly a remarkable book. The subject itself is of the most profound and interesting nature, and it is treated with a wonderful grasp of thought, and clearness of illustration. Its theology is of the true New Church order, but the style of this work is popular in its character, and its contents addressed to the church universal. We will not vouch for the correctness of every idea in it, but it is manifestly a work of very deep interest and profit. It is spiritual to the last degree, and of a strong philosophical cast. Some of the chapters in it are truly startling;—those, for instance, on Marriage, Guardian Angels, and the Eternal Memory of the Soul. And at this day, when the Divine Providence is so little understood, and little thought of by the superficial multitude, we think it a most timely production. It is not only theoretical, but highly practical,—presenting the great agencies and instrumentalities of Providence—angelic, human, &c., and going into many particulars of practical life. It is also illustrated by many remarkable facts and personal histories of actual occurrence. There is manifestly no treatise extant, so full and illustrative, or which brings home the great theme of a Divine Providence with a more convincing power to the mind. It is published in Boston by Otis Clapp, and Crosby, Nichols & Co.; also in New York and London. 450 pages: price $1.

We clip the above notice from the Boston Traveller. As Mr. Fernald is a native of Portsmouth, we trust this book will find a ready sale among us. Mr. Shores has it.

☞ An old Kentuckian, long familiar with hunting and border warfare, being present at a conversation where Maffit's name was mentioned in connection with other distinguished Methodist Ministers, exclaimed: "I tell you what it is, gentlemen, say what you please about your Bascoms, Waughs, and Caperses, but in the big day coming, Maffit will bring up as many skelps as any one of 'em."

☞ The Concord Patriot says—"From the time Gen. Pierce left the White House in Washington down to this hour, he has never uttered a word on the subject of his re-nomination for the Presidency, except in affirmance of his wishes and purposes not to accept it. His name, 'under no possible circumstances,' will be presented to the Charleston Convention."

A MISSING MAN.—Much anxiety is felt for the safety of Capt. John Ramsdell, formerly of Newburyport, and more lately of Sharon. He is subject to fits of insanity, and in one of these visited Newburyport four weeks ago. Since that date he has not been heard from.

MAINE SHIP FIRED INTO.—The Bath Times states that the ship Arlington of that port, at London, Oct. 4th, was fired into by Spaniards from Tariffa Points, Straits of Gibraltar. They sent a 32lb. shot through the ship's side just under the main channel, on the starboard side, probably because her flag was not set.

☞ The colored people of Canada have been holding a public meeting to consider the expediency of "seeking a home" in Jamaica, West Indies.

Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

The News.

FROM EUROPE.—The Persia, at New York, brings Liverpool dates to the 15th. The Great Eastern was attracting great crowds of excursionists to Holyhead; nothing definite is known as to her ultimate movements. Mr. Donald McKay, the celebrated Boston shipbuilder, paid a visit to the Chatham dock-yard, for the purpose of general inspection. It is said the Cunard steamers are to touch at Cork and Queenstown, both out and home. It is reported that Prince Napoleon was about to pay a short visit to London. It is stated that during the visit of the Emperor to Bordeaux, most of the Italian residents of the town were put under arrest, and released after his departure. The French troops for operations against Morocco are estimated at 20,000 men; the advance was to take place on the 15th. A dispatch from Florence says the exequatur of the American consul at Leghorn had been withdrawn, on account of his having engaged in political intrigues. An explanatory dispatch had been sent to President Buchanan by the Florentine Cabinet.

BROWNSVILLE, Oct. 20.—The fillibuster Continas is still encamped above our city, where strolling Indians are continually joining his band. The Mexican troops have returned to Metamoras.

Leiut. Langdon has arrived with three cannons.

Our citizens having captured one of the leading outlaws, summarily sentenced him to be hung. Continas threatens to burn the town if the sentence is carried into effect. The citizens have, in conseqence, become very much alarmed, and are fleeing in all directions. The town, it is feared, will be entirely deserted, unless succor arrives soon.

BYFIELD FACTORY BURNED.—Early Wednesday morning, the extensive furniture manufactory of Charles Holt & Co., at the falls of the Parker river, Newbury, of wood, four stories high, with the large house near by and a smaller tenement, were burned to the ground. Loss $10,000.

☞ Senator Wilson, of Mass., during a speech in New York on Tuesday night, was attacked with vertigo, and obliged to suspend his remarks. He was conveyed to his lodgings in a carriage.

There is great excitement at Charlestown, and the town is guarded by a large body of troops.

☞ A letter from Paris, dated Oct. 7, says Senator Seward will leave England in two or three days for home.

☞ Fanny Fern says "mothers generally care more for the 'fit' of their daughters' dresses, than for the strength of their backbones."

☞ The vote in Ohio is said to be larger this year than it was last.

All faults are pardonable when one has the courage to avow them.

When a hen goes to roost, is she not a rooster?

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have of any other medicine, NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction, even from one of the many, all are delighted to speak in terms of highest commendation of its magical effects and medical virtues. We speak, in this matter, *what we do know, after ten years experience, and pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *unprecedented success,* in THOUSANDS OF CASES. It not only relieves the child from pain, but and bowels, corrects, and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC. and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SURESTREMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices of others, stand between your suffering child and the relief that will be SURE—yes, is ABSOLUTELY SURE to follow the use of this medicine, if timely used.* Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. AYER'S SARSAPARILLA.

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is required to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, we have been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR THE DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will try to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because these did not contain the virtues that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar, Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we feel this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has at last, one which are irresistible to the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the Blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have let their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which the cures are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other pretended cures, that they make more profit on—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort conceived the idea of ANALYZING THE BLOOD, and applying the subject of phiology to the more immediate connection, and effect on the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency. *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

MOTHERS

In presenting you with DR. EATON'S INFANT FILE COMPOUND, we have more to say than the superior to any other syrup offered you.

First—It is the preparation of a regular physician.

Second—It is entirely free from paregoric or laudanum compounds to produce for them such unfavorable results as are the consequence of using other syrups.

Third—It is free from any kind of opiate or any other narcotic, and consequently relieves by its own virtues the suffering of your child, instead of producing a stupefaction of its senses, which is the effect of other syrups from which it is distilled being the very roots from which the opium is obtained, and other similar narcotic compounds will show, with great care, as a comparison of it with any other medicine for children, that it is the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit:—Infants from one to six months old, are subject to be the most delicate infant, and is a certain cure and relief in perfectly harmless and cannot injure the most delicate infant, for it is entirely free from opiate or any other narcotic.

Sold by all respectable druggists throughout the country. Price 25 cents per bottle.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluide, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who have been deterred from trying it without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being more glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I feel bound, from my personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle: the medium holds at least twenty per cent. more in proportion than the small, and retails for seven dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

BILIOUS ATTACKS are cured, and what is better, prevented by the occasional use of the Liver Invigorator.

Only one dose taken before retiring, prevents NIGHTMARE.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

Only one dose taken for DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasant, situated on Frost Point, only three miles from the city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in order and attention to guests, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the country suffering, and surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl3 dly

and experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and like the other sizes of this celebrated Plow, drawn easily by a team much smaller than is usually requisite to draw a Plow of less size, by any other make than the Clipper.

We also assure our Farming friends that as we have heretofore endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring to make increasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently lucrative.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

Scrofula and Scrofulous Complaints, Eruptions and Eruptive Diseases, Ulcers, Pimples, Blotches, Tumors, Salt Rheumm, Scald Head, Syphilis and Syphilitic Affections, Mercurial Disease, Dropsy, Neuralgia or Tic Douloureux, Debility, Dyspepsia and Indigestion, Erysipelas, Rose or St. Anthony's Fire, and indeed the whole class of complaints arising from Impurity of the Blood.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many sickling disorder are nipped in the bud.—Multitudes can, by the aid of this, remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtues that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tham assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand Ayer's, and take no other. The sick won the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay all pain and spasmodic action and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say*, of it, what we have of any other medicine, never been able to say —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, to effect a cure, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest recommendation of its medicinal virtues. We speak, in this matter, "*what we do know*," after ten years experience, and *pledge our reputation for the fulfilment of what we declare.* In almost every instance where the child is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and skillful NURSES in New England and has been used with *never-failing success*, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve

GRIPING IN THE BOWELS, WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST REMEDY THE WORLD HAS EVER TEETH AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the forgoing complaints—*Do not let your own prejudices or the prejudices of others*, stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. The Chronicle.

Portsmouth, N. H.

FRIDAY, OCT. 28, 1859.

THE OUTBREAK AT THE CALIFORNIA STATE PRISON.—Brief mention has been made of an outbreak at the California State Prison. It appears that about 150 of the prisoners were engaged in loading a schooner with bricks, the vessel being moored a short distance from shore, when they seized the man who was guarding them, carried him on board the schooner, imprisoned the captain and mate in the hold, made all sail with haste, and stood out into the open bay. But in their hurry and excitement they forgot that the vessel was moored to the buoy, and as soon as she had run out the length of her fast, it swung her round, and brought her in the wind. In the meanwhile the guard on shore became aware of the facts, and immediately commenced a cannonade on the schooner. The prisoners on board, numbering about eighty, seized the captive overseer, and held him up in plain sight, in hope that the guard on shore would cease firing as soon as they beheld the jeopardy of their companion; but they were deceived, for the firing continued with vigor until the prisoners showedthe white flag and surrendered. Three of the prisoners were killed and eleven wounded. The captive overseer was also shot in the arm, and will probably lose the limb.

☞ Rev. George Trask, the indefatigable apostle of total abstinence from rum and tobacco, is preparing to publish a journal, in a pamphlet form, once a month, to be called the Anti-Tobacco Journal. He says—"This destructive poison is now doing its work on some three hundred millions of the human family. Such a journal might give some record of its current ravages and assure our cotemporaries and posterity that we are not insensible to one of the great scourges which now afflict our race;" and thinks such a journal, rightly conducted, with the blessing of God, would do much for a reform now struggling into existence. Tobacco is the great idol of the age; and is as great an obstacle to temperance, to the salvation of our fellow men and of the world, as any we can name."

IMPORTANT DECISION.—The New York Court of Appeals has decided that a person who has contracted to work for a given time, and before the expiration of that period is "by the Providence of God" disabled from performing the service, can by his representatives recover for the labor already performed. It is said this question has never before been decided by the courts in this country. No honest man would ever force such a case into a Court.

☞ Major Ben: Perley Poore has been mulcted in damages to the amount of $1739.38, for libel upon Moses Bates, a Plymouth editor, published in the Washington "Perley" correspondence of the Boston Journal. He appeals, of course.

☞ John A. Washington, who sold the bones of his great ancestor, is said to have recently failed for $175,000. He bought lots in Chicago, gave his notes, which, when they became due, instead of being paid, were protested.

☞ The Mayor of Georgetown has directed the removal of the ailanthus trees from the streets of that town—such trees having been declared a nuisance by the municipal ordinance.

☞ It is stated that the Japanese Ambassador with about forty of his suite will leave Jeddo for the United States, in February next.

☞ Arrangements have been made for the continuance of the weekly line of Canadian steamers to run to Portland, instead of Quebec, through the winter and spring.

☞ The removal of Thomas Mooney from the office of Inspector at the Boston Custom House, on the assumed ground that he is a Douglas man, gives rise to no little indignation of the naturalized voters of the city.

☞ The remains of John Y. Mason, late U. S. Minister at Paris, arrived at New York on Monday evening, in the steamship Ocean Queen, en route for Richmond, Va.

☞ A boy, 12 years old, and dead drunk, was run over in Court street, Boston, and seriously injured, Wednesday forenoon. The Bee says it was a sad spectacle.

☞ Mr. Ten Broeck's horses Starke and Prioress were beaten in running for the Cesarewitch stakes, at Newmarket, England, on the 11th inst., Starke coming in fourth and Prioress fifth. The race was won by Sir W. Booth's mare Artless.

A time for all things. The time to leave is when a young lady asks you how the walking is.

A clear conscience is sometimes sold for money, but never bought with it.

There are thousands who covet not only praise, but the reputation of despising it.

PHYSICAL CULTURE.

DR. GEORGE B. WINDSHIP, of Roxbury, last summer delivered a lecture on "Physical Education," in the Boston Music Hall; at the close of which he gave exhibitions of what were remarkable, and what seemed almost impossible, feats of strength. He is not large, weighs but 143 lbs., and yet easily handled a pair of dumb-bells weighing about 100 lbs. each, shouldered a barrel of flour, and lifted a weight of 929 lbs.

Dr. Windship has since delivered this valuable and interesting lecture in various cities—and always with the most unbounded success. We copy a few lines from some of the numerous commendatory notices we have observed.

The Boston Transcript says:

There was a fine audience, among which were many of our most distinguished citizens. The lecture was one of the greatest successes we have ever witnessed. The style was eloquent and vigorous. Dr. Windship has all the qualifications of a consummate elocutionist. He was frequently interrupted by the most animating bursts of applause.

The Boston Post says:

The doctor will undoubtedly prove one of the most popular lecturers of the season, for the subject with which he so ably deals is of great, general, and constantly increasing interest.

The Boston Medical and Surgical Journal says:

The lecture demands notice, not only on account of its subject, but the remarkable fact of the lecturer's enormous strength.—Without artificial assistance, Dr. Windship lifted (with his hands alone) *nine hundred and twenty-nine pounds.* Eight hundred and twenty-seven pounds were lifted, without any great apparent effort, a foot or more from the floor. Nine hundred and twenty-nine pounds were fairly lifted, a single time, several inches from the floor. The iron plates which he used were weighed before the audience. Dr. Winship stated that this is one hundred and twenty-nine pounds more than there is any record of having ever been lifted before, in the same manner. Behin, the Belgian giant, and Topham, an English athlete, have each lifted eight hundred pounds. Four years ago Dr. W. commenced lifting five hundred pounds, and has gradually reached his present maximum, which he attained about one month ago.—Dr. W. also sustained and lifted the weight of his body by his little finger and by a single hand. He is able to raise his own weight three times in the first-named manner, and twelve times by the latter. He also shouldered a barrel of flour, and performed some remarkable feats of strength with the dumb-bells. Dr. W. is 25 years of age, weighs 143 pounds, and is 5 feet 7 inches in hight.

The Traveller says:

There was a large audience. The lecture occupied about an hour in its delivery, and contained passages of remarkable eloquence. The applause was very enthusiastic. A great many people crowded up on the platform to handle the weights and dumb-bells, and satisfy themselves there was no mistake in the matter. The success of Dr. Windship in his lecture indicates a reviving interest in the subject of physical education. It is fortunate that a gentleman of so much cultivation and so many good qualities, has taken it up.

The Journal says:

The lecture did not seek to exalt physical culture above, or put it on a level with moral or intellectual culture, except so far as it conduced to them and to man's happiness.

The Bee says:

The audience included many of our city physicians. The lecture and exhibition gave great satisfaction, and were greeted with hearty applause.

The Herald says:

His remarks were listened to with unabated interest from the time of their commencement until the close, occupying a period above an hour in duration. At its close he exhibited his extraordinary muscular power in various ways.

The Saturday Evening Gazette says:

Dr. W. explained to the audience how he had acquired his own strength,and during the evening performed some extraordinary feats. The audience were very attentive, and Dr. W.'s exhibition of his own power was received with the heartiest applause.

The N. Y. Tribune correspondent says:

His lecture was a sensible one on the importance of obedience to the physical laws of our nature, especially as to ventilation and muscular development. We applauded him roundly.

The Spirit of the Times correspondent says:

Dr. Windship has created quite a furore in our city, by a lecture on Physical Culture, which be illustrated by feats of most wonderful and amazing strength. Dr. W. graduated at Harvard College some five years ago. The lecture was a well written, manly and vigorous production, and was delivered with a natural, forcible and manly eloquence but seldom met in the lecture room. The subject is one which Dr. W. has made a study for some eight years, and it is one in which every man and woman is interested.

The Advertiser says:

He lifted at one effort 929 pounds, an amount which two strong men failed to raise at the close of the exhibition. The exercises with the monstrous dumb-bells were equally wonderful, but when be shouldered a barrel of flour, the enthusiasm of the audience was unbounded.

Our Southern friends are under the impression that if a genuine Yankee were to meet Death on a pale horse, he would banter him to trade horses.

☞ Don't disparage any cause merely upon the ground that few are ready to join its standard. Noah once found himself in a pretty small minority, but he was right.—Noah had a platform to stand upon.

HARPER'S FERRY INSURRECTION.

THE TRIAL OF BROWN.—*Charleston, Va., Oct.* 26.—The Circuit Court, Judge Parker presiding. Brown consented to be defended by Messrs. Faulkner and Botts, they assuring him that they will defend him faithfully and give him the advantage of every privilege the law will allow.

The Grand Jury reported bills against each of the prisoners: 1st—For conspiring with negroes to produce insurrection; 2d—For treason to the Commonwealth; and 3d—For murder.

The prisoners were brought in, but before the arraignment was made, Mr. Hunter stated that the Court ought to appoint additional counsel for the prisoners, as Mr. Faulkner, who was appointed by the county Court, considering his duty ended, had left. Mr. Botts consulted with Brown, and at their entrance, Mr. Green was appointed by the Court.

Brown then spoke briefly, merely asking some delay in his trial, to give him an opportunity to regain his hearing, which was impaired by the wounds on his head, so that he was totally unable to hear.

The prisoners each responded not guilty, and desired to be tried separately.

The Court elected to try Brown first.—His counsel asked for delay, which was opposed.

Mr. Green remarked that he had had no opportunity of consulting with the prisoner or preparing his defence. He thought a short delay advisable, and Mr. Botts supported his views, as it had been promised that the prisoners should have an impartial trial. He presumed that northern counsel would come and take part in the case.

The Court granted that if physical inability was shown, reasonable delay must be granted. He would request the physician who had attended Brown, to testify as to his conditlon.

Dr. Mason thought Brown able to go on understandingly with the trial; did not think his wounds were such as to effect his mind or reason.

Mr. Avis, jailor, had heard Brown frequently say that his mind was all confused and hearing affected.

Brown makes no confession. He says he has full confidence God will rescue him—he has many times been in as great peril as now, but God always befriended him.—He fears nothing. A large number of letters and documents have been found in Brown's house. Among them a roll of conspirators, containing forty-seven signatures. Also a receipt from Horace Greeley for letters, &c., received from Brown.—Also an accurately traced map from Brown's house to Chambersburg. One of Brown's letters objects to the arrival of too many men at once, as calculated to excite suspicion. A letter from Merriam states that of 20,000 wanted, "G. S." was good for one-fifth. A letter from Cook says the Maryland election was about to come off, when the people will become excited, and he will get some of the candidates to join his side.

Chambersburg, Pa., Oct. 26.—Cook, the fillibuster insurrectionist, has been arrested at Montalto, fourteen miles from this place. His printed commission, signed by Brown, was found upon his person. He was fully armed, and made a desperate resistance.—He was almost starved, and came from the mountains into the settlement to obtain provisions. He acknowledged having three companions on the mountains. Parties have gone in pursuit of these.

Richmond, Va. Oct. 26.—Gov. Wise having learned by telegraph to-day of the arrest of Cook at Chambersburg, immediately sent a requisition for him to the Executive of Pennsylvania.

Harrisburg, Oct. 26.—Gov. Packer today ordered that John E. Cook, now confined in Chambersburg, and Hazlett, in Carlisle prison, be delivered up to the authorities of Virginia for trial.

Philadelphia, Oct. 26.—E. J. Merriam, of Boston, who had some connection with the affair at Harper's Ferry, but who escaped before the taking of the Arsenal, has since died of his wounds.

HONOR TO MR. MASON IN FRANCE.—When the Emperor Napoleon, who was distant from Paris, learned of the death of Mr. Mason, he telegraphed orders that his own private carriage should be sent to the funeral, and all the officers of his household then in Paris should be present, and that a battalion, with muffled drums, should act as escort to the church. This honor was the more significant as it was a departure from the Court etiquette, Mr. Mason being only Minister Plenipotentiary, and Ambassadors only ranking as the personal representatives of sovereigns and rulers.

Portsmouth, Sept. 3, 1859.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours, JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ On Thursday morning, we observed a farmer sitting in a wagon in Market St., his horse fastened to a post, and a motley group gathered around, which showed that something unusual had happened. Upon further observation we saw that the poor man had come into town to sell a load of poultry, but instead of doing this, he "sold" himself by imbibing too much poisonous liquor, and consequently was found in the pitiable condition above referred to. Marshal Beck kindly took him in charge, carried him to the watch-house, where he recovered from the effects of the deadly potion, and came out a more sober, if not a wiser man.

☞ The Gazette says the following officers have been added to U. S. sloop-of-war Delaware, at the navy yard, fitting for the Chinese squadron:—Commander Gordon; Lieuts. Patterson, J. P. Jones and Dmeming-haus; Purser Abbott; Master A. F. Crossman; Engineers Kirsted, Atkins, Farmer, and Fitch. The ship, after so long delay, appears to be approaching completion. The machinery is all on board, and ready to be put in motion. The ship is rigged, and several of her large guns are mounted.

There may be seen, alive and entirely at home in their native element, each in a separate and beautiful aquarium, fine specimens of the sculpin, sculds, star fish, spotted bergall, butter fish, puffer fishes, sea urchins, silver side or spearer, snails, tautog or black fish, pipe fish, scallop, living coral, hairy holothuria, white starfish, sea anemone, lobster, scup, periwinkle, black bass, flounder, stickleback, pickerel, horned pout, dace, eel, minnow, darter, fish lizard, file fish, triton or water newt, trout, gold fish, carp, sucker, shiner, frogs, the ray, cod, pollack, &c.

Besides this extensive collection, there are also living marbled seals, (male and female); alligator, tortoise, boa constrictor, python, pigeons, edible snail from France, horned toad from Texas; and a large number of microscopic exhibitions at all times. We advise all our readers who chance in Boston, to be sure and visit the Aquarial Gardens.

ANCIENT SHIPS.—Notwithstanding the astonishing results attending modern inventions and discoveries, they are not so far ahead of the nations of antiquity as might be supposed. The Great Eastern, that magnificent structure, so far surpassing the largest ships within our knowledge, was nearly equaled by a vessel constructed by order of Ptolemy Philopater, who lived some two hundred years before Christ.—He had a ship with forty banks of rowers, being 560 feet in length, being 190 feet longer than the Persia, and only 120 feet shorter that the Great Eastern; 76 feet from one side to the other; in height to the gunwales, it was 96 feet, and from the highest part of the stern to the water line it was 100 feet, and it had four rudders, each 60 feet long. When it put to sea it held more than 4000 rowers and 400 supernumeraries, and on deck were 3000 marines. And besides all these, there was a large body of men under the decks, and a vast quantity of provisions and supplies.

The love that has naught but beauty to keep in good condition, is short-lived, and subject to shivering fits.

A sanctified heart is better than a silver tongue; a heart full of grace is better than a head full of notions; a man may be a great scholar, and yet be a great sinner.

People often say of a man that he is a cunning fellow. This can never be true; for, if he were, nobody could find it out.

Mohammedans say that one hour of justice is worth seventy years of prayer. One act of charity is worth a century of eloquence.

☞ Of every hundred farmer's sons who leave home to become clerks or otherwise, in towns and cities, only three become rich.

Many a young lady who is quite proficient on the piano, cannot earn her board.

When we record our angry feelings, let it be on snow, that the first beam of sunshine may obliterate them forever.

An old lover is ridiculous; you had better tie up all thoughts of love-letters when you can no longer read them without spectacles.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The Great English Remedy!

Sir Jas Clarke's celebrated Female Pills

Prepared from a Prescription of
SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in every instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranteed in all cases.

On SATURDAY, Oct. 29th, at 10 o'cl'k.

At Store No. 18 Daniel Street,

[Recently occupied by Samuel J. Dodge, Esq.,]

A fine assortment of healthy, well-grown Trees, embracing choice varieties of standard Pear Trees on Pear Stock; Dwarf Pear Trees on Quince Stock; and standard Cherry Trees.

The attention of ladies and gentlemen interested in horticulture is requested to this sale. The Trees and Shrubs are all hardy kinds, warranted true to name, and are particularly described by catalogue, which can be had at office.

Also, splendid Dutch Flower Roots, adapted to the Drawing Room and Garden. A choice selection of these beautiful Flower Roots, consisting of several hundred packages of double and single named Hyacinths of great variety of colors; double and single Snow Drops; Narcosses, Jonquilles, Gladiolus, Iris, Crocus, Alum, Nooly, Ranuncules, Anemones, Lillies, &c., embracing a large assortment of different roots, to which the attention of ladies and gentlemen wishing to ornament their apartments or garden spots is requested. Catalogues at sale.

The above are received from one of the most reliable and celebrated nurseries in the country, where great care is taken in the training and culture while in the nursery; they are worked on healthy and vigorous stock, and are sure to give satisfaction. GEO. W. TOWLE, Auct.

FURNITURE, &c., AT AUCTION.

On SATURDAY, Oct. 29, at 10 o'cl'k,

Will be sold at Public Auction, on the premises, No. 3 MARKET STREET,

The following articles of Household FURNITURE:

Sofa, Card, Extension and other Tables; French Chair, Cane-seat Chairs, different kinds; Bedsteads, Beds, Hair and other Mattresses, Bedding, China, Glass and Crockery Ware, Kitchen Furniture, Window Shades, Parlor, Chamber and Stair Carpets, Canvas Carpets, Stoves different kinds; Looking Glasses, 1 elegant Gilt do., Oval Picture Frames, and many other articles.

The furniture may be seen by calling at the house previous to the day of sale.

J. B. ADAMS, Auct.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

STOVES—VERY CHEAP.

URIAH BLAISDELL, 41 Market St.

Being obliged to remove shortly, from the Store he now occupies, is selling his large stock of

STOVES, TIN WARE, &c.,

at very low prices, to avoid the trouble and expense of removal. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.
2. **Boston & Maine Cook Stove;**
3. **White Mountain;**
4. **Empire State;**
5. **Enterprise;**
6. **Exchange;**
7. **Dining Room Cook Stoves,** and others.

PARLOR STOVES.

SEAVEY'S COAL AND GAS BURNER, superseding everything else of the kind, as a parlor Coal Stove.

THE MAGEE COAL STOVE, highly recommended and esteemed by many.

CAST IRON PARLOR STOVES, with and without ovens.

SHEET IRON PARLOR STOVES, with and without ovens, of a variety of patterns.

OFFICE AND COUNTING ROOM STOVES.

BOX STOVES, for Schools, Halls and Churches

FARMER'S BOILERS, from 15 to 48 gallons each.

Also, FUNNEL, KITCHEN FURNITURE, TIN WARE AND FARMING TOOLS.

All these, and many other articles, too numerous to mention, will be sold at *great bargains*, preparatory to the removal, which must take place very soon.

NEWSPAPERS.

No other element of power has such a sphere. The pulpit, the court, the lecture, compared with the newspaper, touch society in but few places. The newspaper in America is universal, and is wholly or nearly the only reading of more than half our population. Its service to good morals and intelligence among the people is incalculable. All the libraries of Europe are not of as much service to the nations of Europe, as the newspaper is to this American nation. Its power is growing. Already the chair is more influential than the bench or the platform. No brain can act upon so many as that which speaks by the printing press of the newspaper. Ink beats like blood in the veins of the nation.

The richest man on earth is but a pauper fed and clothed by the bounty of Heaven.

An honest laundress irons your linen—a dishonest laundress steals (steels.)

Genuine cheerfulness is an almost certain index of a happy mind and a pure, good heart.

There is no greater every-day virtue than cheerfulness.

BULBOUS FLOWER ROOTS,

FOR AUTUMN PLANTING.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,

Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 6 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENCY VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the long and extensive disease of the injury sustained by the lungs previously to the use of the remedy. * * * * * Out of twenty-two cases *in the third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE completely recovered, one has died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington,

HAS REMOVED TO NO. 76 STATE STREET, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers and Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or inventions—and opinions of other eminent counsel rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility*, or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male Complaints* or *Weaknesses*, the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all models are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and I do hereby, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least three-quarters of a pint in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of chronic diseases which had improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is speedy and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "it cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been made upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly doubted, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasently, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick want the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—jel4

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* never been able to say an instance of dissatisfaction. We speak, in this place, of those who have used it. On the contrary, all are delighted with its operation, and speak in terms of the highest recomendation of its medicinal virtues. We speak, in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost *instantly* relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe this to be the SAFEST and SUREST REMEDY IN THE WORLD IN all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices of others, stand between you and your suffering child* and the relief that will be *ABSOLUTELY SURE* to follow the use of this medicine, if timely *prejudices, or the prejudices of others,* stand between you and your suffering child and the relief that will be *ABSOLUTELY SURE* to follow the use of used. Full directions accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper throughout the world. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York *per bottle.*

THE CRUCIBLE; or Tests of a Regenerate State. Designed to bring to light suppressed Hopes, expose false ones, and confirm the true. By Rev. J. A. Goodhue, A. M. With an introduction by Rev. Edward N. Kirk, D. D. Examine yourselves whether ye be in the faith; prove your own selves.—Cor. 13:5. Boston: Gould & Lincoln, 1860. 12 mo. pp. 352.

In this work, as Dr. Kirk remarks in the Introduction, "the discussion accords, in its scope and spirit, with Pres. [Jonathan] Edwards's treatise on The Affections, to which we may refer as a standard."

From this statement, and from Dr. Kirk's recommendation, there can be no doubt of the theology of this book, as to its conformity with the "orthodox" or "evangelical" standard. But let no one suppose from this, that it is a mere reproduction of Edwards, or of any one else. Far from it. It is a truly original treatise, by one who has read Edwards, understood him, and probably admired him,—and then, seeing or rather feeling a *want*, in that part of the church where he moved, that Edwards did not, and cannot supply, he has set himself to work to supply it.

How well the author has succeeded, the reader will judge when he gets through the book, in which the author discusses, 1. Faith without Hope; 2. Hope without Faith; and 3. Faith and Hope.

Under the first and second heads, the author lays bare many errors, and much spurious religion. We have room for only one specimen of the author's thought and manner on this point.

Speaking of self deception,—and false conversion, he says:—

Another principle contributing to the same result is that of *desire* and *expectancy*. These also, when directed by the Spirit, promote true conversion; but without it, false. Almost every individual who is soundly instructed in religious things, becomes desirous of a change of heart. The uncertainty of life and the dread of final punishment, render the experience of this change a matter of the deepest anxiety. Strong desire to be changed predisposes the mind towards it. It actually relaxes its fixedness, and incliness it towards some kind of transition.

This is promoted by the instruction which the individual has received, that he must *seek* for a change of heart, and at the same time must yield himself up to being changed by the Holy Spirit. He therefore strives first to change himself, then to resign himself to be changed. He seems to be in a changeable frame; and the consequence is, that change of some kind must ensue. If the Holy Spirit control the event, his experience will be a gracious one; if not, an imitation.

If one is not under the influence of the Spirit, when he determines to seek to become a Christian, he is likely to be confident of success, since he has no apprehension of the greatness of the change. As the process advances, expectancy of a change is created. Distress or relief, or joy or sorrow, expected, soon comes—the material being furnished abundantly, in man's religious nature; but they will be a copy only, the material being unmoulded by the Holy Spirit.

The London Atheneum criticises Mrs. Stowe's "Minister's Wooing." Notwithstanding its blemishes, which go a long way towards counterbalancing its merits, it is a tale to be read, and for nine days talked about. We are also told that Mrs. Stowe does injustice to the character of Dr. Hopkins, and that the heroine lacks originality, and that the author shows an "anxiety to display an intimate acquaintance with the Art Galleries and Cathedrals of Europe."

The Press also says that "In point of invention the plot is the very poorest that can well be imagined; it is the beautiful tale of the song of 'Auld Robin Gray,' New Englandized, with all that is most pathetic and poetical in it left out, and the gaps filled up with respectable prose and Calvinistic divinity." On the other hand, the Spectator says the novel "is worthy Mrs. Stowe's reputation, but in the race of popularity it will lag far behind 'Uncle Tom's Cabin, and even behind 'Dred.'"

☞ A correspondent of the St. Louis Republican, writes that the family of Jo. Smith, the Mormon "Prophet," still reside at Nauvoo. No persuasion can prevail on them to remove to Utah. His widow has married again, and with her husband keeps the Mansion House, the only house of entertainment that the city affords. The oldest son, who bears his father's name of Joseph, is a Justice of the Peace, and a useful and respected citizen. Great inducements have been offered him to remove to Great Salt Lake City, but he steadily resists all such importunities.

The Albany Argus says "the milkmen of Syracuse had a ball at the Voorhees House last evening, in which the milkmen of Rochester and other places united. The affair was drawn mild, and the cream of the joke was that almost all the ladies wore sky-blue silk dresses. In the dance some of the milkmaids skimmed along the floor with much grace, while others bobbed up and down like a churn handle. One of the young ladies present declared the scene was 'heavenly,' meaning we suppose, that it was in the 'milky way.'"—*Boston Post.*

☞ Frederick Douglass, the eloquent negro orator, is to deliver the Fraternity Lecture in Boston, next Tuesday evening.

MUSCLE AND THE WANT OF IT.

In Brooklyn, some evenings since, *three* gentlemen were beaten by two "roughs."—The "roughs" were arrested, but the gentlemen, having likely had enough of their company, did not appear against them.—Apropos to this, the Brooklyn Transcript preaches thus:—

"The beaten men failed to appear." We don't at all wonder of the failure. There is nothing strange in the fact three men, who had been "severely beaten" by two, should have a natural dislike to parade themselves and their names before a crowded courtroom, and, through the reporters, before a still more numerous public. Taking the matter as it stands in the report, the only thing strange about the matter is that they should ever have allowed themselves to be beated. The two rowdies are by no means giants, either in size or strength, and that they should, off-hand, have severely pummelled three men, in an open street, with plenty of room for flight or defence seems to us a proof that, among our respectable classes, there is much more muscle wanted, and more skill to use it required.

There's not an excursion leaves this city or New York, without an application for a few policemen to "shield" and protect the gentlemen and ladies—we beg pardon for putting the gentlemen first, but they are always most anxious for protection—from the assaults of half-a-dozen rowdies, whom two or three strong, honest men might easily "serve out." Hardly a week passes but that two or three ruffians beat half-a-dozen "men" on a Staten Island boat, while the rest of the passengers stand by, with pocketed hands, and get up their indignation at the outrage in season to write an article for the morning papers. They should write the articles in black and blue upon the faces of the ruffians, and then they would make a sensation item of some service to the public. And now, to bring the matter nearer home, two rowdies beat three "men" in one of our public streets.

There is need of a little fight here. Not two such rowdies, nor half-a-dozen, could thus beat three of those English noblemen whose dress and manner our "men about town" attempt to ape, and whose "style" is not ignored by our respectable men, but, whose disciplined strength is entirely overlooked by all, and imitated by none. With muscles well developed by cricket and boat-club exercises, by riding, and field sports, and well trained in pugilistic skill by the Jones' of the ring—Aaron Jones gets one thousand guineas a year for teaching the Cambridge boys to box—they have the strength and the skill to defend themselves from insult and injury—and are they any the less gentlemen for their muscle, and their skill to use it? or is it gentlemanly to be weak and helpless, and to be beaten, at odds, by two rowdies in Atlantic street?

It is just his strength and skill that our respectable men want. And they can acquire both, without losing any respectability or becoming at all rowdyish, in any of our best gymnasiums. Let them try the experiment, and acquire strength and skill under the direction of our competent and competent gymnasts. Then they need fear no rowdies, but can give those fellows that punishment which they dread more than a few dollars' fine or a few days' free lodgings—a good, sound beating. Gentlemen need not be engaged in street fights, for a few skilful blows, without unnecessary noise or pretence, will restrain any rowdy's pugnacious. Rowdies are all cowards at heart, and only need to be skilfully and sturdily faced.

"Fear God and take your own part" is the the true gentleman's motto. So let our friends read Borrow's "Romany Rye" for a beginning, and then join a good gymnasium, and the Local will soon have to report fewer such cases as that which heads this article. In the meantime, if attacked by rowdies, either run or take King Crow's advice and "hit them with a brick"—don't stand and be "severely beaten."

A CARGO OF SLAVES LANDED.—The New Haven Palladium says it is stated on goo authority in New London that the bark Laurens, seized last year at that place on suspicion of being a slaver, and afterwards released, has landed a cargo of about six hundred slaves on the island of Cuba. The captain and mate have been seen in New York for three or four days past. This intelligence comes throug the passengers on a late California steamer which touched at Havana.

☞ Capt. W. Howland, of South Dartmouth, died suddenly on Tuesday night, of disease of the heart. The New Bedford Standard says he attended a temperance meeting in the evening, and spoke once or twice, and returned home, complaining of a pain in the head and strange feelings in other parts of his body, which he had often done before, and no alarm was felt for him. He expired about 11 o'clock. He was 78 years old.

☞ Daniel Lock, a plasterer of London, who earned 30s. a week before the strike, recently committed suicide by taking laudanum. In his possession was found a piece of paper, on which was written—"What Cato did and Addison approved of, must be right. The strike—the ruinous strike. God protect my unfortunate family."

Honor is a good brooch to wear in a man's bosom at all times.

The hypocrite may spin so fair a thread as to deceive his own eye; he may admire the cobweb, and not know himself to be the spider.

In respect to the unseen and unknown, the imagination is a better guide than reason.—*Beecher.*

BROWN'S FIRST FIGHT.—Redpath says:

Henry Claay Pate—a highwayman, horse thief and burglar in Kansas—a postmaster, politician and correspondent of the St. Louis Republican in Missouri—made his appearance near Palmyra, at a creek called Black Jack, for the purpose, boastingly avowed, of bringing Old Brown a prisoner to Westport. He had thirty men. Brown, after a few dozen vollies, took them captive with eleven men.

Brown afterwards delivered up these prisoners to Col. Sumner, a cousin of the the illustrious Senator from Massachusetts. An incident of this event is deserving of passing record, as showing the fearless character of Old Brown. Learning that Col. Sumner, with his company, was in the neighborhood, the Captain determined to pay him a visit, and offered to give up the prisoners, to stand trial, if the Government wished it, for the crime of sacking a free State store, and repeated robberies on the highway.

The Colonel told him that the U. S. Marshal was in his camp, with a writ for Brown's arrest, and that it would be his duty to detain him as a prisoner.

Brown answered that if the U. S. Marshal attempted to serve the writ, he would shoot him dead on the spot.

The Colonel replied that if the Marshal produced the writ, he would serve it at every hazard.

But the marshal, although surrounded by a hundred armed soldiers, cowed before the fearless guerrilla chief—fumbled, trembingly among his papers, and pretended that he had lost the writ!

Brown left the camp unharmed!

R. P. Brown, a free soil pioneer, an emigrant from Kentucky, was brutally murdered by the Kickapoo Rangers, for the crime of succeeding in defending the ballot-box at Leavenworth against a gang of Democrats from the State of Missouri. His wife is now in an insane hospital. Her husband's body was brutally beaten by the ruffians, and tobacco juice was ejected in his face as he lay writhing on the ground.—They carried the body of the still gasping man to the house of his wife. As she wept piteously over it, one of the ruffians insulted her.

There is another Brown, a peaceable gentleman, who lives at Ossawattie, and whose property had been repeatedly destroyed by the Southern invaders of Kansas. He was a member of the Topeka Constitutional Convention. He took no part in the wars, but brought out some colonies of settlers from New York.

CHAMBRRSCURG, PA., Oct. 27.—Three Sharpe's rifles and a small lot of ammunition were found in the woods this morning by some boys. One rifle has 'C. P. Tidd" on the mounting. Washington's pistol has not been recovered, and nothing has been seen of the men.

Capt. Cook was taken to Virginia to-day by officers from that State and the party who arrested him.

FROM KANSAS.—*St. Louis, Oct.* 27.—The Overland Express, from Denver City 20th inst., with $6000 in dust, arrived this evening. The election of Dr. Williams as delegate to Congress is confirmed. An election for or against a Provisional Territorial government was to come off on the 24th. Mining operations were drawing to a close for the season.

GREAT EASTERN.—*New York, Oct.* 26. The special correspondent of the Times on board the Great Eastern steamship says the directors have decided that she shall sail for Portland in November, provided the Board of Trade do not require needless repairs before they will grant her license to carry passengrs.

Portland, Oct. 26.—Letters to Mr. Cumberland, the agent of the Great Eastern, from the Company, by the Ocean Queen, state that that steamer would sail within three or four days of the time fixed—the 20th.

PORTLAND, Oct. 26.—In the continuation of the race of yesterday at Ling's track to-day, Henry Clay won the third heat in 2:44, and in the fourth heat was distanced, Meddlesome coming in in 2:47.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Billious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.

PORTSMOUTH, July 18, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

ASTERN RAILROAD.—It is supposed, the Boston Post, that the parties who been buying the Eastern for some ths past, must have many thousand es. The bases of this speculation were improving receipts of the road, a new rd of directors and the hope of divi- ds at no very distant day. From our y of the figures, however, dividends dependent upon the renewal of the 0,000 of bonds maturing in 1862.— h these out of the way, it does not ap- improbable that the earnings may be sufficient to pay interest, expenses, irs, the $75,000 of incoming bonds uring annually and a fair dividend to holders, especially if the earnings be ted by sales of property not wanted railroad purposes.

His mother's sisters died with it; nieces and one nephew of Brown are inmates of the lunatic asylum, and an- r nephew is under close restraint. Mr. s stated that on reading the despatch to wn, the latter said there had never insanity in his father's family, but re- d instances in his mother's, and added his first wife showed symptoms of it, also two sons by that wife. RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure cannot need delay, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Wintor Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

J. B. ADAMS, Auct.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

STOVES—VERY CHEAP.

URIAH BLAISDELL, 41 Market St.

Being obliged to remove shortly, from the Store he now occupies, is selling his large stock of

STOVES, TIN WARE, &c.,

at very low prices, to avoid the trouble and expense of removal. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath; a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.
2. **Boston & Maine Cook Stove;**
3. **White Mountain;**
4. **Empire State;**
5. **Enterprise;**
6. **Exchange;**
7. **Dining Room Cook Stoves,** and others.

From the N. H. Gazette.

IN BOARD OF ALDERMEN, *Oct.* 27, 1859.

Thomas H. Odion applied for repairs on street near Liberty Bridge. Voted, that the Street Commissioner repair the same.

The City Marshal made his quarterly report—read and accepted.

The petition of voters in School District No. 3, asking the Aldermen to call a district meeting, was taken from the table. Voted, that the prayer of the petitioners be granted, and that a meeting be called, at the Lafayette school house, on Tuesday, Nov. 15, at 3 o'clock P. M.

Capt. Chase, for the High School Committee, came before the Board, and urged the importance and necessity of having the proposed alteration in the High school house attended to immediately, as the health of teachers and pupils was suffering in consequence of the delay. Upon the renewed application of the High School Committee it was voted, that the Board of Aldermen assume the responsibility of making the alteration in the recitation room of the Boys' High School, in accordance with the previous vote of this Board and the recommendation of the High School Committee, and that the same be referred to the Committee on school houses to carry said vote into effect.

Voted and chose the following persons as Watchmen for the ensuing quarter:

Ward 1—Charles W. Shannon, Daniel H. Spinney 2d, Edmund Clark, William A. Gove, George Woods, John Hodgdon.

Ward 2—Daniel Adwers, Abraham Holmes, Charles H. Kenney, Reuben Rand jr., Simeon S. Smilie, Oliver Dennett.

Ward 3—Thomas O. Rand, Joseph Stickney, Henry Maloon, William B. Grogan, John Harvey, Mark H. Fernald.

TOWN COURTS.—The following, from the Lebanon Free Press, illustrates the importance of the establishment of Town Courts. Such petty cases, which cost the people immense sums, could be tried in Town Courts at a trifling expense to the public and to the parties. A "judicial reform" in this behalf, says the Patriot, would save thousands of dollars annually to the people of New Hampshire:

"That $4.50 suit which we alluded to last week, as on trial during the whole of the first week of court at Haverhill, we understand was given to the jury on Tuesday evening the 11th, having been before the court eight days. The jury deliberated on it until midnight, and reported in the morning that they had failed to agree. So, unless compromised by the parties, there must be another trial upon it. The cost to the county in the way of jury fees for this trial, (two in attendance, one hearing the case and the other waiting for it to close,) will reach the vicinity of three hundred dollars. The county receives five dollars from the plaintiff on each case tried by a jury in the way of a jury fee, which in a case of this sort helps along amazingly.

This is not a peculiar case by any means, and we only allude to it by way of illustrating the bearing of the present system providing for the trial of these little cases in our higher courts, upon county expenses. It needs no explanation.

We never understood exactly, why the House last June rejected from the bill establishing our present judiciary system the clause originally inserted, providing that the parties should pay to the county five dollars in the way of a jury fee, for each day that a case was on trial. It seemed to us, then, a wholesome provision, and looks to us no differently now. We think that those who do this legal dancing, and too generally to feed their wills, should share with the people to a liberal extent, in the matter of paying the fiddlers. It might, perhaps, operate to weaken their stomachs for the sport, but not unwholsomely, we think."

A NEW AND IMPORTANT PROJECT.—A letter is published in the papers of Buffalo, signed by Hon. Milliard Fillmore, Hon S. G Havens and a number of influential citizens, addressed to Mr. Rollin Germain, requesting him to make a public explanation of his principles of construction for steam navigation. He proposes to establish amongst others, the following propositions: That steamers may be constructed to run 100 miles an hour, and so strong that the greatest oceanic forces would not endanger their safety; that the economy of their movements would be such as to reduce the cost of transportation to less than one fifth of the present rates; that when loaded with a large freight and passengers, and fuel enough for a voyage around the world, she would not draw 22 feet; that as a warship one would be an overmatch to all existing navies. Mr. Germain has made the subject his study for 13 years, and now makes it public for the first time. Eminent engineers of the United States pronounce the plan practicable, and destined to work a complete revolution in steam navigation.

NEW IRON FACTORY.—We learn that parties in Boston, under the name of the Cocheco Iron Co., propose to erect in Dover, N. H., an extensive iron manufacturing establishment, for the forging of shafting and every description of machinery, ship and other iron work, and the manufacture, on an extensive scale, of carriage and car springs, by improved machinery, the invention of G. G. Dennis, Esq. The cost of the works is estimated at $40,000, of which $30,000 has been secured in this city, and the balance has been guarantied by responsible parties in Dover, on the terms proposed by the Boston parties. It is therefore expected that arrangements will be completed early the coming week for the immediate erection of the works, which will be operated, when completed, under the superintendence of J. W. Wilkinson, Esq., a gentleman of great experience in the manufacture of springs and other iron work.—*Boston Journal.*

DECIDEDLY BLACK.—The Dover Gazette editor objects to our calling him "dear brother." This objection was unnecessary, as he is getting altogether too "black" for such a relationship to continue between us. His columns are weekly filled with the most decided black Republican sentiments, such as receive the full endorsal of the Independent Democrat, and the two papers agree in doctrine most beautifully with each other. Indeed, but for its profession of Democracy and its personal devotion to Douglas, the Gazette would readily pass for a straight-out black Republican sheet. As the Independent tells the Dover editor, he has got to change his course in a few months, when he will have work enough to do to answer his own follies and eat his own words.

JUDGE TERRY NOT INDICTED.—The Grand Jury of San Francisco County has adjourned without presenting any bill of indictment against Judge Terry for killing Senator Broderick in a duel, some doubt existing as to whether that body could legally indict for an offence committed after they had been already impanneled. The case accordingly goes over until the next Grand Jury meets.

Rev. Enos George died in Barnstead, on Thursday last, aged about 80 years. He had been fifty years pastor of the Congregational Church in that town, and for forty-five consecutive years had held the office of Town Clerk. He had also represented the town in the Legislature. He was universally esteemed as a man and a citizen, and his death will be deeply regretted by his townsmen and a large circle of friends all over the State.—*Patriot.*

BULBOUS FLOWER ROOTS,

FOR AUTUMN PLANTING.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,

Has just received a supply.

These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—placing them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.

For winter flowering, put them into pots or boxes with any common garden soil mixed with a little sand; then place them in a dark closet for 4 or 5 weeks, watering but little; after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SUE PRENVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In *most instances* the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases in the *third or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure.* My *facsimile* signature is upon every bottle.

☞ Price $2 per bottle, or three bottles for $5, with full directions for use. Write for Circulars, which will give RELIABLE INFORMATION, and save from all possibility of deception. AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, DISTRICT OF COLUMBIA.

78 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MAGIN,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and the one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided IN HIS FAVOR, by the Commissioner of Patents.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Want of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses*, the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against the manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and I therefore feel bound to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, that it is proof being secular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color, and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from falling 3 tons of hay to the acre. It is about one mile from the C. & P. Depot in Portsmouth, and adjoins the farm of Daniel R. Rogers, Esq. It has a variety of fruit trees, which will be soon in a bearing condition.

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former success, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Smith's Curative Cleansing Compound
Has readily cured or effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Frost Bites, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may either be relieved or cured in a few minutes.
For sale in Portsmouth by Preston, Hutchings, Thacher, O. F. Gerrish, J. H. Wells, Jos. Harvey & Son, C. E. Laighton, A. A. Payne.
Prepared by JOS. SMITH, HAVERHILL, MASS.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, — NEVER HAS IT FAILED, IN A SINGLE INSTANCE, when timely used. Nor have we known an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest commendation of its medical effects and medical virtues. We speak, in this matter, *whereof we know and pledge our reputation for the truth of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found within fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We speak this from our own *knowledge* after many years of the use of the article, and can confidently recommend it to all mothers as the BEST and SAFEST medicine in the world, in all cases of the disease for which it is recommended.
Mother who has a child suffering from the effects of the foregoing complaints—*do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that you will be SURE—yes, SURE—to give it, if you follow the directions attending each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

Morning Chronicle.

MONDAY, OCT. 31, 1859.

LETTER FROM CALIFORNIA.

KNIGHT'S FERRY, Cal., Oct. 8.

Dear Chronicle:—I am again reminded of you by the fresh arrival of the Chronicle per steamer, and I am happy to reciprocate favors.

Our election is over, showing a large democratic majority in favor of the administration candidates. It is believed by many that federal money was instrumental in bringing about this event. Strong administration feeling and political snobbery brought about the affair of honor, so lamentably fatal, between Hon. David C. Broderick and Judge Terry. There is considerable feeling on this subject here, for the contest was so unequal that it called forth the popular indignation. At the time when Terry was in the hands of the "Vigilance Committee," David C. Broderick was his bosom friend; but now, when Broderick comes out on the "Lime Point" swindle, and exposes the rascality of many of the leading Democrats, who represent the President and his clique, he is attacked by Buchanan fiends; and for trivial remarks, slightly derogatory to Judge Terry, is driven to the code of honor, in order to afford them the prerogative of silencing a noble and fearless defender of the people.

Terry was not the only one who desired this; but as he was professionally expert in the use of the deadly weapon, it was reserved for him to commit the ignominious deed. Mr. Broderick did not wish to fight, and would have compromised had Terry been so disposed; but perhaps as Broderick was "objectionable" at Washington in the opinion of James Buchanan, as in the case of Lord Napier, it was necessary to have him slain; and so Terry would not settle the matter in words, but chose rather to use the duello.

It is believed by all anti-duelists that what the Corsican is made to say in the play is too true: "Where a man of superior skill forces another, who is not his equal with the weapon, to a duel, he does not kill—*he murders him.*" The Hon. David C. Broderick died at the residence of Leonidas Haskell, Esq., near the city of San Francisco, on the morning of Sept. 16th. No statesman on these shores stood higher in the estimation of the people than he, and there is no wonder that his sudden demise should appall his admiring friends with the deepest gloom. His last words were: "I die—protect my honor."

Our State is progressing finely. The wheat crop is larger than ever, and flour is lower, in the meantime, than it has been for the last five years. It will not change until the wheat speculators have stored their warehouses full; at least it is so here, for one small mill here has already laid some five hundred tons of wheat in their fire-proof store-house, and still have room for more. The agricultural fairs have met, and have displayed a splendid collection of fruits and vegetables, not to be surpassed in the world. The producers of our State are beginning to understand the various climates and soils of California, and with their present experience will do much for the year to come.

Some portions of the State require but little or no irrigation, while others in the Sacramento and San Joaquin vallies require constant irrigation. It is so with the greater part of the foot hills of the sierras south and east of Sacramento. Many persons are turning their attention to vineyards, and if those who have already embarked in the business have moderate success, we shall have a large crop of grapes next year, which will afford us the pure juice of the vine in greater quantities. Thus, with figs, apricots, peaches, &c., we shall be more contented with our vines and fig trees, and look upon our eastern homes as the sire land of earlier days. Californians are getting into matrimonial pursuits, and are prospecting everywhere; and if they can get the "color," they pitch in and secure a claim and get it recorded in due form, and thus have a prospect for life.

The miner and merchant, having become satiated with gold, are now turning their attention in the right directions, and all, both old and young, are putting their heads together (near enough for a buss) and whispering those things which terminate in a wedding ring. Young and blooming girls of sweet sixteen are rarely met with, and, as statistics will show, there are many young widows who meet with as good success as the young and gay misses. If perchance an unmarried lady comes to this locality, she is besieged at once with a host of admirers, and ere the lady is aware, she has solaced an aching heart, and one of many is considered a lucky fellow.

The mining interests are, as ever, glistening with the ore; that speaks louder than words, and it is to this fact we attribute the the constant growth of almost every town and city in the State. The miners are draining every single river dry *in spots*, and intend to take large amounts from the respective claims ere the rains come. The Stanislaus and Toulumne rivers are alive with miners, and never before was there so little water running in them as now; and this fact may make the gold yield far greater than formerly. Water is now being raised on the hills, so that valuable claims are being opened in many camps besides our own; and your humble friend is now opening one which is to be worked by hand cars or railroad, and will last from eight to ten years, doubtless, if quicker processes are not invented to extract the gold.

Yours truly, J. E. W. C.

☞ Mr. Richard W. Drown, of Newburyport, was attempting to pull down a chimney on the ruins of his house, burned, and had ascended a ladder on the cellar, when the chimney gave way and he struck upon the side wall of the cellar, suffering serious injury.

DUTIES.—Every man ought to pay his debts—if he can. Every man ought to help his neighbor—if he can. Every man and woman ought to get married—if they can. Every one should take a newspaper, and *pay* for it—any how.

☞ The Washington Star, whose democracy will not be questioned, "regards all such insinuations" as those charging the Republican or any other political party with the responsibility of Old Brown's insane freak at Harper's Ferry, as "being entirely gratuitous and groundless."

The body and mind are improved by the toil that fatigues them; that toil is a thousand times rewarded by the pleasure which it bestows. Its enjoyments are peculiar;—no wealth can purchase them. They only flow from the exertion which they repay.

☞ Schamyl will probably be assigned a residence at Kalonga, in the palace occupied by the widow of Alexander I, after her return from Taganrog. He will have a pension of $8000 a year and three of his wives.

RELIGIOUS TERRORS.—For one timid man who is restrained by religious terrors, there are millions whom they render ferocious, useless, wicked.

SUPPOSED OCCUPATION OF VERMONT BY THE ROMANS.—Another relic of the classic ages was found in Vermont, lately, being a dog's collar, supposed to have belonged to Julius Cæsar, from the fact of having his name engraved upon it!

GOOD ADVICE.—An upright is always easier than a stooping posture, because it is more natural, and one part is no better supported than another; so it is better to be an honest man than a knave. It is also more graceful.

FIRE IN BOSTON.—Saturday morning, a new wooden building in the rear of No. 201 Cambridge street, was burnt. This building was surrounded by buildings of wood, to which the fire rapidly communicated. Supposed to be the work of an incendiary.

Envy is no less foolish than detestable; it is a vice which they say keeps no holiday, but is always in the wheel, and working upon its own disquiet.

☞ Hon. J. R. Giddings, at Philadelphia, lectured on slavery, touching on the Harper's Ferry affair, alluding to the predictions of many eminent men, Thos. Jefferson, John Quincy Adams, and others, that the day of the deliverance of the slaves must come.

A mind might ponder its thoughts for ages, and not gain as much self-knowledge as the passion of love shall teach it in a single day.

☞ E. J. Merriam of Boston, who had some connection with the affair at Harper's Ferry, but who escaped before the taking of the Arsenal, died at Philadelphia, of his wounds.

THE WIFE'S ADVICE.—A wife, whose husband recently started to visit Washington, is represented to have said:

"Now, my dear, don't mix with the public officials in Washington—especially with their wives? You know about Sickles."

☞ Rev. A. M. Averill has resigned his pastoral charge at North Cambridge, and accepted a call from the First Baptist church in Middleboro'.

Envy, like cold poison, benumbs and stupefies, and thus, as if conscious of its own impotence, it folds its arms in despair, and sits cursing in a corner.

☞ The Kansas democratic State convention nominated Samuel Medary for Governor, John P. Slough Lieut-Governor, and John A. Holdeman for Congress.

If everybody would just mind his own business, there would be more business done.

If we would talk less about other people, other people would talk talk less about us.

If the mistress would scold less, she would have less need of scolding.

☞ A dozen slaves from Alexandria, via the Underground Railroad, passed over the suspension bridge at Niagara, on Saturday night, and found freedom in Canada.—They were valued at $15,000. A similar stampede of forty, from Carroll county, Md., was prevented by one leaky vessel, who let out the secret.

☞ The line of steamers between New York and Portland, heretofore weekly, has been changed to a semi-weekly line.

The stream of life forks; and religion is apt to run in one channel, and business in the other.

☞ In the Massachusetts Legislature, on Friday, by a vote of 37 to 154, the House refused to strike out the sections establishing and regulating the agency for the sale of liquors for medical, mechanical and medicinal purposes. At the same time they passed an order to raise an investigating committee on the present agency; as its chairman they put on the very man who wished to abolish the system. Of course he will give the worst view he can.

☞ The latest news from Europe is that a treaty of peace was signed between France and Austria on the 17th.

The Great Eastern remained at Holyhead. Prince Albert visited her on the 17th. Reports as to the proposed trip of the ship to America are indefinite, but at a meeting of Directors on the 19th, arrangements would be made.

SUBSTITUTE FOR MILK AND CREAM.—Beat up the whole of a fresh egg, in a basin, and then pour boiling tea over it gradually, to prevent its curdling. It is difficult, from the taste, to distinguish the composition from rich cream.

Why is dancing like milk? Because it strengthens the calves.

TEACHERS' INSTITUTE.

The Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.

The session will commence on MONDAY, Nov. 14th, at 10 o'clock, A. M., and continue through the week.

The following instructors have been engaged:
CHARES NORTHEND, A. M., New Britain, Conn.
J. D. PHILBRICK, A. M., Sup. Schools, Boston.
DR. LOWELL MASON, New York City.
SANFORD TENNEY, A. M., Auburndale, Mass.

Evening Lectures will be given by the Instructors and others, of which due notice will be given.

Board will be furnished at a rate not exceeding $1.50 for the session.

Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant 5 miles. Coaches will be provided to meet the morning trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, 25 cents.

School Committees and the friends of education generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers. All the exercises are open to the public, and all interested are invited to attend.

Teachers wishing to secure board may address any of the Committee of Arrangements at Hampstead.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR
BICKFORD'S SPRING BALANCE,
for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, AND PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CARSVILLE, GA., Feb. 26, 1858
MESSRS. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Agent for Portsmouth, J. H. THACHER, cor. of State and Pleasant Sts., and No. 12 Market Sq. Weeks & Potter, Boston, General Agents for the New England States.

Wm. B. Oliver, Esq., F. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

NEW STYLES.
PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY,

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

SUPREME JUDICIAL COURT.

In the case, State vs. McGregor, for breaking and entering, the Jury did not agree, and were discharged on Friday evening.

SATURDAY, Oct. 29.

Case 42, Civil Docket, Josiah Drew vs. William Claggett, action of Assumpsit for labor, &c. The suit was referred to an Auditor, who reported in favor of the plff. Verdict for plff. for the amount allowed by the Auditor, and interest from date of the writ. Hackett and Goodall for plff. Claggett *pro se* and Hatch.

The celebrated flowage case will be tried on Monday morning.

☞ The Snow Plough for sidewalks is highly approved in the cities of Boston, New Haven, and Manchester. A correspondent recommends it highly, and says our City Government will adopt it and use it—as it would be specially useful in case of a fire when the snow was new and deep. We might have earlier and better paths, not only on the walks but in the carriage ways, by the use of this simple and cheap machines. Let the city try them.

☞ All our city Barbers have agreed to close their shops closed on Sundays hereafter. This will inconvenience some customers, no doubt—particularly such as have manufactories on their chins, and yet are men enough to have the razor applied to them; but it is too bad for the tonsorial fraternity to be shaved out of all their Sundays, as well as evenings and holidays.

☞ Dr. Windship, "the strong man," lecures before the People's Lyceum next Monday evening, Nov. 1st, on "Physical Culture"—always a vitally important subject, and one just now engrossing much attention.

At the request of many subscribers to the Lyceum, and other citizens, Rev. Mr. Gangooly is to Lecture on the Brahmins, their manners and customs, Nov. 8th.

Hon. Hampden Cutts is to Read selections from Shakespeare and other poets, on Monday evening, Nov. 15th.

The price of Course Tickets is reduced to 75 cts. for the remaining seven entertainments. Evening tickets 25 cents.

INTERESTING—That infernal tooting of horns the boys of this city, and none else, keep up, now-a-days, in honor of Hallow Night. What a pity the old Pope didn't take charge of 'em!

DENTISTRY.—It is not often that we go out of our way to speak of the individual efforts of mechanics, artists, or men of profession: but having had repeated opportunity of testing the workmanship of various dental establishments throughout the country, among them are Drs. Cummings & Hogg, located at 26 Tremont Street, Boston, of whom we wish to speak.

After long practical experience with their skill in dentistry, we are persuaded that it is but doing an act of justice to call public attention to their high professional skill, through the colums of our paper.

They are among the few men of this profession who know their branch of surgery.

It is only necessary to call at their rooms to be assured of their ability and business to serve you in the most prompt and gentlemanly manner, furnishing you with artificial teeth in the most perfect imitation of nature, constructed in such a way as to be durable, and also add to your beauty, health, and general appearance, more than can be obtained through all other artificial means. It is an old establishment, and they have earned the reputation they enjoy through a widely extended practice.—*Boston Christian Register.*

☞ The papers give an account of an immense meeting of the Opposition at Baltimore. The meeting was held in Monument Square, and numbered from 10,000 to 15,000. Speeches were made by Senator Kennedy, Hon. Henry Winter Davis, and John Minor Botts. Mr. Kennedy placed the cause of the Harper's Ferry insurrection to the doctrine of squatter sovereignty, while Mr. Davis charged it directly upon the Democratic party.

☞ The piles under London bridge have been driven 500 years, and on examining them in 1845, they were found to be little decayed. They are principally elm. Old London Place, in the city of London, was built 650 years ago, and the wooden piles, consisting of oak, elm, beech and chestnut, were found upon recent examination to be perfectly sound.

☞ Capt. McClintock has been presented by the officers and crew of the Arctic Sumner Fox, with a handsome gold chronometer, "in token of their esteem and regard during a service of two and a half years under his command in the Arctic Seas."

☞ In the garden of Rev. Mr. Muzzey of Fruit street, Newburyport, stands the original seedling Le Breton pear tree, from which was gathered this year no less than *two barrels* of the finest looking and the best winter pear ever seen. This fruit is in its most mature state in February.

MUSCLE.

A few days ago, we were just about leaving New York for Boston, by one of the Fall River boats, and had seated with a few friends upon the promenade deck of the steamer, looking down upon the pier, watching the last arrivals and preparations for departure; when, just as the last bell was ringing, a carriage dashed down the wharf, the driver leaped from the box and opened the door, and a nicely dressed, gentlemanly-looking man, rather under the medium size, leaped out, grasping a leathern valise in one hand, while the other, encased in a yellow kid glove, extended a half-dollar to the driver. Coachy, however, indignantly refused the coin, and demanded a dollar for his services.

"A dollar!" said the passenger, "why, you have only driven me from the head of Courtland street,—it's not five minutes drive."

"Can't help that, sir," replied the driver, seeing that time was precious. "We always charges a dollar when a gen'leman takes his valise inside."

"Take the half-dollar, or nothing," said the passenger, hastily, his eyes sparkling with anger, as he observed that preparations were making to take in the steamer's gang planks.

The driver made a spring forward, and rudely seized hold of one of the handles of the valise, saying as he did so, "No yer don't—yer don't take that 'ere baggage away till yer pays a dollar."

The yellow-kidded palm that was outstretched with the proffered half-dollar closed over it, and in a second the closed fist was delivered in the hack driver's face with a force that dropped him like a shot. The next instant he was on his feet, with clenched fists and eyes of dire intent,—a strong, rough-looking customer, much heavier than his plucky little antagonist, who had set down his recovered valise, jerked off the short cloak he wore, and, who, with his shining beaver hat and kid gloves, as he struck an attitude, rather excited a laugh at his facing such an adversary with an idea of anything except annihilation at the first onset. The knight of the whip sprang forward and aimed a blow which would have '*settled his fare*,' had it take effect.—A slight movement of the head to one side, a quick horrizontal extension of the passenger's arm, and down went coachy again, amid the shouts of the spectators on the promenade deck, and the delighted exclamation of one that "that was a good counter hit!"

But jarvey wasn't satisfied,—up again,—more cautious,—he still looked upon his little antagonist with contempt, and was determined to repay with interest the damage he sustained. Another rush, with the intention of getting in a smashing blow, was encountered in quite a different style.—The left foot was slipped aside, a slight dodge to the left, and the hackman's fist went far past its destination, while the arm of his opponent came down directly across the lower part of his neck, whirling him half way round, and bringing his back close up to the left thigh of the little man.—There was a momentary struggle,—the next, up went the hack driver's heels in the air, and down he came for the third time, pang, upon the pier, thrown by a movement known among the fancy as a 'cross buttock,'

All this passed in less time than it has taken to tell it, and during its performance the steamer's ropes were cast off, and as the driver fell, the gang planks were drawn in, preparatory to starting. The passenger noticed this; so seizing his cloak and valise, he threw them upon the boat, and with a run and jump alighted on board amid the outstretched arms of the deck hands, to whom he handed the half-dollar, which he had kept clenched in his hand during the encounter, while as we steamed away, his late adversary, with his face sadly battered, was seen standing upon the pier, shaking his fist in impotent rage at the fast receeding steamer.

"Were you not afraid of so large a man?" asked a gentleman, as the little game cock made his appearance on the promenade deck among the passengers.

"O no, sir," said he, quietly cocking his new hat a little more jauntily, and tightening his gloves that had been somewhat disarranged,—"not at all; I've been to school."

Why should potatoes grow better than other vegetables? Becaus they have eyes to see what they are doing.

There is no objection to *broils* in a house if they emanate from the kitchen.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranted in all cases.

The News.

☞ Brown's Trial in Virginia, makes rapid progress. We make only brief extracts.

On the 27th, Lewis Washington was recalled. He testified in answer to questions by Botts, that negotiations for the release of prisoners was opened before the general firing commenced on Monday. During the conflict Brown frequently gave orders not to fire on unarmed citizens. Brown had a rifle in his hands when struck down by the Marines.

Mr. Hunter proposed to prove Brown's hand-writing, when the prisoner offered to identify it himself; he was ready, he said, to face the music. Mr. Hunter preferred proving it by Sheriff Campbell, who was accordingly called, and identified a large bundle of letters. Brown also acknowledged their authenticity.

All the witnesses thus far have testified to Brown's anxiety to avoid shedding blood needlessly.

On the 28th, Henry Hunter, Col. Gibson and Lewis Storry gave important testimony, and the prosecution rested their case.

The defence called Joseph A. Brewer, one of the prisoners in the engine house, who testified that he was sent several times to request citizens not to shoot, as the lives of the prisoners were endangered. Negotiations were going on between Brown and the prisoners before the general firing commenced. Brown proposed that he should retain possession of what he had, including the armory and negroes. Washington and all seemed to acquiesce. Coss was sent out to confer with Beckman and others. A guard who went with him were fired upon. After that Stevens wanted to shoot, but Kiltmiller appealed to him, and they went out together to stop the firing.

When they did not return, Brown seemed to show temper, and there was a change in the arrangement. After that, Brown said he had it in his power to destroy that place in half an hour, but he would not unless resisted.

A. M. Kiltmiller testified that, at the request of Brown, he went out to use his influence to prevent unnecessary shedding of blood.

James Beller was the next witness.

Mr. Green stated that he desired to bring out testimony relative to the shooting of Thompson, one of the insurgents, on the bridge, but the State objected to it unless Brown had a foreknowledge of that shooting. Mr. Hunter said there was a deal of testimony about Brown's forbearance in not shooting citizens, which had no more to do with the case than the dead languages.

The Court thought the facts to be part of *res gestæ*, and the evidence admissible.

Witness—Hunter called after Mr. Beckham, who saw my grand uncle was shot. I was much exasperated, and started with Mr. Chambers, to the room where the second Thompson was confined, with a view of shooting him. We found several in the room, and had levelled our guns at him, when Mr. Foulke's sister threw himself before him and begged us to leave him to the laws. We then caught hold of him and dragged him out by the throat, he saying, "though you may take my life, 80,000 millions will rise up to avenge me, and carry out my purpose of giving liberty to slaves." We carried him out to the bridge, and the two of us, leveling our guns in the moment of wild exasperation fired, and before he fell a dozen or more balls were buried in him. We then threw his body off the tressle work, and returned to the bridge to bring out Stevens and serve him in the same way. We found him suffering from wounds, and probably dying.

On the 28th, Brown made a speech, demanded time to produce witnesses, and to allow his counsel from the North to arrive, as he had no confidence in those assigned to him in the Court.

Messrs. Botts and Green then withdrew from the case, saying that they had done their best for the prisoner.

The Court finally consented to adjourn till Saturday morning.

Popular excitement was greatly increased and the guard reinforced—the people regarding Brown's demand for time as a trick.

☞ The telegraph reports that George H. Hoyt, Esq., a young lawyer of promise, formerly of the Suffolk, but now of the Worcester bar, has arrived in Virginia, to offer himself as junior counsel for Brown, the insurrectionist. He was immediately admitted to the Virginia bar, on motion of the prosecuting attorney, and took his place with Messrs. Botts and Green, Brown's counsel.

RESCUE OF A FUGITIVE SLAVE.—A dispatch from Ottawa, Ill., says that on the 20th inst. a fugitive slave belonging in Missouri was rescued from the Deputy Marshal for the Southern District of Illinois, in the presence of Hon. J. D. Caton, Chief Justice, at his chambers. The slave was brought from Union county, before the judge, on a writ of habeas corpus. J. N. Albright, Deputy Marshal, claimed to hold him under a writ issued by the United States Commissioner of the Southern District of Illinois, under the fugitive slave law. The prisoner was remanded, and just as the judge had finished making out the order, and before he had left the room, a crowd rushed upon the Marshal, forcibly took possession of the negro and hurried him off in a closed carriage.

ANOTHER BUBBLE BURST.—*New York, Oct. 28.*—Col. Forbes publishes a card in the Herald relative to his correspondence, which explains the allusions in that correspondence to Senators Sumner and Hale, Dr. Howe, Mr. Leavitt, and relieves them from *all knowledge* of Brown's Harper's Ferry plot.

"I come to steal," as the rat said to the trap. "And I spring to embrace you," as the steel trap replied to the rat.

THE NORTH WEST.

Speaking of the result of the elections in the sections in the North Western States, the Boston Atlas well remarks that "one of the immediate practical benefits which will accrue to the Republicans from these elections, will be the increased power which they give us in the United States Senate and House of Representatives. We gain two members of Congress in Minnesota, and shall have a Republican United States Senator in place of General Shields. Ohio also will send a Republican Senator, in place of Mr. Pugh, and we predict that the persons elected will be Hon. Salmon P. Chase, one of the truest and ablest champions of the Republican cause in the Union. The result in Iowa also renders the re-election of Mr. Harlan to the Senate a matter of certainty.

These elections will have a very damaging effect upon the presidential aspirations of Judge Douglas. In every Western State the Democrats fought their battle on the Douglas platform, and everywhere they have lost ground. The Judge himself knew how important it was to carry some of the Western States. They constituted his political capital. He went out to Ohio to help himself and Cluseret. He received ovations at Columbus and Cincinnati. He doubtless believed that his friends would carry that State. The Cincinnati Enquirer, Columbus Statesman and other influential Democratic papers, claimed, up to the morning of the election, that the Democratic party would carry the State; but instead of carrying it, they have everywhere lost; and instead of a Republican majority of 2500, as it was two years ago, the Republicans have a majority of nearly TWENTY THOUSAND. Senator Pugh threw himself into the canvass with great vigor. He had stood by Douglas and squatter sovereignty in Congress, and Douglas went to Ohio to aid him to a re-election to the Senate. Pugh spoke in nearly every county, and the result is a total route of his party, and a repudiation of himself. Squatter sovereignty is now as dead in Ohio as it is in South Carolina, and for it there is no resurrection."

MOUNT AUBURN CEMETERY.

In a recent visit to this sequestered spot, we noticed a marked improvement of the general aspect of the premises from what it presented a dozen years ago. The 130 acres within the iron fence are now in almost every direction occupied—and the labyrinth of avenues soon places a stranger in a position to inquire his way out.—The avenues to the graves may be broad and easily found, but it is not so easy to return through the winding paths.

There is much niceness and good taste displayed in the style of the varied monuments, and in the decoration of the grounds. More expense may in some cases be lavished at the Greenwood Cemetery of Brooklyn, but the general effect is no better.

In a handsome chapel near the entrance of the grounds, where funeral services are performed, are three beautiful specimens of sculpture. First is the full length statue of Gov. WINTHROP, in the costume of his day. The workmanship is exquisite. The plaited ruff around his neck looks as if the marble were indeed trimmed to the thinness of fine linen. The ribbons of his shoes are also wrought with the same artistic skill. On the opposite side of the entrance stands the statue of JOSEPH STORY, from the chisel of his own son. A noble subject, by an artist who appreciated it.—The labor here bestowed carries the fame of the son, with the father, down to future ages. In another corner of the chapel stands the noblest figure of them all. No one can look upon the statue of JAMES OTIS without reviting the eyes upon it.—Whether it is a true representation of the person, or only an effort of the artist to produce his highest conceptions of the dignity and grace in which the human form can be presented, we know not. If it be a life representation, James Otis's counterpart has never met our eye.

As we leave the chapel we see among the most prominent lots near the door, a large circular enclosure elegantly flagged and turfed, and we enquire, who of the statesmen or heroes of the present or the past are here to be so prominently presented to all who visit Mount Auburn? The reply is—it is the lot of the proprietor of the Revere House.—What, says an artless little girl at our side, does he think to keep tavern *here!*—Thoughtless child.

J. C. GANGOOLY, the Brahman, who was present at the late Sunday School Convention in this city, gives notice that he is about issuing a small book to show the state of India just as it is, from personal observation. He says there are many absurd stories current respecting mothers feeding "crocodiles with their babies," and of devotees throwing themselves as sacrifices under the car of Juggernaut, &c. He promises to give distinct views of the manners, customs, peculiarities, religious festivals ceremonies, &c. of his native land. He says he "has not noted down the facts standing on his carriage at the distance of a mile from the real scene, but his high position in his native community has enabled him to inspect his materials minutely."

WHAT HAS BROUGHT THE DEMOCRACY TO ITS PRESENT CONDITION?—The New York Herald says that the Democracy may thank the electioneering experiment of Douglas and Pierce of 1854—the Kansas-Nebraska Bill and its appendages—for having brought it to its present condition. The measure has broken up and prostrated the Democracy of the North, while that of the South has been reduced to a mere sectional camp.

POTTERY OF THE WEST.—We see by the Peoria (Illinois) Transcript, that a large Pottery, for the manufacture of crockery ware, is being located at that place, with a capital of $50,000. The site on which the buildings are to be located covers five acres of ground. It is the opening of a new branch of American manufacture that must be vastly remunerative and of gigantic proportion. The work of supplying the Mississippi valley with table ware, will, when we consider not only its present size, but its prospective growth, be one of immense importance—sufficient to give size and character to any one city.

CONSUMPTION IS CURABLE!

BY THE USE OF

Winchester's Genuine Preparation of Dr. J. F. Churchill's Compound of the

HYPOPHOSPHITES

OF LIME, SODA AND POTASH,

Originally discovered and prescribed by him as a Specific Remedy for

CONSUMPTION!

The use of the Hypophosphites in CONSUMPTION, Scrofula, Nervous Debility, Asthma, Bronchitis, Dyspepsia, Female Complaints, and all other diseases depending upon a DEFICIENT VITALITY IN THE ELEMENTS OF THE BLOOD, have proved their INVARIABLE EFFICACY in thousands of cases in Europe and America and established the claim of the discoverer, that they are a SURE PREVENTATIVE, and a

SPECIFIC REMEDY FOR CONSUMPTION.

Dr. Churchill says: "In no single instance have I found the remedy fail to produce everything that could be reasonably expected from it. In most instances the benefit derived from it has FAR EXCEEDED what could at first have been hoped for, when taking into account the degree and extent of the injury sustained by the lungs previously to the use of the remedy. * * * * Out of twenty-two cases *cured or last stage*, treated at my Dispensary during the past year, EIGHT HAVE COMPLETELY RECOVERED, eight have died, and six are still under treatment. SUCH A RESULT IS ALTOGETHER UNPARALLELED IN THE ANNALS OF MEDICINE."

BE SURE TO PURCHASE WINCHESTER'S GENUINE PREPARATION,

which is certified by Dr. James R. Chilton to be "PROPERLY MADE and *chemically pure*. My *fac simile* signature is upon every bottle.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under date of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with dispatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered there or elsewhere. The testimonials below go to prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADEQUATE PROFESSIONAL ABILITY, he would claim he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability as his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twelve rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phisiology to the more immediate consumption, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite*, or Pain in the Side, lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility*, or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops*. If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle*. In *Male or Female Complaints or Weaknesses*, the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles*. The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are starting with wonderful success.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of throat and lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more tean assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. H. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* never been able to say of it, that we have NEVER HAS IT—NEVER HAS IT ONCE INSTANCE, when timely used. Never instance of dissatisfaction used it. On the contrary, we have been told by those with its operations, and comendation of its many virtues. We speak, in this *do know,* whereof we speak, *our reputation for the truth we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but invigorates the stomach and bowels, corrects, acidity, and gives tone and energy to the whole system. It will almost INSTANTLY relieve GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. 13 Cedar st. New York. Principal Office, No. *per bottle.* *Price only 25 cents*

Morning Chronicle.

Portsmouth, N. H.

TUESDAY, NOV. 1, 1859.

☞ Not many days ago, we met with a gentleman about 60 years of age, and another about 25 years. The latter began to smoke a cigar, saying he did it to promote sleep, and make his food sit better on his stomach. The elder gentleman asked if he could leave off at pleasure. He thought he could. Then, said the old man, you had better leave off now, before you contract a habit which will be difficult to leave off, and dangerous to continue.

I had, (be added,) smoked and chewed for many years;—but for the last four years I have done neither, and find my health and spirits greatly improved by the change. A few years before that time, I had been very sick, and the doctor when he came to see me, told me I must leave off using so much tobacco, or I should die.

I asked him if I could not be relieved by using only a little, when I felt as if I *must have it*, and he said Yes. N. B. The doctor himself used the weed. What he told me was wrong, as I have found out since. I used the little, but probably I did not always know exactly how much; and four years ago my nerves became so unstrung, and my head so distressed, I was often driven to roar and rave like a man with *delirum tremens*.

This time I did not ask the doctor what I should do,—but I stopped using tobacco, keeping one plug in my pocket till it wore out.

At that time I feared my nerves would never recover their tone, so that I could do any thing;—but they began to improve in a week after I left the weed, and I have been gradually improving ever since,—and I have been so calm and comfortable, that I think no consideration would tempt me to bring back the destructive habit, by smoking or chewing a single grain of tobacco.

☞ The cause of disaster to steamer New World was rotten timbers. The top part of the gallows frame was so decayed that fragments crumbled by pressure of the hand. The steamer, it is said can be raised and easily rendered serviceable.

Thurlow Weed, who was on board the New World steamer when her machinery "broke through," took refuge in one of the boats, and finding it in a sinking condition, did good service by bailing out the water with his hat.

James Mathers, a soldier of the revolution, who enlisted at Flymarket in July, 1776, at the age of 19, died at the residence of his son, in Westchester county, N. Y., on Friday, at the advanced age of 103 years. In the retreat from Long Island he was wounded and taken prisoner at the redoubts about Fort Washington. Soon he made his escape and rejoined the American army. He has now gone to join the "noble army of martyrs."

Not much of a martyr, to live an hundred years and more, and then die in his bed.

JUDGE TERRY NOT INDICTED.—The Grand Jury of San Francisco county has adjourned without presenting any bill of indictment against Judge Terry for killing Senator Broderick in a duel, some doubt existing as to whether that body could legally indict for an offence committed after they had been impannelled. The case accordingly goes over until the next Grand Jury meets.

☞ "The Vatican" at Rome, the palace of the Pope, is a pile of buildings covering a space 1200 feet in length and 160 in breadth, on one of the seven hills of Rome. The site was once the garden of the Emperor Nero. Early in the sixth century the Bishop of Rome erected there an humble dwelling, and this has been added to from time to time by the Popes, until it is now one of the most spacious and magnificent palaces, stocked with paintings, statues, books and antiquities of the rarest kind.

☞ Mr. Ward, the American minister to China, was courteously received at Pekin. The news of his arrival at Pekin was brought to Shanghae by a Russian gunboat, but no letters were received from him. It was reported that he would be at Shanghae about the last of August, and it was expected he would be able to send home a ratified treaty by the next mail.

☞ Last Thursday, in Roxbury, Mass., an Irishman who had been cleaning out a well, tried to climb up out of it, over the stones, but the well caved in upon him, and buried him to the depth of thirty feet, filling the well almost to the top. All the bystanders though he must be dead, but they soon heard his voice crying for help. Six men went to work, and after nine hours' toil brought him out alive, but somewhat bruised, and he will probably recover.

☞ Since the French troops have been stationed in Italy, it is said that more marriages have taken place between them and Italian women, than occurred between the Austrians and Italians in forty-five years of occupation.

The bad, the vicious, may be boisterously gay and vulgarly humorous, but seldom or never truly cheerful.

A WORD ON GYMNASTICS.

When the famous Wyndham—a gentleman so true-hearted and high-spirited as to have earned from the immortal lips of Burk himself, the epithet of "the chivalrous Wyndham"—was one evening walking homeward along Parliament street, from the triumph of an oration and the victory of a division, his attention was arrested by the shameful manner in which a gigantic coal heaver was belaboring a fine dray-horse committed to his charge. In vain Wyndham warned him to desist; the aggressor, confident of his towering size and brute strength, menaced the well-dressed gentleman, who expostulated, with the same treatment.

The oath with which he gave effect to his threat, was hardly out of his mouth ere he measured his length upon the pavement, only to rise that he might once more fall beneath the lightning-like delivery of his opponent's arm. Well-made, sinewy, and active, Mr. Wyndham, never attacked, parried, and returned more effectively in the intellectual warfare of the ministerial and opposition benches, than he now did in his physical contest with the man of brawn and beer; nor probably was such *a ring* ever formed between two such antagonists—nobles, statesmen, and diplomatists, mingled with Westminster's lowest rabble, crowded round to witness the scientific display of the gentleman, the speedy defeat of the blackguard.

The coal-heaver was knocked out of time in five minutes, and Mr. Wyndhau, assuming his lace coat and adjusting his knee-buckles, walked coolly home to dinner as if nothing had happened. It was the triumph of skill, activity, and *condtion*, over mere corporeal size and weight.

And the fact that a man gifted with Mr. Wyndham's endowments, and holding his dignified position, should not despise the cultivation of those exercises which give agility to the limbs and strength to the frame (for he was celebrated as one of the best fencers, boxers, and dancers of his day, all of which accomplishments demand no small share of application and perseverance), brings me to the consideration of a subject which is only now beginning to be systematically studied, and thoroughly understood by its professors; but which day by day is awakening a greater share of public attention and public approval—I mean the art of attaining health, strength and activity, more comonly known by the term "gymnastic exercises," which if judiciously applied and perseveringly followed out, will not only reward its votaries with power, grace and confidence far beyond their most sanguine anticipations, but in a great majority of cases will remedy the actual deformities of Nature herself.

It is lamentable at this day to walk the streets of our towns, and witness the state of helplessness and deformity to which man, formed by a gracious Providence in the very image of his Maker, can debase himself, by a long career of idleness and self-indulgence. Compare the bloated form, the gouty legs, the narrow chest, the protuberant stomach, and the helpless limbs, with that ideal which your own common-sense tells you is the normal condition of the lord of creation, and say whether it is not worth some trifling pains, some small exertions, to avoid the ludicrous hideousness of the one, to attain the admirable symmetry of the other, even were no further benefit to accrue from such endeavors than the additional beauty of form which they bestow. But the advantageous effects of gymnastics do not stop here: rosy health and consequent contentment of mind follow close upon muscular exertion of body; and physical strength affords a degree of confidence in its possessor which is but little removed from physical courage.

PHYSICAL CULTURE.

Dr. GEORGE B. WINDSHIP, of Roxbury, last summer delivered a lecture on "Physical Education," in the Boston Music Hall; at the close of which he gave exhibitions of what were remarkable, and what seemed almost impossible, feats of strength. He is not large, weighs but 143 lbs., and yet easily handled a pair of dumb-bells weighing about 100 lbs. each, shouldered a barrel of flour, and lifted a weight of 929 lbs.

The Boston Transcript says:

There was a fine audience, among which were many of our most distinguished citizens. The lecture was one of the greatest successes we have ever witnessed. The style was eloquent and vigorous. Dr. Windship has all the qualifications of a consummate elocutionist. He was frequently interrupted by the most animating bursts of applause.

The Boston Post says:

The doctor will undoubtedly prove one of the most popular lecturers of the season, for the subject with which he so ably deals is of great, general and constantly increasing interest.

The N. Y. Tribune correspondent says:

His lecture was a sensible one on the importance of obedience to the physical laws of our nature, especially as to ventilation and muscular development. We applauded him roundly.

Dr. Windship has since delivered this valuable and interesting lecture in various cities—and always with the most unbounded success. He is to lecture before the Lyceum, at the Temple, this evening.

☞ The average duration of life in Great Britain, at the present day, among those in good circumstances, is fifty years; for the whole population it is forty-five years. For France forty-two years, and for the United States about forty-three. The large proportion of deaths of children in our large cities is the most terrible drawback to longevity. Life is shortened in infants principally by impure air, improper food, over feeding and dosing. Notwithstanding these evils and the prevalence of vices in the community, the average length of human life has greatly increased during the last half century, and is still increasing.

Live to love, and you will love to live.

☞ The assignees of the estate of Chas. H. Mills & Co., Boston, will pay a dividend of 15 per cent. to the creditors—the first payment since the failure in 1857.

Cherish patience as your favorite virtue. Always keep it about you. You will find use for it oftener than for all the rest.

☞ Arrangements are being made to convert the Lawrence Machine Shop building into a cotton mill.

Our own heart, and not other men's opinions, forms our true honor.—*Coleridge.*

☞ The Kentucky Free South, a paper of Republican proclivities, in Newport, Ky., was mobbed, Friday night, and its forms scattered in the street.

Truth everywhere lies in small compass. It is the pestiferous and fatal quality of error to be expansive and difficult of condensation.

Portsmouth, Sept. 3, 1859.

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,

Dr. Wistar's Balsam of Wild Cherry.

Says a well known Editor:—"This is truly a Balsam and a blessing to invalids. It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

CASSVILLE, GA., Feb. 26, 1858

Messrs. SETH W. FOWLE & CO., Boston, Mass.

Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.

For Coughs and Colds in children I *know* it to be an excellent medium.

Respectfully yours,
JOHN H. RICE.

The genuine article *always* has the written signature of "I. BUTTS" on the wrapper, and is for sale by all respectable Druggists everywhere.

Prepared by S. W. FOWLE & CO., BOSTON, and for sale by Wm. R. Preston, David Kimball, Nathan T. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.

Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.

SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.

The fourth day she was much better. On the 29th of April, 1858, she commenced the Resolvent; on the 20th of May, twenty-one days after she commenced its use,

SHE WAS SOUND.

Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.

Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

R. R. Remedies are sold by Druggists generally.

☞ In the Supreme Judicial Court on Monday P. M. a jury was empannelled to try the celebrated or rather notorious Flowage Case,—and this jury, as a matter of course must follow their illustrious and numerous predecessors, to study the geography and topography and hydropathy of the river and its banks, the pond and the flowage.

The new docket will be called upon the coming in of the Court, this (Tuesday) afternoon.

☞ The new Goodrich Block, corner of Market and Hanover streets, our advertising columns announce, is being rapidly occupied. Mr. Green has taken his old stand, on the corner, Mr. Dow has taken one of the three stores for a new and nice grocery, and we presume Mr. Wells is to re-occupy the other.

Messrs. Editors:—Will you have the goodness to tell me by whose authority or influence most of the pumps, that were located in different parts of the city, were removed? Were they not at times the only places where water could be had for man or beast? since all who received water from the Aqueduct Co. are denied the privilege of giving it to their neighbors, to say nothing about the inconvenience of sending for it. And were they not a great convenience, as well as a saving to many poor families? And, further still, where are we to go for water, when cut off either by frost or drought?

Should my inquiries be incorrect, let them be answered by the Aqueduct Co. themselves, and oblige yours, CITIZEN.

☞ Dr. Windship, "the strong man," lectures before the People's Lyceum this Tuesday evening, Nov. 1st, on "Physical Culture"—always a vitally important subject, and one just now engrossing much attention. His lecture will be illustrated by various feats of strength—lifting heavy weights, &c.

At the request of many subscribers to the Lyceum, and other citizens, Rev. Mr. Gangooly is to Lecture on the Brahmins, their manners and customs, Nov. 8th.

Hon. Hampden Cutts is to Read selections from Shakespeare and other poets, on Tuesday evening, Nov. 15th.

The price of Course Tickets is reduced to 75 cts. for the remaining seven entertainments. Evening tickets 25 cents.

HOME INSURANCE COMPANY.—Speaking of this company, the New York Merchants' and Manufacturers' Journal of the 29th of October says:

This company is one of the largest and best managed in the Union. It has a capital of one million dollars, and a surplus of three hundred thousand. The public have great confidence in this office, knowing that it is managed on sound principles; that its officers are experienced men, of great enterprise, and judgment enough to do business discreetly. It pays its losses promptly and without equivocation. We recommend the Home Insurance Company to our readers as an institution they may insure in with perfect safety.

And there will be two other lectures or concerts, of an equally high order with those named.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door. Doors open at half-past 6, Lecture at 7 1-2.

☞ Messrs. Crosby, Nichols & Co., Boston, announce the publication of several excellent books. Among them is the new work by Rev. T. Starr King on the White Mountains. Much has been written upon the mountain region, but no higher tribute has been paid to the natural beauties of its scenery than in the preparation of this elegant volume, which will be issued in a few days.

A STREAK AHEAD OF NOAH.—A dispute once arose between two Scotchmen named Campbell and McLean, upon the antiquity of their families. The latter would not allow that the Campbells had any right to rank with the McLeans in antiquity, who, he insisted, were in existence as a clan from the beginning of the world. Campbell had a little more biblical knowledge than his antagonist, and asked him if the clan of McLean was before the flood.

"Flood! what flood?" said McLean.

"Ta flood that you know drowned all the world but Noah and his family and his flocks," said Campbell.

"Pooh! you and your flood," said McLean; "my clan was afore ta flood."

"I have not read in my Bible," said Campbell, "of ta name of McLean going into Noah's ark."

"Noah's ark!" retorted McLean in contempt; "wha ever heard o' a McLean that hadna a boat o' his ain?"

☞ In Boston, on Sunday night, the Sugar Refinery in Gouch street was destroyed by fire. The loss is $130,000, which is mostly covered by insurance. The flames were only conquered after a struggle by the firemen of nearly six hours.

The large stable and also a carpenter shop on Deer Island, were also destroyed by fire same evening.

Were further proof needed that "Old Brown" is an insane man, we think it is fully supplied in his remarks in court. His whole soul seems to be bound up in the rankest fanaticism, and he evidently feels called upon to purify earth by his blood. It seems to us further that an Insane Asylum, rather than Penitentiary or gallows, should be his destiny.—*Bath Times.*

☞ A new edition of the "Harp of a Thousand Strings" is being published by the Democratic press of the country generally. It is called "Harper's Ferry." The papers notice its copy daily, with very *wise* suggestions.

I take goodness in this sense—the seeking the real welfare of men; which is what the Greeks call philanthropia. This of all virtues and dignities of the mind, is the greatest, being the character of the Deity; and without it, man is a busy, mischievous, wretched being, no better than a kind of vermin.—*Lord Bacon.*

☞ "Spiridion" writes to the Traveller from Paris that a million and a half of snails are eaten every season in the French capital. In Dijon the bring thirty cents a hundred.

A GOOD REASON.—"Why don't you mount a clean collar, Brown? I mount one three times a day." "Yes," replied Brown to the swaggering Jones, "but every one's mother isn't a washerwoman."

☞ A country editor is "giving boots" to a rival town, and among other saucy things, says that "it takes several of their pigs to pull a blade of grass."

"Isn't it time to think about getting up?" said a wife as she rattled the bedroom door of her liege lord. "Yes, my dear; I have been thinking about it an hour and a half."

☞ It is said at the present time in Charlestown, Virginia, a consternation among the slaves is caused by the fear of being seized among those of Col. Washington, and they firmly believe the object of the prisoners was to carry them *South* and *sell them.*

☞ Lola Montez is preaching Methodism in New York, of the "New Connection" school. She is said to be as pious now as she was formerly fast.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Wintor Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes--Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guarantied in all cases.

The News.

BROWN'S TRIAL.

At Charlestown, Va., on Friday, after three witnesses for the defence had been heard, the others who had been subpœnaed not appearing, Brown made a speech, demanding time to produce witnesses and to allow his counsel from the North to arrive, as he had no confidence in those assigned him by the Court.

Mr. Hoyt seconded his demand, and said that he could not undertake to carry on the defence at present, as he was not conversant with the evidence, had not read the indictment, nor was he acquainted with the Virginia code.

Messrs. Botts and Green said they had done their best for the prisoner. As he had declared in open court that he had no confidence in them, they could not consistently do otherwise than withdraw from the case. If the court would adjourn for the day, Mr. Botts said he would cheerfully give Mr. Hoyt his notes, take him to his office and sit up all night to put him in possession of the law and the facts.

The Court could not adjourn till counsel had made himself familiar with Virginia law, but finally consented to do so until morning.

The popular excitement has greatly increased, the *guard is reinforced;* the people regarding Brown's demand for time as a trick, and being dreadfully afraid of a rescue, or some other terrible event.

On Saturday, when the Court opened, the Judge announced that the new counsel for the prisoner had asked delay to enable them to have an interview with him, which was granted. Brown was present on a bed. Samuel Chilton of Washington and Henry Griswold of Ohio appeared as additional counsel for the prisoner. Chilton said he came on at the solicitation of friends merely to assist the counsel then engaged in the defence, but on arriving here found that counsel had abandoned the case. He therefore asked a few hour's delay in order to consult the prisoner and the other new counsel, but the Court decided that the trial *must proceed.* Mr. Hoyt objected to receiving as evidence Gerrit Smith's letter and Brown's autobiography, written by himself. They were both withdrawn. Several witnesses were then examined.

All proved that Brown had treated his prisoners with humanity, and frequently expressed his regret that blood should have been shed by him in self-defence. The defence closed their testimony at 4 P. M., and the State desired to give the case to the jury without argument. Brown insisted that his counsel should argue the case, and, after the opening speech for the State, the Court adjourned to Monday morning, when the counsel for the prisoner would proceed.

REQUISITION FROM GOVERNOR WISE. *Carlisle, Pa., Oct.* 29.—The prisoner in jail here, for whom a requisition was made by the Governor of Virginia, as Albert Hazlett, was before the Judge to-day, on a writ of habeas corpus. Counsel for the prisoner claimed his discharge on the ground that his name was William Harrison. Several residents of Harper's Ferry were examined, and testified positively that the prisoner was one of the invaders. They had conversed with him, and recognized him. Mr. Copeland said he saw the flash of his rifle when in the act of shooting a citizen. No one of the witnesses knew his name. The Court took the ground that the requisition is legally and formally right, but there is no evidence that we have any man in our custody named Hazlett, whom we can deliver on this requisition. We are satisfied that a monstrous crime has been committed, and that the prisoner was there and participated, and therefore we recommit him to await a requisition from the Governor of Virginia.

SENATOR HALE AND JOHN BROWN.—*Chicago, Oct.* 31.—Senator Hale of New Hampshire publishes a card this morning, denying all complicity in or knowledge of Brown's conspiracy, and pledging himself to go voluntarily to Virginia, Maryland or anywhere else, where a grand jury may find a bill against him.

The Albany Journal says "if a man builds his house over a volcano, it is not those who warn him of his danger that are to blame for its eruptions. In seeking to check the extension of Slavery into new Territories, the Republican party seeks to save then from such scenes as have just appalled Maryland and Virginia. It would prevent alike such atrocities as provoked Brown to madness, and the opportunity for such insurections as he plotted in revenge."

☞ In the telegraph office at Baltimore, on Sunday evening, one Hann, a reporter for the Sun, got into a quarrel with the telgraph operator, and drew a pistol, which the operator grasped. It went off, and wounded Mr. McPhaill, the acting mayor, severely, and perhaps dangerously.

☞ Schooner Emerald, of Truro, sunk on Saturday evening, off Chatham, and six men are supposed to be drowned. One was saved by a floating hatch.

When a man marries, he must marry not only the lady he selects, but usually an Irish girl also attached to wait upon her.

☞ John Mitchell writes that one-third of the women in Paris are in mourning for relations lost in the Italian campaign. Their weeds, however, are the only indications of sorrow they manifest.

Morning Chronicle.

BONNER'S ADVERTISING.—The extraordinary success that has followed the advertising enterprises of Mr. Bonner of the New York Ledger has caused much wonder and much successful imitation. It is difficult to over-estimate the value of conspicuous advertising of a really good article in the columns of those who buy. A correspondent in describing an interview with Mr. Bonner, writes:

A jocose allusion was made to his peculiar mode of advertising. In answer he told the following anecdote. He said that a highly esteemed friend once remonstrated with him concerning his extraordinary advertisements, and asked, "why would not a few lines do as well as the repetition of the same words, in that ridiculous manner, all over a sheet or sheets?" Bonner replied—"If you had seen only a few lines, would you have asked any questions?" What answer could have been more appropriate? This advertising method struck people as strange, made them take notice, and consequently impressed the fact of the Ledger's existence upon their minds."

☞ The North Anson Advocate gives an account of the birth of a male child in the town of Palmyra, on the 18th of September, having two heads. The names of the parents are John and Mary Ward. The first or natural head seemed as nearly perfect as that of an infant usually; the second or unnatural head was connected by a neck of about the usual length and size, to the back or posterior part of the first one, a little above the point where the head and neck naturally join. Both heads were about the same size, and facing opposite ways. Hair grew perfectly natural on both scalps, but the second head was entirely wanting in features. One head being deemed sufficient for all practical purposes, the unnatural one was successfully amputated on the 19th inst. The child is doing well.

☞ John Seylas, residing at Rochester, N.Y., committed suicide by shooting himself through the head, on Tuesday last, because his wife refused to sign a bond and mortgage for $400 on their homestead.

☞ The Legislature of Massachusetts have granted permission for the erection of a statue of Horace Mann in the State House yard. The N. H. Patriot says—"It is expected that the same body will take immediate steps for the erection of a statue of Old John Brown in the same place."

The same paper, speaking of the said Brown, groans audibly against "the atrocious and revolutionary 'irrepressible conflict' doctrine which this hoary old hellhound sought to carry into practical effect."

Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio. to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the undersigned, and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
Boerox, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

BLOOD FOOD.

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phislology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from the use of which, Dr. Bronson was restored to perfect health. Within six months after its introduction, over 2000 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Cough, Cold, Headache, Palpitation of the Heart, Loss of Appetite, or Pain in the Side,* lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Debility,* or your sleep is broken and disturbed, if your Spirits are depressed or your organs relaxed, you will find in this an unfailing remedy, by commencing with *ten drops.* If your Liver is torpid or diseased in any manner whatever, *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia,* the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle.* In *Male or Female Complaints or Weaknesses,* the sufferer, after trying other remidies in vain, may rest assured, that a certain cure will result from the use of *one or three bottles.* The "BLOOD FOOD" is effectual in all cases of Eruptions, Salt Rheum, Scrofulas, and other like complaints. *Pale and emaciated children and adults* are immediately benefitted by its use. It gives strength to the body, and color and beauty to the skin. Physicians of all schools are using it with wonderful success.

For full directions, see circulars. Price $1 per bottle.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received a supply.
These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—setting them from 2 to 5 inches below the surface, with a good supply of sand around the bulbs.
For winter flowering, put them into pots or boxes with any common garden soil mixed with one-third sand; then place them in a dark closet for 6 or 8 weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

THE OLD STAND.
The undersigned, thankful for the long continued patronage of their friends and the public, are pleased to give notice that they will not change the place of business, as anticipated, but will continue at the old stand, **No. 34 Market Street,** where they have a large and excellent stock of superior BOOTS AND SHOES of every kind and best quality, at the LOWEST PRICES. Every kind and fashion made to order, of the best materials, and in the most durable manner.

Morning Chronicle.

THE DOCTORS DISAGREE.—In Maryland lately, Senator Kennedy made a speech, in which he traced the cause of the Harper's Ferry riot to the doctrine of Squatter Sovereignty. The Hon. Henry Winter Davis followed with a strong denunciation of the Democratic party, and charged it with the late outbreak in Virginia, the Kansas troubles, and the repeal of the Misouri Compromise.

A number of papers have charged the outbreak to the account of the Republican party. This last charge is something like charging the cart with running away with the horse. Slavery was condemned in the writings of Jefferson, Washington and Madison, of Franklin and Jay, of Wesley and Wilbeforce, of Emmons and Channing.—It is abhorred by the enlightened public opinion of the world,—but it has been tolerated and endeared in American politics and policies. In its desperate efforts to perpetrate its rule it has killed one political party, and mortally wounded another, created one or two parties, and roused up fanatics and visionaries in various directions.

CONDITION OF ITALY. — At the latest dates, it was reported that the Archbishop of Bordeaux will visit Rome to press on the Pope the necessity for reform in the government of the States of the Church. It was asserted that France will not recall her troops from Rome until the form of government there renders their presence no longer necessary.

Deputations from Parma and Tuscany had satisfactory interviews with Napoleon. Several fruitless attempts had been made to revolutionize Venetia and the Southern Tyrol. It was asserted that the Pope, in concert with Napoleon, is about addressing a manifesto to the States of the Church.—Great activity was apparent in the arsenals of Naples. The army was also being placed on a war footing.

☞ The late Rev. Dr. Alexander, while Professor in the College of New Jersey, preached regularly to a small congregation of colored people, without compensation, *for seven years.* One of the most interesting features at his funeral, was the gathering around the grave of a large number of those to whom he had so kindly broken the bread of life.

☞ Some sharp New Yorker having discovered that the chimney-sweeps are legally obliged to pay $3 per year for a license, calls upon the city to rejoice at the freshet of gold it will bring to the treasury.

☞ Hon. Solomon Foot has recently presented to the United States Circuit and District Courts for the District of Vermont, his entire law, congressional and miscellaneous library, consisting of about two thousand volumes.

☞ Wm. S. Rees, famous in the West a few years since as a street preacher, died at Keokuk, Iowa, last week, leaving a fortune of $150,000.

☞ Elder Knapp, the famous Baptist revivalist, has been engaged to labor in Boston during the coming winter.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOV. 2, 1859.

I have always considered advertising liberally and long, to be the great medium of success in business, and prelude to wealth. And I have made it an invariable rule, too, to advertise in the dullest times; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public, it has secured me many sales that I would otherwise have lost.—*Stephen Girard.*

BROWN CONVICTED.

On Monday, Oct. 31, at Charlestown, Va., the farce of trying Old Ossawatomie Brown was closed by a verdict of guilty, exactly as everybody supposed it would be.

In defending him, his counsel contended that Brown could not be guilty of treason, inasmuch as he was not a citizen of Virginia; and as to the charge of levying war against the State, the evidence did not sustain that. He admitted, however, that Brown came to Virginia for the purpose of running away slaves, and for that crime he was amenable to the laws of Virginia.—While attempting to carry out that purpose he took temporary possession of the arsenal at Harper's Ferry, and while there attempts were made to arrest him, and it was while the prisoner was resisting these attempts that blood was shed and lives taken.

He further agued that if the pamphlet proved anything, it shows that an attempt was made to overthrow the government of the United States and not of Virginia; but it was in vague, unmeaning language, which really meant nothing but the repeal of obnoxious laws.

Mr. Hunter, for the State, contended that the code of Virginia defines who are the citizens of Virginia as "all white persons born in any other State of this Union who may become residents here." The evidence in this case shows without the shadow of a question that when this man came to Virginia, and planted his feet at Harper's Ferry, he came there to reside and hold the place permanently. It is true he occupied a farm four or five miles off in Maryland, a short time since, but not for the legitimate purpose of establishing his domicil there. It was for the nefarious and hellish purpose of rallying forces into Virginia, and establishing himself at Harper's Ferry as a starting point for a new government. Whatever it was, whether tragical, or farcical and ridiculous as his counsel has presented it, his conduct showed, if his declarations were insufficient, that it was not alone for the purpose of carrying off slaves he came there.

His provisional government was a real thing, and no debating society, as his counsel would have us believe; and, in holding office under it, and exercising its functions, he was clearly guilty of treason. As to conspiring with slaves and rebels, the law says the prisoners are equally guilty, whether insurrection is made or not. Advice may be given by actions as well as words. When you put pikes in the hands of slaves, and have their masters captive, that is advice to slaves to rebel, and punishable with death. The law does not require positive evidence, but only enough to remove every reasonable doubt as to the guilt of the party.

Mr. Chilton asked for certain instructions to the jury, but the only one granted was that the jury must be satisfied that the place where the offence was committed was within the boundaries of Jefferson county.

When the jury came in, Brown sat up in bed whilst the verdict was rendered.

The verdict of the jury convicted Brown of treason in advising and conspiring with slaves and others to rebel, and murder in the first degree.

Brown then lay down quietly and said nothing. There was no demonstration of any kind.

Mr. Chilton moved an arrest of judgment on account of error in indictment and errors in the verdict.

Of course this motion will not be successful. The jury were out half an hour only, and probably agreed on their verdict without delay. Brown expected it; he listened to the arguments with closed eyes, as he lay on his bed, and heard the verdict without apparent emotion. Any other verdict would have surprised and startled him. He took his life in his hand during the Kansas troubles, in defence of freedom, and is now to die a victim to the slave code of Virginia, against which he has dared to rebel.

His execution will be designed to strike terror into other fanatics—but fanatics do not commonly fear death—and some of them will deem "Old Brown" a martyr.

A CONFESSION.—*Cleveland, Ohio, Oct. 31.*—The confession of Copel, one of the Charlestown prisoners, to Sheriff Johnson, of this State, is published here to-day. He says he was furnished with money to pay his expenses to Virginia by the two Messrs. Blunt, of Oberlin; he also says that Mrs. Sturtevant, of this city, knew all about Brown's plans, and he supposed her husband did. The latter, however, denies any knowledge of the transaction. Mr. C. H. Langstone, a colored man, is also implicated. There are no other developments.

Not much of a shower there: two liberal fanatics give money; one woman knows a secret, and therefore the confessor *supposes* her husband did—but he says No. And one darkey conspired to do—we know no what. Great is humbug.

YANKEES NOT SAFE AT HARPER'S FERRY.—On the day that John Brown was in possession of Harper's Ferry, the Superintendent of the Harper's Ferry Armory was in Springfield, Mass., to get a new master armorer for that establishment, and engaged Mr. Salmon Adams, the clerk and assistant of the master armorer of the Government shops in Springfield. But since he has got home he writes back canceling the engagement, for the reason that the people there are so exasperated with the Yankees that they would not stand one of them in the place of master armorer. They would butcher him, he says, should Mr. Adams come on and take the place.

NO DIVORCE.—In South Carolina there is no divorce after marriage; wed for life must be the fact in law when an instance of divorce has never been known there! It has been authoritively settled that no judicial tribunal in the State has any authority to declare a decree of divorce for any cause whatsoever. If the power exists at all, it is in the Legislatue, which has hitherto never thought proper to exercise the power. Further, it has been determined by the Courts of South Carolina, that a marriage solemnized in that State is indissoluble by the sentence of any Court in a sister State, so as to effect the rights or condition of the parties in South Carolina.

☞ Washington items of Oct. 31, state that no action has been taken by the government regarding aiders and abetters of the Harper's Ferry conspirators already captured. Should sufficient evidence be obtained against them, it is supposed the requisitions for their surrender will be made by Governor Wise, as in the case of Cook and Hazlett.

The Secretary of War has arrived from Harper's Ferry. No fears were entertained of disturbance, though the citizens have armed themselves, in order to be prepared for any emergency.

A CUBAN PLANTER MURDERED BY HIS CHINESE APPRENTICES. — Accounts from Havana state that on the 9th ult. twenty-one Asiaticos, "free colonists," ran away from a plantation called La Maravilla, near Matanzas. They were apprehended and taken back the same day, and on the succeeding one they murdered the owner of the estate, Don Augustin Valera, with their spades and other agricultural instruments. John Chinaman will cause serious trouble some of these days in the island.

☞ Frederick Douglass' paper, published at Rochester, had last week no editorial comments on the insurrection—in fact, no editorial of any kind. The editor is apparently away from home. It is reported that he was seen a day or two since in Canada, near the Suspension Bridge, and that he remarked to a gentleman that he considered that the best place for him at present.

☞ A forger arrested at Haverhill is in great demand. Rhode Island wants him because he swindled the Arcade Bank at Providence, in April last, to the tune of $1200; Maine wants him because he got $800 at the Portland Bank in March; and after these two States have done with him, Massachusetts has a claim on what is left left of him.

THE CAPITAL.—The New York Express says there can be but little doubt that within the next twenty years a movement will be made to change the seat of Government of the United States to some point more central than the present one, and that Cincinnati or St Louis, in the ordinary course of events, must soon come to be the center of population.

☞ The Oswego Times tells a story of a fashionable young lady of that village, whose parents are not possessed of wealth in proportion to her pretensions, who excused herself to a visitor for doing housework, in this wise:—"Mother and I do our own house-work, because it is so exceedingly romantic."

☞ A daughter of Mrs. Perse, a widow of Schenectady, went for a ride into the country. On returning home she ran up stairs, when on coming down again she tripped, fell, fractured her skull and broke her neck. Death ensued in a short time.

☞ The St. Louis Democrat of last Thursday notes the departure of about one hundred and seventy slaves for the South, and says the frequency of such shipments, especially of young and vigorous slaves, indicates the rapid fading away of the system in Missouri.

☞ A Democratic paper in Indiana states that a citizen of the county in which it is published, whipped his daughter, who was nineteen years old, *for wearing hoops.* Another in the same county turned his daughter out of doors for the same offence.

☞ A gigantic ditch is being constructed in the Kansas gold region, running a distance of 25 miles, with a width of three feet, and a depth of two feet. Its cost will be $26,000, and it is intended to supply water for mining purposes.

☞ Life Illustrated mentions that Mrs. Stowe is *not* writing a novel called the Schoolmaster's Wooing, but that such a serial novel will be begun in the "Life" for November 10, and of course continued weekly. Fowler & Wells, publishers, New York.

☞ The Phrenological Journal for November, contains heads of Amos Pilsbury, Capt. Samuels of the Dreadnaught, and Prof. George Bush, with appropriate sketches of the men.

☞ Mr. T. H. Stillwell has been arrested at Alexandria, Va., upon a charge of uttering "seditious language," while conversing on the subject of the Harper's Ferry affair.

☞ The Vermont House of Representatives has passed the bill appropriating $2000 for a marble statue of Ethan Allen.

THE WIFE THAT MEETS ONE AT THE DOOR

I never leave my home a day,
Howe'er with others it may be,
But what I get, when I come back,
A welcoming smile and hearty smack,
That makes me love, still more and more,
The wife that meets me at the door.

Her dress is always neat and clean—
A pretty wife, and yet not vain;
And when she sings my favorite song,
How sure am I the man is wrong
Who weds not—be he rich or poor—
A wife to meet him at the door.

The little chickens run to meet,
And pick the crumbs up at her feet;
Old Towser licks her proffered hand,
And frolics round her in the sand;
There's nothing like, I've said before,
A wife that meets you at the door.

In social hall, her smiling face
In every heart wins quick a place;
The gayest lad that walks the green,
Will tip his hat, when she is seen—
And hopes to meet, when teens are o'er,
Just such a wife, at his own door.

BORN AGAIN!—A humorous old gentleman, meeting once with a young Calvinistic minister, was informed that he would never reach heaven unless he was born again. "I have experienced that change," added the Calvinist, "and now feel no anxiety."

"And so you have been born again?" said his companion, musingly.

"Yes, I trust I have."

"Well," said the old gentleman, eyeing him rather attentively, "I don't think it would hurt you, young man, to be born once more!"

COUGHS, COLDS, BRONCHITIS, ASTHMA, CROUP, WHOOPING COUGH, DISEASES OF THE THROAT AND LUNGS, and PULMONARY AFFECTIONS of the severest type, are quite cured by that long tried and faithful remedy,
Dr. Wistar's Balsam of Wild Cherry.
Says a well known Editor:—"This is truly a Balsam and a blessing to invalids It contains the pure balsamic principle of Wild Cherry, the balsamic properties of tar and of pine. Its ingredients, which are mingled after the true principle of chemistry, are all balsamic, and therefore it is safe and sure in effect. Coughs, Colds, Consumption, and Bronchial troubles disappear under its balsamic influence as though charmed away. Probably no medicine has ever attained so extended a sale or accomplished so much good as this renowned Balsam."

Messrs. SETH W. FOWLE & CO., Boston, Mass.
Gentlemen:—At the request of your Traveling Agent, I give you a statement of my experience in the use of Dr. Wistar's Balsam of Wild Cherry. I have been using it for two years in my family, for Colds and Coughs, and have found it the *most efficacious remedy* that I have ever tried.
For Coughs and Colds in children I *know* it to be an excellent medium.
Respectfully yours,
JOHN H. RICE.

Dropsies.

There is no disease in which the PERUVIAN SYRUP has achieved greater wonders than in Dropsy of the abdomen and the limbs, whether occasioned by disease of the liver, or of the kidneys. It stimulates the absorbents to take up the effused fluids, increases the urinary and cutaneous secretions, and gives tone to the stomach and intestines, thus removing both cause and consequences in these affections.

During the summer that has just passed away, thousands of sufferers from dysentery and diarrhœa have been relieved by the use of HOSTETTER'S BITTERS, a medicine which is evidently destined to maintain a permanent place in the public estimation. Bilious diarrhœa is one of those diseases which baffles the skill of the physician. The medicine they administer to act upon the bowels never seems to reach the source of the evil. The difficulty is to get a remedy that will reach all the digestive organs, and give them simultaneously a rush of vigor, to rid themselves of this disease. This problem is solved by the BITTERS, which never fails to conquer the most stubborn cases. It is only fair to say, that during the season just closed, this medicine has achieved more cures than any other ever presented to the public, and during the fall, when that terrible scourge, the fever and ague, is so prevalent, the BITTERS will gain fresh fame.
Sold by druggists and dealers generally, everywhere.

Wm. B. Oliver, Esq., P. M., of Drayton, Dooly county, Ga., cured a girl, who had been for a number of years afflicted with Scrofula. She was covered from head to foot with sores; there was not sound flesh enough on her whole body to lay a twenty-five cent piece on.
SHE FELT HER CONDITION IMPROVE ON THE SECOND DAY.
The fourth day she was much better. On the 29th of April, 1853, she commenced the Resolvent; on the 30th of May, twenty-one days after she commenced its use,
SHE WAS SOUND.
Not a sore or blemish was upon her skin—nor was there any disease lingering in her system.
Mr. Oliver has cured many people in Drayton of Rheumatism, Neuralgia, Fever and Ague, Swellings, Stiffness and Pains of various kinds, with Radway's Ready Relief; and many of his friends have been cured of Dyspepsia, Costiveness, Indigestion, &c., by Radway's Regulators.

GROVER & BAKER'S
Celebrated Family Sewing Machines
NEW STYLES. — PRICES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY
Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its stability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others. ALLEN & PAINE.

PORTSMOUTH, July 14, 1858.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

AMERICAN & FOREIGN PATENTS

R. H. EDDY, Solicitor of Patents
Late Agent of U. S. Patent Office, Washington,
OFFICE, Court st. 1:37.
76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be obtained elsewhere. The testimonials below given, prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. EDDY as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability as his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

SNOW PLOWS.

Copy of a Letter dated Dover, Feb. 15, '59.

Mr. Samuel Baker—Sir:—Your letter of the 12th is received, in which you requested information relative to the utility and economy of snow plows, to clear the snow from our sidewalks. A man and a horse with a plow, will make a tolerable good path as fast as fifty men can with shovels, when the snow is from eight to ten inches deep. One reason why we use them is, we get a path much sooner after the fall of snow. Our manufacturing interest demands it, and two or three hours early in the morning or the latter part of the night, give the operatives good paths in the morning, and during the remainder of the day. Two horses will finish all the walks in the compact part of the city. Some of our snows this winter have been so heavy, we have been obliged to shovel after the plows in order to keep the width of the walks. The people are now accommodated, and at least half the expense saved by using the plows. Our plows are about eight feet long, and four or eight inches wide. The width must be governed according to the width of your walks. We have some walks which need a smaller plow. I can build a plow for ten or fifteen dollars which will answer every purpose. Yours, with respect.

DANIEL MAURY,
Superintendent of Streets.

Extract of a Letter from the Mayor of New Haven, Ct.

"As to the snow plows, we have them in use and find them very effectual as laboring machines."

Similar sentiments were expressed by the Mayor of Manchester in this State; and, which is the report from Newburyport, Great Falls, Concord, and other places.

Now, Messrs. Editors, the most advantageous way to use the snow plows, is to commence with them early in the season before the snow gets trod down, and have the track kept clear, so that the ice will not form, and endanger the limbs and lives of our citizens, and make us liable to such scenes of injury as have been decided in other places, subjecting the City to great expense.

In the above letter from Dover, I think that advantages expressed are much within bounds; besides, it is plain, in addition to the doing away with the contention about clearing the sidewalks, that *all* the advantages are not mentioned; for the wide plow as used last winter, was not only wide enough for wide sidewalks, but for lanes and narrow streets,—making a path sufficient for sleds, sleighs and fire engines; and as the engines in Portsmouth are not provided with sleds, it renders the making a track for them more important.

The attention of the City Government is called to the subject last winter, but it is not effectually carried out. It seems as Portsmouth is slow to adopt an improvement that has been in use in other places for years. I would respectfully ask, is it to be always the case that Portsmouth, with its great natural advantages, is to be behind other places?

It would seem that there are always some ready to make objections to any thing. An objection was raised last year that all paid taxes, and all could not have the benefit of the paths. But the plows could go in all the compact parts of the city, and the expense could be more evenly distributed than the expenses for gas lights, or many other expenses that the city annually pays; and the outskirts of the city would have no occasion to complain, as they now receive more than their proportion for breaking paths.

Shall we have the snow plows the coming season? or shall each take their shovel? which seems like the Turks and other half-civilized nations, where instead of using engines to put out their fires, each one leaves his business and runs with a bucket; so we often hear of a great portion of their cities being destroyed by fire, before their puny efforts arrest its progress. The captain and crew were taken off by the sch. Centurion, and landed at Holmes's Hole, and are at New Bedford. The Iowa rolled over in five minutes after being abandoned.

☞ Dr. Windship's entertainment, at the Lyceum, Tuesday evening, was a great success. He goes in for fresh air, plenty of exercise, and temperate living, as the means of insuring health; and offered much valuable instruction and numerous timely hints. At the close, he easily handled 150 lb. dumb-bell, raising it above his head, &c.; shouldered a barrel of flour weighing 218 lbs., and raised eight 100 lb. casks of nails, with ropes and pulleys to hold them, in all weighing about 800 lbs. He also sustained and lifted the weight of his body by his little finger and by a single hand. He is able to raise his own weight three times in the first-named manner, and twelve times by the latter. Dr. W. is 25 years of age, weighs 143 pounds, and is 5 feet 7 inches in height.

☞ The "Sierra Citizen," printed at Downieville, California, by T. L. Ham (a Portsmouth boy) and others, gives an account of a grand public reception, with band of music, &c., of the first stage (a Concord-built coach) run into Downieville, from Marysville—drawn by four black horses.

The Simple Secret.—Twenty clerks in a store. Twenty "hands" in a printing-office. Twenty apprentices in a ship-yard. Twenty young men in a village. All want to get on in the world, and all expect to do so. One of the clerks will become a partner, and make a fortune. One of the compositors will own a newspaper and become an influential citizen. One of the apprentices will become a master builder. One of the young villagers will get a handsome farm and live like a patriarch. But which one is to be the lucky individual?—Lucky! There is no luck about it. The thing is almost as certain as the rule of three. The young fellow who will distance his competitors is he who masters his business. who preserves his integrity, who lives cleanly and purely, who never gets in debt, who gains friends by deserving them, and puts his money into the savings bank.—There are some ways to fortune that look shorter than this old, dusty highway. But the staunch men of the community, the men who achieve something really worth having, good fortune, good name, and serene old age, all go in this road.—*Utica Observer.*

"Yes," is the lover's pass-word to the kingdom of heaven, into which it permits him to enter and find the angel his heart has sought for.

Sometimes, no doubt; and sometimes this same "Yes" has proved a pass-word into the kingdom of h—ymeneal discord and misery, where the lover has found, not the angel he sought for, but the devil he *didn't* seek for.—*Boston Post.*

Royal Religion.—Gourville went to pay his respects to the Duchess Sophia of Brunswick, whose young daughter he was speculating on as a wife for the Dauphin.—When he was first permitted to see the young lady, then in her twelfth year, he said, "This is a fair and beautiful princess, worthy of the highest destiny. May I ask what religion she has been brought up in?" "She has none at present," answered Sophia; "when we know what prince will be her husband, she will be instructed in his religion."

The pride of Xerxes, who fettered the sea and wrote his commands to Mount Athos; and of Caligula, who boasted of an intrigue with the moon, are both surpassed by the petty sovereign of an insignificant Indian tribe, who every morning stalks out of his wigwam, bids the sun good morrow, and points out to him with his finger the course he is to take for the day.—*N. Y. Ledger.*

☞ The following appears in the N. Y. Tribune:—

"Sir: You are mistaken in supposing that I voted for Mr. Fremont. I think very highly of him. But I never voted for any person who recognizes a law for slavery, however strong, learned or upright he may be. GERRIT SMITH.

Peterboro', Oct. 25, 1859."

☞ The policy on Mr. Chandler's house, in Bath, which was burned a few days since, expired two months ago, and the agent of the office called on him several times before he could persuade him to renew it—Mr. C. thinking it a useless expenditure. He finally consented to take a policy for $2500 on his house and $300 on his furniture, about a week before the fire.

There are four Shaker Societies in Ohio, numbering 1055; one in Connecticut, numbering 200; two in Maine, numbering 150; two in New Hampshire, numbering 500; four in Massachusetts, numbering 709; two in Kentucky, numbering 900; three in New York, numbering 1050, making in all eighteen societies and comprising 4576 members.

☞ We are confident that the long study and success of Dr. Swett has won for his medicines an enviable fame. See his advertisement in another column.

SIR J. CLARKE, M. D.,
Physician Extraordinary to the Queen.

This well known medicine is no imposition, but a sure and safe remedy for Female Difficulties and Obstructions, from any cause whatever; and although a powerful remedy, it contains nothign hurtful to the Constitution.

To married Ladies it is peculiarly suited. It will, in a short time, bring on the monthly period with regularity.

In all cases of Nervous and Spinal Affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Headache, Whites, and all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed.

These Pills have never been known to fail where the directions on the Second page of Pamphlet are well observed.

For full particulars, get a pamphlet, free, of the agent.

N. B.—$1 and six postage stamps enclosed to any authorized agent, will insure a bottle, containing over 50 pills, by return mail.

RANGE AND STOVE.

The Subscriber invites the attention of the public to the BAY STATE RANGE, a new cooking apparatus of great capacity, having
TWO LARGE OVENS
AND
SIX BOILING PLACES.

The Ovens will bake SIXTEEN LARGE LOAVES OF BREAD AT ONE TIME—and are superior to any Stove Oven for Roasting Meats.

A Water Back can be added to the Range, with which a barrel of water can be kept boiling without any increase of fuel.

These Ranges have been in use in this city during the past year, and been found perfect in operation.

THE RANGE IS PERFECT IN ITSELF, and can be set in a chimney or out in the room as is most convenient.

It will warm the coldest kitchen in the city, and an extra room if desired.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR
BICKFORD'S SPRING BALANCE,
for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

The News.

George F. Burnham, State Liquor Commissioner, for Massachusetts, has sent to Gov. Banks his resignation of this office.—Mr. Burnham states that he does this in order to relieve His Excellency from any embarrassment, and to allay the present excitement which has been raised in Burnham's absence. But Burnham most unequivocally denies all the accusations made against the Agency while under his management, and demands, what he certainly is entitled to, an opportunity to vindicate himself before the Legislative Committee. Ever since the agent was appointed he has been pursued with a malevolence and vindictiveness that has no parallel in the history of political and official tenure of office. The end of it, (says the Atlas) will ultimately be the entire abolition or reconstruction of the present prohibitory liquor law, and for a movement to this end those instrumental in this uproar ought to prepare themselves.

It is manifest, (we would add) from the votes in the legislature, and from the temper of the people of the State, that the law will be *reconstructed*—not abolished.

☞ The Washington correspondent of the N. Y. Evening Post says:

I was not a little amused, a day or two since, to hear an argument before our Patent Commissioner against extending a patent belonging to a Mr. Hyatt. The most forcible portion of the argument consisted in the allegation that Mr. Hyatt is a Black Republican; that he doubtless gave money to old Brown; and that, if the patent was extended, he would use the money acquired therefrom for "Black Republican purposes!" I was at first astonished to hear such a plea, and then amused.

Sensible Appeal from a Virginian. *To the Editor of the N. Y. Herald:*—Weston, Lewis County, Va., Oct. 25.—I wish to say one word to you in relation to the recent outbreak at Harper's Ferry. You have commented largely upon in it your valuable paper, and I want to ask you in the name of the Old Dominion, to stop, and let it drop. We are heartily ashamed of the whole affair, and feel that the State has been disgraced. If the people of Virginia had the power consistent with the law, they would let old Brown go free if he would promise not to say anything about it. So won't you, please, Mr. Editor, not to say anything more about it.

New York, Nov. 1.—Reverdy Johnson has a pamphlet in press, entitled "Remarks on Popular Sovgereignty as maintained and denied respectively by Judge Douglas and Attorney General Black." It sustains the Douglas side of the question.

Mrs. Elizabeth Trail, for whose arrest a reward of $1000 was offered, was taken yesterday at Belleville, N. J., and sent to Tennesee. Mrs. Trail is the professed sorceress who recently victimized a Tennessee planter, named Hesekiah Ferris, out of $3000 in gold coin, by prevailing on him to bury it on his land, and then removing it herself.

New Orleans, Oct. 31.—It is reported that another Vigilance Committee is forming here for the purpose of taking part in the election Nov. 7, and a deputation of Plug Uglies is said to have arrived from Baltimore. There were 25 fever deaths in the hospital last week.

Charlestown, Va., Oct. 31.—The remainder of the day, after the trial of Brown was closed, was occupied in obtaining a jury in the case of Coppie. The panel was not exhausted, and Messrs. Griswold and Hoyt appear as his counsel.

Hayti.—A letter of the 13th ult., from Jacmel via St. Thomas, says that fifteen of the late conspirators have been shot.

☞ The entire business portion of Monte Cristo, Cal., has been destroyed by fire, with the exception of a Banking House—that being fire-proof. Many of the sufferers lost everything—even their clothing.—The total loss was about $100,000.

☞ Deputy Sheriff Pearls of Great Falls gets the reward offered by the city of Dover for the capture of Dr. Farrar. The award, however, is resisted by several Maine officers.

☞ A little daughter of Mr. Charles F. Bennett, of Louisville, Ky., drank some lye from a bottle on Tuesday evening last, and died the next morning.

☞ The Wabash has been ordered home from the Mediterranean. All ships of her size are to be recalled as their cruises expire.

☞ Ossawatomie Brown was a soldier in the war of 1812, and fought at the battle of Plattsburgh.

John Randolph's terrible denunciation of Mexicans—"a blanketed nation of thieves and harlots."

A gentleman who spoke of having been *struck* by a lady's beauty, was advised to kiss the rod.

☞ Havana advices of the 28th ult. say, that two cargoes of slaves, amounting to some 900, had been landed near Havana.

A Knoxville, Ky. lady gave birth to three children at a time. Prentice calls her a very overbearing woman.

When Ossawattomie Brown supped with Giddings, did they drink *black tea?*—*Post.*

☞ Stolen horses and carriages to the value of $2000, have recently been discovered at Ashland, Ohio.

☞ The King of Siam is said to have named a son George Washington.

☞ A gentleman in Mississippi offers a silver cup, saucer and spoon, worth $50, as a prize for the best shirt made by any native young lady in that state, and exhibited at the next state fair.

Morning Chronicle.

A VENERABLE PATRIARCH. — Capt. Joseph Wood of West Lebanon will attain the century point in his existence, if he lives to see the 8th day of November. He is at present suffering from a painful cancer on his left eye, but aside from that, is wonderfully vigorous for a man of his extreme age. His faculties are still active, and a friend tells us, that he was present at the house of his son, Samuel Wood, 2d, where he lives, a few mornings since, when the old gentleman led the family devotions in a distinct voice and with great propriety.—*Lebanon Free Press.*

A farmer having a number of men hoeing in a field, finding one of them sitting on a stone, reproved him for his idleness. The man answered, "I thirst for the *spirit.*"—"You are very apt at quoting scripture," said the farmer, "and I wish you were as ready to obey its instructions. Recollect the text, Hoe! every one that thirsteth."

A YOUNG OPERATOR.—The daughter of the proprietor of a coal mine in Pennsylvania, was inquisitive as to the nature of hell, upon which her father represented it to be a large gulf of fire of most prodigious extent. "Pa, couldn't you get the devil to buy coal of you?"

Toil is the price of sleep and appetite, of health and enjoyment. The very necessity which overcomes our natural sloth is a blessing. We are happier with the sterility which we can overcome by industry, than we could be with the most spontaneous and unclouded profusion.

There is nothing gained in economy by having very young and inexperienced servants at low wages. They break, waste and destroy more than any equivalent for higher wages, setting aside comfort and respectability.

Idleness is the mother of mischief—the moment a horse has done eating his oats, he turns to and knaws down his manger; and what is true of horses, is equally true of men.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels. &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes all others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal.—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful,* and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

COMPOUNDED ENTIRELY FROM GUMS,
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of Bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

LOTTERIES.

THE LOTTERIES OF
WOOD, EDDY & CO.,
Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of
WOOD, EDDY & CO.,
are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

HOTEL FOR SALE.

The Cape Neddick House, York, Me.,

With 10 acres of good LAND, on which is a considerable number of Fruit Trees, and a large STABLE and Sheds adjoining. Situated on the main road from Portsmouth to Portland, about two miles from York and the Beach; with a good run of business travelling and a popular resort for summer visitors. Possession given next Spring, or earlier if desired. Apply in person, or by mail, to MELVILLE C. FREEMAN,
oct21 Cape Neddick, Maine.

The Sagamore House, Frost's Point,
IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House,* and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and dangerous remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 d1y

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over a I others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

BULBOUS FLOWER ROOTS,
FOR AUTUMN PLANTING.
E. F. SHORES, Jr., No. 1 Congress Block,
Has just received a supply.
These bulbs are in fine order. For flowering in the spring, plant this fall in the open ground—covering them from 2 to 5 inches below the surface with a good supply of sand around the bulbs.
For winter flowering, put them into pots or boxes with any common garden soil mixed with one-third sand; then place them in a dark closet for four weeks, watering but little: after they begin to sprout, place in the sun and freely water and they will bloom in February or March.

THE OLD STAND.

Hostility to the Free Schools.—"Any catholic of whatever rank in society, who recommends, silently or expressly, the public schools, is guilty of gross dereliction of duty, and is an insidious enemy of the interests of God and of society. His virtues, if he pretend to any, are in the last analysis but seeming, and if he does not quickly expel from his mind all favorable ideas of the public schools, has but a poor chance of a happy death."

The above paragraph is copied from an article published in the Boston Pilot of last week. The Boston Atlas offers the following remarks:—

The editors and readers of that paper doubtless believe in this bigoted and stupid doctrine, and as this is a free country, they have a right to promulgate their sentiments. But the avowal of such atrocious sentiments ought to arrest the attention of all thoughtful men and women, and cause them to appreciate the dangers which threaten our public schools, arising out of the hostility of the Romanists. Observe here the frank confession of this Romanist, that the true Catholic hates and ought to war upon the public schools, that is upon the *whole system*, upon the ideas on which it is based, and the administration of it under our laws. It is not, as is sometimes pretended, that they merely object to the reading of the Bible in schools, or the repeating of the Lord's prayer, or to any single feature of the school administration, but they are against "the public schools" and denounce all who recommend or sustain them in any way, "silently or expressly," as enemies of society and of God, as devoid of virtue in their lives and unfit for heaven! This is the language of the Pilot. This is the spirit of Romanism in Boston in this day.

Can the force of priestly domination over the individual conscience go further than this? Is it possible for bigotry to make a more wretched exhibition of its meanness and stupidity? Here the Roman Catholics of Boston are instructed in their organ and by the mouths of their priests, that if they wish to stand well with the "Holy Mother Church," if they desire to receive the Divine favor, if they wish to die happy and escape hell-fire, they must "quickly expel from their minds all favorable ideas of the public schools!"

Judged by your Habits.—Lads and young gentlemen are judged by their habits as well as by the company they keep. Here is an instance which has just fallen under our notice. We cut it from a periodical on our table.

A few years since a New York merchant advertised for a boy. Soon one called at the store and offered his services. "Walk into the office, my lad," said the merchant, "I'll attend to you soon." It was not long before the merchant was at liberty, and took his seat by the boy. As he sat down, he observed a segar in the hat which he held in his hand. "My boy," said he, "I want a smart, honest, faithful lad; but I see that you smoke segars, and in my experience of many years, I have ever found segar smoking in lads to be connected with various other evil habits. You can leave; you will not suit me." Perhaps the lad thought that the merchant was very unjust to judge him so severely on account of a segar. But such little things are often the best key to character. Nearly all the youth who have been ruined have carried segars in their hats. Not that segars have ruined them; but they took other evils along with them.

We don't think it well to charge an imposing and powerful political party with the onslaught of "Old Brown" at Harper's Ferry. If such a party were thus responsible, and really favored *such* arguments upon the South, we shou'd think our Southern neighbors in much more imminent danger than we can now believe them to be in. We don't believe they have anything to fear from the violent disposition of the North. The people of the North, of no *party*, wish to injure the South. Individual fanatics may, as individuals at the South might offer personal violence to Northern men should they visit their locality. To charge the sins committed at Harper's Ferry upon a political party is quite as foolish as it was to charge the violence and bloodshed in Kansas upon the Democratic party. The Republicans *did* the latter; *they* should not complain to find the tables turned.—*Bath Times.*

Blue Eyes. — The Saxon race, it is worth noting, are a blue-eyed race; so that a blue eye is no sign of weakness. It is said that all the Presidents of the United States, except General Harrison, had blue eyes. Among the great men of the world the blue eyes appear to have been predominant. Socrates, Shakspeare, Locke, Bacon, Milton, Goethe, Franklin and Napoleon, all had blue eyes; so, also, according to tradition, had the Savior.

A pious Scotch minister, being asked by a friend, during his last illness, whether I am not, for if I die, I shall be with God—if I live, he will be with me."

"How is it," said a gentleman to Sheridan, "that your name has not an O attached to it? Your family is Irish, and no doubt illustrious." "No family has a better right to O than our family," said Sheridan, "for we owe everybody."

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, NOV. 3, 1859.

I have always considered advertising liberally and long, to be the great medium of success in business, and prelude to wealth. And I have made it an invariable rule, too, to advertise in the dullest times; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public, it has secured me many sales that I would otherwise have lost.—*Stephen Girard.*

VIRGINIA TRIALS.—The trial of the Virginia insurrectionists continues. Coppe was first arraigned, and the testimony was substantially the same as that against Brown, though put in more briefly. The legal public will be edified with the developments respecting Virginia law, as stated by Mr. Hunter. Cook waived an examination before justices.

Previous to proceeding to his trial, Mr. Griswold stated the points on which an arrest of judgment was asked in Brown's case. In addition to the reasons previously mentioned, he said it had not been proved beyond a doubt that Brown was a citizen of the United States, and argued that treason could not be committed against a State, but only against the general government, quoting the authority of Judge Story; also stating that the jury had not found the prisoner guilty of the crimes as charged in the indictment. They had not responded to the offences charged, but had found him guilty of offences not charged. They find him guilty of murder in the first degree, when the indictment does not charge him with offences constituting that crime.

Mr. Hunter replied, quoting the Virginia code, to the effect that *technicalities* should not arrest the administration of justice. As to the jurisdiction over treason, it was sufficient to say that Virginia had passed a law *assuming* that jurisdiction, and defining what constitutes that crime.

Brown was present during the argument.

☞ The Washington correspondent of the New York Evening Post writes:

"It has been known here all summer that Mr. Douglas has not approved the course of Mr. Broderick in California. Mr. Douglas is after the Presidency and wants conciliation, not open rupture in the Democratic party. Broderick hated the slave Democracy, and Douglas wished to be at peace with it. Upon this point they separated, and had Mr. Broderick lived he could have never again joined hands politically, with Mr. Douglas. He would have soon drifted into the ranks of the Republicans. His death is felt here by all persons who oppose the administration, to be a great calamity, and many persons cling to the belief that there was a deliberate intention on the part of Gwin, Denver, Terry and others to sacrifice him."

☞ The Charlotte (N. C.) Bulletin records the heroic conduct of a young lady residing in Henry county, Va. A child of Dr. Wayt, of Charlotte, was on a visit to a family named Read, and while playing in the yard was struck in the foot by a rattlesnake. Fully aware of the danger she in curred, but without a moment's hesitation, the young lady set to work to draw the poison from the wound by applying her mouth to the bite and sucking out the virus, which she persevered in until she was satisfied that the poison had been eradicated. Up to this time she has experienced no ill effects from the poison, and the child, with the exception of the swelling of the foot and leg, was well in a few days.

THE SPOILS OF WAR.—As soon as the neighbors around the Kennedy farm learned of Old Brown's capture, they pounced at once upon his house, and speedily rifled it of its contents. There were eight or ten boxes of wearing apparel, boots, quilts, blankets, &c., and they were speedily appropriated by the poor white people, some of whomwe are assured were sadly in want of them. Barrels of flour were rolled out; the cooking stove and its appurtenances were removed; loaves of bread were distributed to the hungry, and in fact in a short time the house was completely sacked.

☞ Mr. Beecher lately delivered a lecture in his own church, and was introduced by Mr. Tilton of the Independent, who said:—

"The lecturer insists upon being introduced. This, I suppose, is from natural modesty. Yet, perhaps I ought to say a word explanatory, in order that he may not come before you as a perfect stranger! I would therefore state that he is from Litchfield, Connecticut, and is a minister's son."

Amidst the laughter of the audience, Mr. Beecher retorted by saying that "Mr. Tilton would himself lecture in Brooklyn next week, and that he would like to be present to introduce *him*."

☞ Col. Bulloch, Mayor of Worcester, Mass., has given to that city the sum of one thousand dollars, the annual income of which is to be appropriated for the encouragement of merit in scholarship and deportment in both sexes in the High School.—Col. Bulloch declines being a candidate for the mayoralty another year.

☞ One of the courts of Ohio has decided that a railroad has no right to mortgage its road franchises.

CHRONICLE CORRESPONDENCE.

NEW ORLEANS, Oct. 24, 1859.

Dear Chronicle:—Quite a change has been experience by your correspondent since he last wrote, and, shifted from the mountains of Texas,—where he was obliged to go forty miles to mill, and was that distance from a stage-route,—to the heart of this populous and prosperous city, he thinks the change for the better.

The copious rains of September have much improved the appearance of the Lone Star State, and great hopes are expressed that the long drought is "broken." The farmers and planters there are busy securing their crops, and below Gonzales, 100 miles from the coast, the yield of cotton will be fine.

To travel over the vast prairies and see the heavy wagons, laden with cotton and drawn by ten or twelve oxen, often in trains of from eight to twenty, toiling through mud and sand, one soon comes to the conclusion that "cotton *is* king"—of this part of the country at least. The freighting done by wagons in Western Texas is immense; in one day I counted 64 wagons on the road from Victoria to Concrete—giving employment to 800 oxen, about 70 men, and nearly as many horses.

The life of the wagoner is hard and wild, but if a person has plenty of time, it is worth the while to take a trip up or down the country with them.

The yellow fever is committing terrible ravages in the vicinity of Houston, and in Galveston there were four deaths per day the first of this week, causing the streets to be deserted by strangers, and preventing the early return of absent citizens. There is but little in this city, and no one seems at all apprehensive of its spreading to any extent.

Much indignation is felt here at the recent horrible transactions at Harper's Ferry, both by Northern and Southern men.

The receipts of cotton are very large, and the city is rapidly filling with strangers.—The hotels have been refitted, and now present a very fine appearance.

There was a terrible conflagration on Magazine street, by which whole squares of property were destroyed, and one of the most thriving sections of the Fourth District left a barren waste. The loss is estimated at $300,000. The lack of water was the great reason of this large loss, and that in a city on a level with the waters of the finest river in the world—showing that a few more energetic men are still needed here.

Election takes place Nov. 7, and every night sees some political demonstration.—Speeches are made, powder is burnt, drums beaten, and the American eagle has frequent requisitions for his aid. As usual, bloodshed is looked for on that day. IOX.

☞ In the Superior Court for Essex Co. at Salem, Mass., Patrick Cuningham, Lynn, violation of liquor law, verdict guilty; sentenced to pay a fine of $10 and costs to recognize in the sum of $1000 not to violate the law for one year, and stand committed to the House of Correction at Lawrence for 30 days.

Wm. Lawley of Lawrence, retracted his plea of not guilty and plead guilty to a violation of the liquor law; sentenced to pay a fine of $10, and 20 days in the House of Correction.

☞ Redpath has written some spicy and rather fiery articles about Old Ossawatomie Brown and slavery, which have been published in the Boston Bee. The Louisville Journal says:

"We hope the proper authorities will take immediate and effectual steps to procure Redpath's arrest and trial. In the face of the confession he has blazoned in the public eye, we do not see how such measures can be honorably or safely avoided. Let the pestilent wretch be seized at once."

The proper authorities, if they begin, must go farther. Fred. Douglas did not lecture before the "Fraternity" in Boston Tuesday night, but Henry D. Thoreau did, and he delivered a biographical eulogy on "Capt. John Brown of Ossawottomie."—The proper authorities had better pick up Mr. Thoreau and his hearers.

☞ There is said to exist a confederation of outlaws, whose headquarters are in New York, who came originally from Poland and Germany, and extend their travels to all portions of the United States. By day-time they operate as shoplifters and pickpockets, and by night as burglars. Their booty is distributed, at convenience, among pawnbrokers, junk dealers and brokers, who are of the same affiliations, and are in the practice of acting as receivers.

However the question may be decided—if, indeed, it should ever be settled—as to the intellectual equality or inequality of the sexes, they are plainly peers in joy and grief, in the sentiments and emotions. Religion and sorrow make men and women equals in tenderness and tears, in compassion and love.

☞ Brown, (Artemas Ward,) of the Cleveland Plaindealer, has for his last squib: "We advise active Democrats to avoid newspapers for a few days. Adopt a more cheerful style of reading: We are perusing the New Testament."

APPREHENSION OF DANGER.—There is something amusing in the following despatch from Charlestown to the Baltimore Exchange:

"Brown's speech created the greatest excitement. The citizens look upon it as a trick. The guard has been increased.—*Three men selling patent medicines had been ordered out of town.* The people are arming everywhere, and are ready for any emergency."

The good people of Charlestown are right. There is more danger in three quack doctors than in the whole army of abolition.—*Providence Journal.*

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston,—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and blonting of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

THEO. CALDWELL.

Prepared by S. W. FOWLE & CO., Boston, and for sale by Wm. R. Preston, David Kimball, Nathan P. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

GROVER & BAKER'S

Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, are purchased from the store, requiring no rewinding thread, and finishing each seam by their own operation, without recourse to the hand needle is required by other machines. On account their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is and very quiet. The EASE with which they be managed is a distinguishable feature, and stitch is the strongest, handsomest, and elastic of any made.

What is specially claimed for the "GROVER BAKER" machine is—

That it makes a *stronger* and *handsomer* than is made by hand or by any other machine.

That it makes a more *elastic* seam, which withstand the tests of wear, and washing ironing, better than that made by any other chine.

That the speed at which it can be used is than any other, and the power required to ate it is less than that required by any other chine.

That it is nearly noiseless in its operation.

That its construction is more simple, and bility to disarrangement less than any other.

That it can be quicker learned, more easily in order, got ready for use, and changed one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate ture to the heavier and coarser fabrics.

That it uses thread or silk from the spools—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end every seam; each stitch is independent of neighbor.

Is there a husband, father or brother, who permit the drudgery of old-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to others.

ALLEN & FARRAR

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not liable to get out of repair, call on Mr. Whitemore in Daniel street, see the operation of Grover Baker's machine, and then place one in your family. They will never consent to part with them they understand its operation.

SUPREME JUDICIAL COURT.

The flowage case, Bassett vs. Salisbury Manufacturing Co. was offered on Monday afternoon. The jury left in the afternoon train to view the premises in Kingston, and returned yesterday forenoon, and the trial is now going on. Hatch & Bell for Plff. Chester, Clark and Wilcox for Defts.

During the absence of the jury No. 51, Berry, Adm'r, vs. Brewster was opened and nearly finished, when a prayer offered by the Deft. was ruled out, and the case continued to allow the Deft. to procure competent evidence. Hatch for Plff. Hackett and Marston for Defts.

The next case, No. 50, Maria Pickering and al. vs. Ephraim Fickering and al., being a suit to settle title to a lot in Cedar Swamp, was tried. Hatch for Plffs. Hackett and Rollins for Defts.

☞ We and our subscribers, especially storekeepers who do not open very early, have always been greatly annoyed by having the Daily Chronicle stolen from their doors. So great a nuisance has this become, in several cases, that several subscribers have felt compelled to stop their papers; while many others send to the office for them every morning. Such mean thefts are liable to heavy fines, and we will pay $10 for evidence to convict any man or boy of the offence. And Mr. R. K. Oxford desires us to say that he will pay a like amount also, to find out who steals his paper so often from his store.

☞ The painters engaged on the new Goodrich block of stores, corner of Hanover and Market streets, had a long ladder for a stage, which broke down on Wednesday, letting three men fall to the ground 15 or 20 feet. They were all severely jarred, but had no bones broken.

☞ A gigantic ditch is being constructed in the Kansas gold region, running a distance of 25 miles, with a width of three feet, and a depth of two feet. Its cost will be $23,000, and it is intended to supply water for mining purposes.

☞ Alfred Robinson of Hartford, has in his possession a Hebrew shekel, which is supposed to be more than three thousand years old. They are worth $100 each.

☞ The amount of gold produced during the last ten years by the mines of California and Australia, is said to be $1,400,000.

☞ Four officers have been removed from the Boston Custom House, for not acting with the Custom House wing of the Democracy.

☞ There is high authority for odd matches in this world. Venus, the Goddess of Beauty, was married to a lame blacksmith.

☞ Isaac Edes, Esq., of Peterboro', fell from a tree, or ladder, where he was picking apples, on Wednesday afternoon last, and broke his neck.

☞ The funeral obsequies of Senator Broderick will be celebrated by the firemen of New York on Sunday next, by procession, oration, &c.

☞ The Fitchburg Reveille states that the scarlet fever is becoming very prevalent in that town.

☞ In a speech of Henry Clay, made several years ago in behalf of the American Colonization Society, he said:—

What should they, who thus reproach us, have done? If they would repress all tendencies towards Liberty and ultimate emancipation, they must do more than put down the benevolent effects of this society. They must go back to the era of our Liberty and Independence, and muzzle the cannon which thunders its annual joyous return. They must revive the slave trade with all its train of atrocities. They must suppress the workings of British philanthropy, seeking to ameliorate the condition of the unfortunate West Indian slaves. They must arrest the career of South American deliverance from thraldom. They must blow out the moral lights around us, and extinguish that greatest torch of all, which America presents to a benighted world, pointing the way to their rights, their liberties, and their happiness.

And when they have achieved all these purposes, their work will yet be incomplete. They must penetrate the human soul, and eradicate the light of reason and the love of liberty. Then, and not till then, when universal darkness and despair prevail, can you perpetuate slavery, and repress all sympathy and all humane and benevolent effort among freemen, in behalf of the unhappy portion of our race who are doomed to bondage.

SCENE IN AN INTELLIGENCE OFFICE. A lady in search of help. Biddy in want of place.

Biddy (to the lady)—Do you keep two girls? Is the kitchen on the same floor with the parlor? Have you a canvas carpet on the floor? Have you gas in the kitchen?

Lady—Now, Biddy, if you have got through, allow me to ask you a few questions. Do you speak French? Talk Spanish or Italian? Do you take tea out more than three times a week? Do you play the piano?

Biddy—Indeed, no, ma'am.

Lady—Then you won't do for me. I want a maid with all these accomplishments.

Exit Biddy in search of another office.

FINE READY-MADE OVERCOATS AND BUSINESS COATS, together with an endless variety of Pants and vests, of the latest styles and most approved patterns, may be found at the extensive Clothing establishment of J. W. Smith, & Co., Dock Square, corner of Elm street, Boston. Now is the time to purchase Overcoats and Winter Business suits, and our friends will find an extensive assortment and great variety, from which to make their selections. This firm make it a principle to sell none but good goods, cheap for cash, spare no efforts to please, and warrant perfect satisfaction to all who patronize their establishment.—Their ready-made goods have been made to order in the best manner, expresly for their retail customers. See advertisement in another column.

During our visit to Lowell we were shown through the Laboratory of our celebrated countryman DR. J. C. AYER.—Scarcely could we have believed what is seen there without proof beyond disputing.

They consume a barrel of solid Pills, about 50,000 doses, and three barrels of Cherry Pectoral, 120,000 doses per diem.—To what an inconceivable amount of suffering does this point! 170,000 doses a day!! Fifty million of doses per year!!! What acres and thousands of acres of sick beds does this spread before the imagination!—And what sympathy and woe! True, not all of this is taken by the very sick, but alas, much of it is. This Cherry Drop and this sugared Pill are to be the companions of pain and anguish and sinking sorrow—the inheritance our mother Eve bequeathed to the whole family of man. Here the infant darling has been touched too early by the blight that withers half our race. Its little lungs are effected and only watching and waiting shall tell which way its breath shall turn. This red drop on the table is the tailsman in which its life shall hang.—There the blossom of the world just bursting into womanhood, stricken also. Affection's most assiduous cares avail not, she is still fading away. The wan messenger comes nearer and nearer every week.—This little medicament shall go there, their last, perhaps their only hope. The strong man has planted in his vitals this same disease. The red drop by his side is helping him wrestle with the inexorable enemy; the wife of his bosom and the cherubs of his heart are waiting in sick sorrow and fear lest the rod on which they lean in this world be broken.

O Doctor! spare no skill, nor cost, nor toil, to give the perishing sick the best that human art can give.—*Galveston, Tx., News.*

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR
BICKFORD'S SPRING BALANCE,
for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

The News.

A FORGER BOUND OVER.—*Portland, Nov. 1.*—The examination of James Masterton, who was recently arrested at Haverhill for attempting to pass a forged check at the bank in that place, and who was brought to this city at the requisition of the Governor, for passing a counterfeit check on the Citizen's Bank of New York for $800, at the Manufacturers' and Traders' Bank in this city, in March last, took place to-day. He was bound over in $3000 to appear at the Supreme Judicial Court the last Tuesday of this month.

☞ A Virginia lady has written to Gov. Wise from Fairfax Co., asking for a Sharpe's rifle, and the Governor did send her a rifle, accompanied with a request that she would raise a volunteer corps of women in her region.

Another letter was received from a Boston lady, asking the Governor's permission to go to Charlestown to nurse old Brown, and pledging her honor, while she was a strong abolitionist, that she would take no improper advantage of the privilege.

The N. Y. Post says that Mrs. Lydia Maria Child, the philanthropic and popular writer, is presumed to be the lady who has made application to Gov. Wise for permission to nurse old Brown.

☞ A case was tried in the Supreme Court at Haverhill, recently, in which the amount pending was $4.50. It occupied the Court the whole of one week, and two days of another. It was given to the jury in the evening, who deliberated on it until midnight, but failed to agree. The cost to the county, in the way of jury fees for this trial, will reach the vicinity of $300.

☞ A gentleman in Cincinnati sent a basket of choice wine to a lady friend, but by mistake the servant carried it to the door of a beautiful woman who had a jealous husband. Thereupon, greatly enraged, he proceeded to the lodgings of the donor and administered to him a sound flagellation, after which mutual explanations ensued.

☞ An excursion train on the Northwestern Railroad, from Fondu Lac, Wisconsin, bound to Chicago, run upon an ox and was thrown from the track near Watertown on Tuesday. Eight persons were killed and others mangled. The train consisted of thirteen cars, filled with passengers.

☞ We learn from the Bangor papers that a letter was received at Dexter on Monday, from a Mr. Bates in Illinois, stating that Mr. Wm. S. Cilley, with a young girl, was visiting at his house, and would leave there on Monday morning for some point farther west.

☞ Solon Newton, of Greenfield, Mass., has caught a white woodcock; and Charles Wells, of Sherburne, a *white* red squirrel. The skins are to be sent to the Secretary of the Massachusetts Board of Agriculture for the State House Museum.

☞ Mr. F. B. Cross, of the firm of Cross & Swan, druggists, of Haverhill, died very suddenly of malignant sore throat and membranous croup, at noon of Monday. Mr. Cross has been sick only two or three days.

☞ The Courrier des Etats Unis says that a steamship has been invented by M. Germain, which will make a hundred miles an hour, and can be sailed at one-fifth the cost of ordinary vessels.

☞ Hon. James C. Jones, of Tennessee, is dead. He has long been prominent in politics, was Governor of that State, and for the last six years represented it in the U. S. Senate.

☞ Rev. Dr. Walker has resigned the Presidency of Harvard College. His resignation has been officially laid before the Board of Overseers. Prof. Felton is mentioned as the probable successor.

☞ Hon. Jacob Sleeper was on Tuesday nominated by the Governor, and confirmed by the Council as State Liquor Commissioner of Massachusetts, in place of Hon. Geo. P. Burnham, resigned.

☞ Hon. Jacob Sleeper has declined the appointment of State Liquor Agent of Massachusetts, which was tendered to him by Gov. Banks.

☞ A fugitive slave in Ohio was inveigled at Columbus, seized there, and sent back into slavery in Oabde Co., Virginia.

☞ Hon. B. F. Butler sprained an ankle in getting into a carriage in Worcester last week, and is so disabled that the democratic ratification meeting at Faneuil Hall is postponed to Saturday evening.

☞ Hon. F. P. Blair of Missouri, a few days since, emancipated five slaves, consisting of one man and a mother and three daughters, at the Circuit Court in St. Louis.

FROST IN THE SOUTH.—*New Orleans, 31st.*—There was frost and ice ten miles above this city yesterday, and also in various parts of Mississippi and Alabama.

☞ The Georgia State Railroad has paid into the State Treasury, for the year ending Sept. 30, the sum of $402,000, over and above expenses.

☞ The snow is six inches deep at the Crawford House. So says the Littleton Journal.

Morning Chronicle.

RELIGION AND POLITICS.—Our religion has been Judaized, it has been Romanized, it has been Orientalized, it has been Anglicized, and the time is at hand when it must be Americanized!

Now, sir, you see what Americanizing is in politics;—it means that a man shall have a vote because he is a man—and shall vote for whom he pleases, without his neighbor's interference. If he chooses to vote for the devil, that is his look-out; perhaps he thinks the devil is better than the other candidates, and I don't doubt he's often right, Sir!

Just so a man's soul has a vote in the spiritual community; and it doesn't do, Sir, or it won't do long, to call him 'schismatic' and 'heretic' and those other wicked names that the old murderous Inquisitors have left us to help along "peace and good will to men."

What's the use of using the words that belonged with the thumb-screws, and the Blessed Virgin with the knives under her petticoats and sleeves and bodice, and the dry pan and gradual fire, if we can't have the things themselves, Sir? What's the use of *painting* the fire round a poor fellow, when you think it won't do to kindle one under him?

No, Sir! when a man calls you names because you go to the ballot-box and vote for your candidate, or because you say this or that is your opinion, he forgets in which half of the world he was born, Sir! It won't be long, Sir, before we have Americanized religion as we have Americanized government; and then, sir, every soul God sends into the world will be good in the face of all men for just so much of His "inspiration" as "giveth him understanding."—*The Professor.*

☞ G. R. Hughes of Carlinsville, Ill., is the man who lately shot Williams, the U. S. mail agent at that place. The provocation is said to have been a criminal intimacy between Williams and the wife of Hughes. The community, it is said, justify the act.

☞ The Louisville Journal has no complaint to make against Gov. Wise's lenity in avowing his purpose to let Gerrit Smith off with a lecture, as a penalty for his abolition offences. The Journal thinks the being compelled to listen to the lecture a severer punishment than confinement in the penitentiary.

A well-known provincial bore having left a tavern party of which Burns was one, the bard immediately demanded a bumper, and, addressing himself to the chairman, said, "I give you the health, gentlemen, of the waiter that called my Lord T—— out of the room."

Strong will is the great characteristic of all those who have achieved power, either for good or evil, in the world's history. The will is the most prompt and decisive faculty of the mind, and impels to immediate action.

Friendship does not consist in words, in great dinners, or unmeaning smiles. Show me the man who will break his last loaf with me, and I will call that man friend.

CURIOSITY.—Madame de Puisieux says, curiosity has ruined more girls than love;" and Rocheburne remarks that "daughters who wish to know too much about love, seldom lose time in wishing to practise it."

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to offer the superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from long experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourth—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation:

FOR ALL COMPLAINTS ATTENDING TEETHING: such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we cannot recommend you to loose no time in procuring it—Lastly—It costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it compounds itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUNNT, Druggists, No. 35 Maiden Lane, New York, And by all respectable Druggists throughout the country.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

WITH IMMENSE
HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cark all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.
THE LOTTERIES OF
WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of WOOD, EDDY & CO., are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

The Sagamore House, Frost's Point,
IS NOW OPEN.
This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secresy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

The J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size of any other make than the Clipper.

We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we will still endeavoring by unceasing exertions, to improve—if that be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS
We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, what we have never been able to say of any other medicine, —NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who ever used it. On the contrary, all are delighted with its operations, and comendation of its marvelous effects and medical virtues. We speak, in this matter, *what we know,* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.
This valuable preparation is the prescription of one of the MOST SKILLFUL NURSES EXPERIENCED and has been used with *never-failing success,* in THOUSANDS OF CASES.
It not only relieves the child from pain, but it invigorates the stomach and bowels, corrects acidity, and gives tone energy to the whole system. It will almost instantly relieve
GRIPING IN THE BOWELS, AND WIND COLIC.
and overcome convulsions, which, if not speedily remedied, end in death. We believe this to be the SAFEST and BEST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHEA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

MRS. WINSLOW'S SOOTHING SYRUP.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting good health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been foisted upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Ance bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly suspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall restore the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

The Chronicle.

Portsmouth, N. H.

FRIDAY, NOV. 4, 1859.

THE SMOKER'S CANCER.—The remarkable research made by M. Bouisson upon the danger of smoking, has attracted the attention of the Academie Francaise. Cancer in the mouth M. Bouisson declares to have grown so frequent, from the use of tobacco, that it now forms one of the most dreaded diseases in the hospitals; and at Montpelier, where M. Bouisson resides, the operation of its extraction forms the principal practice of the surgeons there. In a short period of time, from 1845 to 1859, M. Bouisson himself performed sixty-eight operations for cancer in the lips at the Hospital Saint Eloi. The writers on cancer previous to our day mention the rare occurrence of the disease in the lips, and it has therefore become evident that its must have increased of late years in proportion with the smoking of tobacco.

M. Bouisson advises a general crusade to be preached, by the doctors of every country, against the immoderate use of tobacco, as being the only means of exterminating the habit. There is one thing which mankind holds in more horror than a noseless face, or even an excommunicated soul, and that is an untimely death.

☞ On the 17th of Oct., the London Morning Advertiser announced a large secession of clergymen, who are about to form a new Church of England, to be called the Free Church of England. From 60 to 70 clergymen of the establishment, all of them distinguished for their evangelical views, and a number of them popular preachers, met some days ago in London, from all parts of the country, for the purpose of concerting such measures as may give the greatest effect to the intended secession.—They all leave the establishment on purely conscientious grounds—some of them because of their objection to a religious establishment; others because of the prevalence of Popery, under the guise of Puseyism, in the church, with the connivance of the bishops; and the rest because of both reasons combined.

☞ The Baltimore election, Nov. 2, was a scene of terrible rowdyism and murder; a dispatch at 9 P. M. says, "The Americans are rejoicing over their victory. The Reformers deny that anything that can be called an election has taken place. It will be late before the returns are received, as a large number of officers were voted for on the same ticket. In the 17th ward the American ticket has an average of 860 votes, and the highest Reform vote is 24."

The rowdies blocked up the polling places in some of the wards. The police did nothing.

James Johnston, a notorious rowdy, assaulted a voter with an awl, and was instantly shot dead. Many were beaten and chased from the polls by the rowdies.

It was reported that Wm. P. Preston, Democratic candidate in the 3d Congressional district, was shot, but he was afterward lying at Barnum's Hotel badly beaten about the head with a billy. The most reliable account is that Mr. Preston was assaulted at Govanstown, the 9th district of Baltimore County. One account says he was beaten by an Irishman; it is difficult in the face of so many reports to arrive at the truth.

In the 11th ward, the stronghold of the reformers, Mr. George M. Gill made a speech announcing the withdrawal of Mr. Thomas, the reform candidate for District Attorney, when the reformers, finding it impossible to do anything, all withdrew.—They did nearly the same in other wards.

A dispatch says that about 30 were shot, but the report may be exaggerated. It also gives the names of R. R. Kirkland, —— Johnson, Henry Herring, Jr. and Adam Kyle, Jr. as among the killed.

Further returns from the Maryland election, indicate that the Americans have carried Baltimore city by about 18,000 majority, and that they have made gains in the fourth and fifth Congressional districts.

FIRE AT SUNCOOK.—*Concord, N. H., Oct. 3.*—The Pembroke Cotton Mills at Suncook Village, were burned this morning. The fire originated in the picker room, about half-past 9 o'clock, extending to the main buildings, which were consumed. The town bridge, across the Suncook river, was also destroyed. There were two mills, one brick and one wooden.

A counting-room, picker-room, and one dwelling, on the opposite side of the river, were also burnt. All belonged to the company. Insured for $70,000 to $90,000; loss $130,000. Principal owners, Weld & Minot, Thomas Howe, W. Robeson, and M. Pope, all of Boston.

Two hundred and fifty operatives are thrown out of employment.

☞ Our friend of the Ballot, of Exeter, makes the small mistake of stating that Geo. P. Burnham is liquor agent for New Hampshire, as well as Massachusetts. Mr. E. A. Boardman, of Boston, is the State Agent for New Hampshire,—appointed last year by Gov. Haile, reappointed this year by Gov. Goodwin.

OLD BROWN CONVICTED.

The solemn farce of trying "Old Ossawatomie Brown" was closed at Charlestown, Va., on the 2d of November, as follows:

Brown was brought in, and the court house was immediately thronged.

The Court gave his decision on the motion for the arrest of judgment, overruling the objection that treason cannot be committed against a State. He ruled that wherever allegiance is due, treason may be committed. Most of the States have passed laws against treason. The objections as to the verdict rendered, the Court regarded as insufficient.

The Clerk then asked Brown whether he had anything to say why sentence should not be pronounced upon him.

Brown immediately rose, and in a clear distinct voice, said:

I have, may it please the Court, a few words to say. In the first place, I deny everything but what I have already admitted, of a design on my part to free slaves; I intended, certainly, to have made a clean thing of that matter, as I did last winter when I went into Missouri, and there took slaves without the snapping of a gun on either side, moving them through the country and finally leaving them in Canada. I desired to have done the same thing again on a larger scale. That was all I intended. I never did intend murder, or treason, or the destruction of property, or to excite or incite slaves to rebellion, or to make insurrection. I have another objection, and that is, that it is unjust that I should suffer such a penalty. Had I interfered in this manner—and which I admit has been fairly proved, for I admire the truthfulness of the witnesses who have testified in this case—had I so interfered in behalf of the rich, the powerful, the intelligent, the so-called great, —or in behalf of any of their friends, either father, mother, brother, sister, wife or children, or any of that class,—and suffered and sacrificed what I have in this interference, —it would have been all right. Every man in this Court would have deemed it an act worthy of reward, rather than punishment. This Court acknowledges, too, as I suppose, the validity of the law of God. I see a book kissed which I suppose to be the Bible, or at least the New Testament, which teaches me that "all things whatsoever I would that men should do to me, I should do even so to them." It teaches me, further, to "remember them that are in bonds, as bound with them." I endeavored to act up to that instruction. I say I am yet too young to understand that God is any respecter of persons. I believe that to interfere as I have done, as I have always freely admitted I have done in behalf of his despised poor, I did no wrong, but right.

Now it is deemed necessary that I should forfeit my life for the furtherance of the ends of justice, and mingle my blood with the blood of my children, and with the blood of millions in this slave country, whose rights are disregarded by wicked, cruel and unjust enactments. I say, let it be done.—Let me say one word further: I feel entirely satisfied with the treatment I have received on my trial. Considering all the circumstances, it has been more generous than I expected, but I feel no consciousness of guilt. I have stated from the first what was my intention, and what was not. I never had any design against the liberty of any person, nor any disposition to commit treason or excite slaves to rebel or make any general insurrection. I never encouraged any man to do so, but always discouraged any idea of that kind. Let me say also in regard to the statements made by some of those connected with me. I hear that it has been stated by some of them that I have induced them to join me, but the contrary is true. I do not say this to injure them, but as regarding their weakness. Not one but joined me of his own accord, and the greater part at their own expense. A number of them I never saw, and never had a word of conversation with till the day they came to me, and that was for the purpose I have stated. Now I have done.

While Brown was speaking, perfect quiet prevailed, and when he said he had finished, the Judge proceeded to pronounce sentence upon him.

After a few preliminary remarks, the Judge said that no reasonable doubt could exist of the guilt of the prisoner, and sentenced him to be hung in public, on Friday, the second of December next.

Brown received his sentence with composure. The only demonstration made was by the clapping of the hands of one man in the crowd, who is not a resident of Jefferson county. This was promptly suppressed, and much regret is expressed by the citizens at its occurrence.

☞ The correspondent of the London Times on board the Great Eastern, furnishes the following. After giving his reasons for the opinion that she will not leave England for America before the middle or end of this month, if she leaves this winter, he says:

"In the meantime she still remains a show ship at Holyhead, visited daily by thousands and thousands. Almost every hour brings in heavily laden passenger trains. The daily number of visitors is greater now than ever it was at Portland, and all the chief seaports of the United Kingdom where the Great Eastern could stay, and very many also where she could not, are clamorous in their solicitations and invitations to get her round."

An anecdote relative to the late Professor Wilson is now circulating. When the suitor for the hand of the Professor's daughter had gained the young lady's approbation, he was of course referred to papa. Having stated his probably not unexpected case, the young gentleman was directed to desire the lady to come to her father, and doubtless her obedience was prompt. Prof. W. had before him for review some work, on the fly-leaf of which was duly inscribed, "With the author's compliments." He took this out, pinned it to his daughter's dress, solemnly led her to the young lover, and went back to his work.—*Atlas.*

☞ There is a new Swedish singer, M'lle Roesk, who is said to be equal to Jenny Lind.

A NEW CAVALRY CORPS IN NEW HAMPSHIRE.—At the last session of the New Hampshire Legislature a charter was granted incorporating an independent cavalry corps to be called the "Governor's Horse Guards." It is proposed to raise a double squadron, composed of 200 or more of "ye solid men" of the State, which shall have its head-quarters at Concord, parading once each year, or oftener, but always performing escort to the Governor on his annual entry into the capital in June. Some of the first and most energetic citizens of the State are interested in the movement, and it is proposed to form a squadron of horsemen not surpassed in the United States.—Notice is given in the New Hampshire papers that the first meeting of the corporation will be held at the Council Chamber at Concord on Thursday, the 10th of the present month.

☞ Rev. J. H. Templeton, of St. Louis, who owns $200,000 in real estate in that city, has been expelled from the Presbyterian ministry by the presbytery and synod, for Sabbath-breaking, drunkenness, and renting houses to and visiting lewd women. In his defense Mr. Templeton urged that he had never drank anything stronger than beer; that he had never preached without saving thirty or forty souls; and that in all he had probably been the means of the conversion of as many as 2000 souls.

☞ The Cardinal Archbishop of Malinese, Primate of Belgium, has published a pastoral letter to the clergy and faithful of his diocese, denouncing the attacks which are being made on the temporal power of the Pope. He says that in the unfortunate provinces of the Romagna evil is at its hieght. The faithful are therefore called upon to pray more earnestly, to multiply their fastings, alms and other good works—in a word, to "spare no means calculated to appease the wrath of God, which has fallen on those christian populations."

HINT TO A CLERGYMAN.—Among the resolutions introduced at the late Western Virginia Methodist Episcopal Conference, was the following:

Whereas, Brother Clawson has, up to this time, been disappointed in his expectations of anticipated fortune; and whereas his anticipations have been the means of producing financial difficulties,

Resolved, Therefore, that this conference earnestly solicit the brother to incur hereafter no further debts on the expectation of said fortune, until developments shall be made sufficient to warrant an assurance that said fortune will absolutely be realized.

☞ Madame Jenny Lind Goldschmidt performed at a miscellaneous concert in Dublin Oct. 3. The Freeman's Journal says that the appearance of the fair singer created quite a scene, all the vast assemblage seeming to bend forward, whilst peal after peal of welcome greated her.

CORN.—Here is a fact worth knowing, if true. William S. Morgan of Warren county, Indiana, writes that seed from the butt end of an ear of corn will ripen its product all at the same time, and some three weeks earlier than seed from the little end of the same ear. He recommends farmers always to break their seed corn ears in two in the middle, and use the butt ends only for seed.

☞ In the Portland Municipal Court, Nov. 2, Thomas Tracy, for selling a glass of intoxicating liquor to George M. Dow, was fined $10 and costs. Tracy paid the fine and costs, and was discharged.

Frank Murphy, on a complaint charging him with keeping a drinking house and tippling shop, was ordered to recognize in the sum of $200, with sureties, for appearance at Court.

☞ A letter from California, noticing Gen. Sutter and the old pioneer's financial carelessness, said he had once given a note for $9000, with interest at ten per cent. a month, to be compounded at the end of each month. At these liberal and reasonable terms the note was not long in reaching the sum of $85,000, for which amount the creditor took judgment, and levied upon his estate.

ORDINATION.—Mr. Charles T. Melvin, a recent graduate of Andover Theological Seminary, was ordained, as an evangelist, in Chester on Tuesday, Oct. 18. Invocation by Rev. T. C. Pratt, of Hampstead. Introductory prayer by Rev. H. O. Howland, pastor of the church in Chester of which Mr. Melvin is a member. Sermon by Rev. Joel R. Arnold of Coventry, Conn., formerly pastor of the same church.

☞ Mrs. Harriet Beecher Stowe, who, with her husband, has been residing in London for the past three months, is about to proceed to Switzerland, where she will remain during the winter, with her daughter; her husband, Prof. Stowe, returning to America forthwith.

☞ The Washington correspondent of the New York Journal of Commerce says that the Douglas anti-Lecompton members are hostages for the good behavior of Douglas in the party, and will not support the Republican nominee for the Speakership.

Judge Black is reported to be preparing a rejoinder to Douglas.

GIVE THE BABIES WATER.—In a late number of the Eclectic Medical Journal, the editor remarks that young babies often cry from actual thirst. Their natural supply is intended as food, not as drink, and makes them thirsty without really quenching the thirst as a cool liquid would. They cry, he thinks, for cold water. Many a mother is anxious to know what ails the little sufferer, that it should cry so loudly, and imagining it to be suffering from pain, administers some unnecessary opiate or painkiller, when all the child needs is a few teaspoonfuls of good, pure, sparkling cold water.

☞ Returns from all but eight counties in Iowa, show a majority of 3044 for Kirkwood. The remaining counties gave a Republican majority of 276 last year. The Republican majority, on joint ballot, in the Legislature is 24.

It is said that special and urgent representations have been dispatched to Gov. Wise, by the democratic leaders of New York, entreating him not to hang Old Brown—at least, not till after election—as his execution would spoil all of the party capital that they are making out of his late raid.—*Atlas.*

☞ In Oswego, N. Y., the farmers have sold at least fifty thousand barrels of apples within two months, at prices ranging from $1.25 to $2.00 per barrel.

☞ The first Arab newspaper ever published in the Turkish Empire, and out of Constantinople, has been commenced at Beyrout.

A convict, who was about to be sent to the House of Correction, was told they would set him to picking oakum. "Let 'em try it," said he, "I'll tear their oakum all to pieces."

☞ The American Stock Journal, for November, (a valuable monthly for the stock farmer) contains an essay on *Water*, as an indispensable agent in raising fine cattle; and on watery food, as turnips, and the like.

KANSAS ELECTION.—*St. Louis, Nov. 2.* A special despatch to the Republican gives the official vote of the recent elections in Kansas, as follows: For the Constitution 10,419; against it 5550. For the Homestead Law 8758; against it 4772.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston,—*Sirs*,—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S
Celebrated Family Sewing Machines

NEW STYLES.
PRICES FROM $50 TO $195.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, so purchased from the store, requiring no rewinding thread, and finishing each seam by their own operation, without recourse to the hand needle as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of the neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than can possibly be done by hand?

ALLEN & PAINE.

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your Family. They will never consent to part with it, after they understand its operation.

☞ It is well known that the Boys' Recitation Room at the High School has been loudly and long complained of, as too small, feebly lighted, not ventilated. Well, the Aldermen voted to alter it in one way, and the Common Council in another; and the two Boards refusing to agree on either plan, the boys have suffered on in the miserable little pen. But a few days since, one of the boys fainted in that room—which decided the matter at once; and at the last meeting of the Aldermen,

Upon a renewed application of the High School Committee, it was voted that the Board of Aldermen assume the responsibility of making the alteration in the recitation room of the Boys' High School, in accordance with the previous vote of this Board and the recommendation of the High School Committee, and that the same be referred to the committee on school-houses to carry said vote into effect.

This has accordingly been done, and we hope the boys will have sufficient air to breathe, and light to see by,—though we can't see where it is to come from, since the Aldermen's plan, as adopted, gives no new window in their room for air, and only a couple of panels cut from a door, and glass substituted to let in light. The Common Council's plan would have given two more windows, and saved the front entry untouched.

MECHANIC ASSOCIATION.—The annual meeting of this Association was held at the Court House on Tuesday evening last.—The annual reports of the Secretary and Treasurer being read, accepted and disposed of in the usual way, John Knowlton was called upon to preside as Moderator during the election of officers, which resulted as follows:

Samuel W. Moses, *President.*
Marcellus Bufford, *Vice President.*
Nathaniel D. Miller, } *Trustees.*

☞ It will be seen by the advertisement, that Rev. Mr. Gangooly is to deliver the next Lyceum lecture, on Tuesday evening. He was a Hindoo Brahmin or Priest of high rank, but is a convert to Christianity, and now studying in this country to prepare himself as a Missionary among the Hindoos. He will appear in the full dress of the Brahmins, and will tell of their "Manners, Customs and Peculiarities." His lectures have been well received in the larger cities; and many who heard him at the Unitarian Convention here recently, desired to learn more of the singular people concerning whom Mr. Gangooly is so well qualified to speak.

☞ In accordance with the petition of voters in School District No. 3, asking the Aldermen to call a district meeting, it was voted that a meeting be called at the Lafayette school house, on Tuesday, Nov. 15, at 7 o'clock.

We hear of numerous aspirants for the office of mayor, the most prominent of which is Samuel P. Treadwell, Esq. The Democrats could not find a better man on whom to bestow their suffrages. Mr. Treadwell is a gentleman of the old school, but we cannot agree with him in politics.—*Ballot.*

☞ Coppie's or Copp's trial, at Charlestown, Va., was closed in the most summary manner, Nov. 2. After being out an hour, the Jury came in with the verdict that Coppie was guilty on all the counts in the indictment. His counsel gave notice of a motion for arrest of judgment, as in Brown's case.

NEW YORK, Nov. 3.—The special correspondent of the Herald states that it has been decided on by the Virginia authorities to hand over Cook to the U. S. Court, in the Harper's Ferry District, for trial.

☞ On Monday last, Jeremiah Parker, residing in the westerly part of Goffstown, eloped with the wife of Alonzo Foote. Several months ago Parker left his own wife, and the woman has left a husband and four or five children, all under seven years of age.

☞ We regret to learn that Mr. Sampson L. Russell cut his hand badly, on a circular saw at his wood-yard in Water street, on Thursday morning.

TEACHERS' INSTITUTE.

The Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.

The session will commence on MONDAY, Nov. 14th, at 10 o'clock, A. M., and continue through the week.

The following instructors have been engaged: CHARES NORTHEND, A. M., New Britain, Conn. J. D. PHILBRICK, A. M., Sup. Schools, Boston. DR. LOWELL MASON, New York City. SANBORN TENNEY, A. M., Auburndale, Mass.

Evening Lectures will be given by the Instructors and others, of which due notice will be given.

Board will be furnished at a rate not exceeding $1.50 for the session.

Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant 5 miles. Coaches will be provided to meet the morning trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, 25 cents.

School Committees and the friends of education generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers. All the exercises are open to the public, and all interested are invited to attend.

Teachers wishing to secure board may address any of the Committee of Arrangements at Hampstead.

STATE OF NEW-HAMPSHIRE.
A PROCLAMATION
FOR A DAY OF PUBLIC THANKSGIVING AND PRAISE.

By his Excellency ICHABOD GOODWIN, Governor.

That a christian people should unite in public Thanksgiving to God, for all his mercies, temporal and spiritual; for crowning the year with His goodness; for the happy ingathering of the plentiful fruits of the earth; for the success of private industry; for public prosperity, and social, civil and religious privileges; is not only sanctioned by ancient and honored custom, but is in itself eminently fit and becoming.

I do therefore, with the advice of the Executive Council, appoint THURSDAY the twenty-fourth of November, as a day of public Thanksgiving and Praise; and recommend to all the people of this State, that they assemble in their respective places of public worship, to offer to Almighty God, their grateful acknowledgements for the gifts of his grace through Jesus Christ, imploring His protection and blessing upon us as individuals and as a people; and for our continued prosperity, freedom and happiness both as a state and nation.

Let the occasion be not only observed as one of religious joy and christian thankfulness, but let it also be marked by special acts of humanity, benevolence and charity.

Given at the Council Chamber in Concord this twentieth day of September in the year of our Lord one thousand eight hundred and fifty nine, and of the independence of the United States the eighty-fourth. ICHABOD GOODWIN.

By his Excellency, the Governor, with advice of Council.
THOMAS L. TULLOCK, *Secretary of State.*

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.
These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.
TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents,

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

76 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him, he believes, peculiarly able to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on twice rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in his favor, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering child, instead of by deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence, and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising: for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle must be strictly followed. Price, 25 cents per bottle.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into the market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for putting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, nourishing THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 1y

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

HOTEL FOR SALE.

The Cape Neddick House, York, Me.,

With 10 acres of good LAND, on which is a considerable number of Fruit Trees, and a large STABLE and Sheds adjoining. Situated on the main road from Portsmouth to Portland, about two miles from York and the Beach; with a good run of business travelling custom, and a popular resort for summer visitors. Possession given next Spring, or earlier if desired. Apply in person, or by mail, to MELVILLE C. FREEMAN,

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrounding their lives to the ravenous jaws of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent to anyone or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and enclosing sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j3 d1y

CLIPPER PLOWS

Are manufactured only by the subscriber, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards draft, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size of any other make than the Clipper.

We also assure our Farming friends that we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if that be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantage which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

MRS. WINSLOW,
An experienced Nurse and Female Physician, presents to the attention of Mothers, her
SOOTHING SYRUP,
For Children Teething.
Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is
SURE TO REGULATE THE BOWELS.
Depend upon it, mothers, it will give rest to yourselves, and
RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and can say *in confidence and truth,* of it, what we have never been able to say of any other medicine,—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter, *"what we do know,"* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, relief will be found within fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILLFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but it invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe this to be the most sure, safe, and speedy remedy in the world in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others,* stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper throughout the world. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

AYER'S SARSAPARILLA,
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Yara Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing great ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acnce bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is hatefully espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PREPARED BY
DR. J. C. AYER & CO.,
LOWELL, MASS.
PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Gravel, Worms and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our American Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. The sick want the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized world. 6m—je14

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOV. 5, 1859.

THE STATE REFORM SCHOOL.

We have had a call from Mr. Thomas Lyons of this city, with whom we had no previous acquaintance, but who seeks, through the Chronicle, to correct some errors, into which he was led by an article published in the New Hampshire Democrat before the last election, and copied into other papers, to prejudice people against the school and its management,—for the purpose, it would seem from the Democrat, of selling the farm and house at auction,—and buying an island in the lake, (near where the Democrat is printed,) and building another!

Mr. Lyons informs us that he has a son, who for truancy, was taken up in this city some time ago, and sentenced to the Reform School for two years.

At that time he was prejudiced against the school, by persons who desired to get up a storm against it, to make capital for the election,—and who did not fail to exhibit the article against it, in the Democrat.

At his suggestion, we copy a part of the article, which he then believed to be true.

"The simple, single and beneficent idea entertained at the outset in this matter by the *Democratic party*, of providing a place wherein a few of the most abandoned youths, who could not be controlled at home, might be *restrained and reformed*, has been lost sight of. A set of moral dandies have taken it in hand; they have formed a bragging society; they have indulged in the pleasant recreation of viewing themselves and each other through a magnifying glass, until they have persuaded themselves that they are philanthropic giants—that an old worthless, barren farm is to rival in luxuriance the garden of Eden; —and a few rowdy boys and loose females are adopted as a species of State pets, like tame snakes and rib-nosed baboons, caged in a palace, attended by salaried keepers, who put them through a set of puerile shindies and monkey-shines, to the immense edification of the moral dandy gentlemen, and at a fast increasing expense to the State.

This institution, as it has operated under Republican management, has progressed far enough to render it certain that the real interests of the State would be best promoted by the *immediate sale* of the farm and building already erected, to the highest bidder, before the State becomes any more deeply involved, and *then if* any institution of the sort is necessary, let the State *purchase* an island in Lake Winnipisseogee, *build* a cheap structure, and make the institution support itself, as it might easily do.

Look at the facts. The farm, which has been bought at the rate of one hundred dollars per acre, is nearly worthless for cultivation. It is cold, springy, sour, clay land, occasionally interspersed with sand banks, adapted only to the production of white birches, which grow to just about the size requisite to cut for rods with which to flog boys; and this appears to be the only respect in which it has proved to be apapted to the requirements of the "reform" school. From its proximity to Manchester, the land may at some day be worth something for building purposes; but had it not been for the traditionary associations connected with it as the "Stark farm," it is probable no one would have thought of selecting it for cultivation.

It may, indeed, answer for a "model farm," on which to try expensive experiments in "draining," "ditching," "*kid glove farming*," generally at the expense of the State, in order to ascertain how near an approach can be made to the sublime result of getting nothing from nothing.

A few days ago, taking advantage of an excursion train, Mr. Lyons visited the school, and had a fair chance to see how things were at that place, in their every day dress. He was most agreeably disappointed, and comes back with the full conviction that the article above quoted was *intended to deceive*,—as it really did deceive him.

He found the buildings plain but neat in their construction, airy, and well located; and kept very neat and clean, inside and out.

He found the farm a good one, with a variety of soil, appearing, very well and from the crops, quite productive for this season; bearing every mark of skilful and faithful tillage by Mr. Shattuck the keeper, by his assistants and the boys. He saw a good heap of corn, much above the average for this year, of which he brought home a couple of ears as a fair sample.

As it was near dinner time, and as he went on purpose to examine things, he sought permission to see the boys' table.—This was granted at once, and he dined with the boys and the workmen, who ate together. He does not desire a better dinner; it consisted of good meat well cooked, brown bread of the best quality, cheese, bread pudding, tea and coffee.

He learned that the time of the boys, during the usual hours of labor, was divided between farm work and school. Asking his own boy all the questions he chose, he received for answers, that he was well treated every way, as to food, employment, and instruction; that he was contented and had no desire to run away, as he liked the superintendent and the teachers.

He saw no worthless land; no rods to flog the boys with; and no kid-gloved farmer; but he saw good land well tilled; was told that no whipping had been done to boys at all; and he shook hands with the keeper, Mr. Shattuck, who had a hand as well hardened as his own.

In short, he has been changed, by a fair look over the Reform School, and a survey of its teachers and scholars, from a foe to a friend, of what he now deems an excellent institution.

A New and Important Bank Rule. The New York Post states that a number of the banks of that city, in view of recent losses from forged checks of three and four thousand dollars each, have determined to adopt a rule to pay checks as presented, and, whether forged or not, to charge the depositor's account with the amounts paid. When amounts are made up, if discrepancies occur between the bank and the customer, and a forged check is found to be the cause, the corporation is to throw the *onus probandi* upon the customer, and compel him to prove the check a forgery, or, in other words, the customer must prove to the satisfaction of the bank that he is honest.

A very *important* rule, truly, and a very *droll* one. Suppose we carry the same principle one step farther. Let each bank take all the *counterfeit bills* it can, of all other banks, and in settlement compel every bank to pay or prove something about every bill forged in its name!

Marine Disaster.—Schooner Orlando, of and from Boston for Aux Cayes, arrived at Hamilton 13th ult., in distress, in charge of Mr. Frisbee, the mate. In the gale of the 5th inst., lost head of foremast and all the spars and sails attached, with the fore boom and main gaff. During the gale Capt. Lang, the master, while standing in the companion-way, had his head so badly crushed by the main boom that he expired in a few minutes.

☞ From Jamaica we learn that some highly interesting discoveries have been made at Port Royal by a company of divers, in the harbor of that ancient town, of remains of the submerged city, which was overthrown by the great earthquake of 1692. Could any considerable portion of the enormous treasure buried there be discovered, it would be a windfall to the island.

Sad Tale.—The Manchester American of Thursday says:—

Ebenezer Peaslee, Esq. died at his residence in Weare, last night. He was a man of considerable business capacity, genial impulses, and active habits. He has fallen a victim to the prevailing crime of intoxication, and though in the prime of life, and in the possession of a competency, ended his days in a state of frantic delirum. He was 43 years of age.

☞ In some parts of Virginia meetings have been called to appoint vigilance committees, and to petition the Leislature to give the border counties a corps of armed men, officered and paid by the State, whose sole duty it shall be to guard the property of citizens, arrest suspected persons, and exercise a rigid police surveillance.

An orator holding forth in favor of women, concluded thus—"Oh, my hearers, depend upon it, nothing beats a good wife." "I beg your pardon," replied one of his female auditors, "a drunken husband does."

☞ The New York Independent says that railroad companies have to depend entirely upon their own resources, and being unable to borrow money to pay interest on bonds or dividends on stock, both the one and the other go unpaid—in most cases the earnings not being sufficient to pay any, or even to maintain the roads in efficient repair.

Singular Phenomenon in the City. Last week in the Bankruptcy Court, a Bankrupt "left the Court without the slightest stain upon his character." The phenomenon we are told, is to be exhibited at a shilling a head.—*Punch.*

☞ The Maine Temperance Journal states that there are now in that State about 150 Divisions of the Sons of Temperance, and that charters for new divisions are being issued daily. There are now connected with the Divisions in Maine about 5000 male members, and an equal number of ladies.

"My son, what would you do if your dear father was suddenly taken away from you?" "Swear and chaw tobacker."

☞ The Portland Steam Packet Company have contracted to take 20,000 bbls. of flour (to come by the Grand Trunk Railway from Canada) to Boston this winter.

With nations, as with individuals, a submission to insult serves but to authorize a repetition; and forbearance under injuries is frequently construed into an inability to redress them.

☞ The Lynn Mechanics' Association give notice of their intention to petition the Legislature for an act of incorporation, including the right to manufacture boots and shoes, the capital not to exceed fifty thousand dollars.

In going to parties, just mind what you're at,
Beware of your head and take care of your hat,
Lest you find that a favorite son of your mother
Has an ache in the one, and a brick in the other.
—*Saxe's Advice to Young Men.*

Great Failure.—A large failure has taken place in Russia, where speculation of all kinds has lately been rife. The house is that of Alexieff & Co., Moscow, and their liabilities are said to amount to $3,000,000. So vast is the disaster, that the Russian government is expected to interpose. It has been brought about by speculation in sugar, indigo and other produce. The firm had a high repute, and the principal partners inherited from their father $5,000,000.

Premonitions Realized. — The Indianapolis Journal says that Mr. James Wood, the engineer killed a few days since on the Bellafontaine Railroad, had for several weeks premonitions of his death, and but a few days since emptied his trunk of all its letters, and burned them, making remarks at the time, in a playful manner, when interrogated as to his motive for destroying his correspondence that it was best to make that disposition of such documents before he died. He fancied he saw several times a red light—the railroad signal of danger—near the spot where the catastrophe happened, but treated the matter as an illusion.

Mob Law in Great Falls, N. H.—A correspondent of the Boston Journal at Great Falls, N. H., states that on Saturday evening a mob "composed, it is said, of some of the first citizens," entered an oyster and refreshment saloon on Main street, kept by a Mr. Rowe, and wantonly destroyed property to the value of several hundred dollars. Some difficulty had occurred in the saloon in the course of the evening, between the proprietor and an expressman, which led to a quarrel between the former and a friend of the latter named Luther Thompson. Rowe assaulted Thompson, and there was a rough and tumble fight between the two. It was to avenge Thompson that the property in the saloon was destroyed, besides which Rowe was fined $5 and costs for the assault.

Sporting Honor.—One of the ablest of the English judges has recently declared from the bench his objection to upset a decision of the Jockey Club, because, he said, it was the most honorable tribunal in the world.

ASSIGNEE'S NOTICE.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

He was so altered that we knew him not.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

Watertown, N. Y., July 28, 1858.

S. W. Fowle & Co., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

For sale by HENRY F GERRISH

GROVER & BAKER'S

Celebrated Family Sewing Machines

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, or pipe chased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER

SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The ease with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "Grover & Baker" machine is—

That it makes a *stronger* and *handsomer seam* than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the ordinary *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of the neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a Grover & Baker Machine will do it better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

Portsmouth, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of Cloaks, Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.

ALLEN & PAYNE.

Portsmouth, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

PORTSMOUTH SHIPS.—The new ship built by Messrs. Tobey & Littlefield, at Noble's Island, has been sold to Capt. Richard H. Tucker, of Wiscasset, Me., for about $36,000. Her name is to be "Richard III" —for the grandson of the owner, and not for the illustrious king. She is to be commanded by Capt. Scott of Wiscasset, and is intended for the Charleston trade. She will be launched soon and made ready for sea in about four weeks. This is the seventh ship which has been purchased in Portsmouth by Capt. Tucker, five of which have been built by Messrs. Tobey & Littlefield, who have gained the reputation of building some of the finest ships in the world. The Morning Light, Sierra Nevada, Othello, R. H. Tucker, Alice Ball, Donati, and others were built by them, and are well known and highly spoken of in all commercial cities. The Richard III. is about 1000 tons burthen, of a fine model for a freighting ship, and being built of the best material that the country affords, and under the superintendence of such experienced and faithful builders, she can hardly fail to prove a durable ship, and a profitable one to her owners.

Messrs. John Neal and others also have a ship on the stocks at the Badger yard, across the river, nearly completed,—built to order.

☞ On Friday evening, a small coarse shed in rear of the C. & P. Railrord machine-shop, on Deer and Bridge streets, was burned—probably by sparks from an engine.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

☞ Mr. Josiah Tobey desires us to say that he resigned his situation at Boon Island Light—and was not removed, as stated.

☞ The Cleveland Herald, speaking of Capt. John Brown's wool operations, says that he initiated the system of grading wools, a system at this day universally adopted, and with perfect success; but the New England manufacturers combined against him. He had at Springfield, Mass., a large deposit of Western graded wools, and he warred against the combination of New England manufacturers, who, having had the wool buying all their own way, did not fancy that a party should step in between them and the producers, to show the latter what was for their interest, and to prevent the practice of impositiod upon them. The combination was successful, and Brown, impetuous and indignant, shipped his wools to England, to find out that the price in Massachusetts was better than in England. He re-shipped his wools, took them to Bremen, and sold them at such a sacrifice as to ruin himself, pecuniarily, and seriously injure many friends.

GET READY FOR THE "CENSUS MAN." Next year will occur the great decennial census of the United States, made by the general government. Every cultivator will be asked for a concise, accurate statement of land occupied by him, the number of acres and the amount of each crop raised during the year ending June, etc. As these reports will be called for in June, it will be necessary to give in the crops gathered this year, and what we would say now is, that cultivators should write down, while fresh in their minds, the number of acres under cultivation, including the wheat, etc., already gathered. The number of acres of each kind, the amount per acre, and the gross amount, will be required. The milk products also, and the amount of pork, beef, etc., will be asked for.

☞ Few persons have any idea of the annual expense attending the repairs of railroads. In England, for instance, no less than thirty thousand tons of iron are required every year for the necessary repairs of the tracks on the different roads. Twenty millions of wooden sleepers are replaced annually, useless from decay. This item alone requires the felling of three hundred thousand trees, occupying five thousand acres of land.

In Bohemia Prince Schwartzenberg has forty or fifty thousand acres of primitive forest, averaging over a hundred cords of wood to the acre. In many localities in the interior of the forest, the trees stand in straight lines from 150 to 200 feet long, as if planted so. The lines show where some departed giants have fallen, the seeds germinating more readily in the mouldering substance of the departed veterans than in the deep vegetable soil Some of the old pines and firs are from 300 to 500 years old. One of the finest firs, ten feet in diameter six feet from the ground, was blown down lately; it contained twenty-five cords of wood. These forests used to be infested with wild beasts, bears and lynxes. A solitary bear—the last of his race—still haunt s the Jocus Wald, if he has not given up his bachelor ghost within a few months.

☞ Rev. J. L. Shuck, in a recent discourse in Sacramento, on duelling, stated that the Chinese never had the custom, but that it existed in Japan, where it was connected with one very important provision. The combat was expected to be in earnest, and when one of the combatants fell mortally wounded, the survivor was by law compelled to take his own life.

Course Tickets 75c. Evening Tickets 25c.

TUESDAY EVENING, Nov. 8th,

Rev. Mr. GANGOOLY will Lecture (in full Brahmin costume,) on the Manners, Customs and Peculiarities of the Hindoos.

Hon. HAMPDEN CUTTS, Tuesday, Nov. 15. Readings from Shakespeare and others.

Rev. J. G. Adams will lecture.

Albert Laighton will read a new Poem.

And there will be two other lectures or concerts, of an equally high order with those named.

☞ Tickets may be had at Preston's, N. P. Thacher's, J. H. Thacher's, and the Door. Doors open at half-past 6, Lecture at 7 1-2.

☞ The fact can at any time be demonstrated that a Grover & Baker Sewing Machine is a blessing in the family; that the long and weary hours spent in hand sewing can be materially shortened, and a pleasure made of a task; that days and weeks can be gained for recreation or mental improvement; the body and soul freed from the thraldom of the needle, and a new era of health, happiness and contentment dawn on the weary one who now continually and vainly endeavors to find a release for body and mind from the never-ending, insatiable demands upon her energy and time.

BALTIMORE, Nov. 3.—The returns indicate that the Democrats will have a majority the House, but there is doubt as to Senate. The returns from the city wards are not complete yet. The Americans will have about 17,000 majority, which, of course, secures their State ticket.

So far, there appears to be no change in the Congressional delegation.

The inquest on Kyle is not concluded yet. The Central Reform Committee have held a meeting in which they expressed their deepest indignation and distress at the murder of their respecable and excellent fellow citizen, Adam Kyle, Jr., at the polls of the 15th Ward; and also resolved to attend his funeral to-morrow morning, inviting all the lovers of law and order to unite in the funeral procession.

NEW YORK, Nov. 2.—The morning steamer Champion for New Haven, came in collision, off Matinicook, with propeller Albatross, from Providence, and sunk instantly. Three passengers and one fireman missing; supposed to be drowned.

The Champion had between thirty and forty passengers and a crew of ten men.—One of the missing is a Mr. Steele, of New Haven. At the moment of concussion the boiler of the Champion exploded, scalding one fireman to death. The remainder of the passengers and crew were taken off by the Albatross. The Champion had a large amount of freight, which, with all the baggage is lost. She did not belong to the regular line of New Haven boats, but had this morning taken the place of the Traveller, which was damaged yesterday in collission with a schooner.

Capt. Jones, of the Albatross, says the Champion tried to cross her bows, paying no attention to his signal. Mr. Geo, Steele, tea merchant, of New Haven, is lost, he leaves a wife and three children.

FREIGHT TRAIN SMASHED UP.—*Albany, Nov.* 3.—Between 11 and 12 o'clock last night, a freight train consisting of forty-one cars, ran off the track at the entrance to the city on the heavy down grade, and on reaching the corner of Van Woert street, the locomotive, one of the largest on the road, was overturned, and a general smash-up followed. Eight of the freight cars were shivered to atoms, and their contents scattered about in all directions. The remainder of the train was more or less injured by the concussion, the locomotive being very brdly damaged. No lives were lost nor any one injured.

FLORA'S MILE AT KALAMAZOO.—The editor of the Detroit Advertiser states, for the benefit of those who cannot even yet realize the wonderful performance of Flora Temple of a mile in 2:19 3-4, at Kalamazoo, that the track at that place over which Flora went has been measured, and proves to be a fraction over a mile, at a line drawn four feet from the pole.

☞ The owners of Pilot have recently challenged Ethan Allen to trot a race for $2500 a side, mile heats, best 3 in 5, in harness; and the owners of Miller's Damsel also challenged Ethan Allen to trot a race, he to go to wagon and the mare in harness. Both of these challenges were declined by the owners of Ethan Allen.

The editor of the Sandusky Pioneer has been presented with a fine shirt collar.—He is waiting for some one to give him a shirt, so he can put the collar to some use. At present it is a perfect surperfluity to him.

☞ One hundrod and seven bushels of wheat were raised this season in Aroostook county, on three acres of land.

Several enterprising citizens of Gardiner have within a few days gone to settle in Arostook county.—*Augusta Journal.*

☞ Messrs. Edred & Balcom, extensive lumber dealers in Chicago, have failed to the amount of $150,000 or $200,000.

RELIEF IN TEN MINUTES!!
Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

The News.

☞ At Charlestown, Va., where they try the rebels, on Thursday, Shields Green, one of the negro prisoners, was put on trial. He was defended by Mr. Sennott. The evidence was closed and the case submitted to the jury on Friday. Copeland is next for trial, and it is expected that the wounded man Stevens will be brought up on Monday. It is almost certain that Cook will plead guilty, submitting a written statement of his connection with Brown. His brother-in-law, Gov. Willard of Indiana, is at C.

A man was brought in by the Shepardstown militia, who was taken up on suspicion as a spy. He has been going about the country collecting informaation for a History of Virginia. He is in jail. The snrveillance of strangers is still in force. At Harper's Ferry a greater amount of vigilance is exercised.

☞ By the America, from Liverpool, we have three days' later news from Europe.

The departure of the Great Eastern for America had been postponed *sine die*, and will probably not take place this year.

The details of the peace treaty, at Zurich, show it to be a mere amplification of the Villafranca agreement. By it the rights of the Grand Dukes are reserved.

Spain is dissatisfied with the terms offered by Morocco, and war between those two powers is considered imminent.

☞ Lieutenant-Governor Trask has recovered from the Hartford and New Haven Railroad Co. a verdict of $6500 damages for the loss of buildings in Springfield, directly alongside of the railroad, which were destroyed by fire in April last.

NEW ORLEANS, Nov. 3.—Seven squares, extending from Washington to Ninth street, in the 4th district, were burnt last evening. The burnt district was thickly settled with small buildings.

Another square is now on fire, but the firemen are powerless for want of water.

ST. LOUIS, Nov. 4.—A block of 25 wooden tenements on Green street, between 5th and 6th streets, known as the Robber's Roost, and composed of notorious Irish groceries and disreputable dance houses, was burnt last night. Loss about $15,000.

PRISON ETIQUETTE.—There was a stampede recently at the Delaware State Prison, and among the convicts who escaped was one named Turner, who was under sentence of death for rape. After his escape he made a formal visit to the Deputy Attorney General, and having seated himself in the office, coolly informed that gentleman that a number of prisoners had escaped, and among them himself; that he was prepared to go back again whenever he could feel assured he would be safe in so doing. His chief cause of complaint was, that he had been unjustly and illegally deprived of the society of his friends and companions—the Bummers—and that a woman had been placed there who was afflicted with scarlet fever! He said he had notified the Deputy Sheriff that if such conduct was persisted in, he would feel obliged to change his quarters. Not having received any satisfactory evidence on the part of the officers, that his grievances would receive attention, he had availed himself of the first favorable opportunity to leave the premises.

The Deputy Attorney General, after a few observations to Turner, escorted him back to the jail. It would seem that the prisoner did not care a straw about the sentence of death which was passed upon him; but he did not wish to catch the scarlet fever.

☞ Luther Farnham, Secretary of the Southern Aid Society, says, in the Congregational Journal:—

We have a missionary field containing 10,000,000 of souls. Of these there are but 350,000 holders of slaves. There are, therefore, 9,650,000 persons who are not engaged in this practice. Pity the 3,500,000 of slaves; what have they done that they should not have the preached Word? Especially since their masters almost universally favor their receiving oral religious instruction. By the gospel, half a million, or one-seventh part of them, have become hopefully christians. By the gospel their condition is the more tolerable; they are thereby the most certain to secure their civil rights; and if they accept it they are absolutely sure, very soon, of eternal freedom.

And then there are other millions of poor whites in the Southern field, many of them of Anglo-Saxon origin, who need more fully the gospel. *Neither they* nor the slaves *can* generally *read;* therefore books and tracts will do them little good. They need the preached gospel as the great means to guide them to the Savior. And we now aid nearly one hundred ministers to preach the gospel to bond and free, and both alike.

In the same document Mr. Farnham says:—

There is more popular ignorance and destitution of the means of grace in the Southern States than in any other portion of our country.

Mr. F. must look out! Somebody will be after him. We remember very well that just before last presidential election, somebody made a great parade of figures from the *Census* about meeting houses, churches, &c., to show how much *more* christian they were at the South than elsewhere.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

AMERICAN & FOREIGN PATENTS.

R. H. EDDY, Solicitor of Patents.

Late Agent of U. S. Patent Office, Washington, under the act of 1837.

70 STATE, OPPOSITE KILBY ST., BOSTON.

After an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France, and other foreign countries. Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Research into American and Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superio to, any which can be offered them elsewhere. The testimonials below given prove that some is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him t. accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.

EDMUND BURKE,
Late Commissioner of Patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS.

I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.

BOSTON, February 8, 1858.

Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.

From Sept. 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.

Boston, Jan. 1, 1859. R. H. EDDY.

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to attract its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of rendering its sensibilities blunted. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING, such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it.—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.

And by all respectable Druggists throughout the country.

In Portsmouth by W. E. PRESTON.

Also by all respectable Druggists throughout the country. In Portsmouth by W. E. PRESTON, 6th street.

Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.

For sale by all respectable druggists. Price 25 per bottle.

All schools are using it with wonderful success.

Gives rest and health to the child, Softens the gums, reduces inflammation,
Allays all pain, cures wind colic,
By giving strength to the body
And health to the mind, it gives rest to the mother.

Recommended after taking many a book. In Medicine, and practical relief. A bottle is always sent, that a certain cure will result from the use of it on a trial bottle. The CHILD'S FOOD, is the most invaluable preparation in the world, for infants, and being put up in the most attractive form, it is a pleasure to administer it. Every mother should try it. If your child is broken down in health, and disturbed, if your child is suffering from wasting diarrhoea, or any other complaint, use the CHILD'S FOOD. If you are suffering from wasting diarrhoea, or any other complaint, use the CHILD'S FOOD. If you are suffering from wasting diarrhoea, or any other complaint, use the CHILD'S FOOD. If you are suffering from wasting diarrhoea, or any other complaint, use the CHILD'S FOOD.

Dr. Brown, being long in the use of the medicine, has been so far induced to recommend it to the more immediate consideration, and effect of the medicine, and supplies it to the public at a reduced price, and is sent by mail—a perfect physician, of recovery to be the most successful of the medical profession, and has been so long established, and of long standing, and is so generally recommended by the medical profession, and has been so long established, and of long standing, and is so generally recommended by the medical profession, and has been so long established, and of long standing, and is so generally recommended by

Morning Chronicle.

A NEW HAMPSHIRE LEGEND.

In Rumney a road winds along the base of a mountain range, whose precipitous sides, torn by some vast convulsion, attract the gaze of the awe-struck traveller. Thither, many years ago, came a man named George Thornton. Restless and dissatisfied, he had wearied out his early friends, and upon the death of his parents, he visited the new world, hoping to find himself the hero of many a wild adventure. He was brave, agile and ingenious, with a quick and ready hand. True to his characteristic traits, he soon wearied of the settlements, and, armed to the teeth, plunged into the wilderness.—Overcome with fatigue he crept into a cave at the place we mentioned, and put his musket in a recess at his head. A whoop, a yell, a rush, and he awoke a prisoner to a band of Indians.

The feast of Green Corn was close at hand, and it was intended by his captors that his death should grace it. This he readily comprehended, and he rallied all his strength to meet the horrors of his fate. He clung to the minutes as they flew by, filling them with earnest vows and passionate supplications, or numbering each possible circumstance of suffering and terror, that nothing might find him unprepared.

But love cut for him a path unknown either to strength or craft. Winona, the flower of her tribe, with eyes full of light, and cheeks whereon the rose deepened beneath the bronze, gave her heart to the young stranger and planned his escape.—Never had she seemed so gay as on the evening preceding the festival. She laughed and sang, and filled the bowls of the revellers once and again, urging them with many a wile to drink of the beverage which she had drugged with some harmless provocative of slumber. Midnight found all asleep or with dull perceptions and heavy limbs.—Pressing one hand firmly upon Thornton's lips, she cut the withes that bound him, gave him moccasins and a blanket of her own embroidering, and motioned him to follow her. Freed from his ligatures, with his recovered musket upon his shoulder, new life seemed to pour into his veins. He swam rivers, scaled heights, and crossed morasses, everywhere obliterating the traces of their flight.

At the end of two days, Winona paused. She instructed Thornton by signs, who went through the simple marriage ceremonies known to her, and then on bended knee, promised his Maker to remain faithful to her as his wife. She called him Orono, or "heart's fulness," and he at first found in her all that he desired of happiness. At the expiration of a year the old longing returned, and as he had fled society, so he with proportionate eagerness desired its sweets. He proposed to Winona to remove with her to Portsmouth, but she shook her head. "The maidens of your tribe are fair," she answered, "they will steal the thoughts of Orono." Several times he sought her consent, but always with the same result, and he grew irritable and capricious.

One day, upon returning to their cavern, after an unusually long absence, he found Winona dying, and beside her a wooden cup partly filled with the berries of the night-shade. With her last effort, she threw her arms about him and expired. He frantically rubbed her stiffening limbs, kissed her icy brow, and called her by all the tender names which she had taught him. Exhaustion followed, and to this succeeded a deep and settled grief. All that she had done for him, all that she had been to him, presented itself continually to his memory and heart. He cleared a spot for her grave among some young cedars, and carved a head cross of the same wood, near which he planted a wild rose.

Then he made a rude sketch of the surrounding scenery, and set out—not for Portsmouth, now linked with saddened associations—but for Boston, which he had never visited. But he did not go alone.—Winona's laugh was in the murmur of the brook, her voice in the song of the birds, the rustle of her garments in the touch of the forest leaves. He was a changed man, transformed by the grand though erring devotion of a woman who knew not that she erred.

Twenty years afterward a pilgrim left his knapsack at the little inn of the rising town of W., and hastened to a fine grove of cedars a few miles distant. He was ill and feeble, but he remained there in spite of remonstrance and warning; and those who went the next day to seek him, found him dead on a green grave marked by a fallen cross of cedar, and a luxuriant rose which had headed it with its soft petals.—*Boston Journal.*

☞ The New York Sunday Times, a Democratic paper, gives the following advice to Gov. Wise and the men of the South:—

"Don't make a martyr of John Brown! That is the fate he invites. Remember that 'the blood of the martyr is the seed of the church.' Give the mad spirit of disunion no such opportunity to make capital out of your indiscretion."

☞ In the Tennessee Legislature, a bill to prevent free negroes travelling on the railroads in that State, passed at the first reading. The negro traveller is required to be under the control and care of a free white citizen of Tennessee, who shall vouch for the character of said negro in penal bond of $1000. The Legislature has also before it a proposition to expel all free negroes from the State after Jan. 1st, 1862.

Portsmouth, N. H.

MONDAY, NOV. 7, 1859.

OUR STANDING ARMY.—The Secretary of War, in accordance with law, has made an abstract of the returns of the Militia of the several States. Maine has 73,562; New Hampshire, 33,584; Vermont, 23,855; Massachusetts, 158,849; Rhode Island, 17,015.

All the States show a total of 2,766,727. They count our available force, and base a proportionate degree of respect for us upon it, while we ourselves hardly give it a thought.

No other nation has so vast and effective an army as this would be in case of need. It is practically useless for foreign invasion or for governmental tyranny; but for defence it is invincible. It lacks discipline and drill, but in this respect it is no different from the new levies which compose the majority of every army in time of war.

ITALY AND ENGLAND.—The temporal and so-called spiritual power, *alias* tyranny, of the papacy, is the disturbing element in Europe, as that of slavery is in America.—At the latest dates, the policy of England taking part in the Congress was being canvassed by the press, and generally the arguments were against it.

The Times and Herald are both averse to England taking part in any European Congress on Italian affairs.

The London Post (Palmerston's organ) asserts that it were an idle trifling with the influence of England and the hopes of Italy to expect any English statesman, at all worthy of the name, to hazard his own reputation, and the national honor committed to his care, by entering a Congress of which the basis may be the execution of the Zurich treaty.

The same journal, in another editorial, regards the Italian complications as very serious, and the position of Napoleon extremely embarrassing. He has undertaken the special protection of the papal government, and also of Italian liberty, while the papal government and Italian liberty are in open warfare. It is almost certain that the Romagna will be attacked by the papal troops; it is equally certain that at the first menace of armed intervention in the duchies, the troops of Garibaldi will sweep before them every vestige of papal rule. Under these circumstances the intervention of Austria will be anticipated. What part would France then play, and what extension would the Roman question then assume?

The Post concludes by saying that English statesmen will make efforts to avert the dangers which threaten Europe.

FREDERIC DOUGLASS has written a letter to the Rochester papers, dated Canada West, in which he denies having encouraged the Harper's Ferry affair, and says he is not a fighting man, and is better at running away than fighting. He never promised to bring or send any aid to Brown, as has been stated. In concluding he says:—

"The time for a full statement of what I know, and of all I know, of this desperate but sublimely disinterested effort to emancipate the slaves of Maryland and Virginia from their cruel task-masters has not yet come, and may never come. In the denial which I have now made, my motive is more a respectful consideration for the opinions of the slaves' friends, than from my fear of being made an accomplice in the general conspiracy against slavery. I am ever ready to write, speak, publish, organize, combine, and even to conspire against slavery, when there is a reasonable hope for success.

I have no apology for keeping out of the way of those gentlemanly United States Marshals, who are said to have paid Rochester a somewhat protracted visit lately, with a view to an interview with me. A Government recognizing the validity of the Dred Scott decision, at such a time as this, is not likely to have any very charitable feelings towards me; and if I am to meet its representatives, I prefer to do so, at least, upon equal terms. If I have committed any offence against society, I have done so on the soil of the State of New York, and I should be perfectly willing there to be arraigned before an impartial jury; but I have quite insuperable objections to be caught by the hands of Mr. Buchanan, and "bagged" by Gov. Wise. For this appears to be the arrangement—Buchanan does the fighting and hunting, and Wise "bags" the game.

Some reflections may be made upon my leaving on a tour to England, just at this time. I have only to say, that my going to that country has been rather delayed than hastened by the insurrection at Harper's Ferry. All knew that I had intended to leave here in the first week of November."

☞ Quite an excitement was created in the Legislature of Massachusetts on Friday by the arrest, by the Sergeant-at-Arms, of Mr. George P. Burnham, late State Commissioner, on a complaint of the Committee that he refused to produce some of his private books. He was declared to be in contempt, and placed under charge of the Sergeant-at-Arms. Mr. Burnham appeared immediately with his counsel, ready to answer the charge at the bar of the House, but the House was not ready as no quorum could be found, and the House adjourned to Saturday morning.

The Democrat's Forlorn Hope.—Harper's Ferry.—*Sat. Press.*

☞ The clerk of the Cincinnati Probate Court the other day issued a marriage license for the union of an old man of sixty with a buxom damsel of sixteen. The old man, a rickety old chap, said the disparity in their years was more than counterbalanced by what he called the "unusual amount of affection" that existed between them.

☞ The Baltimore papers state that Phil, the negro of Mrs. Alstadt, who was compelled by Capt. Brown to assist in making loop-holes through the walls of the engine-house, was arrested and conveyed to jail on the charge of sympathizing with the insurgents. He has since been lying very ill, and died on Tuesday of pneumonia, though it is said his sickness was caused by fright.

☞ The wife of a well known citizen of New York heard the door bell ring on Wednesday evening, and went to the door. As she opened the door, by a seeming intuition, she stepped back a little distance—but just far enough to escape being stunned by a heavy stick of timber, which had been placed against the door outside, so as to fall directly on the head of the person answering the bell. What the object of such a contrivance was, is unknown.

☞ A lunatic, who once escaped from an asylum at Marseilles, in France, got possession of a small fort on an island in the bay, which had been abandoned, but still retained a few heavy guns in position, with a considerable quantity of ammunition, and actually cannonaded the town, and fired into several vessels entering the harbor.

☞ A whole block of buildings, including a livery stable, was destroyed by fire at Pulaski, Tenn., a few days since, together with 43 horses, among them the stallion Lieut. Maury, valued at $4000. Entire loss of property, $25,000. William T. Wells, owner of the stables, is the principal loser.

☞ The "Minutes of the thirty-fifth Annual Meeting of the Maine Baptist Convention, held at Biddeford June 21st and 22d, 1859," shows that the number of Baptist churches in Maine is 278; ministers, 182, and church members, 21,435.

☞ A superficial person having heard a popular declaimer preach, said to Dr. Bellamy, "O, sir, I have been fed this evening." The Doctor added, "So the calves think, after having sucked each other's ears."

TOO TRUE.—It was a favorite saying of Sir Walter Scott, and a true one, that the wisest of our race often reserve the average stock of folly, to be expended upon some one flagrant absurdity.

☞ Lancet and Patchen went to saddle for $1500, at the Suffolk Track, Philadelphia. Lancet won in three straight heats, in the excellent time 2:25 1-4, 2:25 3-4 and 2:27.

☞ In the trot at Buffalo, between Flora Temple and Princess, Flora won in three straight heats—2:28—2:31—2:23 1-2.

I love a hand that meets my own,
With grasp that causes some sensation.

LEAVENWORTH, K. T., Nov. 3.—The Overland Express from Denver City arrived here last night, bringing dates of the 28th ult. and $7000 in gold dust on consignment, besides $23,000 worth in the hands of the passengers.

☞ A Miss Thompson, in Tennessee, has recently recovered $15,000 in a suit for a breach of promise against a man named Patterson.

Whipping obedience into spirited animals, is not unlike aunt Chloe's whipping her refractory boys: "while she whipped out one devil, she whipped seven more in."

☞ The Globe Steam Mill has declared a semi-annual dividend of five per cent., payable in Newburyport on Saturday.

☞ The transatlantic aerial ship, "The City of New York," is in process of inflation. Mr. Lowe expects to start in about a week.

☞ It was Thanksgiving Day in Canada Thursday. The day was observed in New England style.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 120 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits: this such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov7 1y

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1858, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs,*—Nine years since I was attacked by this curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

THEO. CALDWELL.

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at

SALEN'S DAGUERREAN GALLERY,

in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.

N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ Mrs. Winslow, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain; and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

TEACHERS' INSTITUTE.

The Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.

The session will commence on MONDAY, Nov. 14th, at 10 o'clock, A. M., and continue through the week.

The following instructors have been engaged:

CHARLES NORTHEND, A. M., New Britain, Conn.
J. D. PHILBRICK, A. M., Sup. Schools, Boston.
DR. LOWELL MASON, New York City.
SANFORD TENNEY, A. M., Auburndale, Mass.

Evening Lectures will be given by the Instructors and others, of which due notice will be given.

Board will be furnished at a rate not exceeding $1.50 for the session.

Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant 5 miles. Coaches will be provided to meet the morning trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, 25 cents.

School Committees and the friends of education generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers. All the exercises are open to the public, and all interested are invited to attend.

Teachers wishing to secure board may address any of the Committee of Arrangements at Hampstead.

GROVER & BAKER'S
Celebrated Family Sewing Machines.

NEW STYLES. — PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, and purchased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE

GROVER & BAKER
SEWING MACHINE COMPANY

Are of elegant finish, and their operation is noiseless and very quiet. The ease with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the common spools—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of the neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than it possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.

ALLEN & PAYNE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whitemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

FIRE.—Monday morning, just before 3 o'clock, the bells drew all the fire-goers to the vicinity of the Powder House, on Islington Road; where the house of Mr. Joseph L. Gove, situated on the lane running northerly to the farm of D. R. Rogers, was entirely consumed. The engines were promptly on hand, notwithstanding the two mile run, but could do little or nothing, under the circumstances.

Mr. Gove was alone in the house, (his wife being with a sick neighbor,) and was awakened by the smoke in his room, which nearly stifled him. He threw his bedding out of the window, but this with some of the other things he got out from the lower part of the house, were afterwards burned. His son in Boston insured the house for $500 a couple of years ago, but he does not know whether it holds now. The house he valued about $1000, and nearly all the contents were lost too.

Mr. Gove can account for the fire in no other way save incendiarism. He had placed a ladder from the ground to the roof of his house, on which to hang a pig when slaughtered; and under this ladder, at the eaves, the fire commenced—in an unfinished and unoccupied chamber, away from any chimney or stove arrangements of any sort.

☞ Besides the fire of the C. & P. Railroad shed, Friday evening, there were two other alarms—one earlier in the evening, and the other about 11 o'clock—both without good cause, so far as we could discover.

There was a partial alarm on Saturday evening, which brought out some of the engines—but no bells were rung.

☞ Not many days ago, a police officer from Boston, came to this city in quest of a man who was said to have stolen $800. In pursuance of this errand, he and one of our citizens took a little excursion in the suburbs, riding in a wagon together; and from appearances they had taken some beer or other liquor to fortify them against the weather, and to sharpen their wits in finding out the thief. They had not got far from town, when the officer unfortunately fell out of the wagon into the highway. The citizen got out in the most friendly way, to help the distressed officer; but he could not get him up, and he would not leave a friend in such a plight; so he lay down beside him, and a neighboring farmer attracted by the novelty of the halt, found them both asleep, and the horse, faithful animal, quietly standing in the road, waiting orders. It is hardly necessary to add that the officer did not catch the prisoner.

☞ The old express man, Sandy B. Marden, starts his horse and wagon this morning for Newmarket Junction, carrying freight and passengers for Exeter and other towns on the B. & M. Railroad. He intends to run his line through the winter.—The team leaves the Franklin House at a quarter past 9 in the morning. This is the only public conveyance by which passengers can go to Exeter and back on the same day—as the C. & P. Railroad run but one train each way daily this winter.

An English commander of the Royal navy has recently had a singular adventure here. Having visited several navy yards, among others Portsmouth, N. H., he returned to this city, but found that the navy yard at Kittery, Maine, had escaped his notice. Accordingly, he retraced his steps to Portsmouth, which city, he was surprised to find from the guide book, was quite near Kittery. On arriving at Portsmouth he ordered a cab to drive him to Kittery, and was still more astonished to be driven into the same navy yard which he visited some weeks before. On investigating the matter he found that Portsmouth, N. H. and Kittery Me., were one and the same place, and that his time and money were lost.—*N. Y. News.*

☞ Rev. Mr. Gangooly is to deliver the next Lyceum lecture, on Tuesday evening. He was a Hindoo Brahmin or Priest of high rank, but is a convert to Christianity, and is now studying in this country to prepare himself as a Missionary among the Hindoos. He will appear in the full dress of the Brahmins, and will tell of their "Manners, Customs and Peculiarities." His lectures have been well received in the larger cities; and many who heard him at the Unitarian Convention here recently, desired to learn more of the singular people concerning whom Mr. Gangooly is so well qualified to speak.

ACCIDENT ON THE EASTERN RAILROAD.—Mr. Martin of Marblehead, was seriously if not fatally injured Friday afternoon, by jumping from the train while in motion. He was standing on the platform talking with a friend, and the wind blowing off his hat, he jumped from the cars to regain it. The train was backed to the place, where he was found bruised and bleeding, and carried to Lynn. At last accounts he had not shown any appearance of life. The train was about two-thids of a mile from Lynn, where the road has a down grade, and was going at a rate of thirty miles per hour.—*Newburyport Herald.*

☞ At Rowe's Corner, Hooksett, about 150 acres of woodland along the line of the C. & P. Railroad, were burnt over last week.

CHARLESTOWN, VA., Nov. 4.—Shields Green, one of the negro prisoners, was found guilty this morning. The first count, for treason, was abandoned, upon objections taken by Mr. Sennott, that it was not proven that the prisoner was a free person, and therefore did not come under the statute, which reads, "Any free person," &c.—Sentence was deferred.

Copeland, the mulatto, is now upon trial, Mr. Sennott defending.

Mr. Griswold, who came especially in Brown's case, left here this evening. Tranquillity is being restored.

LITTLE HOPE FOR BROWN.—By an article in the Richmond Enquirer, edited by the son of Gov. Wise, and which doubtless speaks the Governor's sentiments, there would seem to be but little hope that Brown will escape execution. Before the day of execution arrives, however, the Democratic politicians of the country, who are fearful of the effect of such an event, may induce the Governor to relent from his present evident intentions.—*Boston Jour.*

☞ We do not see any movement in Virginia, toward trying Henry Thurston and one Chambers, for *murdering a prisoner* named Thompson. In Brown's trial, Hunter distinctly testified that he and Chambers "*coolly and deliberately*" took this unarmed prisoner out of a room where he was confined, dragged him out of the house by the throat, threw him down, and fired balls through him; and five or six others, did the same.

BROWN'S FAMILY.—Rev. T. W. Higginson of this city, has just returned from a visit to the family of Capt. John Brown.—He found them up among the Adirondac mountains in New York, near Lake Champlain, opposite Burlington, Vt. Mrs. B. and four of her surviving children, three daughters and one son. She is a second wife, and has been the mother of twelve children. Brown had eight children by a previous wife, making twenty in all. Eight of the twenty are now living. Mrs. Brown accompanied Mr. Higginson on his return, and he went with her to Boston yesterday, passing through Fitchburg. She will leave to-day for Virginia, having telegraphed to Gov. Wise for permission to visit her husband in prison.—*Worcester Spy.*

☞ The Mobile Tribune has learned that sixty or eighty kegs of powder were stolen from a public magazine in Alabama, and queries whether it has not something to do with a slave rebellion.

On Monday afternoon last, Mr. Thomas Kelton matched his gray gelding "Hop-o'-my-thumb" for $100 to go a distance of twelve miles, and return, in two hours, drawing a wagon and two men. Mr. Kelton took the ribbons precisely at seventeen minutes past 2 o'clock, and returned at fifteen minutes past 4, thus accomplishing the feat in one hour and fifty-eight minutes.—One hundred to ten were freely offered against the horse, but there were no takers.—*Prov. Jour.*

☞ The following advertisement appears in the columns of the Elmira Advertiser:—

"*Wanted*—Six young men to learn the painting business. None need apply who smoke cigars, chew tobacco, or drink rum. I also reserve the privilege of doing all the swearing myself."

EDUCATION.—One of the principal advantages to be derived from instruction is, not easily to be astonished, and to appreciate men and things at their just value. Ignorance, on the contrary, is seized with admiration and astonishment, and is in ecstacies, without discrimination—or it as often despises and disparages a thing without reasonable motives.—*Oliver Optic.*

LUCK is one of the gods of our day and generation, but it is a more stupid and inconstant god than any heathen nation worships. Chance accomplishes something, and in a certain very limited sense there is such a thing as luck; but there is no such thing on record as a man, careless, extravagant and idle, prospering in business.

A thing takes its character from the way in which we view it. Thus, when Dr. Spooner dined with a friend who had three turbulent sons, and they got into a row at the table, resulting in throwing gravy tureens and hot squash in each other's faces, the father turned to the Doctor with the simple remark, "Boys will be lively, sir."

When a certain young man of rank, noted for his dissipations, asked the valet he was about to engage, whether he could furnish some security for his honesty—"What, sir! security!" exclaimed Jeames, "it is I who ought to demand security for my wages."

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

HATS AND BONNETS.—Speaking of gentlemen's hats, the Boston Courier says:

It is somewhat singular that designers of hats, whose ambition is supposed to be to adorn the human figure, besides conducing to its comfort, in fashioning a new style of hat, suppose that it will answer alike for young and old. It is easy for a person of taste to see that a distinction should be observed. A hat that becomes a man advanced in years, if worn by a young man, gives him an awkward appearance, and *vice versa*. It is gratifying to notice that makers this year acknowledge this distinction, and have introduced the "Young Men's Hat," which is particularly adapted to young men's wear.

Now, if the ambition of the makers of the fashions of hats, either for men or women, is "to adorn and conduce to the comfort of the human figure," they often most woefully miss their aim. In this very matter of the young man's hat—the crown is too small, giving the wearer a mean, diminutive look, as if he had a small head. And this is marked contrast to the last spring style, which was too full and clumsy in the crown—giving a chuckle-headed appearance.—The fact that one style of dress is not adapted to all sorts of men, seems to be lost sight of generally; but as a style which will befit most men, we prefer a moderately high and considerably bell-crowned hat, not unlike the fashion a year ago.

The ladies make even worse mistakes than the men hatters. Their bonnets give them the appearance of a full back-head, without rising above their heads to make them look taller, or showing in front to assist their beauty by partially concealing it, or elevating their front-head. The miserable little abortions they wear now-a-days cannot possibly "conduce either to their comfort or adornment." The little straw hats some of them have worn, the past summer or two, introduced by the Canada ladies, which cover the head and leave the chin and throat bare, are at once comfortable and beautiful. Why not adopt them?

☞ A correspondent of the New York Observer, who appropriately signs himself 'Boyle,' touches with a probe one of the sore places in Webster's Dictionary, as follows, under the head of 'Beauty of Defining':—

Being sorely afflicted with one of Job's comforters, a boil, I was tempted to look into a dictionary, to learn something of the nature of the thing. I deemed Webster's Unabridged, the great work of the great Lexicographer, and said to be the best defining dictionary in the world.—Turning up the word, the following proved to be the luminous, simple, satisfactory, beautiful explanation. I give it verbatim and the whole of it.

BOIL.—A circumscribed subcutaneous inflamation, characterized by a pointed pustular tumor, and suppurating with a central core; a peruncutus.

Was anything ever more intelligible!—How easy for a child to learn! I could not but regret that this definition had not met the eyes of the Baptist new-version people before they translated the book of Job. It would have been so beautiful to say instead of *boils*, 'And Satan smote Job with circumscribed subcutaneous inflamations, characterized by pointed pustular tumors, and suppurating with central cores.' Or, if that is too long, it would be in harmony with the principles of the new version to say, 'Satan smote Job with sore *peruncutuses*.'

But seriously, is it not worth while, Messrs. Editors, to ask the publishers of that valuable book to define the definition, and give it to us with a pictorial illustration in the next edition? Is it not an offense and a farce to use words in defining that are more unintelligible than the word to be explained? *Peruncutus* will be looked for in vain in the dictionary, except as a definition of a simple word.'

VANITY IN DRESS.—Some young ladies, feeling themselves aggrived by the severity with which their friends animadverted on their gay plumes, crinolines, scarlet petticoats, and flounces, went to their pastor to learn his opinion. "Do you think," said they, "that there can be any impropriety in our wearing these things?" "By no means," was the prompt reply. "When the heart is full of ridiculous notions, it is perfectly proper to hang out the sign."

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights.

It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

STOVES AND FURNACES.

FRANK JONES,

61 MARKET ST., PORTSMOUTH,

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition*.

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebraied Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c., S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact bald. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 484 Vine Street.

The Restorative is put up in bottles of three sizes, via: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

Only one bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE. CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

Dr. SANFORD, Proprietor, 345 Broadway, N. Y.

Sold by THACHER, PRESTON, HUTCHINGS, and all Druggists everywhere. au31 ly

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

The Sagamore House, Frost's Point,

IS NOW OPEN.

This beautiful Summer resort, having been thoroughly repaired and re-furnished, is now open for permanent and transient boarders. It is pleasantly situated on Frost's Point, only three miles from city of Portsmouth, and commanding one of the best views of the ocean of any place on the seaboard.

The subscriber, having leased this hotel for a number of years, flatters himself that, with his experience in the business, he will be able to make it a *first class House*, and patrons may be assured that no pains will be spared on the part of the proprietor, in point of order and moral tone, to make it compare with any hotel in New England.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, surrendering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. j2 dly

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size of any other make than the Clipper.

We also assure our Farming friends that we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this is possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."

Notwithstanding the immense advantages which these Plows possess over a 1 others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

☞ In Washington, the strong man, Dr. Windship, made some remarks upon diet and habits of life. He seldom used any spirituous or fermented liquors, and then found them injurious, weakening him. He depended chiefly upon white bread for food, and drank much milk, sometimes even a gallon a day. He usually retired to sleep at 10 o'clock in the evening, rose at 8 A. M., and dined at 2. He found that fresh air, day and night, and pure water, were essential for strength: and with proper habits and steady exercise any one might strengthen his form greatly. He contemplates, he says, becoming the strongest man in the world, and we should think he was in a fair way for it.

☞ Speaking of the fire at the Suncook Factories, the Manchester Mirror says:—

The rotary engine belonging to the mills had been working about fifteen minutes, and the fire was most all put out, when the wheel carrying it was broken, leaving only a small hand engine in working order—the "Tiger," formerly "Bennington" of Manchester. The fire had free course after that, and did its work.

We learn also from the same paper that on Thursday afternoon, John Finley, an Irishman, was instantly buried by the falling of a portion of the brick wall upon him. He was an industrious man, about 25 years of age.

B. F. Morse had his upper lip badly cut and a tooth knocked out by a slate falling from the roof.

MARYLAND AFFAIRS.—Ex-Gov. Lowe and other distinguished Marylanders express confidence that the Legislature of that State will promptly enact such measures as will hereafter insure peaceable elections in Baltimore.

The following members of Congress are elected: Harris, Davis and Webster, Americans; and Stewart, Kunkel and Hughes, Democrats. This is the same as at the last Congressional election.

The State Legislature stands as follows: House, 15 Americans, 49 Democrats; Senate, 8 Americans, 13 Democrats. One district to hear from.

☞ Mr. Purple, formerly conductor on the Western Railroad, and a member of the first Legislature of Nebraska, thus tells his experience in Western politics. He says:—

"Secretary T. B. Cuming said to me one morning, 'Purple, we want a member from Burt County.' So I harnessed up and took nine fellows with me from Iowa, and we started for the woods, and when we thought we had got far enough for Burt County, we unpacked our ballot-box and held an election (in Washington County,) canvassed the vote, and it was astonishing to observe how great was the unanimity at the first election ever held in Burt County. Purple had every vote. So Purple was declared duly elected."

U. G. R. We learn from "official sources" that the underground railroad, a big branch of which runs through this city, up to the Canadian frontier, has been doing an unusually large business this year. Some days the "train" takes a dozen at a time, and the aggregate business of the year is counted by hundreds. One gentleman, who is ranked among the high-toned, conservative Democrats—a sustainer of the fugitive slave law, the Nebraska bill, and the Pierce and Buchanan administrations, on principle—is regularly called on for his subscription when funds are needed. His sober and invariable reply is this: "Give money to help a fugitive slave escape? not a cent! it's illegal, and against the compromises of the constitution! send him back to Virginia! send him back—*and here's, a V to help pay the expenses of returning him back to his master!*"—*Troy Arena.*

Mechanics have long puzzled themselves over the question, "Why will a water-wheel do more work at night than by day, other circumstances being equal?" it being conceded by a large majority of those who have worked by water power that such was the case. The question was recently discussed in the Scientific American, which admitted the "fact" as undeniable, although unaccountable. One of its correspondents, however, instituted a series of careful experiments upon the subject, and the result showed a very small fraction in favor of the performance of the wheels in the *day time!*

The funeral of Robert Stephenson took place at Westminster Abbey on the 21st, in the presence of a great concouse of people with every demonstration of respect.—The Abbey was crowded, and the attendance included most distinguished men in rank and profession. Mr. Stephenson bequeathes £25,000 to public institutions.

At Newcastle, Shields, Sunderland and other towns in that locality business was suspended during a portion of the day of the funeral, and many demonstrations of respect took place.

THE TEMPERANCE CAUSE.

Under this head, the Congregational Journal, at Concord, recently contained the following communication from Rev. Wm. Clark, Missionary Agent:

Rev. Dr. Stone:—With the present condition and prospects of the *Temperance cause* in our State, I have long been deeply impressed, and have been pained, even to distress, though not greatly surprised, that the whole subject is entirely ignored by the pulpit, the press, the public lecture, and in private circles. What means this general silence? What has caused it? Have the friends of Temperance gained the victory? Has the cause triumphed? Is the work of reform, in this department of morals, completed? Are intoxicating liquors banished from the State? Are no drinkers, no drunkards, seen or known to exist in any of our cities, towns or rural districts? Would this were true, *but so it is not.* The sad reverse of all this is true.

In most of our cities, large villages, and in our large agricultural towns, drinking and intemperance are reviving with fearful rapidity. Multitudes of men in middle life, of young men, of youth, not to say of children even, make a common use of the intoxicating cup, (1) and are on the highway to utter ruin, both of body and soul; and yet, notwitstanding these tremendous facts, "known and read of all men," we hear almost no public warning voice from any quarter. (2) Over the whole community, on this subject, the pall of death seems to have spread. So far as the writer knows, (he has favorable opportunities for knowing,) in his constant travels over all parts of the State, in his attendance on meetings of County Conferences, composed of pastors and delegates from the churches, at which the condition of the Temperance cause in the several towns represented is reported, the pulpit generally (3) is now substantially silent on the subject; few or no Temperance meetings, whether larger or smaller, for setting forth the evils of intemperance, are holden; in social circles the matter is quiescent, very little place has it in these days in the columns of our newspapers, religious or secular, (4) in the Monthly Magazine or the Quarterly Periodical.

As for *Temperance newspapers proper*, if the "Phenix," a little weekly sheet published in Portsmouth, and having a limited circulation in that vicinity, be excepted, we have none in the State. (5) Nor does the writer know of any others in New England, aside from one under the name of "The Temperance Alliance" which, he understands, has recently commenced being issued in Massachusetts, under the editorship of Dr. Jewett, who has returned from the West, where he has been for some years.—(6) Out of New England, in all our great country, what weekly Temperance paper is now issued but that of the American Temperance Union, edited by the Secretary, Rev. John Marsh, D. D.? (7)

Into very few families, in or out of New England, do newspapers, mainly devoted to the cause of Temperance, now enter. (8) Our children are growing up in almost entire ignorance of the subject, of its countless, unutterable evils; of their danger of falling victims to intemperance; of the motives to "touch not, taste not, handle not" intoxicating drinks.

Now what shall we do? Nothing? May we cry "peace, peace?" shall we assume that all has been done that could be to arrest the practice of intemperance and the legions of immeasurable evils growing out of it? (9)

Shall we sit down in supineness, fold our hands, lose, without resistance, the ground we obtained by immense labor and toil, for more than a score of years; "give up the ship," and, without effort to prevent a catastrophe more dreadful than fire, pestilence, famine and the sword; suffer the sea of intemperance again to roll back its destructive, its annihilating waves, over our State, our loved New England, our cherished land; making wives widows, children orphans, and multiplying vice and crime; not only filling our jails, penitentiaries and prisons, but creating a necessity of increasing those abodes of wretched men and women, incited to crime by the demonizing influence of poisonous drinks; widening the domains of pauperism; destroying the happiness of families; blasting the fond hopes of parents; cutting down and sending to dishonored graves, before they have reached their manhood, armies of our beloved and otherwise promising youth, who, could they be kept from the poisonous cup, would be ornaments to society, pillars in Church and State, the glory of our land? (10) More, perhaps, on the subject hereafter. (11)

Respectfully yours, WM. CLARK.

Acworth, Oct. 15, 1859.

The Union Democrat, in copying the above, proposes only one remedy, viz., to *break down the republican party.* Its words are:

What is the remedy? Break down the republican party, and rebuke the hypocrisy and fraud which distinguishes its entire policy. There is no other. * * * The democratic party, as such, promised *nothing*, because we know that no party has *done* or *can do* anything to effect a *reform* which belongs to the department of *morals.*

No, no, (says Uncle Toby,)—that will not do; you must not libel the democratic party, nor contradict Mr. Wells, in that way. In 1856, when John S. Wells was candidate for Governor, he stumped the State on the temperance plank, calling on the democratic party to put down the new liquor law, but protesting that they did not go for free rum. No, no, said he, "we must have a *stringent* license law, one that would execute itself, and command the respect of all men."

Mr. Wells was not elected, the license law was not passed,—but that was surely a great *promise* of the party.

Having disposed of this little matter, Uncle T. now invites attention to a a few notes upon Mr. Clark's letter.

NOTES.

1. That drinking and drunkenness are too common, is very true and very sad.—But we see no such *great increase* of these vices in this vicinity, as is sometimes supposed. On such questions we like to deal with facts.

In 1844–5, just at the time when the great and blessed Washingtonian effort might be supposed to have born, its best fruits, there was a careful investigation into spirit selling and drinking. There were then in Portsmouth 50 rum stores, houses and shops, 41 of which sold by the glass;—289 drunkards; 400 drinkers of a half pint per day; and 36,900 galls. of liquor *retailed* here. The whole amount brought into town, in the year 1844, was 82,980 galls. of spirits and wines, or 2305 bbls. The reader will please to take notice that by the census of 1840, correctly taken by Col. Hadley, Portsmouth contained 7887 people—and had not gained much in 1844–5.

In 1850, Portsmouth contained 9738—and now probably contains 10,000. Of this increase of 2000, about one-half are foreigners, the largest portion of them Irish, of whom it is no libel to say that nine-tenths of them, male and female, are rum-drinkers.

Two years and a half ago, there were 70 rum places here; one year and a half ago there were 60; two months ago there were 57. We submit these facts and figures without comment.

2.—We are glad to hear Mr. Clark's public warning voice:—we lift ours very often.

3.—Not universally, we are glad to say: and we hope Br. C. and his brethren will, one and all, unmuzzle their pulpits, and give one long, loud, united blast of the gospel trumpet, with a certain sound, for temperance.

4.—Temperance meetings are not so numerous now, as they were when the people were working to get the law, on which we *then* told them, they counted too much.—But they are more numerous than Mr. Clark seems to suppose. Temperance never had a very large place in secular papers,—but articles on that subject are not very rare; some favor temperance, and some oppose every effort.

5.—There is *no* Phenix—and the Weekly Chronicle, to which the Phenix was joined, is not a *mere* Temperance paper, though it is exactly the size the Phenix was, contains as much temperance matter, and a great deal more of other matter. Its list is nearly as large as that of the Phenix was, more in Rockingham and York counties, less in others.

6.—No doubt Mr. Clark speaks truly, when he says he *don't know*, but we *do know* that in Boston, there is a large, handsome, and well edited paper, called the Temperance Visitor, now in its third year, and in Portland there is another large paper, called the Temperance Journal, which has been printed these dozen years.

7.—We can answer this in part. We have a temperance paper from St. John, N. B.; there are one or two in Canada, one in California, and at least *twenty*, in about as many States of the Union.

8.—*One idea* papers, and especially temperance papers, don't generally pay well, are commonly short-lived, and are apt to be poor in matter. The religious, news, and literary papers can do *more*, and many of them really do a great deal of good.

9. No indeed! speak out; and distribute, (as some men did years ago,) lots of the Temperance Tracts of the American Tract Society! There are none better:—and we will inculcate thousands in a year if anybody will furnish the funds to buy them.

10.—No, not sit down. Rise up, and go forward. The old drunkards soon die off, but the young ones come on, as they always will while moderate drinking remains.

11. That's right. The sooner the better.

HARD MAPLE.—By the author of Dollars and Cents—Mr. Rutherford's Children—Casper—Pond Lily Stories, etc. This is a holiday gift book for youth and children, in a neat volume of 255 pages, just published by Shepeard, Clark & Brown, of Boston—and for sale by James H. Head of this city. The writer evidently understands not only children's language, but children's thought. The juveniles, if they begin to read it, will go through, and find many pleasant passages.

☞ Mr. John Preble of Madison, in Somerset county, Me., has raised, this year, three hundred bushels of California potatoes to an acre. These are not a good table variety, but suitable for feeding stock.

QUICK CURE FOR FOUNDER.—Clean out the frog of the foot; let it be well cleansed by scaping off the dirt. Raise the foot so as to be level—pour spirits of turpentine, a sufficient quantity so as not to run over the hoof; then set the turpentine on fire, and let it be entirely consumed. The above it is said will cure a foundered horse as soon as the operation is over.

☞ In New Jersey the other day a young couple, while courting by the fire, fell asleep. While asleep the young lady's dress took fire. As soon as they awoke, the young man made every exertion to extinguish the fire, but without success. The young girl rushed out of the door, enveloped in a sheet of flame, which continued to burn till her clothing was all consumed. She lived only a few hours afterwards.—The young man will probably be crippled in the hands for life.

☞ Parties lately from Pike's Peak state that a fearful mortality had broken out in Mountain City, carrying off as many as fourteen miners per week. At first the disease was supposed to be mountain fever, but a close inspection showed that a greater number of deaths were caused by drinking highly poisonous or strychnine whisky.

Portsmouth, Sept. 3, 1859,

Catarrhal Cough.
This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.
Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.
Sold by druggists and dealers generally, everywhere.

R. R. R.
On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.
HE WAS SO ALTERED THAT WE KNEW HIM NOT.
His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.
For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.
Sold by Druggists everywhere.

THE OXYGENATED BITTERS.
Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the
DYSPEPSIA!
With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.
Read the following, which the subscriber requests us to publish for the benefit of the afflicted:
Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.
The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:
WATERTOWN, N. Y., July 28, 1858.
S. W. FOWLE & CO., Boston.—*Sirs*,—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.
After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.
THEO. CALDWELL.
Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan F. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. snot 4wd&w

☞ Why will people go and have a poor miserable picture taken of themselves? Because, all those do not know that they can procure for the same money, a fine finished picture, faithful and true as life itself, at
SALEN'S DAGUERREAN GALLERY,
in Congress Block, where the most superior likenesses are taken, and in all cases perfect satisfaction given.
N. B.—The beautiful little "give away" (cheap) pictures, are taken at this establishment, with a double lens Camera, (100 per day) by the celebrated Parisian artist—Monsieur Heavtontitorumenos.

☞ **Mrs. Winslow**, an experienced nurse and female physician, has a Soothing Syrup for children teething, which greatly facilitates the process of teething by softening the gums, reducing all inflamation—will allay all pain, and it is sure to regulate the bowels. Depend upon it mothers, it will give rest to yourselves, and relief and health to your infants. Perfectly safe in all cases. See advertisement in another column.

TEACHERS' INSTITUTE.
The Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.
The session will commence on MONDAY, Nov. 14th, at 10 o'clock, A. M., and continue through the week.
The following instructors have been engaged:
CHARLES NORTHEND, A. M., New Britain, Conn.
J. D. PHILBRICK, A. M., Sup. Schools, Boston.
DR. LOWELL MASON, New York City.
SANBORN TENNEY, A. M., Auburndale, Mass.
Evening Lectures will be given by the instructors and others, of which due notice will be given.
Board will be furnished at a rate not exceeding $1.50 for the session.
Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant 5 miles. Coaches will be provided to meet the morning trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, 25 cents.
School Committees and the friends of education generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers. All the exercises are open to the public, and all interested are invited to attend.
Teachers wishing to secure board may address any of the Committee of Arrangements at Hampstead.

GROVER & BAKER'S
Celebrated Family Sewing Machines
NEW STYLES. — PRICES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
OVER THIRTY THOUSAND IN USE.
These Machines sew from two spools, are purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle is required by other machines. On account of their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.
THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY
Are of elegant finish, and their operation is regular and very quiet. The EASE with which they work may be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.
What is specially claimed for the "GROVER & BAKER" machine is—
That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.
That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.
That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.
That it is nearly noiseless in its operation.
That its construction is more simple, and its liability to disarrangement less than any other.
That it can be quicker learned, more easily brought in order, got ready for use, and changed from one quality or grade of work, than any other.
Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.
That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.
That it finishes its work and fastens the end of every seam; each stitch is independent of the neighbor.
Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?
TESTIMONIALS.
PORTSMOUTH, April 12, 1858
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others.
ALLEN & PAINE.
PORTSMOUTH, July 16, 1858.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

☞ We regret to learn that Mr. Gove's loss by fire, Monday morning, besides his house, furniture, &c., included part of the crop of his little farm for the past season—40 bushels of corn, with potatoes, beans, etc.

☞ A couple of young gentlemen were rudely knocked down by a Hose Carriage, at the Bridge street fire, Friday evening;—and another young man (a fireman we believe) was knocked down, run over and considerably injured by an engine, on Saturday night.

☞ A letter bag will be dispatched from the Navy Yard on the 12th inst., per U. S. steamer Mohican, to the U. S. squadron, coast of Africa. Letters and packages of newspapers sent to the post office in this city, care of Commandant at the Navy Yard, will be forwarded.

☞ We understand that the Superintendent of Construction of the new Post Office and Custom House Building in this city, will notify the Government of the readiness of the building for occupancy on the 1st of December.

☞ The new Methodist Chapel or Vestry, on Daniel street, is nearly completed, and looks well; and we are told that a Social Tea Party is to be held there on Monday evening next.

SQUALLY PASSAGE.—Among the cargo of schooner Leander, from Nova Scotia to Russell, in this city, were 100 fine Bremen geese.

☞ Rev. Mr. Gangooly is to deliver the Lyceum lecture, this (Tuesday) evening. He was a Hindoo Brahmin or Priest of high rank, but is a convert to Christianity, and is now studying in this country to prepare himself as a Missionary among the Hindoos. He will appear in the full dress of the Brahmins, and will tell of their "Manners, Customs and Peculiarities." His lectures have been well received in the larger cities; and many who heard him at the Unitarian Convention here recently, desired to learn more of the singular people concerning whom Mr. Gangooly is so well qualified to speak.

☞ Rev. James Freeman Clarke, of Boston, in a Sermon for the Times, draws the following life-like picture:—

"John Brown has been taught christianity by a church which, binding up in one volume the Old and New Testament, calls them both the Christian Bible, and gives equal authenticity to the one as to the other. He is an Old Testament christian; a christian who believes in the sword of the Lord and of Gideon. Bred a Calvinist of the strictest sect in Connecticut, and holding firmly to his faith, he shares all the great and noble qualities that faith has so often produced, together with its frequent alloy. He is such a man as Calvinism produced in the Scotch Covenanters, in the men of Cromwell's ironside regiment who did not fear the work of the Lord negligently at Roseley and Worcester. To this is added a touch of chivalric devotion and inspired enthusiasm, such as nerved the arm of the maid of Orleans and of Charlotte Corday. Let me give you an authentic anecdote of his strict and impartial sense of justice.—Some years ago, when living in western Pennsylvania, or on the Ohio reserve, he found a man whom he believed a horse-thief. He arrested him and took him to jail. The man was convicted and sent to prison. But while he was in prison John Brown furnished the man's family with provisions and clothing. The man had committed a crime, and Brown's sense of justice required that he should be punished. His wife and children had not; and Brown's sense of justice would not allow them to be punished for another's fault.—The man who told this story to my brother-in-law, is now deputy sheriff in Crawford county, and was at that time a boy in Brown's family, and was himself sent to town to buy flour, &c., and carry it to the house of the convict.

A NEW BOOK FOR AMERICAN WOMEN. The very extensive publishing house of Brown, Taggard & Chase, have recently published a new edition of Mrs. Cornelius' "Housekeeper's Friend." We are glad to know that the sale of the work has been commensurate with its merits. The following letter from a lady widely known in literary circles, expresses the opinion of hundreds of housekeepers:—

"As I see you have published a new and improved edition of Mrs. Cornelius' 'Housekeeper's Friend,' I thought perhaps an unsolicited notice from one whose 'friend' it has been for some years, might be of service. Three years since I exchanged a literary life for the more practical duties of a farmer's wife at the West. I had several cook-books, which I will not name, as a substitute for experience. That of Mrs. Cornelius I have found worth all the rest. I have often recommended it to friends, but never lent it, as I could not do without it a single day. Its especial value consists in its economy of its receipts and the minuteness of the directions given. I have often thought if I were rich, I would make a present of a copy to every young friend who became a housekeeper. The present edition is a great improvement on the previous one in beauty and utility. I should be glad to see you announce the sale of many thousands of copies.

A WESTERN FARMER'S WIFE."

☞ It is ascertained that under the laws of Virginia the Governor cannot pardon a person convicted of treason to the Commonwealth, except with the consent of the General Assembly, declared by joint resolution.

☞ We have European news from Liverpool, Oct. 26, evening. At this time, the summary says:—

A violent storm and high sea rendered it impossible to put the passengers and mails on board the steamers North American and City of Baltimore, this morning, and both vessels are consequently detained till to-night or early Thursday morning.

The gale has been very severe, and still continues. English shipping all around the coast has suffered severely and many lives are reported lost.

There is nothing new in regard to the Great Eastern. The authorities of Bristol were making efforts to get her to come to that port after her projected trip to the Mediterranean.

The new Earl of Jersey, who succeeded to the Earldom on the death of his father, on the 3d of October, died on the 24th.

Sir J. Dean Paul and Strahan, the London Bankers, were released from prison after having undergone four years of penal servitude.

The first battalion of the military train for China was under orders to depart overland.

The strike of the London Builders continued, and there were indications that it was beginning to tell seriously against the men who refused to resume work. The dividend was diminishing, and a resolution was adopted to appeal to the public for support. Recent returns show excessive mortality among the wives and families of operatives in the building trade, and there was reason to fear that scores of innocent person and young children were perishing from sheer want.

The weather in England had been unusually severe for the season. Heavy frosts prevailed and a considerable quantity of snow had fallen.

Nothing has transpired in regard to the Zurich Conference and peace treaties since the departure of the America.

Italy is apparently as unsettled as ever.

The Pope returned to Rome on the 20th. A great crowd assembled on his passage through the city.

The reports of disturbances at Palermo are confirmed. The conflict between the troops and people began on the 9th, and lasted till the 11th. At Bagliera, near Palermo, quiet had been restored, but Palermo was in a state of siege.

The interview between the Pope and the King of Naples had been adjourned.

Conferences were held between the Pope and French Ambassador, and it was stated that ordinances granting administrative reforms were ready and would soon be published.

The London Times is of opinion that any danger to Europe or British possession of Gibraltar, from the Spanish enterprise against Morocco, is absurd; but an attack by France, on the independence of Morocco, and an attempt to add its territory to Algeria, would justify the strongest remonstrances on behalf of Europe.

The Daily News thinks the alliance between France and Spain against Morocco or, at any rate, war simultaneously threatened by both parties against her, as by no means reassuring to Great Britain.

Late advices from Tangier state that Mr. George V. Brown, U. S. Consul, was preparing to leave for Gibraltar, taking with him all his baggage, horses, &c.

It was expected that the Spanish force would make an attack, both by sea and land, and afterwards occupy Tetuan and Tangier.

The French expeditionary corps were ready to take the field. Indemnity for depredations done is to be claimed, and security for French colonists obtained by rectifying the line of frontier.

It is stated that the French soldiers who were made prisoners on the 31st of August had all been burnt alive by the Moors. The French troops were burning to take revenge for this act.

MURDER BY A CLERGYMAN.—The Rev. John W. Moseley, member of the Presbytery of Central Mississippi, shot and killed Dr. Wilson, at Sarcoxie, Mo., Oct. 1. Dr. Wilson was an old settler of that place, and had a wife and several children, one son grown and a daughter married. He had for sometime been making unlawful advances to Moseley's sister, who is the mother of six children. He wrote her a letter of eight pages, proposing an elopement and marriage, and sent it by his daughter-in-law, who handed it to Moseley's mother. She showed it to her son, who thereupon took Wilson's life. Moseley was immediately tried and acquitted by the civil authorities.

STOVES—VERY CHEAP.

URIAH BLAISDELL, 41 Market St

Being obliged to remove shortly, from the Store he now occupies, is selling his large stock of
STOVES, TIN WARE, &c.,
at very low prices, to avoid the trouble and expense of removal. He has a great variety of the best and most popular Stoves, among which are:

1. **The Stewart Cook Stove,** with the latest improvements. This is an air-tight Cook Stove, for Wood or Coal; it has moveable coverings, which can confine the heat in the stove, or let it out into the room; has a reservoir of hot water 10 or 20 gallons, and a tin closet beneath;—a top cover, which is a great institution for baking, and will keep a coal fire all night; it has a Dutch Oven for roasting in front of the Stove;—and it is every way a most convenient and durable Stove. There are 4 sizes.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE. This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1859.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov7 1y

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!
The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS,
Asthma, Consumption, Bronchitis,
Influenza, Hoarseness,
Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in ONE DAY remove the most severe occasional hoarseness; and either regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

From the Journal.

PEOPLE'S LYCEUM.—Dr. Windship's lecture on Physical Education, last Tuesday evening, abounded with common sense and took a most rational view of the genus homo, treating of the moral, intellectual and physical faculties of man as a harmonious whole, and seeking to counteract the tendency in this country to neglect physical in endeavoring to obtain high intellectual training. The practical illustrations of the extent to which the strength of a man of ordinary stature, (weighing 143 lbs.) and fair constitution, could be cultivated, were wonderful in the feats which Dr. W. accomplished. After the lecture, two men whose united weight was considerably over 300 lbs. could not together lift the weight of 360 lbs. which Dr. W. lifted alone. Shouldering a full flour barrel, (218 lbs.) or holding with one hand extended above the head a dumb-bell of 150 lbs. (which the lecturer intends to increase to 250 lbs. in another year,) should be tried to be appreciated.

RARE PRINTING PRESS.—In a visit to Lowell last week, among the prominent objects even in the city of spindles, we found the block owned and occupied by Dr. J. C. Ayer, whose medicines are working their way through the world. The block, which is 100 feet by 90 and four stories high, is wholly occupied by the business of Dr. Ayer, except two of the stores on the first story. Of the amount of his business some estimate can be formed by the fact, that one hundred persons are regularly employed in the block in attending to the various processes of the manufacture of his Sarsaparilla, his Cherry Pectoral, his Ague Cure and his Cathartic Pills. As we went from room to room, and saw the great numbers regularly employed in the various branches, and all moving in the harmony of watchwark, we could not but regard the result of such application as something of more value than the quack nostrums which are common in the market. Of the true merits of the medicines however, further than the high testimonials which are published, we are not prepared to speak—but of this we feel assured, that great care and nicety mark every department of the establishment.

There are six cisterns for the manufacture of Sarsaparilla, which contain thirteen hundred gallons each. One hundred barrels of spirits are put in the cisterns before the first bottle is taken out. The cisterns are emptied every two months, and again filled: thus producing over 1500 barrels of Sarsaparilla annually. This will fill about half a million bottles, which sell for $1 each. The cisterns are not accessible to the workmen generally, and every precaution is taken to preserve the preparation free from any foreign substances.

In the Cathartic Pill room a machine in is operation by steam, by which a boy can make a barrel of Pills per day—every one as round as a marble. For sugar-coating half a barrel of them at a time, a drum revolves over a heated furnace, doing the work very readily.

"What," said the Doctor as he politely conducted us over his premises, "what should you think to see a printing doing its work without a tender?" As our curiosity was raised, another door was thrown open, and then became manifest the great lever by which his prosperity had been obtained. His own Printing office, in which his business printing is done, is a part of his establishment. Here were two presses in operation by steam. On one of them there is now printing 4,400,000 of his Almanacs of 36 pages, for 1860, which with covers and a tag to hang them by, are for gratuitous distribution, at a cost of at least $50,000. This cylinder printing press was actually operated by steam without any tender! A pile of 5 or 6 reams of paper was placed on one side of the press—the machinery taking sheet by sheet regularly from the heap, passing them thro' the press, and piling them upon the opposite side printed! By thus only putting up the paper and taking away the printed sheets once in two hours, the press will work off thirty reams per day! This is probably the only press in New England of like capacity. It struck us with astonishment, as did the gigantic proportions of the whole establishment.

The medicine finds a market in every quarter of the globe. The mail averages one hundred letters a day to the establishment.

PULMONARY CONSUMPTION.—There is no disease so linked with the American climate as that dread scourge, Consumption. It is not a periodical visitation, but an ever present enemy to life, snatching away at all seasons, not only the ripe and the matured, but the young and the blooming, the youth and the maiden, in the very blush of life. So steady and persistent has been its advance, that many physicians have pronounced it hereditary and incurable. The science and skill of the medical faculty has been brought to bear upon it with too little success, and it yet reigns, the terror and decimating angel of the North American States.

This being a fact too obvious to be gainsayed, it is with no ordinary pleasure we call attention to a remedy which has proved itself to be most valuable in arresting the disease in its first stages, and thoroughly eradicating it from the system where it had taken deep root. The remedy we allude to is Fousel's Pabulum Vitæ, the discovery of an eminent French physician after a searching investigation and study into the nature of pulmonary diseases. It is not one of the so-called remedies, so recklessly thrown upon the community by pretenders, but is, in fact, the safest and most reliable remedy ever offered for the treatment of this disease in all its stages.

Unlike many other preparations offered to the public, it is free from opium and other drugs calculated to soothe and lull the unsuspecting patient into security while the insidious disease still marches on its way;—neither is it administered in huge and nauseous doses. It is a simple but scientific combination of vegetable extracts, requiring only to be known and used to become the first resort in cases of Consumption, Bronchitis, Coughs, Colds, &c.

Testimonials of the highest character prove its efficacy, and we earnestly recommend all who are suffering from the above diseases to make a trial of its virtues, satisfied that in its use they will find relief. The price per bottle is **one dollar**, but trial bottles will be sold for **50** cts. Many eminent physicians are using it in their practice and it merits the careful attention of all.

Morning Chronicle.

I have always considered advertising liberally and long, to be the great medium of success in business, and prelude to wealth. And I have made it an invariable rule, too, to advertise in the dullest times; long experience having taught me that money thus spent is well laid out; as by keeping my business continually before the public, it has secured me many sales that I would otherwise have lost.—*Sopkes Tricard.*

THE NEW NATIONAL PLATFORM.—The following extract from the Richmond Enquirer, Gov. Wise's organ, will convey some valuable information to the people of this part of the country.

"The Harper's Ferry emeute seems to have invigorated with undoubled zeal, the *friends of protection to slavery in the States and Territories.* When the confederacy, as at present governed, subjects Southern States to pillage, and plunder, and murder, the unprotected slaveholder in the Territories would fare badly if left to courts of justice. The conservatives of the North must see, in the Harper's Ferry affair, that the only settlement of the disturbing and dangerous question of slavery is in the acknowledgment of its constitutional rights and their protection. This is necessary to preserve the Southern States from the consequence of 'irrepressible conflicts' like that at Harper's Ferry, which endangers the confederacy, and, unless speedily and effectually prevented, must disrupt the Union.

Already the wants of that protection afforded by a proper enforcement of the fugitive slave law has liberated, to all intents and purposes, the slaves of the northern border of Virginia. Slavery in Fairfax, Loudoun, Jefferson, Berkeley, Morgan, Hampshire and similarly situated counties, is at present an institution not enforced by the sanction of law, but preserved by the voluntary sufferance of the slaves themselves. At any moment, any Saturday night, with hat in hand, they can bid adieu to master and decamp to Pennsylvania, finding shelter and protection, instead of a proper enforcement of constitutional obligations.

Non-intervention has practically liberated the slaves of one entire tier of counties in Virginia. Non-intervention has already given just cause for dissolution, and unless speedily abandoned by the national government, and the constitutional obligation of intervention for protection be adopted, there will assemble no more National Conventions of the Democracy, and the day of disunion will speedily dawn. The conservative Union men throughout the South are daily giving way before the just cry for some certain and sure remedy against the destructive policy of non-intervention."

The Philadelphia Press says that the Atlantic Monthly was offered for sale to Messrs. Childs & Peterson of Philadelphia, and by them declined. The Press adds that "the actual circulation of the Magazine is said to be about forty-five thousand, but the cost paid for editorial labor and to contributors averages $18,000 per annum, which is double the amount paid, in its palmiest days—when Wilson, Lockhart, Hogg and Magin wrote largely—by Blackwood's Magazine."

Very likely. So it costs about double the money to set the types, now. Mechanical labor costs more—and literary labor also.

THE GREAT EASTERN AND SEA SICKNESS.—There is one thing which if she accomplishes will make up for all possible failures of another kind. If she accomplishes the great fact of enabling bad sailors to cross the ocean without being sick, she will revolutionize sea transit, increasing the amount of travelers in the same proportion as modern railways compared with the old stage coaches. Sea sickness is induced by the upheaving of the diaphragm in proportion as the rising and falling of the waves convert the vessel into a moving lever, uplifting stem and stern alternately. Yet, strange to say, there are people who maintain that the larger the vessel the more she will pitch and roll. They forget that a large log is undisturbed by the ripple on a sheet of water, while a small toy vessel is incessantly moving and tossing. The question is only one of proportion. If the waves be large, the vessel will be much larger to prevent any disturbance. But the objectors persist in regarding the waves as solid ridges upon which this long vessel is to rock, forgetting that the weight of the vessel will sink into these ridges till the displacement is sufficient to support her.—She will make a straight horizontal course through the waves, while their crests and valleys undulate alongside. If seven hundred feet of length be not enough to accomplish this, we must go to one thousand, till we have ruled the waves.

Patent Asphaltic Roofing.

The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:

1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.

THE SUBSCRIBERS ARE ALSO AGENTS FOR

BICKFORD'S SPRING BALANCE,

for Window Sashes, to take the place of weights. It is one of the most complete and useful inventions ever introduced into the market.

It balances the Sash perfectly at any point.

It requires no expense for boxing, consequently it is much cheaper than weights.

It can be applied to old as well as new buildings, without any alteration of the frames.

It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove,

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

BLOOD FOOD.

Dr. Bronson, having been so far rewarded by consumption, as to be considered beyond the reach of recovery by the most eminent of the medical profession, and also himself—a regular physician of twenty years' practice—as a last resort, considered the idea of ANALYZING THE BLOOD, and applying the subject of nutrition to the more immediate consumption, and effect of the state of the blood upon the health and system. The result has been the production of this valuable Blood Food, which we call "BLOOD FOOD," from its use of a BLOOD FOOD.

Dr. Bronson, in presenting this Blood Food to the more immediate consumption of the medical profession, is in the confident belief of its efficacy in curing Consumption, Liver Complaint, Dyspepsia, Nervous Debility, and all diseases of a consumptive tendency, which have been successfully cured by it. If you have any complaint of a consumptive tendency, or any of the above diseases, you will find Dr. Bronson's Blood Food, a sure remedy. Within six months after its introduction, over 3000 cures were effectually cured by it. If you are suffering from Nervous Debility, or any of its concomitants, a bottle of the "BLOOD FOOD" will convince you of its value. Use no time in procuring a bottle of the "BLOOD FOOD" for Liver Complaint, or Pain in the Side, Loss of Appetite, or Dyspepsia, or any of the diseases of the Liver. Bronson's Blood Food, is a sure remedy for Nervous Debility, or any of the above diseases of your system will yield to the more immediate influence of the Blood Food. Dr. Bronson's Blood Food, is a sure remedy for all diseases of the Blood, and will give satisfaction in all cases. Price $1 per bottle.

THE ONLY ARTICLE

UNRIVALLED IN THE MARKET,

WITH IMMENSE

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & CO.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Tea Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 16, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

The Liver Invigorator.

PREPERED BY DR. SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all Fevers of a BILIOUS type. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for over ten years, and *can say, in confidence and truth,* of it, that we have never sold an article of any other medicine, never been able to say of any other medicine, FAILED, IN A SINGLE INSTANCE, when timely used. Never TO EFFECT A CURE, nor did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted with its operations, and speak in terms of the highest comendation of its many virtues. We speak, in this matter, *"what we do know,* after ten years experience, and *pledge our reputation for the fulfilment of what we here declare.* In almost every instance where the infant is suffering from pain and exhaustion, a dose will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the MOST EXPERIENCED and SKILFUL NURSES in New England and has been used with *never-failing success,* in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost stop GRIPING IN THE BOWELS, AND WIND COLIC.

and overcome convulsions, which, if not speedily remedied, end in death. We believe it the safest and surest REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, from teething, or from any other cause. We would say to every mother who has a child suffering from any other prolonged pain, *Do not let your own prejudices of others,* stand between your suffering child and the relief that will be SURE — yes, ABSOLUTELY SURE to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York. *Price only 25 cents per bottle.*

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer in the reluctance to make known their complaint and consult a physician, he would state that all of his medicines will be sent by express or otherwise, to all who may order them, provided a true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy observed.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than five hundred cases of disease which have been implicitly treated by empyrics have come under his care, and more than three-fourths of this number were inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to experiments with false and fictitious remedies at the expense of destroying what is the great gift of life, a healthy constitution.

This medicine can only be obtained at the office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of the spurious articles now being practiced by advertisers of this nature under some spurious or fictitious name. They are entirely useless, having been put up by mercenary pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only one in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number, 13 Howard street, Boston.

P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at a reasonable rate.

STONING A RAILROAD TRAIN.—A train on the Naugatuck (Conn.) Railroad was stoned on Saturday night, Oct. 29, near Derby, one large stone passing through the window and striking a passenger on the shoulder. The New Haven Palladium says that the villains who committed this cowardly and criminal act are known, and one of them is supposed to have paid the forfeit of his life for his act. It appears that a few weeks since a rail was placed upon the track at a point where, had it not been discovered by the engineer, the train must have been thrown into the river. A watch was therefore set at this point, suspicion being directed against two negro brothers named Oliver and William Dillon, who had a grudge against the company on account of a cow belonging to one of them having been killed by a train upon the road some time previously. The watchman saw the negroes throw the stones, and immediately gave chase, but they escaped by jumping into the Housatonic river. One of them is known to have got across the river, but the other was not seen after he leaped into the water, and is supposed to have drowned.—The officers are in search of the survivor.

☞ On the 8th day of October, a farmer living eleven miles from Cairo, Illinois, shipped to St. Louis 400 sacks, or 900 bushels, of shelled corn, grown this year on thirteen acres of land! For this he realized $540, being about $42 per acre, or a sum double that which he paid per acre for his farm!

Another farmer, living only two miles from Cairo, harvested a hundred acres of wheat this season, which yielded abundantly, re-ploughed the ground, planted it in corn, and this corn matured before the approach of frost. This, though a rare instance, establishes the possibility of securing wo profitable crops from the same ground, during the same year.

MURDERERS ARRESTED.—Everybody has heard of the murder of Burrill Arnold. He was a store-keeper in Centreville, Warwick, R. I., and was shot one evening last summer, through the window, as he sat quietly smoking in his shop. The tragedy created a tremendous excitement, especially among the temperance people. A reward of a thousand dollars was immediate ly offered for the apprehension of the murderer. Several arrests have been made, but the prisoners had to be discharged for want of evidence to hold them.

On Tuesday afternoon of this week, Town Sergeant Stone and Officer Colvin of Cranston, arrested John Worthington, an American, and the keeper of the tavern stand at what is known as the "Gorton Arnold place," at the south part of Cranston, near the Warwick line, and about eight miles from Providence. Worthington, notwithstanding his protestations of innocence, was lodged in Greenwhich jail, and will have his examination on Monday next.—He kept the tavern since the first of January. He has a wife and family. He is alleged to have been in Centerville on the night of the tragedy. On the contrary he offers to produce witesses to prove an *alibi.* Last week there was a dance at the tavern, and it is said that Worthington let several expressions escape him, which excited suspicion. John Pearce, the young man who was the presiding genius behind the bar, has fled, no one knows whither. The matter all round has created considerable excitement.—*Atlas.*

☞ A correspondent of the Washington States anxiously inquires if negroes in government employ at Washington, receiving from $400 to $800 per annum, are slaves, the property of Secretaries or heads of bureaus, who draw their pay. He says there are many competent white men, who have done good service to the country, who would like to have, and be very glad to fill, the positions now filled by those colored gentlemen.

Patent Asphaltic Roofing.
The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:
1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.
THE SUBSCRIBERS ARE ALSO AGENTS FOR
BICKFORD'S SPRING BALANCE,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, NOV. 9, 1859.

LETTER FROM NEW ORLEANS.

NEW ORLEANS, Oct. 30.

Dear Chronicle:— Within twenty-four hours this city has been the witness of two scenes of beauty—both essentially "foreign" to a native of New England.

The first came off at an early hour last evening, in the shape of a large fire in the French portion of the city, and presented a scene of sublime beauty, terrific in its grandeur. Breaking out in a carpenter's shop, fed by combustible materials, and fanned by a high wind, nearly two squares of buildings fell before the flames. Though the loss does not foot up a great deal, in figures —($80,000)—yet from the large number of families deprived of their homes, about fifty dwellings being consumed, it must be considered a serious calamity. The confusion at the conflagration was one step in advance of that at Babel — thousands of French, men, women and children, talking, haranguing, crying, wrangling—as only the children of Gaul are capable; negroes of every hue bearing every conceivable article of furniture, and some that, to my untutored mind, bordered on the inconceivable; men on horseback, men in carriages, men on foot, drays hauling away what was saved, engines running here, and firemen running there.

The second scene came off this forenoon at St. Louis Cathedral, which was crowded with spectators, eager to witness the ceremony of "christening the flag" of the Louisiana Foot Rifles, a new military company, wearing the French Zouave uniform, and this being their first turn-out. In the centre aisle of the fine old building the company stood, in full uniform, and bearing their weapons: the altars were lit up, and a grand mass was sung in a masterly manner by a strong body of male performers; the band below at times joining with their instruments. The dignitaries of the church officiated, and the ceremonies were impressive. Amid the swell of the organ, the voices of the singers, and the salvos of artillery on the square outside, the voice of the officer could be heard giving his orders, and the grounding of arms produced the peculiar effect so noticed at the funeral of Minister Mason in France. The scene from the galleries was strangely beautiful—the dense throng of spectators, the weapons of death in a church, the elegant uniforms of the officers of other companies, and the beautiful creole ladies who seconded the members of the Rifles as they went through the multitude, and raised a contribution for charitable purposes.

The ceremony being over, the company left the church, marched through some of the principal streets, and went through some of their evolutions with great correctness and unity of movement.

MONDAY, October 31.

It does seem as though this city was to be purged by fire, there being no less than six alarms yesterday, but only one fire of any consequence—two brick buildings on Paydras street; and here, within gunshot of the Mississippi river, as at every other fire I have witnessed in New Orleans, there was a scarcity of water!

Stabbing, shooting and maiming still goes on. The Crescent of this morning reports nine cases since Saturday evening.

To-morrow will bring the return of the most beautiful and interesting of all Catholic festivals in New Orleans—that of visiting and decorating the graves of the dead. The painters, plasterers and others, for weeks back, have been engaged in freshening up the tombs and walks in the various cemeteries, and the stores where are sold souvenirs, mementos and ornaments for the decoration of tombs on All Saints' Day, have been thronged with buyers. A collection is taken up at the gates of the cemeteries for the benefit of orphans. To strangers, especially, will this festival, observed only in New Orleans, of all American cities, prove novel and interesting above all other things to be seen. IOX.

☞ The Washington correspondent of the New York Commercial Advertiser says that it is known there that the Republican members of Congress from Pennsylvania will not enter into any arrangement with the Anti-Lecompton Democrats for the election of Mr. Forney to any office in the House of Representatives. This determination is said to have been made under the advice of Senator Cameron.

CABINET LITERATURE.—The members of the Cabinet, having been invited to attend a great Democratic meeting held at Tammany Hall, New York, Secretaries Cass, Cobb, Floyd, Thompson and Toucey replied by letter, and every one of the letters discusses Harper's Ferry and Old Brown. It looks now as if these two planks are to be annexed to the platform.

HOW TO BECOME A REAL ESTATE AGENT.—Marry a rich wife.

For the Chronicle.

THE PROVIDENCE OF GOD.—God is nature in all its parts. Man is a power moving in God, for the reason that he combines all the attributes of God in his soul essence. The Providence of God is man's successful endeavor to find the right. That man lives not, who is a special favorite in the sight of God. It is the law of wisdom, in its discreet degrees, which makes man entertain the idea that a special Providence rules his destiny. God is the highest wisdom of man.

The wisdom of earth is but the truth of God revealed to man through his natural senses. The life of every individual is but a manifestation of the wisdom principle which exists in his endeavors to find a true life. All nature is but a manifestation that each and every department of God's universe is a power in itself, and sustained by its own inherent principles of existence.

A special Providence is nowhere to be found in nature's unfoldings. The fulfilment of the law of necessity, or cause and effect, is the ruling power in and throughout nature's dominions. Man is no exception. He possesses within himself the God principle of wisdom which rules his destiny. No man acts for himself under the no-law doctrine of chance. Every act is the fulfilment of a law which is developing the future man for weal or woe in his life on earth.

The doctrine of a special Providence is an absurdity. It makes the laws of mind a world of chaos, without law because without effect; making God the effect, man the ruling power. The law is nowhere in existence, which acts of itself without the fulfilment of an end. The life of every man is the fulfilment of the laws of mind, himself the ruling power. J.

Portsmouth, Nov. 6.

☞ The Boston Courier says:

"The Kansas Herald of Freedom, published at Lawrence, and a devoted Republican organ, gives a history of John Brown and his followers in Kansas."

The Kansas Herald is now about as devoted a Republican organ as the Courier. In the same paragraph the Courier adds:

"Some things are recorded by the Herald which almost defy belief."

They do *quite* defy it—and since the Herald has been sold into the service of "the adversary," it has been rather notorious for tough statements.

CAUSE OF THE DISCONTINUANCE OF POST OFFICES.—A Washington dispatch to the Philadelphia Ledger says: "A great many post-offices are being discontinued, for the reason that their postmasters are from two to four quarters behind in their returns. The pressure of business upon the offices has been so great that a sufficient force of clerks could not possiby be spared to note some thirty thousand quarterly returns immediately as they came in; and it was therefore only known at the end of the quarter what postmasters were delinquent. Such were then notified to send duplicate returns; but for the reasons above stated, it was not known till the end of the next quarter whether the duplicates had been received. To remedy this evil, an additional force of clerks must be authorized by Congress. The Postmaster General is now giving the subject his attention."

The whole system, by this statement, must be in *utter confusion*: the P. M. G. certainly cannot know what his department is about. To overhaul it will be quite a job.

☞ The disappointment concerning the Great Eastern's visit has been a great injury to Portland, says the Argus. Much has been expended in various ways in anticipation of her presence and the crowd it would draw, which will be a partial or total loss. It has also had the effect to delay and embarrass business transactions.

☞ The propeller Ohio, from Cleveland for Buffalo, exploded her boiler off Long Point, Ohio, on Sunday morning, and sunk. Thomas Corbett, 2d mate, and a wheelman, named Michael Danigan, were lost. The remainder took to the boats and were subsequently picked up by the propeller Equator. The Ohio had a cargo of 350 tons of merchandise.

☞ Rev. T. W. Higginson is delivering a capital Lyceum Lecture, on "Physical Training for Americans"—whom he urges to take more out-door exercise, as running, jumping, ball and cricket playing, skating, &c., instead of remaining in their air-tight rooms all the time.

☞ Much has been said about diet, but so long as food is healthy, we need not inquire as to its digestibility. Dr. Windship says the powers of digestion increase with the strength of the body, so that now he can digest anything which he can eat.

☞ The Scientific American states that there are in the city of New York about 200,000 smokers, and each using two cigars daily.

☞ M. A. Howell, Esq., of Ottawa, Ill., near Utica, with a single discharge of one barrel killed 25 teal ducks, 24 of which were bagged.

It is a good rule always to back your friends and face your enemies.

LOUISIANA ELECTION.—*New Orleans, Nov. 7.*—The election here to-day passed off quietly. In the 4th district, the Democrats have elected one member of the Legislature, one Justice of the Peace, and one State Tax Collector. In the rest of the city, the regular American ticket is elected by a large majority.

☞ The students of Dartmouth College have procured a bust of President Lord for the Library of that institution.

We ought not to judge of men's merits by their qualifications, but by the use they make of them.

Hatred we easily conceal. Love with difficulty, and with still more difficulty Indifference.

Running accounts will run away with a person's credit more rapidly than anything else.

TIMOTHY TITCOMB'S NEW WORK.

J. F. SHORES, JR., No. 1 CONGRESS BLOCK,
Has just received
GOLD FOIL, Hammered from Popular Proverbs. By Timothy Titcomb.

This is a volume of lay sermons. The author takes some of the trite proverbs of the day as his texts, and on them gives us sermons on the truths that have been verified and vitalized by human experience; for instance, Chap. 12.—*The Power of Circumstances*,—the texts are "The straightest stick is crooked in water;" "Opportunity makes the thief;" "The orange that is too hard squeezed yields a bitter juice;" "Circumstances alter cases."

Also lately received,
THE WORD OF THE SPIRIT TO THE CHURCH. By Rev. C. A. Bartol.
THE GOOD FIGHT and other Tales. By Charles Reade.

TEACHERS' INSTITUTE.

The Fall Session of the Teachers' Institute for Rockingham County, will be held at the Town Hall in Hampstead.

The session will commence on MONDAY, Nov. 14th, at 10 o'clock, A. M., and continue through the week.

The following instructors have been engaged:
CHARLES NORTHEND, A. M., New Britain, Conn.
J. D. PHILBRICK, A M., Sup. Schools, Boston.
DR. LOWELL MASON, New York City.
SANBORN TENNEY, A. M., Auburndale, Mass.

Evening Lectures will be given by the Instructors and others, of which due notice will be given.

Board will be furnished at a rate not exceeding $1.50 for the session.

Passengers by the Boston & Maine R. R. will stop at Atkinson station—distant 5 miles. Conches will be provided to meet the morning trains on Monday, and the morning trains on Tuesday and Wednesday. Fare, 25 cents.

School Committees and the friends of education generally, are urged to use their influence to secure a full attendance of those who are or expect to be teachers. All the exercises are open to the public, and all interested are invited to attend.

Teachers wishing to secure board may address any of the Committee of Arrangements at Hampstead.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston,—*Sirs;*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.
THEO. CALDWELL.

Prepared by S. W. FOWLE & CO., BOSTON. and for sale by Wm. R. Preston, David Kimball, Nathan F. Thacher, J. H. Thacher, and B. Hutchins, Portsmouth; J. P. Packer, Greenland; and dealers everywhere. spnot 4wd&w

Local Items.

☞ To be launched on or about the 12th November, from the yard of Messrs, Neal, Brooks & Mathews, (formerly Samuel Badger's,) a beautiful model ship of 1000 tons, to be called the "Portsmouth." She is intended for general freighting business, owned by parties in Portsmouth, and to be commanded by Capt. J. P. Trefethen. Strange to say, there has heretofore been no merchant ship to carry abroad the name of this port, the home of an immense fleet of the finest craft that float. There is, we believe, a very old whaleship of that name, and Uncle Sam's beautiful little clipper.

"COSMOPOLITAN ART ASSOCIATION", 1859–'60.—The Subscription Books for the sixth year of the Cosmopolitan are now open, and subscriptions ($3) are daily being received from all sections of the country, in a ratio unparallelled with that of any previous year. The collection of works of art, to be awarded in premiums among subscribers in January next, will exceed in number and value that of any year since the founding of the Association, embracing, as it will, choice paintings from the easels of the first American and foreign artists, sculptures, bronzes, outlines, bas-reliefs, &c. The superb engraving, which every subscriber will receive immediately on receipt of subscription, entitled "Shakspeare and his Friends," is of a character to give unqualified pleasure and satisfaction; besides which all subscribers receive the beautiful Art Magazine for the year, and *may* also get some of the splendid and valuable works of art, at the distribution. Names forwarded by Frank W. Miller, at the Chronicle Office, who is Honorary Secretary for Portsmouth and vicinity.

WHOLESALE THIEVING IN EXETER.—For a week or two past there has been much property stolen in Exeter. Cellars on several occasions have been entered in the night, a tub of butter, a barrel of pork, a quantity of pickles, a number of pies, a part of two harnesses, many clothes lines robbed, and some other things taken,—also twenty bushels of oats were stolen from one barn, and twelve from another. The plunderers came well prepared with horse and wagon, and were part and parcel, it is presumed, of some organized gang of thieves.

☞ The editor of the Exeter News Letter well says, "the art of reading needs encouragement, both in schools and elsewhere." Mr. Cutts, who reads at the Lyceum in this city, on Tuesday evening next, is one of the best readers we ever heard.

☞ Rare chance to buy Ready Made Clothing and Furnishing Goods cheap, at the Auction sale in Daniel street, this forenoon. See Sheriff Morse's advertisement, under the auction column.

Sale commences this morning at 10 o'cl'k, and adjourns at 1; also, sale this evening, at half past seven, and every evening till all is sold.

☞ The celebrated "Pabulum Vitæ," advertised in another column, is for sale by Kimball, Preston, and the Druggists generally everywhere.

☞ It will be seen that Mr. Philip J. Cootey advertises to open a Dancing School at Rechab Hall, Market street, this (Wednesday) evening.

FATAL SHIPWRECK.—The Liverpool (Eng.) Daily Post, of Oct. 27, contains a brief account of the total loss of Steamer Royal Charter, or Royal Charles, on the 24th, in the gale, in Muffa Red Wharf Bay, near Bangor. The Post says:

The melancholy intelligence, which reached us late last night was brief, but we fear only too true. Of upwards of 450 persons on board, only ten are said to have been saved. There is some doubt, however, that this is an exaggeration. Under any circumstances, the loss of life, it is to be feared, has been immense. The Royal Charles, it was supposed, had about half a million of gold on board. Where the disaster took place is not known, for the telegraph had ceased to work, and the storm had been so severe and destructive along the coast yesterday, that the Chester and Birkenhead Railway had been destroyed in two places. At Fennmannowe twenty dead bodies had been washed ashore. The bay in which the catastrophe occurred is two or three miles to the westward of Puffin Island, in Anglesea, and six or seven miles to the north-west of Beaumaris. It has a shallow sandy beach for several miles, with promontories at each end of the bay. The country around is wild, and few houses are about. The name of the steamer lost is undoubtedly "Royal Charter," not Royal Charles.

☞ The State election in Massachusetts' judging from the Boston papers of Tuesday evening, has resulted in the re-election of Gov. Banks and the republican ticket, as was generally expected. There was a great variety of tickets, parties and platforms.

☞ Levi H. Foster has had to pay Miss Caroline C. Knight one thousand dollars, according to a decision of a jury at Keene, N. H., for saying ungallant things of the lady.

CAPT. HOLMES.—The New York Tribune's Washington correspondent says the President will commute the sentence of Capt. Holmes, but grant no pardon.

☞ About four weeks since, Mr. Oliver C. Prescott, of Lowell, was thrown from his wagon and one of his hands badly bruised, and a finger broken. The wound was dressed, and he went the next day about his business. A little over a week ago he was confined to his room, and exhibited all the symptoms of lockjaw, requiring the services of five or six men to hold him, till Monday last, when he died. Mr. Prescott was a very strong and muscular man, and very nervous. He was well-known as a daring fireman, and was a straight-forward, honest man in his dealings. He was a native of New Hampshire, thirty years of age, leaves a wife and one child.

ANOTHER ATTACK ON BROWNSVILLE. *New Orleans, Nov. 7.*—Steamship Arisona, from Brownsville, Texas, Nov. 2, has arrived here. Cortinas and his band continued their depredations, threatening the inhabitants with fire and sword.

On the 20th ult., 30 men entered the city and fired one round, when they were dispersed by the artillery and fled. On the 24th, 120 men, with cannon and a howitzer, marched against Cortinas, and drove the guard from his house.

They subsequently were surprised by an ambuscade, and lost a cannon and howitzer, and finally were entirely defeated. Four were wounded and nine killed. Cortinas lost two, killed.

He afterwards sent a letter, demanding of the citizens of Brownsville the surrender of the Sheriff and others, to save the city from destruction. A general panic prevailed.

The city was barricaded and trenched dug for defence. An attack was hourly expected. It was reported that after taking Brownsville, Cortinas would attack Brazos, The Mayor of Brownsville appeals to New Orleans for 100 men, as their citizens are worn out, and the passengers had not arrived from Northern Mexico. Sixty felons from Victoria had joined Cortinas.

☞ A Virginian proposes, in the Richmond Whig, to be one of a hundred to offer $10,000 reward for the safe delivery of Joshua R. Giddings in Richmond, or $5000 'for the production of his head'—the said Giddings 'having openly declared himself a traitor in a lecture at Philadelphia."

The Boston Journal remarks:—"Our Virginia friends, in their anxiety to catch a 'traitor,' would very certainly catch a 'Tartar' if they should get possession of the veteran Congressman. Mr. Giddings, is much more likely to visit Richmond voluntarily, than the Richmonders are to raise $10,000."

FROM CALIFORNIA.—The overland mail arrived at St. Louis Nov. 7 with San Francisco dates of the 14th ult. Great preparations were making to receive Gen. Scott.

The creditors of Chorpenning & Co., mail contractors between California and Salt Lake, had attached their stock and other property for debt amounting to $30,000. It is feared the mails would be suspended from this cause.

The water courses throughout the State are at the lowest stage, and the miners holding claims in the beds of the streams were gathering a rich harvest of gold.

British Columbia dates are to Oct. 10.—Everything was quiet at San Juan.

The British Colonist says it was currently reported that a new Governor, named Howe may be shortly expected. The shipments of gold from Victoria in September amounted to $110,000.

The mines at Frazer River were doing well.

Business at San Francisco was slow.—There was little doing from first hands, except by auction.

Fousel's Pabulum Vitæ.
☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASE.
This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease, should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.
Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.
This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.
Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.
In the Boston Transcript of December 11, 1858, the editor says:—
"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"
Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.
BOSTON, July 31, 1858.
To Mr. F. LAFORME, Agent:
"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY.
Testimonial from a well-known Apothecary's Clerk.
BOSTON, March 10, 1859.
J. F. LAFORME, Esq.:
Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.
At Fred Brown's, Washington, corner State St.
In the Boston Post, Sept. 24, 1858, the editor says:
"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. F. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.
It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. novl1y

From the N. H. Gazette.

The Harper's Ferry Insurrection.

The attempt of Brown and his associates to excite and lead on a servile insurrection among the negroes of the South is giving great trouble and annoyance to the Black Republican presses of the North; and well it may, considering their complicity in the revolt, for nothing so daring and dastardly has ever before occurred in the history of the country. Some of these presses pass over the matter very lightly, attempting to treat it as a trivial affair, for which nobody is responsible but "Old Brown," who they affect to believe is insane; while others, and the larger part, fully realizing how seriously and palpably the Black Republican party is compromised by it, evince much excitement and denounce the Democratic papers in bitter and energetic terms for placing the responsibility of the foul plot where it justly belongs—upon the Black Republican leaders and presses, and through them upon the Black Republican party. In their desperation and rage they even ridiculously attempt to charge the accountability of the emeute upon the Democratic party! They say it was but the result of the natural promptings of revenge in Old Brown's bosom for the wrongs and injuries received by him at the hands of the pro-slavery Democrats in Kansas; and yet they admit that he went to Kansas an aggressor, with a wagon-load of rifles and ammunition to "fight the battle of freedom," and they are aware that whatever of hardship he experienced in his peaceable and pious undertaking, was brought upon himself by his aggressive acts and fighting propensities. Indeed, they know that he was sent to Kansas for the express purpose of exciting strife and promoting bloodshed to advance the aims of the Black Republican party, and that he was furnished the means and stimulated in his infamous career by the leading Black Republicans of the North—Emigant Aid Societies, editors, and even the clergy vieing with each other in the foul and treasonable work.

The truth is—and it is most glaringly apparent and cannot be gainsaid—the Black Republican party *are* responsible for the dastardly emeute of Old Brown and his villainous associates at Harper's Ferry; and the very editors of that party who manifest so much excitement and indignation in attempting to deny the charge, unwittingly confess its truth in the sympathy they betray for the principal actor in the revolt, and the excuses and justification they offer for his conduct. We do not mean by this that the Black Republican party, as a party, were cognizant of Brown's plans and designs upon the homes and lives of our Southern brethren before the outbreak occurred and assisted him in it, but we do mean that their treasonable course for many years past, in exciting and encouraging sectional strife upon the slavery question, has been calculated only to produce such results; and we do mean that certain Black Republican leaders of more or less prominence, did directly and knowingly aid and abet the fanatical and foul conspirators in their deed of atrocity and blood.

It is a fact not to be denied, that the Black Republican party have been flagrantly and grossly disloyal to the Constitution and laws of the country. They countenanced and sustained their leaders in sending Old Brown and his gang to Kansas to promote rebellion there. They organized Emigrant Aid Societies to furnish men for the infamous work, and contributed means to sustain the traitors and murderers. Their presses teemed with exultations at the anarchy which these ruffians were successful in producing, their orators gloated over it, and even the clergy in sympathy with them desecrated the pulpit and their holy office with encouragement and justification of the treason and atrocities committed, and the rank and file of the party every where sent up their shouts of rejoicing at the blow so successfully aimed at the Constitution and authorities of the land by the Free State bandit in Kansas.

That this state of things should culminate in an attempt to overthrow the institutions of the South and excite rapine, murder and devastation, by the desperadoes who, under the patronage of the Black Republican party, had become so well practiced in deeds of blood and infamy in Kansas, is as natural as that effect should follow cause. Men urged on by all the influences we have mentioned to "fight the battle of freedom" in the Territories with Sharp's rifles over the Constitution and laws, could not be expected to cherish much respect for the rights of Southern citizens in the States. If the "irrepressible conflict" between slavery and freedom justifies the employment of such means to promote freedom in the Territories, it justifies it to create freedom in the slave States, and thus has followed the atrocious emeute at Harper's Ferry. This was the natural consequence of the doctrine taught by Seward and all the lesser Black Republican leaders, by the Black Republican press and by the greater part of the clergy of the North for the past half-dozen years; and it was almost the necessary and inevitable result of the infamous scenes prompted in Kansas by the Black Republican leaders and paid for by the Black Republican party.

It now becomes a serious question which must engage all reflective minds, whether this Union can be preserved and its inestimable blessings transmitted to posterity, if this course of high-handed aggression by the North upon the South continues.—What can be more frightful to contemplate than a servile insurrection of the negroes of the South, in which all the horrid scenes of the St. Domingo revolt, and worse, would be repeated? And can the people of the Southern States continue to live friends and neighbors with those of the North while the latter menace them with this danger, torch in hand? Impossible. Such disbolical and fiendish conduct must cease on the part of the North, or the American confederacy will go down, perhaps quietly, but more probably in a sea of blood.

One thing this dastardly emeute at Harper's Ferry must impressively teach all patriotic and reflecting citizens, and that is, that it would be a deplorable event for the Black Republican party to attain ascendency in the nation.

Morning Chronicle.

CHILD MURDER.—In the Superior Court for Essex county, Mass., on Thursday, Mary E. Jones, of Lawrence, retracted her plea of not guilty to the charge of manslaughter, and was sentenced to hard labor in the House of Correction at Lawrence for the period of twenty years. In this case the prisoner, who is a married girl, 18 years of age, during the past summer deserted her infant child in a piece of woods between Lawrence and Haverhill, where it starved to death. The child was afterwards found, in a state of decomposition, where its unnatural mother had left it to die.

THE COLLISION ON THE SOUND.—The New Haven Palladium says that only two lives were lost by the sinking of the steamer Champion, of that city, early Wednesday morning—George Steele of New Haven, tea merchant, and Martin Johnson, one of the fireman of the boat. Mr. Steele lost his life by going back into the cabin of the sinking boat to get some valuables. Mr. Jackson was instantly killed by the bursting of the boiler. Mr. Steele had an insurance of $10,000 on his life. The blame of the accident is variously attributed to the commander of each boat.

The Journal of Commerce, the organ of the Hardsen New York, is in favor of commuting Brown's sentence to imprisonment for life.

Ah, gentlemen, says Uncle Toby, do what you will with old Brown, his life if he lives, his death if he dies, must tend to the strengthening of liberty and the weakening of slavery. Every honest, earnest effort to do right, and to undo wrong, however unwise, ill-judged, and unfortunate, for the time, must in the long run favor the right.

STARTLING DEPRAVITY.—The Webster Times reports that a Mrs. Keating died very suddenly at an Irish wedding in Douglas, Sunday night, and that her body was found next morning in the cellar, all the other inmates of the house being drunk in their beds. A coroner's invest failed to discover any marks of violence, and it is probably true, as the relatives stated, that the woman died in a fit, and that her body was conveyed to the cellar that it might not interfere with the wedding festivities. The deceased was a feeble person, and subject to fits.

☞ The junior counsel for the defense of John Brown writes that his demeanor, under the trying circumstances surrounding him, convinces all that he possesses an original nobility of soul which is to be found in very few individuals.

Stevens, another of the prisoners, is a man after the same pattern. He says if Brown had not been of so merciful a disposition, the whole party might have escaped to the mountains. Cook is detested by the other prisoners.

CLIPPER PLOWS

Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been

THOROUGHLY TESTED

by experienced Plowmen, who pronounce them

The Best in the Market!

These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices as *shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supersedes *all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.
The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

The Liver Invigorator.
PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.
Is one of the best PURGATIVE and LIVER MEDICINES now before the public.
These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.
VIRIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.
One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.
Only one dose taken before retiring, prevents NIGHTMARE.
Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.
One dose taken after each meal will cure DYSPEPSIA.
One dose of two teaspoonfuls will always relieve SICK HEADACHE.
Only one dose immediately relieves COLIC.
One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.
Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.
One bottle taken for JAUNDICE removes all yellowness or unnatural color from the skin.
One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.
One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.
A few bottles will cure DROPSY by exciting the absorbents.
We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.
All who use it are giving their unanimous testimony in its favor.
Mix water in the mouth with the Invigorator, and swallow both together.
PRICE, ONE DOLLAR PER BOTTLE.

THE ONLY ARTICLE
UNRIVALLED IN THE MARKET,
WITH IMMENSE
HOME AND EUROPEAN DEMAND.
The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:
NEW YORK, Jan. 8, 1858.
MESSRS. O. J. WOOD & CO.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.
The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.
My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JERKINS.
Cor. Columbia and Carroll Sts., Brooklyn.
LIVINGSTON, Ala., Feb. 14, 1858.
PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.
You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.
PHILADELPHIA, Sept. 9, 1857.
PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.
The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $5 a bottle.

AYER'S SARSAPARILLA.
A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—
SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.
This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which foster in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores; cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.
Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.
During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarsaparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Hence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly d espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral
Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.
FOR THE CURE OF
Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.
They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.
Price, 25 cents per box; five boxes for $1.
Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.
Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER'S, and take no other. The sick wan the best aid there is for them, and they should have it.
All our renedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

DR. J. B. HUGHES,
Knowing that there are at this moment thousands of persons in the surrounding towns, whose rendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that all of his medicines will be sent by express or otherwise, to all who may order them, provided a true description of the disease be sent by letter and directed as above.
Full and explicit directions will accompany every package, and the most inviolable secrecy observed.
DR. HUGHES can with safety say during the last year of his practice in Boston, more than a hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number had been upon his books as perfect cures.
Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.
Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to make experiments with false and fictitious remedies, at the expense of destroying what is the great jewel of life, a healthy constitution.
This medicine can only be obtained at the office of Dr. HUGHES, 13 Howard street, Boston.
DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.
The Dr. cautions the public to beware of base imitations that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.
All who are in pursuit of the genuine article had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.
These pills can be sent to any part of the country with directions. Remember the number, 13 Howard street, Boston.
P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at a reasonable rate.

Morning Chronicle.

☞ Joseph Fisher, of Williamsburgh N. Y., is a retired grocer and a sportsman. He recently visited Poughkeepsie to enjoy the fine shooting there, and took his daughter Anna Maria, aged sixteen and very pretty, with him. Selecting a hotel at which to leave his daughter, he found one kept by Cramer, a young man in moderate circumstances. While at this hotel, and while the old gentleman was in the woods pursuing game, the young man Cramer fell desperately in love with Miss Fisher. The passion was reciprocal, and marriage was proposed and accepted by the young lady, unknown to her sporting parent. The ceremony was performed just previous to Mr. Fisher's return. With Anna Maria he safely reached Williamsburg, leaving Mr. Cramer at the hotel. The husband took no steps to claim his bride until two weeks since, when he disclosed the marriage to Mr. Fisher, who was very indignant, and swore his daughter should never live with her husband. He detained her clothes from her, and would not permit her to leave the house. Cramer applied to the law for redress; the result was the issuing of a habeas corpus, and it is supposed, when the examination takes place, much excitement will be caused in Poughkeepsie.

RELIGIOUS BEQUESTS.—The late Saml. Cochran, a wealthy citizen of New York, by his will left a country mansion and $70,000 to his wife, and about $70,000 to other relatives. He also made the following bequests for religious objects: To the American Bible Society, $10,000; to the Old School Presbyterian Church of America, $10,000; to the Board of Foreign Missions of the Free Church of Scotland, $10,000; to the Board of Domestic Missions of the Free Church of Scotland, $10,000; to the Board of Foreign Missions of the Old School Presbyterian Church, $10,000.

If none of the societies above named are now existing in Scotland, the testator directs that the money be given to the Free Church of Scotland. He directs that the residue of his property be devoted in dispensing the Gospel of Christ in and around the city of New York, and throughout his native land (Scotland), in a similar manner to that adopted by Rev. Mr. Millen, of Kirkcudbright, Scotland.

HORRIBLE.—A few days ago, the daughter of a well known citizen, a prominent merchant and wealthy man of Albany, New York, was found in the street by some friends of her father, in a beastly state of intoxication, and taken home. A crowd of idle boys were about her, who were throwing piles of leaves upon her. She was tastefully and richly dressed, and wore a large amount of jewelry. From some cause or other, she has become addicted to strong drink, and her parents are obliged to keep a continual watch upon her movements.—She is a beautiful girl, about nineteen years old.

RAVELINGS.—For some time past some of the hose made by the Manchester Print Works, which are sent to various parts of the city, to be seamed, have been returned shorter than they were knit. No solution of the trouble was had until last week, when a lot of waste was discovered, consisting of ravelings, and on examination, the shortness of the hose was accounted for in the fact that some of the seamers have been accustomed to ravel a little from each pair. As there are a thousand pairs sent out weekly, this little soon amounts to a large quantity. There have been some two thousand pounds discovered, and the trouble will be guarded against in future. These ravelings have been sold for rags, at the rate of four cents per pound, and again sold for eight cents. The actual value is eleven or twelve cents. Hereafter the hose will be measured when returned.—*Manchester Mirror.*

Patent Asphaltic Roofing.
The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:
1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.
THE SUBSCRIBERS ARE ALSO AGENTS FOR

CLIPPER PLOWS
Are manufactured only by the subscribers, the inventors, who offer them to the agricultural interest after they have been
THOROUGHLY TESTED
by experienced Plowmen, who pronounce them
The Best in the Market!
These Plows embrace NINE DIFFERENT SIZES, the largest of which is much in advance of anything in the United States, as regards size, and, like the other sizes of this celebrated Plow, is drawn easily by a team much smaller than is absolutely requisite to draw a Plow of less size, of any other make than the Clipper.
We also assure our Farming friends that as we have hitherto endeavored to make our Plows superior to all others in those points which especially interest Plowmen, we are still endeavoring by unceasing exertions, to improve—if this be possible—upon our former successes, although those who are best acquainted in these matters say, "It cannot be done."
Notwithstanding the immense advantages which these Plows possess over all others, we offer them at THE SAME PRICES as are charged for common grades, satisfied that their great superiority will induce so large a sale, that our aggregate profits will make our business sufficiently remunerative.

Portsmouth, N. H.

THURSDAY, NOV. 10, 1859.

LETTER FROM NEW YORK.

NEW YORK, Nov. 7, 1859.

Two years ago we commenced our (of late much-neglected) correspondence, on the eve of a political election. The city is again in the midst of a period of similar import. The biennial recurrence of the election of city officers gives additional moment to this event, which on alternate years possesses less local interest to the New Yorkers. The administration of Mr. Tiemann as mayor has been a successful and popular term of office, as far as its abrogating influence could be felt against the strong current of a city council wherein the villainous element is largely in the ascendant. Although the mayor is a good democrat, with strong partizan proclivities, the impartiality and the absence of prejudice which has distinguished his official acts has made his administration a popular one with all parties.

Although the charter election takes place in a few weeks, no nominations have yet been made by the regular parties. The untimely measure of the indomitable Wood, proclaiming himself a candidate for independent suffrage, seems to stagger the numerous supporters of opposing interests in the party. But the cause of more immediate political excitement is the State and county election to-morrow. It would be a vain task for any one but a professional politician to attempt to comprehend the various issues and objects of the countless factions, cliques and coalitions, or the principles of the equally innumerable patriots who are anxious to serve and save their country.

Whatever may be the peculiar views of each, the dear people are assured of two things common to all, namely, that "ours is the reg'lar ticket," and that every nominee is "the workingman's friend and the champion of justice." I surmise that if the real principle and object of every one could be laid bare, the proper motto for every banner would still be the same for each and all, but would be composed of two more significant words—"public plunder."

In the days of ancient Rome, it was a custom enforced by law for all the men proposed for office to wear white togas. They were called *candidati*, from the word *candidus* (white), and hence the derivation of the modern term, candidate. If all office-seekers were now restricted to this mode of dress, what a ghostly procession would fill the streets of Gotham to-morrow!

While these contending factions are waging their intricate contest, there stands prominent among them a monitory presence, with its warning finger raised against corruption and rascality. This new body has presented itself under the name of the "Democratic Vigilant Association," and is composed of the leading merchants of the community. It has for its object the reform of the abuses so prevalent in the baser wing of the party.

The registration of voters under a new law has occupied the last month. As an evidence of its utility, an official informs me that in canvassing one of the up-town districts with a list, it was discovered, among numerous frauds of the kind, that in one instance, where the residence of 52 voters was registered as reported under a single street number, the locality was a vacant lot!

Through the attention of newspaper reporters and correspondents, the outer world has been feasted on the delectable particulars of the renowned wedding of Senor Oviedo and Miss Bartlett. More recently a new phase has been added to the attendant gossip by some bold cynic who dares to aver that much of the "pomp, pride and circumstance" was got up to order as an advertising dodge for the dealers, whose coffers, said rumor, were filled with showers of gold in exchange for jewels and bridal robes. A malicious wag, arm in arm with the cynic, thereupon perpetrates this epigram:

Let Brandreth, and Barnum, and Bonner himself,
As fogies, henceforth be laid on the shelf!
Sing, ye paeans, to Tiffany, Genin and Ball,
Who at shrewd advertising may boast over all;
For both *Hymen* and *love* was endorse their solidity,
And *Cupid* himself is the priest of *cupidity*.

We catch for you the rumor as it flies, without venturing to assert its reliability on the reputation of ISLINGTON.

A gentleman who "ought to be made an example of"—Mr. James Redpath.—*Boston Post.*

He *is* an example of plain speaking and writing, in one who is not afraid of being on the unpopular side of a great question, or of defending a man whom many attack.

But as to his being *made* an example—how shall it be done? by a mob? The Post will hardly say that. Shall it be done by law? Yes, certainly, but where is the law?

☞ The *official* returns of the Nebraska election give Gen. Estabrook, Democrat, *two* majority for delegate to Congress, and he has therefore received his certificate. His right to the seat will be contested by Daily, the Republican candidate, on the ground of fraud.

☞ In Massacusetts, on Tuesday, as we learn from the Boston Post, Gov. Banks was re-elected, and the House and Senate are largely Republican; and that Mr. Geo. P. Burnham, the State Liquor Agent, received but 48 votes in his own town of Melrose.

The American Republicans have carried their State ticket entire, and by a majority as large as that of last year, possibly larger. Banks is re-elected Governor, by a plurality of 23,258 votes. Trask is re-elected Lieut. Governor. All the American Republicans nominees are re-elected. All their nominees for the Executive Council are elected.

The same party have elected 36 Senators; Democrats 4; doubtful 2.

In the House, Am. Rep. 179; Dem. 50; Opp. 8.

Votes for Governor—Banks 58,431; Butler 35,473; Briggs 14,307; scat. 103.

Boston for the first time has given a Republican plurality on the gubernatorial vote. Last year Beach led Banks in the city—this year Banks goes out of Boston with 683 plurality.

The whole vote for Governor was 11,000 less than last year. The Democrats fell off 3000; the Republicans fell off 10,000; and the new Opposition party gained.

☞ The excitement at Charlestown, Va., with regard to the Harper's Ferry conspirators still continues. The trial of Copeland, the free negro, was brought to a close on Saturday afternoon, the jury finding a verdict of not guilty of treason, and guilty of conspiracy with slaves to rebel, and of murder. The prisoner was defended by Geo. Sennott, Esq., of Boston, who labored with much zeal for his client. A. D. Stephens was next brought into Court and placed upon a mattrass, for trial. Hazlitt and Stephens were finally handed over to the U. S. Marshal and lodged in jail until the term of the Federal Court. The case of Cook will be taken up next. He is not without hope of a verdict in his favor.

☞ The N. Y. Herald is informed by a dispatch from Richmond "that it is the intention to try Cook, the Harper's Ferry rebel, in the United States District Court for that district. This course has been determined upon with a view to compel the attendance of Seward, Greeley, Wilson, Howe and the other outsiders, who are suspected of complicity in the late insurrection. The list to be summoned, will embrace *every individual*, wheresoever he may reside, whose *name* has been identified with this movement in *any* connection, however *remote*."

This may be true, but Uncle Toby says it looks like the smallest kind of a humbug. He wishes they would set this great trial agoing,—for it would bring out such sport as has not been seen for a long time. He would not object to going to Richmond as a witness for the Government, at the expense of Uncle Sam, if he was "*compelled*" to do so, though he knows no more about old Brown than any of the others.

There seems to be no limit to the farces about to be played.

For the Chronicle.

WELSH RABBIT—A DELICIOUS DISH. Slice cheese very thin, and put in a saucepan or new tin dish, with small piece of butter, and expose to moderate heat. Beat up the yolk of an egg with half glass of sherry and same quantity of ale. When the cheese is thoroughly melted, add the egg, &c., very slowly, stirring constantly the while, until the whole assumes the appearance of a smooth mass. Have ready thin slices of hot toasted bread, and pour the cheese over them. Season with nutmeg and eat with Worcestershire Sauce or Walnut Catsup.

OBITUARIES.—Everybody remembers the famous epitaph, which closed with these words: "She painted beautifully in water colors, and of such is the kingdom of heaven." Some of the Boston reporters have hit upon almost as touching a mode of allusion to departed worth. At least two of them have announced the death of a gentleman in Brookline, and added, "He was the owner of the celebrated horse, Hiram Drew."

TURKEY BREEDING.—Few turkey-breeders are aware of the superior advantages of retaining old birds for breeding purposes. The most of our farmers dispose of their old turkeys, as they call them, every fall, which is in fact at least two years before they have reached their maturity, and just so long before they have arrived at the best age for breeding purposes.

A FAMILY HORSE.—Mr. George Brown of Pittsfield recently sold to Messrs. Strong & Lewis of Northampton, a noted horse, known as "Tiger Brown," for $800. The same horse has just been re-sold to a gentleman in Roxbury for $1600. The animal is a good family horse, "with all the virtues, and can go below 2:40." So says the Pittsfield Sun.

☞ The Rockland Gazette says a woman died in that city last week in a rum fit, and the husband gets his living by selling the stuff that killed her.

CANINE AFFECTION.—A dog of African breed, which belonged to Gen. Espinasse, who fell at Magenta, still lurks about the spot where he shed his blood, and though often taken away, even to some distance, constantly returns.

☞ Mrs. Cornelia Forbes, of Fairhaven, Conn., was "posted" by her husband. She accordingly "posted" him in return, saying that as he had never paid his own bills, it isn't at all likely people will be foolish enough to ask him to pay hers.

It is said that three hundred horses are annually killed in Hanover for consumption by the eaters of horseflesh, which is a very numerous class in Germany.—*Spirit of the Times.*

GREAT PREMIUM OFFER!

ECLECTIC MAGAZINE.

Any person who will send us a new subscriber to the ECLECTIC MAGAZINE, his own name or any other, with the pay for one year in advance, shall receive by mail, post-paid, either of the following beautiful Parlor Companion prints For two names and the pay, he shall receive both prints. *The plates cost twelve hundred dollars.* They are new, engraved by John Sartain, whose price was to be $5 the pair. He writes:

"I have bestowed the utmost care and pains in the execution of these engravings; and the length of time employed upon them renders $1200 a moderate estimate."

FILIAL AFFECTION—SUNDAY MORNING.

The print bearing this title represents a scene in front of a farmer's homestead, and in the distance, viewed through the open gate, is a church; while on the road between, are groups obviously tending thitherward. The party in the foreground are engaged in preparations for departure towards the same heaven-pointing spire; and a beautiful girl of about seventeen summers, waits, Bible in hand, by the garden gate, holding it open for the egress of the family, and smiling on the infant. The mother, still handsome, attends on the aged grandfather, adjusting with affectionate care a kerchief to protect him from the cold; while he, rested upon a donkey, supports the youngest child in front of him. Three other children are occupied, one in sport with a dog, and the older ones in receiving instruction from the farmer himself, who is seated by the door-stead. An aged oak spreads its protecting arms over them all.

HOME SCENE—RETURNED FROM MARKET.

The market-cart has returned from the town, bearing a rich freight of purchases to the delighted young people, who are receiving them with eagerness. The farmer's wife, not yet descended, has, with one hand, pressed a gay new bonnet from the open handbox on her lap, to the miss in her teens, whose ecstasy of admiration is unmistakable. The other she extends, with a bright new rattle, to the youngest darling, who, with joy, seems ready to spring from the arms of its fondling grandmother. The old gentleman, seated in the piazza, is in the act of adjusting his spectacles for the immediate perusal of the fresh newspaper spread on his knee; while the small boy and his sister are diving into the mysteries of the basket of new crockery, and other delectable condiments. The farmer is seen carrying a heavy basket up the steps of the porch. In the shadow which it throws we see coming events, for there pussy stealthily moves down on a brood of chickens, so young as to be still very like eggs.

Around are all the various concomitants of a farm. The doves coo on the eaves, the turkeys and other poultry are about, and there, too, is "the iron-bound bucket that hangs by the well," while through the open house-door we see into the comfortable and well-supplied kitchen. This mansion colonnade presents a strong resemblance to Mount Vernon, with Washington sitting on the piazzr, reading the paper.

This is an easy mode of obtaining two beautiful engravings worth $5, and the ECLECTIC MAGAZINE, which is confessedly the best magazine published, and the most beautifully embellished every month. It ought to be in every intelligent family. The September number begins a volume. Now is a good time to subscribe.

TERMS.

The ECLECTIC is issued on the first of every month. Every number contains one hundred and forty-four large octavo pages, double columns, on fine paper, neatly stitched in green covers, with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of six hundred pages each, with titles, indexes, and embellishments. PRICE FIVE DOLLARS. The postage is only three cents a number, prepaid at the office of delivery. Specimen numbers forty-two cents, postage-stamps.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs;*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxygenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

☞ Mr. Gangooly's Lecture on Brahminism, Tuesday evening, was very interesting and instructive. He is a very easy and pleasing speaker, and has acquired the English idiom with astonishing accuracy. His address was delivered without notes, in a sort of colloquial style; and received the earnest attention of the large and appreciative audience throughout. In appearance he is not unlike an Indian of medium size and much intelligence. We commend him to the notice of Lyceums, for the intrinsic merit and interest of his lectures, no less than the forwarding of his object—to fit himself as a Christian Missionary among his own benighted people. The managers of the Lyceum understood he was to appear in the Brahmin costume, but there was a mistake somewhere, and he came dressed in plain b'ack.

☞ We omitted to notice the visit to our Navy Yard, a few days since, of His Excellency Governor Goodwin, where he received the salute due his official station, as prescribed by the Navy regulations. Our attention has been drawn to the matter by the inquiry of a friend as to the cause of the salute on that day.

☞ Another false alarm of fire, Wednesday evening, brought out the engines and the loafers—and if these alarms continue thus, nobody else *will* be aroused by them, presently.

☞ We understand that the Independent Christian Society of this city, worshipping in the Temple, has given Rev. Moses Howe a call to settle as their pastor. We believe he has returned no decisive answer as yet.

Prof. A. O'Leary's Lectures.—We would direct the attention of our readers to an advertisement in this day's issue under the motto,—"Know Thyself." Mr. O'Leary has been lecturing during the last ten or twelve years, in the western and southern States and the British Provinces and has attained a very high reputation as an earnest, eloquent, and enthusiastic speaker and remarkably successful delineator of character. His first and second lectures in this place will be delivered free of charge.

☞ We copy on our fourth page this morning, some verses on the extra display made at the late N. H. State Fair at Dover. They were written for and published in the Journal; and we will only remark concerning them, that they certainly contain as much truth as poetry—and that no order who was not on the spot, can begin to appreciate them. All the displays of "inimitable embroidery," &c., that ever delight the vision, were as nothing when compared with this. "What you see by the light" don't commence.

☞ The Tribune figures out the result of the New York State election thus: The State officers on the Republican and American tickets are elected by large majorities; the other four officers on the State ticket are doubtful, but thinks Republicans have elected. The Legislature is strongly Republican.

New York, Nov. 3.—Returns from New Jersey indicate the election of a Republican Governor by 2000 majority. The Senate is Democratic; House doubtful.

Requisition for Gerrit Smith by Gov. Wise.—The N. Y. Tribune understands that a requisition has been made by Gov. Wise of Virginia upon Gov. Morgan of New York, for the surrender of Gerrit Smith; but whether on the charge of treason against the State of Virginia, or of murder, also, has not transpired.

☞ The Mayor of Philadelphia has no fear of permitting Sunday amusements in the city. He stopped the performance at a German theatre last Sabbath by putting out the footlights and sending the actors to the station house.

☞ Hon. J. J. Faran, Post Master of Cincinnati, has been removed from office. The offence consisted in owning a share of the Enquirer of that city, the leading democratic paper of the State, which has expressed a preference for Douglas for the Presidency.

Centice styles flame the *flower* of fire—extinguish it from the flower of sulphur.

☞ A Connecticut schoolmistress having troublesome boy to manage, *sat down* on him. She was a large woman and he "crushed out" his insubordination.

The *democrats* in this State and particularly in this locality, were never better united at present. The truth is, the factionists, who are not willing the voice of the people should prevail, are *not* democrats. They are not entitled to the name.—*Bath Times.*

The best evidence in the world that Christianity is advancing is found in the fact that the walls between the sects are growing weaker, or falling in ruins.

What is the difference between the *bark* of a tree and the *bark* of a dog? One is found on the *bough*, and the other of the cow.

☞ Letters from Paris state that the old Prince Jerome Bonaparte is dying.

☞ Louis Napoleon, it is rumored, has recently had another and most violent attack of that nervous disarrangement, which has been so frequently spoken of, and which, it is feared, will sooner or later, make him a confirmed maniac.

☞ The Pottsville, Pa., Mining Record complains that, while the price of coal in the Schulykill region has advanced from fifteen to twenty-five cents per ton, great difficulty is experienced in finding vessels at Philadelphia to transport it Eastward.

☞ A large stone fell from a building in course of erection in New York, on Monday, and crushed two of the workmen to death, mutilating them in a most frightful manner.

Lady Pedestrians.—While our beautiful American women are fond of imitating the follies of their charming sisters "across the water" in all matters of extravagant dress, late hours, and neglect of domestic duties, we wish that, as a compensating good, they would also imitate European leaders of birth and fashion in their cultivation of athletic pursuits. Think of a walk, over hill and dale, bog and rock, of twenty-four miles—and yet this was done by a Duchess, a beautiful, delicate looking woman.—*Spirit of the Times.*

Wisconsin Election. — *Milwaukie, Wis., Nov.* 8.—Scattering returns from various parts of the State show that the Republicans gain on the vote of 1857, and indicate the re-election of Randall.

☞ A second person has been arrested at Providence, charged with complicity in the murder of Burrill Arnold of Warwick, and a warrant has been served on John Hallam of Fall River, now in jail in Providence, for being a participator in the same affair.

☞ Christopher Healey, a New York omnibus driver, ran over Rachel Alexander last month, with his omnibus, injuring her so badly that she died. Healey took the matter so much to heart, it is said, that he fell ill, and died on Monday, of remorse.

☞ Blaney, the wife murderer, was executed at Grand Falls, N. B., on the 28th ult. He died protesting his innocence, declaring it was not him but *rum* that did the evil deed.

Another Insurrectionist Arrested.—*Memphis. Tenn., Nov.* 8.—W. R. Palmer, an alleged insurgent, has been arrested on a requisition from Gov. Wise.

☞ Nearly one hundred blackfish went ashore at Truro on Saturday night. They were divided into 60 shares, worth about $30 each.

RELIEF IN TEN MINUTES!!

Bryan's Pulmonic Wafers!

The most certain and speedy remedy ever discovered for all Diseases of the
CHEST AND LUNGS, COUGHS, COLDS, Asthma, Consumption, Bronchitis, Influenza, Hoarseness, Difficult Breathing, Sore Throat, &c., &c.

These Wafers give the most instantaneous and perfect relief, and when persevered with according to directions, never fail to effect a rapid and lasting cure. Thousands have been restored to perfect health who have tried other means in vain. To all classes and all constitutions they are a blessing and a cure—none need despair, no matter how long the disease may have existed, or however severe it may be, provided the organic structure of the vital organs is not hopelessly decayed. Every one afflicted should give them an impartial trial.

TO VOCALISTS AND PUBLIC SPEAKERS, these Wafers are peculiarly valuable; they will in one day remove the most severe occasional hoarseness; and their regular use for a few days will, at all times, increase the power and flexibility of the voice, greatly improving its tone, compass and clearness, for which purpose they are regularly used by many professional vocalists.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of Consumption, Bronchitis, Coughs, Colds, and all Pulmonary Disease.
This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country: while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are officinally used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.
Respectfully,
A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858, the editor says:—
"We have seen a letter from an eminent physician of this city, in which he says:—'I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a minute dose is essential; or for adults of irritable stomachs, or having a tendency to reject ordinary medicines given for coughs, etc. I shall continue to use it in my practice.'"

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.
Boston, July 31, 1858.
To Mr. F. Laforme, Agent:
"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the Sisters of Charity.

Testimonial from a well-known Apothecary's Clerk.
Boston, March 10, 1859.
J. F. Laforme, Esq.:
Dear Sir—I had been suffering for a considerable length of time from a severe cough, and had in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, when three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I can now confidently recommend it as the best medicine I know of. Yours, truly,
CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State St.

In the Boston Post, Sept. 24, 1858, the editor says:
"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*; the evidence of which is in the handwriting of the subject, Mr. Wm. P. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon his business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it, in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been most happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in laying before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1.00 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 26 Tremont street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov7ly

Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to, any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove, that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These, besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining Patents.

I have no hesitation in assuring inventors they cannot employ a person more competent and trustworthy, and more capable of putting their application in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

EXTRA EXHIBITION AT THE STATE FAIR.

Ben Perley Poore, who everywhere is known,
Knight of the Wheel, and Baron of renown,
Trundled his car of late to Dover city,
Where, as at Concord, on the grass did sit he.
The Granite State that day spread out its Fair
And men and things were intermingled there;
Among them statesmen, and chief magistrates,
And village squires, daughters and their mates.
On the wide field the Major ranged that day,
Where tents and bins gave forth their rare display
Of horses, oxen, cows and sheep and swine,
And mammoth products of the earth, so fine.

This was the whirlwind home where *Hale* was born,
And so, to fill the show—pipes up a storm.
The tents were soon all huddling in the air,—
The crinolines the rude gale did not spare—
And sympathetic hats were rising there.

The day had passed—the harsh wind ceased its sound,
And at the table, passed free converse round.
Now Perley Poore, o'er the wide world you've been—
How stands our State with others you have seen?
Say, Major Poore, what most your mind impressed
Of all our Fair-y scenes of interest?
"'Twas your *fair* stock," the Major quick replies,
And animation filled his glowing eyes.
"'Twas not the heavy oxen—noble creatures,
'Twas not the dairy cows, with pleasant features—
'Twas not the chubby swine, so grossly fat—
'Twas not the noble horse—no, 'twas not that.
No—no such sight one-half so pleased my eyes
As the *twin-calves* your state may richly prize!
Never before this ever-blessed day
Has any state made any like display—
Nor can they vie, unless they first do mind
To make a contract with—the Northwest wind."

MOTHERS,

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.

FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

Sold by CHURCH & DUPONT, Druggists, No. 25 Maiden Lane, New York, And by all respectable Druggists throughout the country.

In Portsmouth by W. R. PRESTON.

BLOOD FOOD

Dr. Bronson, having been so far rewarded by successful children and adults who have invariably benefited by the use of the blood food, feels it his duty to make known its merits, and publish the effect of philosophy, connected the idea of ANALYZING THE BLOOD, and supplying the defect of philosophy in the more invalidated constitution. The effect of all schools are using it with wonderful success. Full directions, see circulars. Price $1 per bottle.

MRS. WINSLOW,

An experienced Nurse and Female Physician, presents to the attention of Mothers, her

SOOTHING SYRUP,

For Children Teething.

Which greatly facilitates the process of teething by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers, it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR INFANTS

We have put up and sold this article for ten years, and can say, in confidence and truth, of it, what we have of any other medicine, never HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE, when timely used. Never did we know an instance of dissatisfaction by any one who tried it. On the contrary, all are delighted with its operations, and recommendation of its marvelous virtues. We speak, in this matter, what we do know, after ten years experience, and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the BEST FEMALE PHYSICIANS and SKILLFUL NURSES in New England, and has been used with never-failing success, in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC, and overcome convulsions, which, if not speedily remedied, end in death. We believe it the BEST and SUREST REMEDY IN THE WORLD in all cases of DYSENTERY AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—*Do not let your own prejudices, or the prejudices of others*, stand between your suffering child and the relief that will be SURE—yes, to follow the use of this medicine, if timely used. Full direction for using will accompany each bottle. None genuine unless the *fac-simile* of CURTIS & PERKINS, New York, is on the outside wrapper. Sold by Druggists throughout the world. Principal Office, No. 13 Cedar st. New York.

Price only 25 cents per bottle.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,

EMPIRE STATE, WHITE MOUNTAIN,

REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices *as shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes,—made expressly for large families, boarding houses, hotels, &c.; or wherever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into the market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it *supersedes all* others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS,
is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,
Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.
Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.
Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,
D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pure Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar, Most of these have been frauds upon the sick, for they not only contained little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly cspised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of WOOD, EDDY & CO., are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to
WOOD, EDDY & CO.,
Wilmington, Delaware.
Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, rendering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaint, and consult a physician, he would state that one of his medicines will be sent by express or otherwise, to all who may order them, provided a true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy observed.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than hundred cases of disease which have been imperfectly treated by empyrics have come under his care, and more than three-fourths of this number were inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to experiments with false and fictitious remedies at the expense of destroying what is the great prize of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some opprobrious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article had better call on the Dr. at his office, where he will be sure of getting the genuine—the only pills in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished with kind and attentive nurses if they wish, at a reasonable rate. jy dly

Smith's Curative Cleansing Compound
Has readily cured or effectually relieved, in numerous cases in various parts of New England, the following complaints, viz: Neuralgia, Sore Throat, Croup, Chapped Hands, Chilblains, Cuts, Bruises, Sprains, Burns, Scalds, Spider Bites, Sore Breasts, Erysipelas, Frost Bites, Dysentery, Colic, Cramp in the Stomach or Limbs, Rheumatism, Ague, Toothache, &c. The above complaints may either be relieved or cured in a few minutes.
For sale in Portsmouth by Preston, Hutchings, Thatcher, O. F. Gerrish, J. H. Wells, Jos. Harvey & Son, C. E. Laighton, A. A. Payne.
Prepared by JOS. SMITH, HAVERHILL, MASS.

MOTHERS,
In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.
First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—It is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.
FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to procure it in time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.
Sold by CHURCH & DUPONT, Druggists, No. 85 Maiden Lane, New York.
And by all respectable Druggists throughout the country. In Portsmouth by W. K. Preston. o18

*Dr. Brandreth, being so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself—a regular physician of twenty years' practice—as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of phrenology to the more immediate connection, and effect of the blood upon the health and sickness of man. The result has been the production of this "BLOOD FOOD," from the use of which Dr. Brandreth was restored to perfect health. Within six months after its introduction, over 300 consumptives were effectually cured by it. If you have any complaint of a consumptive tendency, such as Cough, Cold, Hoarseness, Pain in the Side, Loss of Appetite, or Flesh, or any other symptoms of a consumptive nature, you will find in procuring a bottle of the "BLOOD FOOD" a most valuable addition. In the most interesting cases of Hysterics, the patient can have find the most efficient and marvellous relief. A benefit is always experienced after taking only one bottle. FRIDAY, NOV. 11, 1859.

A RAMBLE WITH A RAMBLER.

Come, Mr. Editor, and take a stroll with me; 'tis the first of November, and that is a great day with the Catholics in New Orleans. It is almost too early to visit the cemeteries as yet, and therefore I propose that we get a glimpse of the steamboats at the Levee.

At the Steamship Landing we see the the dark and strongly built craft which ply the waters of the Gulf—nothing superfluous in ornament—the Mexico and Texas, which have come from Indianola and Galveston, laden with cotton, hides, pecans, and beef cattle; the Granada, from New York via Havana, having a large cargo of assorted merchandise, and commanded by Capt. Griffin, late of the Philadelphia, who forfeited his bonds at the fillibuster trial, went to New York, and returned with the Granada.

Here are the light and airy palaces of the Mississippi,—steamboats from St. Louis, Cincinnati, Louisville, Memphis, Vicksburg, Natchez, the Red, Ouachita, and Arkansas rivers, the Balize, and all Bayous, bringing lard, pork, whisky, cotton, oats, oranges, sugar, molasses, &c.

What an animated scene the Levee presents—the negroes unloading and loading boats, the numberless drays (the law requires every one to be numbered,) taking away the huge stacks of cotton which cover the wharf, making a brilliant display with the flags of their consignees; the Inspectors, testing the flour, sugar, lard, &c., and branding the same; the numerous venders of small ware, who pursue their itinerant livelihood around the Levee; and the thousands of people who come and go on business of one sort or another. There! did you see that nigger boy, as black as the ace of spades and as dirty as New York streets, putting his digitals in the open bung-hole of that cask of Syrup, then sucking them with evident relish? Faugh! no more 'buckwheat' for me. That cotton which you see them gathering up, charred and wet, caught from the sparks of the fire, Sunday night. 'Tis not all out yet, you see the hydrant is playing upon it.

What? Oh, that dome! That is on the St. Louis Hotel, which is re-opened to-day, after being thoroughly refitted, under the management of O. E. Hall, Esq., late of the St. Charles, and the square, of which you think you have seen a picture, is Jackson Square, laid out on the plan of one of the squares of Paris, at the expense of Mad. Pontalbert, who resides in that city and owns those blocks of buildings which face opposite sides of the Square; the St. Louis Cathedral faces the third, and the fourth side is open on the Levee.

Let us turn up this street, neglecting the admonition 'Get your drinks at Ed's house,' painted on the fence, and by the time we reach the cemeteries the crowd will be there. Don't like the smell? Pooh! man, that is nothing but the open sewers, you will soon become accustomed to it.

Those beautiful flowers and wreaths in the windows, which you so much admire, are for the especial purpose of adorning the tombs to-day, and there are many stores in the neighborhood of the Cathedral, whose trade for a month past has been entirely engrossed by this one branch.

This street, with its rows of trees and wide strip of sward in the centre, is Rampart street, and this next, wider still, but having trees and sward the same, is Basin street, and here is a cemetery. That clinking you hear as we are about to enter is a small boy striking a fruit basket with the edge of a coin, merely to remind the visitors that donations for various Orphan charities are today collected. Throw your mite into the receptacle, and we enter. Isn't it a novel sight? The tombs, (all above ground,) have been whitened, cleansed and repaired, the walks put in order, and the profusion of ornament,—natural and artificial flowers, vases, candles, and souvenirs—makes a brilliant display. Those large tombs, overtopping the mass, are those of various societies. The large square one, draped with black velvet with silver trimmings, belongs to the Orleans Battalion of Artillery; the next, surmounted by a tall shaft, is that of the Volunteer Catalans; those of the French and Portugese Benevolent, and the St. Anne Societies, are massive in their construction and appropriately trimmed; but for beauty, that large circular tomb of white marble, with fine sculpture in the niches on its side far eclipses all the rest,—it is that of the Italian Mutual Benevolent Society, erected in 1857.

A street or two above this cemetery, we shall find a series of three; passing from one, we cross the street and enter another, even as those whose bodies lie there have left this world, crossed the dark street of Death, and entered another world all unknown before.

We have seen all there is to be seen in these, let us turn our steps to Canal street. The way they have here of peddling gingerbread, peanuts, &c., at the entrance of a grave-yard is a step beyond anything I ever heard advanced against Connecticut peddlers. We go down Custom House to Basin street, and thence to Canal. What name is on that silver plate? Nelly Gwyn! Not the fair mistress of England's sovereign, but one whose morals are full as lax, I trow.

Now we meet a procession, 'tis the New Susitanos Benevolent Association. See the heavy plumes of the hearse, the numerous flags and banners bound with crape, and the symbol of mourning on the left arm.—They are going to their new tomb in the Girod St. Cemetery. We will go with them and see the ceremony, for I wish to show you the tomb of Lt. Col. W. T. Bliss, who distinguished himself at the battles of Palo Alto Reseca de la Palmer, Buena Vista and Monterey, and who died in 1853. The monument is one of the most elegant in the city, and the splendid willow beside it is worthy a visit of itself.

And now, Mr. Editor, as you seem fatigued, and my appetite indicates the approach of dinner-time, I will allow you to take your leave. ION.

New Orleans, Nov. 5.

WOLFE'S BRANDY.—A New York correspondent of the Rutland, Vt., Herald, says:—

Speaking of war, reminds me, that Udolpho Wolfe, the well known importer of 'Schnaps,' has just thrown the enemy's camp in commotion by a bomb shell announcement that he shall hereafter wage battle on all dealers in adulterated liquors, and has followed it up by laying under their noses, one of his weapons in the shape of a direct importation of his own, which he denominates 'Wolfe's pure Cognac Brandy.' It is said that more than eight-tenths of the of the so called foreign and pure importations are adulterations of the grossest character, being made up of alcoholic mixtures, with narcotics, opiates, acids, alkalies and vegetable and mineral poisons. It is further a matter of fact, that not one in one hundred of the travellers representing wholesale liquor houses throuhout the country, sell articles that have not passed through one or more of the diluting or amalgamating processes of the mixer; and when one reflects upon the number of hands a gallon of liquor has to peregrinate, before it reaches the mouth of the consumer, it will be evident enough that the percentage of pure juice it contains, is very much like Gratiano's "two grains of wheat, in two bushels of chaff." The object of Mr. Wolfe is to supply the trade, and particularly to druggists, pure wines and brandies bottled, so that as in the case of the Schnaps, except where counterfeited, the purchasers, and especially invalids, may depend upon receiving a genuine article.

Speaking to a friend the other day he informed me that a traveler connected with one our New York houses, not a great while ago visited a Southern city, gave to the dealers there a sort of walk-into-my-parlour dinner, at a cost of $500—afterwards sold them $15,000 worth of liquid damnation diluted, cleared $9000 by the operation, and started for home in two weeks after he entered his name upon the register of the hotel—a moderately comfortable way of doing things.

SHALL JOHN BROWN BE HUNG?—The Republicans want him hanged, because it will serve their interests. The Democrats don't want him hanged, because it will injure theirs. Neither of them looks upon poor Brown himself as a party in interest. They both have their eyes on the Whited Sepulchre at Washington, and think of nothing else. If John Brown, dead, or alive, can pilot them there,—via Harper's Ferry, or by any other way.—their ends will be answered.

This is the exact state of the question, which politicians discuss as coolly as if no human life were in any way mixed up with it. The Brown Republicans, the Blue Democrats and other parties being equally heartless in the matter.—*N. Y. Sat. Press.*

☞ The trial of Cook, the rebel, at Charlestown, Virginia, began Nov. 8. Gov. Willard and Mr. Crowly, brothers-in-law of the prisoner, were seated beside him. He pleaded not guilty to all the counts in the indictment except treason. The prisoner was *well dressed*, firm and dignified. The demurrer to the treason count was argued and overruled by the Court. The jury were sworn, and Mr. Green, for the prisoner, admitted the fact of a conspiracy with slaves to rebel, which was punishable with death or imprisonment for life. Mr. Hunter then read the confession of Cook, written by himself. Nothing new was elicited by it, except that he implicated Fred Douglass and Dr. Howe of Boston.

The feeling against Cook is stronger than against any other of the prisoners. He is regarded as having been a spy for the insurrectionists. Strong efforts will be made by Gov. Willard to save his life.

☞ The sentence of Capt. Holmes of Me., convicted some time since of the murder of a sailor upon the high seas, and sentenced to be hung on the 25th inst., has been commuted to imprisonment for life.

NEW YORK ELECTION.—State Senators elected 24 Republicans, 8 Democrats, being a net gain of 5. District Judges—Probably 6 Republicans and 2 Democrats.

NEW JERSEY ELECTION.—Alden's majority for Governor, 1600. Senate, 12 Democrats, 8 Opposition and one American elected. House 29 Democrats, and 28 Opposition and 3 Americans chosen. There are still some doubts as to the House.

GOOD READING.—To a cultivated, appreciative person, there are few more agreeable entertainments than *good* reading. To those of our readers who heard and saw Hon. Hampden Cutts, when he read Shakspeare in Portsmouth, last winter, we have nothing to say. Either they have been more favored than we in hearing good reading, or else we differ in opinion—if they do not pronounce him the best reader they ever heard. To those who have not heard him, we commend the following favorable notices—which express what we thought of him them, (and he is said to have much improved since,) and what others think of him:

The Chronicle said then and now says—Mr. Cutts is a gentlemen of fine appearance, good voice, and easy and agreeable manners. So entirely easy and natural is his reading—so free from any approach to the stage-struck rant, which to our apprehension mars and almost destroys the effect of such entertainments generally—that the interested listener will often forget himself and fancy the characters personated are all actually before him, engaged in familiar colloquy. Most public readers of Shakspeare are those accustomed to its stage performance, and carry with them much of constrained manner that is not agreeable: Mr. Cutts is one of the most natural, if not *the* most natural, free and life-like reader we ever listened to.

The Vermont Journal says:—Mr. Cutts has few equals as a public reader; and the amount of good conferred upon any community by a good public reader is great.

The Burlington Times says:—We have seen the Comedy of Errors played, with the two Placides as Dromios, and have heard it read by Mrs. Butler; and from neither did we derive so much gratification as from the finished reading of Mr. Cutts.

The Burlington Times says:—We hardly think Mr. Cutts can be excelled as a reader, any way, and we are sure that nobody can read Hood's unpleasant pleasure trip on the Thames better than he did; but we much prefer to hear him read Shakspeare, and, therefore, are less disposed to praise anything else. We know this isn't fair, but can't help it. We think Mr. Cutts ought to be content with being foremost among the translators of Shakspeare. If we could *read* half as well as he can, we would stop *writing*.

The Burlington Times says:—In the same vocation Mrs. Butler exhibits more of stage effect, perhaps, and very effectively; but in genuine *appreciative* rendering of the great master, we are unwilling to concede to her any superiority over Mr. Cutts. *He* never heard any of the "famous" Shakspeare readers, but reads with a fresh, individual interpretation of the text, which, to our mind, is better than the trained and somewhat conventional reading of the best dramatic "artists." It is the difference, as near as we can express it inoffensively, between intellectual and physical reading.

The Northfield Herald says:—We think that we express the opinion of the whole audience when we say that better reading could scarcely be. His voice is fine and flexible, his emphasis correct, his manner easy and graceful.

The Green Mountain Freeman says:—Hon. Hampden Cutts read the first part of Shakspeare's play of Henry the Fourth with perfect success. Having had an opportunity of hearing all the principal professional readers of the great bard, we know of none more capable of fulfilling the difficult task so as to make it conducive of the highest zest and enjoyment of an audience. The stage itself, with all its appointments, with a star or two to enact the chief parts, while the rest are mouthed by underlings, can scarcely afford such unalloyed pleasure as when all the characters are properly rendered with just changes and intonations by one whose tastes and studies have fitted him for the task.

The Boston Journal says:—Mr. Cutts fully met the high expectations which had been raised by the very complimentary notices of his previous readings.

The Boston Sat. Eve. Gazette says:—Mr. Cutts, before a large and discriminating audience, sustained, in the estimation of all present, the reputation that had preceded him from other places.

The Boston Transcript says:—Mr. Cutts may well regard the rapt attention and hearty applause of his audience as sufficient evidence of his complete success.

The Boston Courier says:—De Quincey informs us that to his other accomplishments the celebrated manducator of opium adds that of being a fine reader, which the writer, as well as De Quincey himself, justly considers a rare and difficult art.

The Boston Traveller says:—Mr. Cutts is one of the few public readers who are content to read in a style that is natural, without attempts at imitation of others.

Mr. Cutts is to read at the People's Lyceum on Tuesday evening next, and we shall procure his programme for publication if possible.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption, The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston.—*Sirs:*—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxygenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY p sesses extraordinary properties for the speedy a permanent cure of CONSUMPTION, BRONCHI COUGHS, COLDS, and all PULMONARY DISEAS

This celebrated specific is now universally knowledged to be infinitely superior to all ot preparations for the cure of Pulmonary Diseas both from its innocent nature and most astoni ing curative properties; *it being the only rem known that will arrest the development of Tube in the Lungs or restore the vital functions of the monary organs to their normal condition.* Its inva able properties have obtained for it the hig recommendation and praise from some of the m eminent physicians and chemists in the count while the best and surest proofs of its merits afforded by the numerous testimonials of its gr efficacy in conquering disease, which are c stantly received from our most respectable c zens. Invalids in all stages of pulmonary dise should not fail to give it a trial, as it can be ministered to the most delicate and feeble w perfect safety and certain relief; and we here insert a few testimonials for their encouragemen selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to unequalled virtues of this great discovery.

This preparation, by chemical analysis, w proved to be free from opium, or any of its co pounds; nor were any of the alkaloids pres It does not contain any mercurial or mineral stance, but consists wholly of volatile, diffusi agents, which afford vapor freely at a mode temperature. Most of the substances present officinally used in alleviating pulmonary diseas but the device by which they are combined is n and original, and adapts the compound to inha tion, or other modes of administration.

Respectfully,

A. A. HAYES, M. D., State Assayer
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 18 the editor says:—

"We have seen a letter from an eminent phy cian of this city, in which he says:—I have w *Fousel's Pabulum Vitæ* in several cases of Bronch disease, and in some with great benefit. I kn of no remedy equal to it for children, where s nute dose is essential; or for adults of irrit stomachs, or having a tendency to reject ordina medicine given for coughs, etc. I shall contin to use it in my practice."

Testimonial from a well-known Apothecary's Clerk

BOSTON, March 10, 1859

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a consider ble length of time from a severe cough, and h in vain had recourse to nearly all the remedies use. My cough began to give me much unea ness from its serious effects on my system, wh three days' use of *Fousel's Pabulum Vitæ* restor me to complete health. The medicine being n in this market, I had recourse to it last; but I n now confidently recommend it as the best me cine I know of. Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State s

In the Boston Post, Sept. 24, 1858, the edit says:

"An extraordinary cure of Consumption has certainly come to our knowledge, effected throu the instrumentality of *Fousel's Pabulum Vitæ*. evidence of which is in the handwriting of t subject, Mr. Wm. P. Brigham, No. 130 Albany in this city. It seems that for eighteen months had been exhibiting all the usual symptoms Consumption, and that after having had recour to the skill of various physicians, without bene he had to abandon his business and be confin to his house. Hearing of *Fousel's Pabulum V* and of several remarkable cures effected by it cases as desperate as his own, he concluded to t it as a forlorn hope. The result has been m happy—he has now entirely recovered, and is e gaged in his usual pursuits. It is such well auth ticated cases as this that we take pleasure in la ing before our readers, since, by so doing, ma ny valuable lives may be saved, and much good e fected.

THE LYCEUM.—One-half of the entertainments of the Course have been given,—and we believe all have been well received.

It will be seen that Mr. Cutts is to Read Shakespeare on Tuesday Evening next.

It is to be regretted that neither Ben: P. Shillaber nor Albert Laighton have found it convenient to write a new Poem this season—and consequently a substitute must be found, some other poet-lecturer if possible.

Rev. J. G. Adams is to Lecture, probably about the middle of December; and there will be one or two more Concerts.

It will be seen that the price of tickets for the remaining half of the Course, is only 50 cents.

☞ A gentleman connected with the fire department, and who has had much experience there, desires us to say that loafers, who go to a fire, not to work, but to get in the way, are a very great annoyance to the firemen; and that their room would be a great deal better than their company.

When an alarm is given, the good, prompt fireman cannot wait to see whether it is true or false.

It is, therefore, as oppressive and unjust, as it is contemptible, to raise a false alarm, disturbing the social circle or public meeting at an early hour—or frightening the timid at a later one—and in every case bringing the fireman away from their work or their homes.

There is a law against false alarms, and a penalty on those who make them.

At Portsmouth, we learn that Mr. French, a sculptor of much promise, has arisen, who has been very successful in portraits and in ideal works. His "Truth" has been for a number of weeks on exhibition at Newburyport. It represents Truth in the form of a beautiful "full blown" woman. The shoulders and neck are pronounced by connoisseurs as most graceful and natural, although some think the face a little too bold and masculine. The portraits of Rev. Dr. Peabody and Rev. Dr. Burroughs of Portsmouth, have been executed in marble by Mr. French, and are most animate and life-like.—*Boston Transcript*

☞ On Tuesday a couple of men landed here from a sloop boat called the Ella, and carried up a quantity of old iron to a store where such articles are bought, and there sold the iron for $4 and some odd cents. The store-keeper gave them a $5 bill in payment, which they took out to get changed—but as they did not come back, he concluded they went some distance; and as they did not return to their boat, it is surmised they are a couple of thieves, who stole the boat in some harbor, came in here, sold the ballast, and slipped off with the V. The boat is advertised.

☞ Altered bills on the Union Bank, Concord, N. H., raised from ones to tens, have been put in circulation within a few days, in Boston. Look out for them in Portsmouth.

☞ On the 9th of November, Gerrit Smith was sent to the Lunatic Asylum at Utica, seriously deranged, A Richmond, Va., dispatch of the 9th says:

It is stated on the very highest autority that no requisition has been been made by Gov. Wise on Gov. Morgan of New York, for Gerrit Smith.

The highest authority is of course Gov. Wise himself.

☞ At Sturges, Mich., a Mr. Broyer was attacked by a gang of rowdies.—Among them was the old man's two sons, and the intention was to tar and feather him because he did not live within their views of the moral code. The old man fired on his assailants, killed one and wounded others; one of the wounded being one of his sons.

☞ The latest news from Liverpool is to Oct. 79. The steamer Royal Charter, after she struck on the rocks, broke in two with a dreadful crash. 460 persons were lost, and only 31 saved. All the women perished. The bullion, it is expected will be recovered.

Garibaldi issued a stirring proclamation to the Neapolitans. Fighting in Naples is considered imminent.

France supports Spain in the war with Morocco.

AMERICAN & FOREIGN PATENTS.
R. H. EDDY, Solicitor of Patents,
Late Agent of U. S. Patent Office, Washington, under the act of 1837.
76 STATE, OPPOSITE KILBY ST., BOSTON.
All necessity of a journey to Washington to procure a patent, and the usual great delay there, are here saved inventors.
TESTIMONIALS.
I regard Mr. Eddy as one of the most capable and successful practitioners with whom I have had official intercourse. CHAS. MASON,
Commissioner of Patents.
BOSTON, February 8, 1858.
Mr. R. H. Eddy has made for me THIRTEEN applications, on all but one of which patents have been granted, and that one is now pending. Such unmistakable proof of great talent and ability on his part leads me to recommend all inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART.
From Sept 17, 1857, to June 17, 1858, the subscriber, in the course of his large practice, made on TWICE rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in HIS FAVOR, by the Commissioner of Patents.
Boston, Jan. 1, 1859. R. H. EDDY.

GROVER & BAKER'S
Celebrated Family Sewing Machines.
NEW STYLES. — PRICES FROM $50 TO $125.
HEMMERS, $5 EXTRA.
OVER THIRTY THOUSAND IN USE

These Machines sew from two spools, as purchased from the store, requiring no rewinding of thread, and finishing each seam by their own operation, without recourse to the hand needle, as is required by other machines. On account of their simplicity, durability, ease of management, and adaptation to all varieties of family sewing, they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY
Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—
That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.
That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.
That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.
That it is nearly noiseless in its operation.
That its construction is more simple, and its liability to disarrangement less than any other.
That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.
Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.
That it uses thread or silk from the *original spools*—no re-winding—no shuttles or bobbins to fill.
That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family, when a GROVER & BAKER Machine will do it better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.
PORTSMOUTH, April 12, 1859.
Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to all others. ALLEN & PAINE.
PORTSMOUTH, July 16, 1859.
If you wish to purchase a machine that will do work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

GREAT PREMIUM OFFER!

ECLECTIC MAGAZINE.

Any person who will send us a new subscriber to the ECLECTIC MAGAZINE, his own name or any other, with the pay for one year in advance, shall receive by mail, post-paid, either of the following beautiful Parlor Companion prints. For two names and the pay, he shall receive both prints. *The plates cost twelve hundred dollars.* They are new, engraved by John Sartain, whose price was to be $5 the pair. He writes:

"I have bestowed the utmost care and pains in the execution of these engravings; and the length of time employed upon them renders $1200 a moderate estimate."

FILIAL AFFECTION—SUNDAY MORNING.

The print bearing this title represents a scene in front of a farmer's homestead, and in the distance, viewed through the open gate, is a church; while on the road between, are groups obviously tending thitherward. The party in the foreground are engaged in preparations for departure towards the same heaven-pointing spire; and a beautiful girl of about seventeen summers, with Bible in hand, by the garden gate, holding it open for the egress of the family, and smiling on the infant. The mother, still handsome, attends on the aged grandfather, adjusting with affectionate care a kerchief to protect him from the cold; while he, seated upon a donkey, supports the youngest child in front of him. Three other children are occupied, one in sport with a dog, and the older ones in receiving instruction from the farmer himself, who is seated by the door-stead. An aged oak spreads its protecting arms over them all.

HOME SCENE—RETURNED FROM MARKET.

The market-cart has returned from the town, bearing a rich freight of purchases to the delighted young people, who are receiving them with eagerness. The farmer's wife, not yet descended, has, with one hand, passed a gay new bonnet from the open bandbox on her lap, to the miss in her teens, whose exultation in its possession is unmistakable. The other she extends, with a bright new rattle, to the youngest darling, who, with joy, seems ready to spring from the arms of its fondling grandmother. The old gentleman, seated in the piazza, is in the act of adjusting his spectacles for the immediate perusal of the fresh newspaper spread on his knee; while the small boy and his sister are diving into the mysteries of the basket of new crockery, and other delectable conditments. The farmer is seen carrying a heavy basket up the steps of the porch. In the shadow which it throws we see coming events, for there puss stealthily moves down on a brood of chickens, so young as to be still very like eggs.

Around are all the various concomitants of a farm. The doves coo on the eaves, the turkeys and other poultry are about, and there, too, is "the iron-bound bucket that hangs by the well," while through the open house-door we look into the comfortable and well-supplied kitchen. This mansion colonnade presents a strong resemblance to Mount Vernon, with Washington sitting on the piazza, reading the paper.

This is an easy mode of obtaining two beautiful engravings worth $5, and the ECLECTIC MAGAZINE, which is confessedly the best magazine published, and the most beautifully embellished every month. It ought to be in every intelligent family. The September number begins a volume. Now is a good time to subscribe.

TERMS.

The ECLECTIC is issued on the first of every month. Every number contains one hundred and forty-four large octavo pages, double columns, on fine paper, neatly stitched in green covers, with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of six hundred pages each, with titles, indexes, and embellishments. TWO DOLLARS. The postage is only three cents a number, prepaid at the office of delivery. Specimen numbers forty-two cents, postage-stamps.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

THE CLIPPER, BOSTON & MAINE,
EMPIRE STATE, WHITE MOUNTAIN,
REPUBLIC, BANNER, &c.,

with many others, for wood or coal, which will be sold at such prices as *shall defy competition.*

The Combination Stove and Range.

One of the greatest inventions of the age, for Cooking purposes—made expressly for large families, boarding houses, hotels, &c.; or whenever a great amount of Cooking is required in the shortest possible time, it having 3 large ovens, 6 boiler holes and *separate apartments* for baking, broiling, frying or roasting, requiring no more fuel than any ordinary Cooking Stove. It is warranted to give entire satisfaction in every particular in point of economy, convenience, or ease of management; as we believe it to be far ahead of anything of the kind yet introduced into this market. We therefore ask an examination of the "Combination Stove & Range," feeling confident that it supercedes all others for which it is intended, and will be sold at a very low price.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet invented. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

PARLOR STOVES

of the most approved kinds.

STORE, OFFICE & SHIP STOVES;

BOX AND CYLINDER do.

SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes---Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year—and in *every* instance have given perfect satisfaction

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

The Liver Invigorator.

PREPERED BY DR SANFORD,

COMPOUNDED ENTIRELY FROM GUMS,

is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite and makes the food digest well.

One dose, often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

We will use it are giving their unanimous testimony in its favor.

Mix water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

HOME AND EUROPEAN DEMAND.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being occular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully

D. R. THOMAS, M. D.,
No. 464 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Para Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will accomplish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUMS, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live longer, for cleansing the blood. Keep the blood healthy, and all is well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Acute bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly espised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

PRICE, $1 PER BOTTLE; SIX BOTTLES FOR $5.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their name to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand AYER's, and take no other. The sick wan the best aid there is for them, and they should have it.

LOTTERIES.

THE LOTTERIES OF

WOOD, EDDY & CO.,

Are chartered by the States of Delaware and Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with them is done in a strictly honorable manner. They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The Managers would respectfully call attention to the fact, that all persons have a legal right to send orders for tickets to Delaware or to Georgia, as the Lotteries of

WOOD, EDDY & CO.,

are authorized by the Legislature of either State.

A Lottery will be drawn every day at Wilmington, Delaware, and also at Augusta, Ga. All orders received being filled in the drawing next to take place after same comes to hand.

Whole tickets are $10; halves, $5; and quarters, $2.50.

No ticket sent unless the money accompanies the order. Prizes vary from $20 to $50,000.

Every prize is drawn, and the result of drawing forwarded to all purchasers.

☞ A circular showing the plan of receiving it. All communications strictly confidential.

Write your address plainly, and direct to

WOOD, EDDY & CO.,
Wilmington, Delaware.

Or to WOOD, EDDY & CO.,
Augusta, Georgia.

☞ All letters to our address will be promptly acknowledged—and prizes cashed without delay.

NOTICE TO CORRESPONDENTS.

Those who prefer not sending money by mail, can use the "ADAMS EXPRESS COMPANY," whereby money for tickets, in sums of ten dollars, and upwards, can be sent us

AT OUR RISK AND EXPENSE,

from any city or town where they have an office. The money and order must be enclosed in a "GOVERNMENT POST OFFICE STAMPED ENVELOPE," or the Express Company cannot receive them.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insidious inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints and consult a physician, he would state that some of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care and more than three-fourths of this number were inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not allured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. jl 2 dly

Prepared by JOS. SMITH, HAVERHILL, MASS.

MOTHERS,
In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you.
First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them.—Secondly—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show: the very roots from which it is distilled being dug from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly—it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation.
FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsions or fits, we earnestly recommend you to loose no time in procuring it—Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason we commende itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.
Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.
And by all respectable Druggists throughout the country.

DR. ADAMS'
SARSAPARILLA & DANDELION.
This combination of two of the most powerful and decidedly curative vegetables in the world, has proved itself, during the years we have been introducing it to the sick, the most wonderful blood purifier and invigorator ever offered to the afflicted. Scrofula, Salt Rheum, Ulcers, Old Sores, Boils, Blotches, Pimples, and all other blood diseases, are its legitimate conquests. Dyspepsia, Costiveness, Jaundice, Female Weakness, Nervous Debility, and all other kindred complaints, are speedily cured by its use. Purchasers are requested to read the pamphlet accompanying the article, and give it a fair trial. Sold by all respectable druggists everywhere. Price $1 per bottle, or six bottles for $5.
Prepared only by DR. ADAMS & SON, No. 308 Washington St., Boston, Mass.
Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.

DR. EATON'S
INFANTILE PURGATIVE.
This article is now offered to the public with the full confidence that its long and decided superiority will ensure it the preference over every other article of the kind. It is not a cordial, but a mild cathartic, and is so combined as to be free from griping, and to be taken by the most delicate infant without nausea. It is a sure remedy for the Cholera Infantum, and all other bowel complaints to which children are subject. Sold by all respectable druggists everywhere. Price 25 cents per bottle.
Sold by CHURCH & DUPONT, Druggists, No. 35 Maiden Lane, New York.

BLOOD FOOD.
Dr. Bronson, having been so far reduced by consumption, as to be convinced he could not recover by the most eminent of the medical profession, and also by himself—a venture tried—gave up his practice of twenty years, practice—as a last resort, discovered the idea of ANALYZING THE BLOOD, and supplying the subject of physiology to the more immediate consumption, and effect of the state of the blood upon the health and system. Dr. Bronson was restored to perfect health. Within six months after its introduction, over 200 consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, "BLOOD FOOD" from the use of which

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, NOV. 12, 1859.

SWEEPING STATEMENTS.

Messrs. Editors:—I observe in the Morning Chronicle of Friday, a little piece from the New York Saturday Press, on which I wish to offer a few remarks.

The Saturday Press asks the question, "Shall John Brown be hung?"—and then answers it thus:—

"The Republicans want him hanged, because it will serve their interests. The Democrats don't want him hanged, because it will injure theirs. Neither of them looks upon poor Brown himself as a party in interest. They both have their eyes on the Whited Sepulchre at Washington, and think of nothing else. If John Brown, dead, or alive, can pilot them there,—via Harper's Ferry, or by any other way.—their ends will be answered."

The first of the above statements strikes me as a falsehood, and the second also,—both of these relating to the *wishes* of the two great parties. I am in habit of daily converse with men of both these parties.—Not a Republican have I heard express a wish to have him hung,—but many of them expressed a faint hope and an ardent wish that he might live. Nor have I heard from any democrat the *wish* that he might be hung. There is a very large number of all parties in this State, opposed to capital punishment *in toto*. I have heard people of both parties say they did not see much chance for his life,—and heard some democrats say he *ought to die*.

The third statement, that neither of them looks on Brown as a party in interest, is utterly contradicted, by the commiseration which all sober people here bestow on *him*, whatever views they have of his insurrection.

The force of such sweeping statements is always very small on men who think for themselves: asserting too much, they fail to convince of any thing.

The Press closes the article thus:—

This is the exact state of the question, which politicians discuss as coolly as if no human life were in any way mixed up with it. The Brown Republicans, the Blue Democrats and other parties being equally heartless in the matter.

Is it so, Messrs. Editors? Are the men of the two great parties *heartless*? And the men of all *other* parties *heartless* also? Who then has a heart? I suppose it must be he and he only, who so flippantly condemns every body else in these petty extracts.—He, forsooth, has a heart, and has honesty of purpose, but every freeman who takes enough interest in public affairs to be active in politics, must needs be dishonest, mercenary and heartless! The writer must have looked in a mirror. He who places no confidence in his fellow men, scarcely deserves to have any confidence placed in him.

HOMO.

NEW AMERICAN CYCLOPEDIA.—This very useful and valuable work moves steadily forward toward its completion, and each successive volume thus far maintains and tends to increase the reputation which had been secured by those preceding it. Among the best of the articles which we have examined in the volume now before us, are those on Jonathan Edwards, (by Geo. Bancroft,) on Electricity and Electro Magnetism, on Emerson, Fielding, and Frederic II, on Evidence, Fortification, and Fossil Footprints. From the uniform carefulness, diligence in investigation and fidelity of treatment which are manifest in these articles so various and remote, it is fair to presume that the same qualities characterize the entire volume. The discussion of the themes is terse and comprehensive, the distribution of them for the most part happy, and the style is in general nearly a model. The work, as hitherto prosecuted is an undeniable and very gratifying success. It is needed and timely, and we are sure will prove a powerful means of popular instruction.

MORE CHURCH LITIGATION. — The Presbyterians having been defeated in the State court in their suit against the Federal Street Church of Boston, for the recovery of the real estate of that Society, have commenced an action in the United States Supreme Court, and secured the services of the Hon. Caleb Cushing as their counsel.

The present Presbyterian church in Boston, have about as good a claim on the Federal Street Church, as Uncle Toby has on the papal chair or the British throne.

HANGING. — Speaking of hanging, the N. Y. Saturday Press says, in reference to the brutal custom long supported by bible passages, "It is high time human life was held paramount to texts and ecclesiastics.—Hanging men is going back to the old eye-for-eye, tooth-for-tooth doctrine of the Jews, who, as Carlyle says, made their choice, twenty centuries since, between Christ and Barabbas, and have stuck to it ever since."

The first time a horse trotted in public in America, was in 1818, when a match was made for $1000, that no horse could be produced which could "trot a mile in three minutes." The horse won the stake.—*Boston Trans.*

☞ Godey's Lady's Book for December, 1859, is remarkable for the number and elegance of its engravings, of which there are three on steel, two of them, "The Departure" and "The Return," or, "First and Second Class Cars," match pictures of beauty of design and execution; the fashion plate, unrivalled in its truthfulness of design, its utility, and its coloring; two seasonable plates of "Suspense" and "Sorrow;" colored plate of fruits; and 28 pages of wood cuts. Godey's *exchange* list is said to be over 2300.

☞ Gen. Butler, the late Gubernatorial candidate of the Massachusetts Democracy, made a rousing speech at Milford one evening last week. In the course of the evening he criticized the liquor law with that delicacy and good taste for which the General is distinguished. A brother Democrat, anxious to vindicate the truth of history, inquired if he was not the author of that law. The candidate for Governor owned up, but said, by way of apology, that he became so professionally, and that his friends paid him $500 for the job.

☞ The Richmond Whig learns that several servants in Culpepper have reported to their masters that they have been approached by strangers with inducements to run away. The people are exercising great vigilance to ferret out these incendiaries.—"The truth is," says the Whig, "we have no longer any use in Virginia for the vagabond tourists or itinerant peddlers of unknown character, who have heretofore found free course among us."

☞ The Tribune reports that Wendell Phillips, on receiving one hundred dollars for his recent lecture at Plymouth Church, upon the Harper's Ferry invasion, immediately paid over the whole sum as a contribution to John Brown, to procure for him such comforts as he may need in the few remaining days of his life.

HOPE FOR JOHN BROWN.—The code of Virginia prescribes that "no person shall, while he is insane, be tried for a criminal offence." Measures will doubtless be taken to institute the necessary proceedings, so that the question of Brown's insanity may undergo an investigation.

THE DRUNKARD KING.—The King of Prussia, a great drunkard, and who has been lying prostrate by disease for a long time, is worse. His brain is softening, and he is almost entirely a piece of paralysis.—Poor old King, he could not drink hard with impunity, any more than common individuals.

☞ At the Wentworth, Canada, assizes, last week, the jury awarded to the family of the late Rev. Mr. Fawcett, who was killed by the accident on the Great Western Railway at Flamboro', last spring, $5000 damages. On the same day the jury, in the case of Cook, seriously injured by the same accident, awarded him $5000 damages, and a like amount to the family of Mr. McAleeze, who was killed.

☞ A Miss Goddard, daughter of one of the first citizens of St. Louis, has eloped with a professional gambler, and was traced to Cincinnati, but there the trail was lost.

☞ Toby Rice, the negro who was kidnapped in Morrow county, Ohio, and delivered to his claimant so summarily at Columbus, by Marshal Newhall, has been sold to a negro trader for $1300.

☞ The case of Dr. J. C. Ayer of Lowell, charged with an assault upon Mr. R. S. Fay, Jr., has been continued till the 16th inst, bail being reduced from $20,000 to $1000.

☞ John Ward, on the day of the "Diamond Wedding" at St. Patrick's Cathedral in New York, had one of his little fingers broken by the shutting of an iron gate by the crowd. The finger was amputated, but inflammation supervened, and he died from the effects of the operation, Tuesday morning.

☞ In the Superior Court, at Lowell, Wednesday, Judge Rockwell sentenced Margaret Gorman to spend the remainder of her days in the House of Correction, for burning the dwelling house of Michael Gorman in West Cambridge on the night of the 27th of September.

THE FIG AT THE SOUTH.—Of all the fruits cultivated at the South, the fig requires the least care and is one of the most productive and useful. Gentlemen near Mobile, upon the Gulf, have planted the fig largely, with the intention of using the fruit as Northern farmers use apples—for the purpose of fattening swine.

☞ The extended brandy of Massachusetts finds a rival in New York in the shape of what is known as "tanglefoot whisky," a beverage in use in the lower wards of that city, and warranted, says a New York papaper, to "upset an individual at a distance of four hundred yards from the demijohn containing it."

THE WEDDING TOUR.—Perhaps, after all, there is some sense in wedding tours.—At first, the attention is drawn away from each other by the change of scene, afterwards by the duties of life. It lets them down easily. It is a dissolving view, that imperceptibly discloses a stern reality.

☞ A letter dated St. Helena, Sept. 19th, announces the arrival of two slave prizes to Her Majesty's watchful cruisers. One is the "Stephen H. Townsend" of New Orleans; she had a full slave cargo, and the captors obtained something over 200 doubloons. The other is a Spanish vessel, and also has a slave cargo. She was captured off Bahia Honda on the 17th ult., after having been chased for nearly an hour; and having been fired on by blank cartridges to no effect. As she would neither come to nor show her colors, the effect of a shot was tried, which passed completely through her from stem to stern, and startled her nest of birds, who took to their boats and escaped to the shore with their valuables;—but they were no sooner landed than the blacks on shore stove their boat to pieces, and knocking down the men, robbed them of everything they had. This makes six slavers captured recently by the English, and it is said the American squadron have also made some prizes.

One slaver was caught in a fog. On its lifting, she found her captors at hand. The slaver had a man at the mast-head looking out, and as soon as the fog lifting disclosed the man-of-war, the wretch of a captain deliberately shot the poor fellow down from the mast dead on the deck, because he could not see through a fog.

ARSENIC AS A PROMOTER OF BEAUTY. Statements have occasionally been made of late years, that the young women of the Austrian provinces of the Tyrol were in the habit of eating arsenic to improve their complexion, and that the poisonous substance, so far from injuring the health, promoted an increase of flesh. This dangerous romance has recently been exposed by Dr. Danbery, in a paper read before the British Association. He says no faith is to be put in the statement, notwithstanding it had found a place in Dr. Johnston's "Chemistry of Common Life." The reverse of the statement is, in fact, true. It is said that this use of arsenic was told to Dr. Johnston by a practical joker, who did not like to confess the imposition he had put upon the chemist after it became public. Therefore, young ladies, beware.

☞ The boys of Bristol, R. I., still keep up the practice of having bonfires on the evening of November 5th, to commemorate the discovery of the famous Gunpowder Plot. On Saturday night, however, not content with the usual fire on the common, some of them repaired to the premises of an honest son of Erin, near the Catholic church, and applied the match to his stacks, which were consumed, together with one or two outbuildings, and his house narrowly escaped the same fate.

In Portsmouth, the *Irish* boys, strange to say, join the others, in the foolish work of blowing the pope-night horns, from the middle of October to the 5th of November.

☞ There is no end to the evidence that may be presented of the utterly spurious character of ninety-nine hundreths of all the wine sold in America. A traveller now abroad writes as follows:—

"Good champagne costs as much here in France, at hotels, as it costs at our hotels at home. You may judge how genuine an article *we* get. Oh, the humbug about wines! There are in France immense manufactories of spurious wines for foreign exportations; so what does it amount to when a man says '*I know* that *my* wine came through the custom house!' One cannot get a fair article of Bordeaux (or claret) here for less than $1 or 50 cents a bottle; at home it is sold for 75 cents, and often at 50. The inference is obvious."

The water that has no taste is purest; the air that has no odor is freshest; and of all the modifications of manner, the most generally pleasing is simplicity.

A north-western editor boasts of the spaciousness of his columns. They are like some of the spacious hoops we see occasionally—there's nothing of much consequence in them.

If souls, instead of bodies were imaged by the sun, many a man, now thought a personable fellow, might well tremble at his shadow.

A Kentucky paper says that tobacco is king. Yes, it reigns in many mouths, but hasn't very nice-looking kingdoms.

CHANGE OF NAME. — Since the Diamond Wedding, it has been proposed that an application be made to the High Court of Love or whatever, to have the name of Cupid changed to Cupidity.—*Sat. Press.*

Senator Sumner is about to resign his seat in the U. S. Senate, and, it is said, will marry and reside in England. Gov. Banks will undoubtedly succeed him in the U. S. Senate.—*Wash. Corres. Baltimore Sun.*

All moonshine.

A Washington letter says Senator Douglas lies seriously ill with an attack of gout in the stomach.

A later item says:—

Judge Douglas is much better. His disease is simply an attack of bilious fever.

If the alphabet were alive, why would you find it difficult to kill it? Because you couldn't put the letter B out of "being."

☞ The Massachusetts House of Representatives, by a *vote*, have shut up Geo. P. Burnham in jail, for contempt.

☞ Quails are becoming quite numerous in some partsof Illinois, and people shoot them from the doors of their houses.

☞ On Tuesday night, at Post Town, Montgomery county, Ohio, a store was broken open. The safe was taken out, horses were hitched to it, and it was drawn a quarter of a mile into the woods, where it was blown up with powder, and $340 stolen from it.

☞ The old wooden school house in the north part of Tyngsboro', which has been standing for more than a hundred years, was accidentally set on fire by some children, on Saturday last, and burned down. It was very strongly built and well preserved. All the books of the scholars were consumed.

HEIRS.—The papers at the south recently reported the death of an opulent citizen who prescribed in his will that his male heirs should belong to the Democratic Party. A letter from Italy reports a similar case, as follows:—

"A few days ago a wealthy gentleman, Alessando de Marchi, died at Padua, leaving behind him two sons and three daughters. When the local judge opened his testament it was found that the Paduan gentleman had left his fortune to his natural heirs on the express condition that they should forfeit it if ever they accepted office under the Austrian government, or should his daughters marry any person connected in any way with the loathsome foreign rule.'

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & Co., Boston,—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxgenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

Fousel's Pabulum Vitæ.

☞ THE GREAT FRENCH REMEDY possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Diseases, both from its innocent nature and most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs or restore the vital functions of the pulmonary organs to their normal condition.* Its inestimable properties have obtained for it the highest recommendation and praise from some of the most eminent physicians and chemists in the country, while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we here insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, is proved to be free from opium, or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusive agents, which afford vapors freely at a moderate temperature. None of the substances presented officinally used in alleviating pulmonary diseases, but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,

A. A. HAYES, M. D., State Assayer.
16 Boylston St., Boston, Dec. 1857.

In the Boston Transcript of December 11, 1858 the editor says:—

"We have seen a letter from an eminent physician of this city, in which he says:—I have used *Fousel's Pabulum Vitæ* in several cases of Bronchial disease, and in some with great benefit. I know of no remedy equal to it for children, where a diuretic dose is essential; or for adults of irritable stomachs, or having a tendency to reject other medicines given for coughs, etc. I shall continue to use it in my practice."

Testimonial from the Sisters of Charity, of the St. Vincent's Orphan Asylum, in Boston.

BOSTON, July 31, 1858.

To Mr. F. LAFORME, Agent:

"The Sisters are happy to state that, having used *Fousel's Pabulum Vitæ*, they have found it efficacious in several instances, for bad coughs and colds. Signed by the SISTERS OF CHARITY."

Testimonial from a well-known Apothecary's Clerk.

BOSTON, March 10, 1858.

J. F. LAFORME, Esq.:

Dear Sir—I had been suffering for a considerable length of time from a severe cough, and in vain had recourse to nearly all the remedies in use. My cough began to give me much uneasiness from its serious effects on my system, and three days' use of *Fousel's Pabulum Vitæ* restored me to complete health. The medicine being new in this market, I had recourse to it last; but I now confidently recommend it as the best medicine I know of.

Yours, truly,

CHAS. H. FOSTER.

At Fred Brown's, Washington, corner State.

In the Boston Post, Sept. 24, 1858, the editor says:—

"An extraordinary cure of Consumption has recently come to our knowledge, effected through the instrumentality of *Fousel's Pabulum Vitæ*. The evidence of which is in the handwriting of the subject, Mr. Wm. F. Brigham, No. 130 Albany st., in this city. It seems that for eighteen months he had been exhibiting all the usual symptoms of Consumption, and that after having had recourse to the skill of various physicians, without benefit, he had to abandon the business and be confined to his house. Hearing of *Fousel's Pabulum Vitæ*, and of several remarkable cures effected by it in cases as desperate as his own, he concluded to try it as a forlorn hope. The result has been so happy—he has now entirely recovered, and is engaged in his usual pursuits. It is such well authenticated cases as this that we take pleasure in giving before our readers, since, by so doing, many valuable lives may be saved, and much good effected.

It is sold at the low price of 50 cents, and $1 per bottle, thus placing it within the reach of all classes. F. J. LAFORME, sole Agent, Boston. M. S. BURR & CO., General Agents, No. 20 Hanover street, Museum Building, Boston, and for sale by all druggists. Circulars with testimonials of its efficacy can be had of the Agents. nov7

The Mirror says he has determined to take up his residence at Concord, and has bought fifteen acres of land on the Joseph Stickney place, on the road to Hopkinton, a little beyond the Insane Hospital, on which he will build, next season.

THE GOVERNOR'S HORSE GUARDS.—The first meeting of this corporation was held on Thursday evening. The meeting was organized by the choice of Col. John H. George as Chairman, and A. H. Bellows, Esq., as Secretary. The Council Chamber was filled to its utmost capacity with gentlemen from all sections of the State, and much interest was manifested in the objects of the organization. Committees were appointed to report at the adjourned meeting of Dec. 8, upon various matters connected with the organization.

About fifty of the "solid men" of the State enrolled themselves as members of the quadron, and the absolute certainty of the success of the enterprise, could hardly be doubted by any individual in attendance upon this preliminary meeting. We shall give a report of the proceedings on Monday.

☞ The Newburyport Herald says:—

Hon. Charles Hale, present speaker of the House, was elected again on Tuesday, in Boston, by two majority over Hon. George Lunt, democrat.

We suppose Mr. Lunt was to represent the Courier party.

The Herald also says:—

It would not seem from the returns before us, that the democrats had made much capital from the Harper's Ferry insurrection. The free States are more and more settling down in a positive and fixed Republican condition.

☞ A good deal of excitement is said to exist in Harrison and Bourbon counties, Ky., caused by the receipt of anonymous letters at Cynthiana, affirming the existence of an organization, similar to that which caused the recent outbreak at Harper's Ferry, and cautioning the owners of slave property to be on their guard. A vigilance committee was at once appointed, and precautionary measures taken.

☞ A Wisconsin paper says that two young ladies, Miss Haskell and Miss Pool, when walking in the vicinity of Fancy Creek, Richland county, were pursued by two bears, one of which struck Miss Pool with his paw, tearing her badly and causing death in a few hours. Miss Haskell escaped with a few scratches.

☞ Rev. E. N. Hidden was installed pastor of Congregational Church in Candia, on Wednesday, the 2d inst., and Mr. J. Fitts of the same church was ordained an evangelist.

☞ The underground railroad brought twenty-six negroes to Detroit last Friday. The conductor was a Kansas man who was despoiled in the troubles in that Territory.

☞ In the "Tombs" (N. Y.) Police Court, a few days since, a "skinner" lawyer was impudent to the clerk, who gave him a severe mauling. The Judge looked on approvingly, and when the fight was concluded, complimented the clerk for his science.

☞ On Sunday night, the office of Trinity Church corporation, New York, was entered by burglars, who stole $300, and plate worth upward of $800, the communion service of St. Paul's Church.

☞ A house and barn belonging to Miss Polly Eaton, in Contoonock, N. H., was burned on Monday evening.

☞ Mrs. Elizabeth Hamilton Holly, who died at Washington last month, was the daughter of Alexander Hamilton.

He is a first-rate collector who can, upon all occasions, collect his wits.

Every age needs the influence of every other age to keep it healthful.

Truth wants no champion who is not as ready to be struck, as to strike for her.

A man cannot avoid the companionship of his own conscience, so he had better make it his friend.

Praise, though it may be our due, is not like a bank bill, to be paid upon demand; to be valued, it must be voluntary.

The News.

5 DAYS LATER FROM EUROPE.

ST. JOHN, N. F., Nov. 10.—The Canadian screw steamship Hungarian, which left Liverpool on Wednesday, the 2d inst., put in at this port this morning to land 42 persons, who were saved from the wreck of a Newfoundland vessel, from Labrador. They were rescued at great hazard.

Ship Charles Holmes, from Liverpool for Mobile, has been wrecked, and the crew all lost.

Another heavy gale has been experienced in England and on the coast, but as yet no intelligence of disasters to American vessels has been reported.

The Emperor Napoleon has written a note to the King of Sardinia, urging him to assist in carrying out the agreements entered into at Villafranca.

No further particulars of importance in regard to the wreck of the Royal Charter have transpired since the sailing of the City of Baltimore. The prospects of recovering the treasure which was on board the vessel at the time the disaster occurred are less encouraging.

In the letter from Napoleon to the King of Sardinia, France demands that the Duchess of Parma be called to Modena; that Parma shall be united to Piedmont; Tuscany be augmented in Territory and restored to the Grand Duke; and that the projected confederation and moderate reforms be carried out.

France disclaims the idea of aiding Spain in her expedition against Morocco.

The Zurich Conference had again assembled, Count Karoletze representing Austria. All treaties, it was expected, would be signed by the plenipotentiaries in a few days.

It is asserted that the European Congress will take place, with the adhesion of England.

It was expected that Spain would commence operations against Morocco about the 8th inst.

Garibaldi had arrived at Turin, for the purpose of holding an interview with the King of Sardinia. He was enthusiastically received by the people along the route.

The ship Jacob Bell, from Foo-chow-foo for New York, put into Hong Kong Aug. 31, leaky, and proceeded to Whampoa to discharge for repairs.

FROM UTAH.—Reliable advices just received at Washington from Utah, state that Judges Sinclair and Cradlebaugh are on their way to Washington. Mr. Hartnett, Secretary of the Territory, arrived in Washington on Wednesday. It appears that there continue to be frequent murders and assassinations, but no arrests, as the Mormons systematically obstruct the course of justice. The opinion prevails among all the Gentiles that the courts will be useless, unless government changes its policy. Gen. Johnson is so restricted by his instructions that he cannot move to afford the necessary protection. The continuance of the army at Camp Floyd only served to add to the prosperity of the Mormons, by means of the large sums of money spent in the Territory for supplies.

NEW YORK ELECTION.—*Albany, Nov. 10.*—We make the footings to-night on majorities for Secretary of State, based on a greater number of correct returns than have been hitherto published, but still with many counties only estimated, as follows: Leavenworth's majority, 44,722; Leavenworth ahead, 285. In our estimates we have given the Republicans liberal figures. We therefore regard the result as in great doubt. The Evening Journal still claims the election of the whole Republican ticket by a reduced majority from what it at first supposed.

We give this as we find it:—but it is not intelligible.

KANSAS ELECTION.—*Leavenworth, Nov. 10.*—The returns from the interior come in slowly. Leavenworth and Atchison counties give Democratic majorities. Douglas, Wyandotte, Shawnee and Jefferson counties are reported to have given Republican majorities. The counties yet to hear from gave large majorities for the Free State Constitution, which fact renders the election of Mr. Parrott, Republican, to Congress, probable.

TRIAL OF COOK—VERDICT GUILTY.—*Charlestown, Va., Nov. 10.*—The Court remained in session until 9 o'clock last night, when a verdict of guilty was rendered against Cook for murder and insurrection. Mr. Voorhees delivered a powerful address to the jury in favor of the Prisoner, drawing tears from the eyes of the most embittered of his auditors.

This morning a motion for a new trial was argued and overruled.

District Attorney Harding refuses to sign a *nolle prosequi* in favor of Stevens, demanding that he shall be tried in Virginia. The Court, however, has handed the prisoner over to the U. S. Marshal, paying no attention to the objection of Mr. Harding.

NEW YORK, Nov. 11.—The Grand Jury yesterday found an indictment against Benj. Wood, for vending lottery tickets, and he was subsequently held to bail to respond to the charge.

Dr. John Wilson of Reade street was arrested yesterday on a charge of attempting to take the life of his wife, by administering chloroform to her while she was asleep.

COOK AND HIS COMRADES SENTENCED TO BE HUNG.—*Charlestown, Va., Nov. 11.* The Court yesterday sentenced Cook and all the other prisoners to be hung on the 16th of December. It is supposed that Gov. Wise will respite Brown, and hang all on the same day. The Court has adjourned for the term.

BALTIMORE, Nov. 10—Evening.—It is rumored that Green, Coppie, Copeland and Cook, have all been sentenced to be hung on the same day with Capt. Brown.

GERRIT SMITH.—*Utica, Nov. 10.*—Gerrit Smith shows continued marks of insanity. No one is allowed to see him, but it is understood that he refers in his ravings to the Harper's Ferry matter, and supposes himself arrested.

ARTISTIC ATTRACTION.

GREAT PREMIUM OFFER!

ECLECTIC MAGAZINE.

Any person who will send us a new subscriber to the ECLECTIC MAGAZINE, his own name or any other, with the pay for one year in advance, shall receive by *mail*, post-paid, either of the following beautiful Parlor Companion prints. For two names and the pay, he shall receive both prints. *The plates cost twelve hundred dollars.* They are new, engraved by John Sartain, whose price was to be $5 the pair. He writes:

"I have bestowed the utmost care and pains in the execution of these engravings; and the length of time *employed* upon them renders $1200 a moderate estimate."

FILIAL AFFECTION—SUNDAY MORNING.

The point bearing this title represents a scene in front of a farmer's homestead, and in the distance, viewed through the open gate, is a church; while on the road between, are groups obviously tending thitherward. The party in the foreground are engaged in preparations for departure towards the same heaven-pointing spire; and a beautiful girl of about seventeen summers, waits, Bible in hand, by the garden gate, holding it open for the egress of the family, and smiling on the infant. The mother, still handsome, attends on the aged grandfather, adjusting with affectionate care a kerchief to protect him from the cold; while he, seated upon a donkey, supports the youngest child in front of him. Three other children are occupied, one in sport with a dog, and the older ones in receiving instruction from the farmer himself, who is seated by the doorstead. An aged oak spreads its protecting arms over them all.

HOME SCENE—RETURNED FROM MARKET.

The market-cart has returned from the town, bearing a rich freight of purchases to the delighted young people, who are receiving them with eagerness. The farmer's wife, not yet descended, has, with one hand, passed a gay new bonnet from the open handbox on her lap, to the miss in her teens, whose ecstasy of admiration is unmistakable. The other she extends, with a bright new rattle, to the youngest darling, who, with joy, seems ready to spring from the arms of its fondling grandmother. The old gentleman, seated in the piazza, is in the act of adjusting his spectacles for the immediate perusal of the fresh newspaper spread on his knee; while the small boy and his sister are diving into the mysteries of the basket of new crockery, and other delectable condiments. The farmer is seen carrying a heavy basket up the steps of the porch. In the shadow which it throws we see coming events, for there pussy stealthily moves down on a brood of chickens, so young as to be still very like eggs.

Around are all the various concomitants of a farm. The doves coo on the eaves, the turkeys and other poultry are about, and there, too, is "the iron-bound bucket that hangs by the well," while through the open house-door we see into the comfortable and well-supplied kitchen. This mansion colonnade presents a strong resemblance to Mount Vernon, with Washington sitting on the piazza, reading the paper.

This is an easy mode of obtaining two beautiful engravings worth $5, and the ECLECTIC MAGAZINE, which is confessedly the literary magazine published, and the most beautifullly embellished every month. It ought to be in every intelligent family. The September number begins a volume. Now is a good time to subscribe.

TERMS.

The ECLECTIC is issued on the first of every month. Every number contains one hundred and forty-four large octavo pages, double columns, on fine paper, neatly stitched in green covers, with one or more beautiful Steel Portraits by Sartain. The twelve numbers comprise three volumes of six hundred pages each, with titles, indexes, and embellishments. PRICE FIVE DOLLARS. The postage is only three cents a number, prepaid at the office of delivery. Specimen numbers forty-two cents, postage-stamps.

STOVES AND FURNACES.

FRANK JONES,

61 *MARKET ST., PORTSMOUTH,*

Having received a part of his Winter Stock of

SUPERIOR COOKING STOVES,

would invite the attention of those about purchasing, to the largest and best selected stock of COOKING STOVES, of the most approved patterns and valuable kinds to be found in this market; among which may be found

STORE, OFFICE & SHIP STOVES;
BOX AND CYLINDER do.
SHEET IRON STOVES, with and without ovens.

Parlor Cook Stoves.

New patterns this season—for wood or coal,—

warranted to be the best in the market, and will be sold at such prices as will convince every one that this is the place to buy cheap.

THE MAGEE FURNACES,

7 Sizes—Brick and Portable.

These Furnaces work on the same principle as the Magee Stoves. They are simple and easily operated, requiring only about half the coal of any other Furnace—will keep fire the whole season, and are not liable to get out of order.

We would invite the attention of those interested to an examination of the MAGEE FURNACE, and at the same time refer them to a number of places in this city where we have erected them the past year; and in *every* instance have given perfect satisfaction.

REPAIRING PEICES,

For most kinds of Cooking Stoves used in this market. Also,

Coal Fixtures and Fire Brick.

HARD WARE AND CASTINGS generally

TIN, SHEET IRON & COPPER WARE, manufactured to order.

☞ Prices as low as at any other establishment in this vicinity, and satisfaction guaranted in all cases.

THE MAGEE.

The Calebrated Magee Patent

Ventilating Parlor Stove.

All sizes—acknowledged by every one to be the

BEST STOVE IN THE WORLD.

The fire can be kept through the entire season without once going out, giving the greatest amount of heat from the least fuel of any other Stove known.

The heat can be regulated to the mildest as well as the coldest weather, and at the same time perfectly ventilating the apartment in which they are used. We have sold hundreds of them the past year, and have testimonials of the highest order, acknowledging their superiority over every other Stove yet introduced. To every one in search of the best Stove that can be found, we would say,

"Try the Magee."

The Liver Invigorator.

PREPERED BY DR. SANFORD,
COMPOUNDED ENTIRELY FROM GUMS.

Is one of the best PURGATIVE and LIVER MEDICINES now before the public.

These GUMS remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole system, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, what is better, prevented by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

Only one dose immediately relieves COLIC.

One dose often repeated, cures CHRONIC DIARRHŒA in its worst form, while SUMMER & BOWEL COMPLAINTS yield almost to the first dose.

A few bottles will cure DROPSY by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

MIX water in the mouth with the Invigorator, and swallow both together.

PRICE, ONE DOLLAR PER BOTTLE.

The reason why, is that by Nature's own process it restores the natural color permanently after the hair becomes gray; supplies the natural fluids, and thus makes it grow on bald heads, removes all dandruff, itching, and heat from the scalp, quiets and tones up the nerves, and thus cures all nervous headache, and may be relied upon to cure all diseases of the scalp and hair; it will stop and keep it from falling off; *makes it soft, glossy, healthy and beautiful*, and if used by the young two or three times a week it will never fall or become gray; then, reader, read the following and judge for yourselves:

NEW YORK, Jan. 8, 1858.

MESSRS. O. J. WOOD & Co.,

Gentlemen: Having heard a good deal about Professor Wood's Hair Restorative, and my hair being quite gray, I made up my mind to lay aside the prejudices which I, in common with a great many persons, had against all manner of patent medicines, and a short time ago I commenced using your article, to test it for myself.

The result has been so very satisfactory that I am very glad I did so, and in justice to you, as well as for the encouragement of others who may be as gray as I was but who having my prejudice without my reasons for setting it aside, are unwilling to give your Restorative a trial till they have further proof, and the best proof being ocular demonstration, I write you this letter, which you may show to any such, and also direct them to me for further proof, who am in and out of the N. Y. Wire Railing establishment every day.

My hair is now its natural color and much improved in appearance every way, being glossier and thicker and much more healthy looking. I am, yours respectfully, HENRY JENKINS.

Cor. Columbia and Carroll Sts., Brooklyn.

LIVINGSTON, Ala., Feb. 14, 1858.

PROF. WOOD—Dear Sir: Your Hair Restorative has done much good in this part of the country. My hair has been slightly diminishing for several years, caused, I suppose, from a slight burn when I was quite an infant. I have been using your Hair Restorative for six weeks and I find that I have a fine head of hair now growing, after having used all other remedies known, to no effect. I think it the most valuable remedy now extant, and advise all who are afflicted that way to use your remedy.

You can publish this if you think proper.

Yours, &c. S. W. MIDDLETON.

PHILADELPHIA, Sept. 9, 1857.

PROF. WOOD—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—was in fact BALD. I have used but 2 half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours, respectfully,

D. R. THOMAS, M. D.,
No. 404 Vine Street.

The Restorative is put up in bottles of three sizes, viz: large, medium, and small; the small holds half a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent. more in proportion than the small, retails for two dollars per bottle; the large holds a quart, 40 per cent. more in proportion, and retails for $3 a bottle.

AYER'S SARSAPARILLA,

A compound remedy in which we have labored to produce the most effectual alterative that can be made. It is a concentrated extract of Pars Sarsaparilla, of combined with other substances of still greater alterative power as to afford an effective antidote for the diseases Sarsaparilla is reputed to cure. It is believed that such a remedy is wanted by those who suffer from Strumous complaints, and that one which will a complish their cure must be of immense service to this large class of our afflicted fellow citizens. How completely this compound will do it, has been proven by experiment on many of the worst cases to be found in the following complaints:—

SCROFULA AND SCROFULOUS COMPLAINTS, ERUPTIONS AND ERUPTIVE DISEASES, ULCERS, PIMPLES, BLOTCHES, TUMORS, SALT RHEUM, SCALD HEAD, SYPHILIS AND SYPHILITIC AFFECTIONS, MERCURIAL DISEASE, DROPSY, NEURALGIA OR TIC DOULOUREUX, DEBILITY, DYSPEPSIA AND INDIGESTION, ERYSIPELAS, ROSE OR ST. ANTHONY'S FIRE, and indeed the whole class of complaints arising from IMPURITY OF THE BLOOD.

This compound will be found a great promoter of health, when taken in the spring, to expel the foul humors which fester in the blood at that season of the year. By the timely expulsion of them many rankling disorders are nipped in the bud.—Multitudes can, by the aid of this remedy, spare themselves from the endurance of foul eruptions and ulcerous sores, through which the system will strive to rid itself of corruptions, if not assisted to do this through the natural channels of the body by an alterative medicine. Cleanse out the vitiated blood whenever you find its impurities bursting through the skin in pimples, eruptions or sores;—cleanse it when you find it is obstructed or sluggish in the veins; cleanse it whenever it is foul, and your feelings will tell you when. Even where no particular disorder is felt, people enjoy better health, and live live longer, for cleansing the blood. Keep the blood healthy, and all will be well; but with this pabulum of life disordered, there can be no lasting health. Sooner or later something must go wrong, and the great machinery of life is disordered or overthrown.

Sarsaparilla has, and deserves much, the reputation of accomplishing these ends. But the world has been egregiously deceived by preparations of it, partly because the drug alone has not all the virtue that is claimed for it, but more because many preparations, pretending to be concentrated extracts of it' contain but little of the virtue of Sarsaparilla, or anything else.

During late years the public have been misled by large bottles, pretending to give a quart of Extract of Sarparilla for one dollar. Most of these have been frauds upon the sick, for they not only contain little, if any, Sarsaparilla, but often no curative properties whatever. Aence bitter and painful disappointment has followed the use of the various extracts of Sarsaparilla which flood the market, until the name itself is justly despised, and has become synonymous with imposition and cheat. Still we call this compound Sarsaparilla, and intend to supply such a remedy as shall rescue the name from the load of obloquy which rests upon it. And we think we have grounds for believing it has virtues which are irresistible by the ordinary run of the diseases it is intended to cure. In order to secure their complete eradication from the system, the remedy should be judiciously taken according to directions on the bottle.

Ayer's Cherry Pectoral

Has won for itself such a renown for the cure of every variety of Throat and Lung Complaint, that it is entirely unnecessary for us to recount the evidence of its virtues, wherever it has been employed. As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best it ever has been, and that it may be relied on to do for their relief all it has ever been found to do.

Ayer's Cathartic Pills.

FOR THE CURE OF

Costiveness, Jaundice, Dyspepsia, Indigestion Dysentery, Foul Stomach, Erysipelas, Headache, Piles, Rheumatism, Eruptions and Skin Diseases, Liver Complaint, Dropsy, Tetter, Tumors and Salt Rheum, Worms, Gout, Neuralgia, as a dinner Pill, and for Purifying the blood.

They are sugar-coated, so that the most sensitive can take them pleasantly, and they are the best aperient in the world for all the purposes of a family physic.

Price, 25 cents per box; five boxes for $1.

Great numbers of Clergymen, Physicians, Statesmen and eminent personages, have lent their names to certify the unparalleled usefulness of these remedies, but our space here will not permit the insertion of them. The Agent below named furnishes gratis our Ameritan Almanac, in which they are given; with also full descriptions of the above complaints, and the treatment that should be followed for their cure.

Do not be put off by unprincipled dealers with other preparations they make more profit on.—Demand Ayer's and take no other. The sick wan the best aid there is for them, and they should have it.

All our remedies are for sale by W. R. Preston, Portsmouth, and by all druggists and merchants in the civilized word. 6m—je14

PORTSMOUTH, N. H.

DR. J. B. HUGHES,

Knowing that there are at this moment thousands of persons in the surrounding towns, suffering their lives to the insiduous inroads of certain dangerous maladies, who still suffer from the reluctance to make known their complaints, and consult a physician, he would state that any of his medicines will be sent by express or otherwise, to all who may order them, provided the true description of the disease be sent by letter and directed as above.

Full and explicit directions will accompany every package, and the most inviolable secrecy preserved.

DR. HUGHES can with safety say during the last year of his practice in Boston, more than three hundred cases of disease which have been improperly treated by empyrics have come under his care, and more than three-fourths of this number are inscribed upon his books as perfect cures.

Patients treated by letter by addressing Dr. Hughes, post paid, and medicines sent all over the country, carefully concealed from scrutinizing friends.

Be particular in finding Dr. Hughes. Do not be lured from the right path, or be persuaded to try experiments with false and fictitious remedies at the expense of destroying what is the great pillar of life, a healthy constitution.

This medicine can only be obtained at the Office of Dr. HUGHES, 13 Howard street, Boston.

DR. J. B. HUGHES UNIVERSAL FEMALE RENOVATING PILLS. These pills are unrivalled in efficacy and superior virtue in regulating all female irregularities. Their action is specific and certain, producing relief in a short space of time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practiced by advertising a spurious article under some spurious or fictitious name. They are entirely useless, having been got up by miserable pretenders who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the Dr. at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country with directions. Remember the number—13 Howard street, Boston.

P. S.—The best of accommodations furnished, with kind and attentive nurses if they wish, at a reasonable rate. ja dly

Patent Asphaltic Roofing.
The Subscribers would respectfully inform the citizens of Rockingham county that they have the exclusive right for the manufacture, sale and application of this roofing, and would invite the attention of the public to some of its advantages:
1. It can be put on a leaky roof with or without cloth, without removing the old shingles, and make perfectly water, snow and air tight. Or it can be put on rough boarding, with or without cloth.
2. It will not take fire from sparks or cinders.
3. It will expand and contract with heat and cold.
4. It can be put on cheaper than any other kind of roofing.
5. We can warrant it.
THE SUBSCRIBERS ARE ALSO AGENTS FOR
BICKFORD'S SPRING BALANCE,
for Window Sashes, to take the place of weights.
It is one of the most complete and useful inventions ever introduced into the market.
It balances the Sash perfectly at any point.
It requires no expense for boxing, consequently it is much cheaper than weights.
It can be applied to old as well as new buildings, without any alteration of the frames.
It does not balance by friction, but by means of a coiled spring with a cord attached, as the cords of weights.

GRAND TEMPERANCE DEMONSTRATION BY THE WOMEN OF LONDON.—There has been a grand demonstration by the women of London in favor of the temperance movement. The meeting took place in the Welsh Chapel, Aldersgate street, and the platform was occupied exclusively by the ladies.—Mrs. Fletcher occupied the chair, and Miss Barland, a teetotaller of 23 years standing, castigated professing Christians for standing aloof from the temperance movement, seeing that 60,000 drunkards went down annually to the grave and the drunkard's hell. Mrs. Bennett gave her teetotal experience for 48 years, and said she would rather die than touch the abominable drink, which had robbed her of her husband. Mrs. Emily Squire, a fifteen years' pledged teetotaller, spoke earnestly in behalf of the movement. She said the world might call temperance reformers mad, but it was not a madness to seek to rescue the drunkard and to prevent others from falling into habits of intemperance. If it was, she would glory in such madness, and such madness would have a supernal reward. Temperance melodies were sung by some of the young ladies, and the proceedings were very interesting.

DANGER OF STRAINING THE EYES IN TWILIGHT.—In the London and Edinburgh Philosophical Magazine for May is an account of sudden loss of the power of distinguishing colors, produced by overtasking the eyes. A sea captain who was in the habit, when time hung heavy on his hands, of occupying it by working at embroidery, was one afternoon engaged on a red flower, and being anxious to finish it, prolonged his labor until twilight came on, and he found it difficult to select the suitable colors. To obtain more light he went into the companion-way, and there continued his work.—While thus taxing his eyes, his power of distinguishing colors suddenly vanished. He went upon the deck, hoping that an increase of light would restore his vision. In vain. From that time to the present, more than ten years, he has remained color blind. Mr. White Cooper, who brought this case to notice, says that, after the great Exhibition of 1851, several instances came under his notice in which the sensibility of the retina was temporarily blunted by the excitement to which it was exposed in that brilliant scene.

A POPULAR FALLACY.—A correspondent of the Hartford Times, writing from Havana, says:—

"Many young creoles and Spaniards visit the United States each year, and represent themselves as belonging to a titled family, or to be sons of wealthy planters, &c., and it seems to be a weakness of some of our Northern girls to fancy a 'furriner,' especially if he be attractive in his personal appearance, and speaks English broken into very small pieces. I know of two or three cases where young ladies of beauty and refinement have been so fascinated with these adventurers as to marry them, and on coming out to Cuba, find a mother or father-in-law of a too dark complexion to pass for even a Spaniard—in fact, a mulatto or negro. Many planters here have wives and mistresses of half or whole negro blood, and as they are by law bound to provide for the issue of such unions, there are many families who pride themselves on the respectability of their wealth and position, who have negro blood in their veins. Our Northern ladies cannot be too particular, and can, by a little observation, easily distinguish the difference between negro and Moorish complexion."

☞ In 1820, Alphonso Stewart and Wm. Bennett fought a duel with rifles, in Illinois, and Stewart was killed. Bennett fled to Arkansas, but after two years was arrested, taken back, convicted, and hung in the presence of thousands of spectators—Gov. Bond firmly refusing to grant the hard-pressed appeals for his pardon. That was the first and last duel in Illinois.

THE LIQUOR LAW.—At the present term of the Supreme Court of Massachusetts, over seventy-five cases under the Liquor Law have been argued, where parties have been convicted in the country counties. The Court has given opinions in nearly all these cases, overruling the exceptions taken, and remanding the parties back to the Superior Court for sentence. The law has been sustained with uniform decision. So says the Boston Journal.

☞ The Sons of Malta made a night procession in Boston, one night last week, and notwithstanding bad weather, astonished that city with the largeness of their numbers, the strangeness of their mystic rites, the cost and splendor of their armorial bearings, and the uniqueness of their general *tout ensemble*.

☞ The repair shop connected with the Nashua and Lowell Railroad, in Nashua, N. H., was destroyed by fire, Friday morning, about three o'clock. Seven cars were burnt. There was insurance upon the property amounting to $8400.

INSTRUCTION—EDUCATION.

Mr. Nathan Richardson, the well-known music teacher and publisher, of Boston, has recently written a new Instruction Book for the Piano. The following remarks concerning it, (which we copy from the N. Y. Musical World,) are not only correct in themselves, but worthy of application to other branches of education, wherein too much of form and ceremony—too much of "schoolmaster learning," is often introduced, to give the pupil a distaste for his studies.

Messrs. Oliver Ditson & Co., Boston, who occupy the first rank among music publishers in this country, and the musical society of America, are the publishers of "Richardson's New Method for the Piano-Forte," concerning which the Musical Word says:

The work merits, so far as a work of the kind can do, the views we have lately expressed in our columns on the study of the piano-forte, a commencement being actually made of that progressive series of works from the best masters, in the "amusements" there furnished the pupil.

The great ground of complaint which we have against voluminous instruction books, books of exercises, &c., is, that they keep the pupil too long out of sight of Art proper, in Art preliminary. So many contingent difficulties are apt to be cared for in the endless number of exercises furnished—difficulties which may possibly never be realized in one's after experience of music—that the pupil is discouraged and disheartened before he has well begun. For this reason we have often advanced the view that after due study of five-finger exercises and scales, the best thing is *music*—music, in which difficulties may actually be found to occur, and when found to be well noted, well fingered and well studied, just where they are, *in loco*, that the pupil may see that they are not merely suppositious obstacles, but such as have got to be met and mastered in positive Art; but when once mastered, proving triumphs in a really nice piece of music, which one can play ever after for pleasure, as well as for profit.

There is no drudgery in the world, we honestly think, so trying, and so insufferable as the drudgery introduced in the divine art of music. It is trying enough to the teacher; it is still more trying to the pupil; it is insufferable to the listener. Other arts may be cultivated in secret and in silence, *results* only presented. But music is audible. The fond parents are obliged to hear the five-finger exercises and the scales—the rebellious brothers and sisters have to bear them—the vociferating baby in the crib has to raise protesting yells against them. Surely, the object should be, then, to make as brief as possible the sufferings of teacher, pupil, parents, and of Young America generally.

Now, Mr. Richardson seems to have mingled those judicious sweets of 'amusement' with his pill of necessary drudgery, which are calculated to reconcile the ear, fertify the patience, and sweeten the temper of those subjected to household piano-practice. For this reason, we do not shrink from his many leaf'd book—knowing that its bulk means more pleasure than pain; more music than dissonance; more recreation than tedium.

Mr. J. H. Fosetr is agent for Ditson & Co. in this city, and will furnish this or any other of their innumerable publications.

☞ A sailor on board the U. S. sloop-of-war Brooklyn, named George Riter, was gagged and severely beaten by the corporal of the vessel, in New York habor, and died in consequence of his injuries. Deceased had been somewhat intoxicated, and unruly, and the corporal was directed to put him in irons. There was some difficulty in securing him, and a marine struck him. He was gagged by tying a stick across his mouth and dragged below, feet foremost, his head striking heavily upon the stairs as he went down. He was afterwards found to be dead.

☞ Gov. Chase of Ohio explicitly denies that he ever received any such letters as Col. Forbes says he sent him. Forbes says in one of his letters, "copies will be sent to Gov. Chase, who found money," &c. The Ohio State Journal is authorized by Gov. Chase to state that "he received no intimation from any source, or at any time, of any purpose on the part of Forbes to run off negroes, or on the part of Brown to excite insurrection among the slaves. As to his finding money, it is enough to say that in 1855–6, while the contest for freedom in Kansas against the attempts to force slavery into that Territory was undecided, Gov. Chase, in common with his fellow-citizens in Ohio and other States, contributed according to his ability in aid of the Free State cause.—For no other purpose with which Brown was connected, was any money ever 'found' or furnished by him."

☞ Sir James Clarke, the eminent London physician, has just retired from his office of personal physician in daily attendance on the Queen. He has had charge of the health of the Queen for 27 years, since her girlhood. Advanced age and ill-health are the reasons for the retirement.

☞ Prof. Sweet has been walking upon wires suspended loftily over rivers at Chepachet, R. I., and Norwich, Conn. The Norwich Bulletin says that the attention was distracted from the callacoes on the rope by the calicoes *below* it.

☞ A petition is circulating at Manchester, N. H., to Gov. Wise of Virginia, praying that Brown's execution be postponed until the assembling of the next Legislature, to allow that body an opportunity to modify the sentence.

Mr. Broadway Pinned to the Wall.

Reader, don't stop till you get to the end, or you'll lose the fun.

The following Circular has been scattered about hotels and other public places:

"INSTANTANEOUS VIEWS."

"From certain advertisements and circulars which have been recently issued, it appears that a New York house, whose efforts at Stereoscopic Photography have but very lately commenced, lay claim to the earliest publications of INSTANTANEOUS VIEWS.

Doubtless they have inadvertently fallen into this error. At the same time, justice to the LONDON STEREOSCOPIC COMPANY demands that the mistake be peremptorily corrected.

More than twelve months since, the London Company's eminent artist, MR. WILLIAMS, succeeded in taking Instantaneous Views of New York City, Harbor, River, &c.

Justly therefore is it claimed for the LONDON STEREOSCOPIC CO., and universally is it admitted by all impartial testimony, that their productions, instantaneous and otherwise, were the FIRST, and the FINEST, that have ever been offered to the public.

To confirm this statement, nothing is requisite but an actual inspection of the views in question.

504 BROADWAY, N. Y."

Now who this Mr. Broadway is who has taken up the cudgel so valiantly we do not know, but it is evident by the affix of N. Y. to his name that he means to let it be understood he is "No YANKEE."

In reply to his card, however, we would offer friend Broadway two little pills to swallow which will no doubt "peremptorily correct" the difficulty he finds in digesting *our* Instantaneous Views.

The first pill is compounded by *The Autocrat of the Breakfast Table*, a right royal medicine which goes direct to the *spot*. Read:

BOSTON, Aug. 31, 1859.

My Dear Sir:

I have received and examined the beautiful specimens of your art, you have had the kindness to send me. They are very fine, and realize the possibility of which I spoke in a marvellous way.

These Crowds caught in the very attitudes which lasted but for the space of a heart's beat are truly wonderful. They show us how impossible it is to reproduce nature except by making nature reproduce herself.

Since I wrote my note to-day I have obtained a few specimens by a London Company, *but no instantaneous views that I have seen appear to me at all equal to some of yours.*

Thanking you very sincerely for this generous token of your regard, I am,

Very truly yours,

To MR. E. ANTHONY, O. W. HOLMES.
308 Broadway, New York.

There now, dear Broadway, take its medicine like a good boy. It had sent some of its best specimens to the "Autocrat" but he did not find them "at all equal to some of ours." A nice pill—do you good—feel better in the morning.

What was that you said? The Autocrat's is only an *American* opinion? American pills perhaps don't agree with your constitution, and we will give you a nice English medicine. Open mouth wide now and swallow a little from the *Journal of the Birmingham Photographic Society*.

"We have received a letter from MR. ANTHONY of New York, containing three Stereoscopic Views of Broadway taken instantaneously. The noble street is represented thronged with carriages and foot passengers. All is life and motion. The trotting omnibus horses are caught with two feet off the ground, boys are running—men walking, riding, driving, carrying weights—ladies sweeping the dirty pavement with their long dresses, or trailing up their crinoline and displaying their pretty ankles as they trip over the crossings exactly as they do in Europe. We learn more from this Stereoscopic glimpse of Broadway than from a whole library of books of travels. In particular the picture taken in the rain *has a charming atmospheric effect*;—the eye is carried along a mile of noble houses and shops each more hazy than its neighbor, until you lose everything in an infinity of misty distance.

In reply to Mr. ANTHONY'S query about us European photographers, we can only say we know of no pictures, are two or three of Wilson's best, which could be put in comparison with those which he has sent; and we old-world stick-in-the-mud fellows must take care or the Yankees will go ahead of us."

And now, dear Broadway, we are sure all that naughty conceit will be carried out of you, and as soon as you feel well enough to walk out, call in at 308, and we will show you what *an Instantaneous Stereoscopic View is*, for we don't think you have *ever seen one*.

Your Friend,

E. ANTHONY.

That the Public may judge, each man for himself, of the merits of the respective Instantaneous Views, we have samples of both side by side at our store.

They will always find that our Instantaneous Views *taken in the rain* are better than "so called" of the London Co. taken *in the bright sunshine*.

We do not speak without evidence to show.—CALL IN AND SEE.

Catarrhal Cough.

This insidious and annoying symptom, so difficult to treat, depends on a subacute inflammation of the air-passages, which is apt to end in chronic ulceration and a form of consumption. The mucous membrane of the air-passages is peculiarly susceptible to the healing influences of the PERUVIAN SYRUP, as the testimonials of some of our first citizens show.

There is no known remedy can exceed in speediness of cure, and certainty of effect, that which has become world famous as DR. HOSTETTER'S STOMACH BITTERS. In all diseases of the stomach, which are of a morbid nature, the Bitters have effected most remarkable cures when many other remedies have failed. Hundreds of certificates have been given by those who have thoroughly tested its efficacy, all of which corroborate its efficiency, when it is administered according to the directions on each bottle.

Some of the worst cases of Dyspepsia, Diarrhea and Costiveness, have been permanently cured by the use of the Bitters.

Sold by druggists and dealers generally, everywhere.

R. R. R.

On the 1st day of September, 1853, Mr. Charles Randolph called at the R. R. R. office, and stated that for ten years he had not enjoyed a single meal. He had not, for five years, had a natural discharge from his bowels; but was obliged to resort to Injections, &c. He was pale, haggard, and thin. We ordered Radway's Regulators, one each night, and Radway's Resolvent, three times per day. On the eighth of September he called upon us.

HE WAS SO ALTERED THAT WE KNEW HIM NOT.

His appetite is good—his digestion easy—his skin moist and healthy—his step elastic and buoyant—his body vigorous, and his eye indicates a man of health and energy.

For Liver Complaint, Dyspepsia, Difficulties of the Urethra and Bladder, Radway's Regulator and Renovating Resolvent are a quick and positive cure. For all Aches and Pains, for Neuralgia and Rheumatism, for Nervous and Bilious Complaints, Radway's Ready Relief is quick and effectual. In five minutes' time after its application, the patient is free from pain.

Sold by Druggists everywhere.

THE OXYGENATED BITTERS.

Nature, in her great laboratory, has stored some remedy adapted to every disease which "flesh is heir to." But it requires the investigation and research of the philosopher to discover and apply this remedy. Such research and investigation has succeeded in discovering a remedy for that most afflictive dispensation, the

DYSPEPSIA!

With all its lesser and numerous evils; and it may be safely asserted that until the appearance of the *Oxygenated Bitters*, a case of Dyspepsia cured was a rare experience in medical practice. Now, under the influence of these Bitters the rule is to *cure*, the rare exception, failure to cure.

Read the following, which the subscriber requests us to publish for the benefit of the afflicted:

Obdurate and Inveterate Case of Dyspepsia cured by the Oxygenated Bitters.

The following from a gentleman well known in the region in which he lives ought to satisfy all those of little faith:

WATERTOWN, N. Y., July 28, 1858.

S. W. FOWLE & CO., Boston.—*Sirs*:—Nine years since I was attacked by that curse of all diseases, *Dyspepsia*, which so affected me as to cause great oppression, fullness, and bloating of the bowels, immediately after eating, accompanied with terrible pains in the stomach, often occasioning nausea, vomiting, acidity, and headache, together with general debility and suffering, altogether rendering life a burthen.

After having tried every known remedy without effect, and despairing of ever regaining my lost health, I was induced to make use of the Oxygenated Bitters, the good effects of which were immediately visible on my health and system. Before using a whole bottle I was entirely cured; and I feel a pleasure inducing all like sufferers as myself to make use of this remedy.

GROVER & BAKER'S
Celebrated Family Sewing Machines

NEW STYLES. PRICES FROM $50 TO $125.

HEMMERS, $5 EXTRA.

OVER THIRTY THOUSAND IN USE.

These Machines sew from two spools, and are chased from the store, requiring no rewinding the thread, and finishing each seam by their own operation, without recourse to the hand needle is required by other machines. On account their simplicity, durability, ease of management and adaptation to all varieties of family sewing they execute either heavy or fine work with equal facility, and without special adjustment.

THE NEW MACHINES INTRODUCED BY THE
GROVER & BAKER
SEWING MACHINE COMPANY

Are of elegant finish, and their operation is rapid and very quiet. The EASE with which they can be managed is a distinguishable feature, and the stitch is the strongest, handsomest, and most elastic of any made.

What is specially claimed for the "GROVER & BAKER" machine is—

That it makes a *stronger* and *handsomer* seam than is made by hand or by any other machine.

That it makes a more *elastic* seam, which will withstand the tests of wear, and washing and ironing, better than that made by any other machine.

That the speed at which it can be used is higher than any other, and the power required to operate it is less than that required by any other machine.

That it is nearly noiseless in its operation.

That its construction is more simple, and its liability to disarrangement less than any other.

That it can be quicker learned, more easily kept in order, got ready for use, and changed from one quality or grade of work, than any other.

Its applicability to the entire range of Family Sewing—from the finest and most delicate texture to the heavier and coarser fabrics.

That it uses thread or silk from the original *spools*—no re-winding—no shuttles or bobbins to fill.

That it finishes its work and fastens the end of every seam; each stitch is independent of its neighbor.

Is there a husband, father or brother, who will permit the drudgery of hand-sewing in his family when a GROVER & BAKER Machine will do better, more expeditiously, and cheaper than can possibly be done by hand?

TESTIMONIALS.

PORTSMOUTH, April 12, 1859.

Having tested the merits of the various popular Sewing Machines, in the manufacture of our Capes and Raglans, we unhesitatingly recommend the Grover & Baker, as far superior to the others.

ALLEN & PAINE.

PORTSMOUTH, July 16, 1859.

If you wish to purchase a machine that will work handsomely and strongly, and will not be liable to get out of repair, call on Mr. Whittemore, in Daniel street, see the operation of Grover & Baker's machine, and then place one in your family. They will never consent to part with it, after they understand its operation.

Local Items.

PEOPLE'S LYCEUM.—Hon. Hampden Cutts is to read selections from Shakespeare and other poets to-morrow evening.

The Portsmouth Cornet Band will give one of their grand Concerts, on some evening of the Course.

Rev. J. G. Adams of Worcester, will lecture.

Application has been made to Mr. Stark, to read a Poem. He will be remembered by Lyceum-goers as the author of the poetical satire, "Toddlejob 's Rich," which he read in such fine style at the Mercantile Lyceum, a couple of years ago.

And there will be one other Lecture or Concert.

Tickets for the whole, only 50 cts.

As Thanksgiving and our City Election occur in the next two weeks, the Lyceum may be omitted—concerning which due notice will be given.

☞ The great Flowage Case, Bassett *vs.* Salisbury Man'g Co., which occupied the Supreme Judicial Court all last week, was brought to a close (not a *finality* perhaps) on Saturday, by a disagreement of the jury. This suit has been in court many years, has cost the county a large sum, and the State not a very small one, and *appears* no nearer a finality now than the slavery question.

We understand the jury this time were 9 in favor of some damage, and 3 who took the ground that no damage had been sustained.

The case had better be referred to three good men. We mean better for everybody except the lawyers. It is better for their purses to let the suit go on *ad infinitum.*

☞ We are very glad to learn that Mr. Gove, whose house was burned on Monday morning, Nov. 7, had insurance (effected by his son) of $500 on the house, and $100 on furniture. Neither of these sums will cover the losses, but they will relieve a worthy man from distress.—It now seems probable that the fire was caused by a spark from a candle, and not the work of an incendiary.

DEATHS IN PORTSMOUTH.—The number of deaths in this city, in October, according to the record of the Superintendent of the City Hearse, was fifteen,—of whom eight, or more than half, were children, under 6 years of age.

Males six—aged 5 months, 4 years, 26, 32, 54, 70.

Females nine—aged 1 month, 2 months, 3 months, 1 year, 3 years, 4, 6, 52, 63.

☞ The State street M. E. Society will hold a Social Gathering at their new Chapel, on Daniel street, this Monday evening, Nov. 14th. Tickets 33 cents, to be had at S. F. Cobb's, R. K. Oxford's, and J. N. M. Hill's. Refreshments free.

EXCURSION TO BOSTON.—Josiah Perham has arranged for a grand extra train excursion party from Portsmouth and Way Stations as far as Wenham, to Boston and return, on Saturday, Nov. 19th, for the purpose of visiting the renowned Ravel Family, Boston Theatre, and also the Aquarial Gardens and other places of interest.

The Train will leave Portsmouth at half-past 7, A M; Returning, leave Boston at quarter past 6, P M. Tickets (carrying to Boston and back,) $1.50, to be had at the depots. Secure your tickets early—the train will run, rain or shine, as the Ravels perform on no afternoon but Saturday.

The surprising performances of the Ravels at Boston Theatre commence at half-past 2. Tickets at the door—balcony and first tier of boxes 50 cents, family circle 25c, amphitheatre 15 cts. Dinner can be procured at the Adams House, two doors from the Theatre.

FOUL PLAY SUSPECTED.—Some ten months ago, James Shala of Canton, aged 59 years, was fool enough to marry a girl of 17, more fool than himself. Some weeks ago he fell sick, and on the eighth day died, leaving the impression in the neighborhood that his wife had a hand in his death. On Thursday rumor had talked so loud that his remains were disenterred, and the stomach sent to Dr. Jackson of Boston, for examination.—*Newburyport Herald.*

☞ Samuel J. Varney, Esq., one of the publishers and editors of the Lowell Vox Populi, died at his residence in Lowell, on Friday, of consumption. Mr. Varney was a native of Rochester, N. H., and 46 years old. He learned the printer's trade in the office of the Dover Gazette.

☞ The ship Emily, seized on the African coast as a slaver, has arrived at New York.

CO-PARTNERSHIP DISSOLVED.
